TIME OF THE ALMANACK.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude 37° 32′ 21″ N., and in Longitude 77° 25′ 35″ W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made necessary by the recent adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change, so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of Longitude makes a difference of 4 minutes, and that in this latitude a degree of Longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east, and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes; Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

Chronological Eras, Cycles, &c.

The year 1900 comprises the latter part of the 124th and the beginning of the 125th year of American Independence, and corresponds to—

The year 6613 of the Julian Period.

The year 7408-9 of the Byzantine Era.

The year 5660-61 of the Jewish Era. The Jewish New Year, 5661, begins at sunset, September 23d, 1900.

The year 2653 since the foundation of Rome according to Varro.

The year 1318 of the Mohammedan Era, or the Era of the Hegira, begins May 1st, 1900.

The 1st day of January, 1900, is the 2,415,021st day since the commencement of the Julian Period.

The Import and the Times of the Movable Feasts.

All the "movable Feasts," except Advent, are dependent upon Easter for the time of their occurrence.

Advent embraces four weeks before Christmas; Advent Sunday, or the "first Sunday in Advent," being the Sunday nearest St. Andrew's Day, which is November 30th. Of course, as the name denotes, it has reference to the coming, or birth, of Christ.

Easter Sunday is the Sunday after the first (calendar) full moon on or after March 21st. The exact day has been fixed in advance for many years by the Church authorities. It corresponds to the old Passover of the Jews.

The Friday before Easter is *Good Friday;* the Sunday before Easter is *Palm Sunday;* and the Sunday after Easter is *Low Sunday.*

Good Friday commemorates the Crucifixion; *Palm Sunday*, the entry of Christ into Jerusalem, when the people bore palms before Him; and *Low Sunday* is a feast of lower grade.

Lent, the great feast of the Church, begins on Ash Wednesday—so called because ashes were often used as tokens of humiliation. *Ash Wednesday* is forty-six days (forty fast days, and six Sundays) before Easter.

The day before Ash Wednesday is *Shrove Tuesday*—a favorite day for shriving, or getting rid of sins; and the Sunday before Ash Wednesday is *Shrove Sunday*—sometimes called Quinquagesima (or fiftieth). The Sunday before Shrove Sunday is called *Sexagesima* (sixtieth); and the previous one *Septuagesima* (seventieth); while the Sunday after Ash Wednesday—first in Lent—is called *Quadragesima* (fortieth). These terms give, approximately, the number of days before Easter.

Passing to *Whit Sunday*—so called from the white robes of those who were baptized in numbers on that day—this was the Jewish Pentecost and is the forty-ninth day (seven weeks) after Easter.

Rogation Sunday (prayer Sunday) is two weeks before Whit Sunday; and *Ascension Day* is the Thursday after Rogation Sunday—ten days before Whit Sunday.

Lastly, *Trinity Sunday*—a feast in reference to the Trinity—is the Sunday next after Whit Sunday. Other Sundays are counted from Trinity.

Eclipses for the Year 1900.

In the year 1900 there will be three eclipses—two of the Sun and one of the Moon.

I. A total eclipse of the Sun, May 28th; visible on a path some 50 or 60 miles wide from New Orleans, northeasterly through Raleigh and Norfolk as a *total* eclipse; and visible through the rest of the United States as a *partial* eclipse.

Circumstances of the Eclipse.

Eclipse begins on the Earth May 28th, 7h 12.5m.
Total eclipse begins on the Earth 8h 14.5m.
Total eclipse ends on the Earth 11h 33.5m.
Eclipse ends on the Earth 12h 35.6m.

At Washington, D. C.

Eclipse begins about 28d 7h 37m.
Eclipse ends about 28d 10h 10m.

At Norfolk, Va.

Beginning of the eclipse, May 28th, 7h 35m 48s.
Beginning of the total eclipse, 8h 47m 21.5s.
End of the total eclipse, 8h 48m 48.1s.
End of the eclipse, 10h 9m 54.4s.

The Blackstone Guano Co. maunfactures the Celebrated Bellefonte Guano.

Duration of the eclipse, at Norfolk, 2 hours 34 minutes 6.4 seconds. Duration of *total* eclipse, 1 minute 26.6 seconds. Angle of position at the beginning 256° 21.8′, and at the end 77° 50.7′, from the N. point of the Sun towards the E.

At Raleigh, N. C., the eclipse will begin a few minutes earlier than at Norfolk, and will be total. At Richmond it will begin and end about the same time as at Norfolk, and will be nearly but not quite total.

This is remarkable as being the first total eclipse that has been visible in this section for 30 years; and no other will be visible here for 25 years to come.

II. A partial eclipse of the Moon June 12, visible here.

Circumstances of the Eclipse.

Moon enters penumbra June 12, 8h 15m.
Moon enters shadow 10h 24.4m.
Middle of the eclipse 10h 28.1m.
Moon leaves shadow 10h 31.7m.
Moon leaves penumbra 13d 12h 41.2m.

First contact with Moon's limb 176°, and the last contact 180°, E. of the N. point. Magnitude of the eclipse .001. (Moon's diameter=1.) The eclipse proper, it will be seen, will last only about three and a half minutes; and only about one thousandth part of the Moon's disc will be obscured.

III. An Annular eclipse of the Sun, November 21, invisible here.

Movements of Planets.

The planet Mercury (☿) reaches its greatest elongation east, March 8th, July 4th and October 29th, about which times it may be looked for just after sunset; and its greatest elongation west, April 21st, August 19th, and December 7th, about which times it may be looked for just before sunrise, close to the Sun.

The Blackstone Guano Co. manufactures the Celebrated Bellefonte Guano.

The planet Venus (♀) will be Evening Star to its inferior conjunction, July 8th, then Morning Star to the end of the year. Greatest brilliancy June 1st and August 14th.

The planet Mars (♂) is Evening Star until his conjunction January 15th, then Morning Star to the end of year. He is in W. quadrature, Nov. 22d.

The planet Jupiter (♃) is Morning Star to opposition, May 27th; then Evening Star to conjunction, December 14th; then Morning Star to the end of the year. He is in W. quadrature with the Sun, February 28th and in E. quadrature August 25th.

The planet Saturn (♄) is Morning Star to opposition, June 23rd; then Evening Star to conjunction, December 29th; then Morning Star to the end of the year. He is in W. quadrature March 25th, and in E. quadrature Sept. 21st.

The Earth (⊕) is in Perihelion January 2nd, and in Aphelion July 2nd.

Table for Foretelling the Weather Throughout Each Year.

This Table and the accompanying remarks are the result of many years' actual observation, the whole being constructed on a due consideration of the attraction of the Sun and Moon, in their several positions respecting the Earth, and will, by simple inspection, show the observer what kind of weather will most probably follow the entrance of the Moon into any of its quarters, and that so near the truth as to be seldom or never found to fail:

If the New Moon, First Quarter, Full Moon or Last Quarter, Happens—	In Summer.	In Winter.
Between midnight and 2 o'clock...	Fair.....	Frost unless wind S. W.
" 2 and 4 morning.....	Cold and showers...	Snow and stormy.
" 4 and 6 "	Rain.....	Rain.
" 6 and 8 "	Wind and rain	Stormy.
" 8 and 10 "	Changeable.....	Cold rain if wind W., — snow if E.
" 10 and 12 "	Frequent showers...	Cold and high wind.
" 12 and 2 afternoon	Very rainy	Snow or rain.
" 2 and 4 "	Changeable.....	Fair and mild.
" 4 and 6 "	Fair	Fair.
" 6 and 8 "	Fair if wind N. E...	Fair and frosty if wind N., or N. E.
" 8 and 10 "	Rainy if S. or S. W..	Rain or snow if S., or S. W.
" 10 and midnight.....	Fair	Fair and frosty.

OBSERVATIONS.

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.
2. The space for this calculation occupies from ten at night till two next morning.
3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.
4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.
5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.
6. Though the weather, from a variety of irregular causes, is more uncertain in the latter part of Autumn, the whole of Winter, and the beginning of Spring, yet in the main the above observations will apply to those periods also.
7. To prognosticate correctly, especially in those cases where the *wind* is concerned, the observer should be within sight of a good *vane*, where the four cardinal points of the heavens are correctly placed.

The Blackstone Guano Co. manufactures the Celebrated Bellefonte Guano.

A **Julian Year** is 365¼ days. A **Gregorian Year** is 365¼ days. Every fourth year is **Bissextile** or **Leap Year,** and is 366 days. The error of the Gregorian computation amounts to one day in 3846 years.

The **Solar Day** is measured by the rotation of the earth upon its axis, and is of different lengths, owing to the ellipticity of the earth's orbit and other causes; but a mean solar day, recorded by the time-piece, is twenty-four hours long. An **Astronomical Day** commences at noon, and is counted from the first to the twenty-fourth hour. A **Civil Day** commences at Midnight and is counted from the first to the twelfth hour, when it is counted again from the first to the twelfth hour. A **Nautical Day** is counted as a civil day, but commences like an astronomical day, from noon.

A **Solar Year,** which is the time occupied by the sun in passing from one vernal equinox to another, consists of nearly 365¼ solar days, or 365 days, 5 hours, 48 minutes and 49.7 seconds.

Standard Time.—Primarily, for the convenience of the railroads, a standard of time was established by mutual agreement in 1883, by which trains are run and local time regulated. According to this system, the United States, extending from 65° to 125° west longitude, is divided into four time sections, each of 15° of longitude, exactly equivalent to one hour. The first (eastern) section includes all territory between the Atlantic coast and an irregular line drawn from Detroit to Charleston, S. C., the latter being its most Southern point. The second (central) section includes all the territory between the last-named line and an irregular line from Bismarck, N. D., to the mouth of the Rio Grande. The third (mountain) section includes all territory between the last-named line and nearly the western borders of Idaho, Utah and Arizona. The fourth (Pacific) section covers the rest of the country to the Pacific coast. Standard time is uniform inside each of these sections, and the time of each section differs from the next to it by exactly one hour.

On shipboard the crew is mustered in two divisions: the Starboard (right side, looking toward the head), and the Port (left). The day commences at noon, and is thus divided: Afternoon Watch, noon to 4 P. M.; First Dog Watch, 4 P. M. to 6 P. M.; Second Dog Watch, 6 P. M. to 8. P. M.; First Watch, 8 P. M. to Midnight; Middle Watch, 12 A. M. to 4 A. M.; Morning Watch, 4 A. M. to 8 A. M.; Forenoon Watch, 8 A. M. to noon. This makes Seven Watches, which enables the crew to keep them alternately, as the Watch which comes on duty at noon one day has the afternoon next day, and the men who have only four hours' rest one night have eight hours the next. This is the reason for having Dog Watches, which are made by dividing the hours between 4 P. M. and 8 P. M. into two Watches. Time is kept by means of "Bells," that is striking the ship's bell, which is usually in front of the pilot house, as many times as the hour is indicated by the "bells."

WEATHER SIGNALS.

The flags adopted for weather signals by the bureau, are five, and of the form and color indicated below:

No. 1. White Flag.	No. 2. Blue Flag.	No. 3. White and Blue Flag.	No. 4. Black Triangular Flag.	No. 5. White Flag with black square in centre.
				
Clear or fair.	Rain or snow.	Local Rains.	Temperature.	Cold Wave.

No. 1, white flag, indicates clear or fair weather. No. 2, blue flag, indicates rain or snow. No. 3, white and blue flag (parelled bars of white and blue), indicates that local rains or showers will occur, and that the rainfall will not be general. No. 4, black triangular flag, refers to temperature; when placed above Nos. 1, 2 or 3 it indicates warmer weather; when placed below Nos. 1, 2 or 3 it indicates colder weather; when not displayed, the indications are that the temperature will remain stationary, or that the change in the temperature will not vary more than 6° from the temperature of the same hour of the preceding day, from June to September, inclusive, and not more than 10° from December to March, inclusive, and not more than 8° for the remaining months of the year. No. 5, white flag with black square in centre, indicates the approach of a *sudden* and *decided* fall in temperature, and is usually ordered at least twenty-four hours in advance of the cold wave. When No. 5 in displayed No. 4 is always omitted.

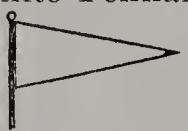

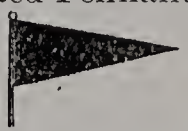

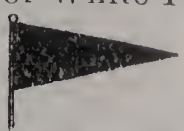

When displayed on poles, the signals should be arranged to read downward; when displayed from horizontal supports, a small streamer should be attached to indicate the point from which the signals are to be read.

Interpretation of Displays.

No. 1, alone, indicates fair weather, stationary temperature.
No. 2, alone, indicates rain or snow, stationary temperature.
No. 3, alone, indicates local rain or snow, stationary temperature.
No. 1, with No. 4 above it, indicates fair weather, warmer.
No. 1, with No. 4 below it, indicates fair weather. colder.
No. 2, with No. 4 above it, indicates warmer weather, rain or snow.
No. 2, with No. 4 below it, indicates colder weather, rain or snow.
No. 3, with No. 4 above it, indicates warmer weather with local rains or snow.
No. 3, with No. 4 below it, indicates colder weather with local rains or snow.
No. 5, indicates cold wave.

Storm and Wind Signals.

The flags adopted by the Weather Bureau to indicate storms and the direction of the wind, are four in number, as follows:

Red, Black Centre.	White Pennant.	Red Pennant.	Red or White Pen't.
			
Storm.	Westerly Winds. When displayed in connection with storm signal.	Easterly Winds. When displayed in connection with storm signal.	nformation Signal. When displayed alone.

A red flag with a black centre indicates that a storm of marked violence is expected.

The pennants displayed with the flags indicate the direction of the wind; red, easterly (from the northeast to *south*); white, westerly (from southwest to north.) The pennant *above* the flag indicates that the wind is expected to blow from the northerly quadrant; *below*, from the southerly quadrant.

A healthy milch cow in full flow of milk will drink and requires from 65 to 100 pounds per diem. It is utterly impossible to get one to take one-half or even one-quarter of ice water, nor will they drink the ice water or cold water with any regularity.

This Crop of Tobacco was grown with Bellefonte Guano, Manufactured by the Blackstone Guano Company.

JANUARY.—This is the month for making plans for the year's operations. Very little work can be done in the garden, beyond securing a supply of seeds and manure and preparing compost heaps and hot-beds for next month, getting poles, brush, and sticks for beans, peas, and tomatoes. Clean up the garden.

FARMERS should use fertilizers made in RICHMOND by S. W. TRAVERS & CO. (Branch.) Use "NATIONAL" for TOBACCO. "CHAMPION" Corn Grower for CORN. ORCHILLA for CLOVER and "B. B. B." for ANY CROP. They are strictly reliable. See advertisement on page 95.

THE LAW IN VIRGINIA IN REGARD TO WILLS.

Who may execute a will? A valid will may be made by any person of sound mind and lawful age (twenty-one years), except that minors eighteen years of age and upwards, may, by will, dispose of personal estate. A married woman cannot make a will except for the disposition of her separate estate (either statutory or equitable) or in exercise of a power of appointment.

How is a will made? No will shall be valid unless it be in writing and signed by the testator, or by some other person in his presence and by his direction, in such manner as to make it manifest that the name is intended as a signature; and, moreover, unless it be wholly written by the testator, the signature shall be made or the will acknowledged by him in the presence of at least two competent witnesses, present at the same time, and such witnesses shall subscribe the will in the presence of the testator.

What are the widow's rights as to dower and jointure? Sec. 2267. A widow shall be endowed of one-third of all the real estate whereof her husband, or any other to his use, was, at any time during the coverture, seized of an estate of inheritance, unless her right to such dower shall have been lawfully barred or relinquished.

Sec. 2268. When a husband, or any other to his use, shall have been entitled to a right of entry or action in any land, and his widow would be entitled to dower out of the same, if the husband or such other had recovered possession thereof, she shall be entitled to such dower, although there shall have been no recovery of possession.

Sec. 2269. Where land is *bona fide* sold in the lifetime of a husband, to satisfy a lien or encumbrance thereon, created by deed in which the wife has united, or created before the marriage, or otherwise paramount to the wife, she shall have no right to be endowed in the said land. But if a surplus of the proceeds of sale remain after satisfying the said lien or encumbrance, she shall be entitled to dower in said surplus, and a court of equity having jurisdiction of the case may make such order as may seem to it proper to secure her right.

Sec. 2270. If any estate, real or personal, intended to be in lieu of dower, shall be conveyed or devised for the jointure of the wife, such conveyance or devise shall bar her dower of the real estate, or the residue thereof, and every such provision, by deed or will, shall be taken to be intended in lieu of dower, unless the contrary intention plainly appear in such deed or will, or in some other writing signed by the party making the provision.

When and how may widow waive jointure and demand dower in real estate? Sec. 2271. But if such conveyance or devise were before the marriage, without the assent in writing or during the infancy of the *feme*, or if it were after marriage, in either case, the widow may, at her election, waive such jointure and demand her dower. Such election shall be made within one year after the death of her husband, or within one year after the admission of his will to probate where the provision is by will, and shall be made in any court of record in the county or corporation in which the husband resided at the time of his death, or in the clerk's office of which the instrument creating the jointure is recorded, or by writing recorded in such court, or in the clerk's office thereof, upon such acknowledgment of proof as would authorize a writing to be admitted to record under chapter 111; and when she shall elect and receive her dower, the estate so conveyed or devised to her shall cease and determine.

What interest has the widow in the personal estate of her husband if he dies intestate? If the intestate leave a widow and issue by her, the widow shall be entitled to one-third of the surplus of the personal estate, after the payment of funeral expenses, charges of administration, and debts. Or, if the intestate leave a widow, but no issue by her, the widow shall be entitled absolutely to such of the personal property in the said surplus as shall have been acquired by the intestate in virtue of his marriage with her prior to the fourth day of April, 1877, and remains in kind at his death; she shall also be entitled to one-half of the residue of such surplus if the intestate husband leave no issue by a former marriage, but to one-third only of such residue if he leave such issue.

When and how widow may renounce benefit of will as to personalty? Sec. 2559. When any provision for a wife is made in her husband's will, he may, within one year from the time of the admission of the will to probate,

The Blackstone Guano Co. manufactures the Celebrated Bellefonte Guano.

renounce such provision. Such renunciation shall be made either in person before the court in which the will is recorded, or by a writing recorded in such court, or the clerk's office thereof, upon such acknowledgment or proof as would authorize a writing to be admitted to record under chapter 111. If such renunciation be made, or if no provision for her be made in the will, she shall have such share of her husband's personal estate as she would have had if he had died intestate; otherwise, she shall have no more thereof than is given her by the will.

What interest has the husband in the personal estate of the wife if she dies intestate? If *she* dies intestate, her husband shall be entitled to the whole of the surplus of the personal estate.

How is a will revoked by operation of law? SEC. 2517. Every will made by a man or woman shall be revoked by his or her marriage, except a will made in exercise of a power of appointment, when the estate thereby appointed would not, in default of such appointment, pass to his or her heir, personal representative, or next of kin.

What is the law as to pretermitted children? SEC. 2527. If any person die leaving a child, or his wife with child which shall be born alive, and leaving a will made when such person had no child living, wherein any child he might have is not provided for or mentioned, such will, except so far as it provides for the payment of the debts of the testator, shall be construed as if the devises and bequests therein had been limited to take effect, in the event that the child shall die under the age of twenty-one years, unmarried, and without issue.

SEC. 2528. If a will be made when a testator has a child living, and a child be born afterwards, such after-born child, or any descendant of his, if not provided for by any settlement, and neither provided for nor expressly excluded by the will, but only pretermitted, shall succeed to such portion of the testator's estate as he would have been entitled to if the testator had died intestate; towards raising which portion the devisees and legatees shall, out of what is devised and bequeathed to them, contribute ratably, either in kind or in money, as a court of equity, in the particular case, may deem most proper. But if any such after-born child, or descendant, die under the age of 21 years, unmarried, and without issue, his portion of the estate, or so much thereof as may remain unexpended in his support and education, shall revert to the person to whom it was given by the will.

What is a Codicil? A codicil is a little will; that is, it is a testamentary disposition, generally not revoking the former will, but varying it in some way or making changes in it or additions to it. It must be executed as a will.

FORM OF WILL AND CODICIL.

I, ———, of (*place and occupation*), make this my last will. I give, devise, bequeath my estate and property, real and personal, as follows, that is to say:

Then follow all the provisions and disposition of property which the testator intends, stated fully, plainly, and as accurately as possible. Then follows, first, the appointment of an executor, and then the execution, and finally the declaration of the witnesses, thus:

I appoint ————————, at ————————, executor of this my will.

In witness whereof, I have signed this instrument as my will, at (*place*); on (*date*).

(*Signature.*)

The foregoing will was this day signed by the said ———, and acknowledged by him as his last will, in the presence of us, the undersigned-subscribing witnesses, both of us being present at the same time, and each of us, at the request of the said ———, and in his presence, subscribed the said will as subscribing witnesses thereto.

Witness our hands, this ——— day of ———, ——.

(*Here follow the names of two competent witnesses.*)

A codicil should be written thus:

I, ———, of (*place and occupation*), do make this my codicil, hereby confirming my last will made on the (*date of the will*), and all my former codicils (*if there be any*), so far as this codicil is consistent therewith; and do hereby—

Then follows whatever disposition the testator chooses to make, stating and describing it as he would if it were a will, and executing it, and having it attested in

the same manner as if it were a will, excepting that, instead of calling it a will, wherever that word occurs, he says "codicil" instead of "will."

Course of descent of real estate in the State of Virginia, where there is no will. When any person having title to any real estate of inheritance shall die intestate as to such estate, it shall descend and pass in parcenary to such of his kindred, male and female, as are not alien enemies, in the following course:

First. To his children and their descendants;

Second. If there be no child, nor the descendant of any child, then to his father;

Third. If there be no father, then to the mother, brothers and sisters, and their descendants;

Fourth. If there be no mother, nor brother, nor sister, nor any descendant of either, then one moiety shall go to the paternal, the other to the maternal kindred, in the following course:

Fifth. First to the grandfather;

Sixth. If none, then to the grandmother, uncles, and aunts, on the same side, and their descendants;

Seventh. If none such, then to the great grandfathers, or great grandfather, if there be but one;

Eighth. If none, then to the great grandmothers, or great grandmother, if there be but one, and the brothers and sisters of the grandfathers and grandmothers and their descendants;

Ninth. And so on, in other cases, without end, passing to the nearest lineal male ancestors, and for want of them, to the nearest lineal female ancestors, in the same degree, and the descendants of such male and female ancestors;

Tenth. If there be no father, mother, brother, or sister, nor any descendant of either, nor any paternal kindred, the whole shall go to the maternal kindred; and if there be no maternal kindred, the whole shall go to the paternal kindred. If there be neither maternal nor paternal kindred, the whole shall go to the husband or wife of the intestate; or if the husband or wife be dead, to his or her kindred, in the like course as if such husband or wife had survived the intestate and died entitled to the estate.

Diseased Fruit Trees.

It is unlawful in Virginia, to own, keep or sell any peach, almond, apricot, or nectarine tree, or the fruit thereof, known to be infected with the communicable disease commonly designated as the "yellows," and both trees and fruit are declared to be a public nuisance, and are to be destroyed. If any person, firm, association or corporation, or their agents, bring into the state, or ship or consign into this state, peach trees so infected, they are liable to a fine for each offence of fifty dollars. See page 145 of Public Acts, 1890.

LIMITATIONS OF ACTIONS IN VIRGINIA.

(CODE OF VA., § 2920.)

An action on a judgment is barred after 20 years. (Va. C. 1887, §§ 3577, 3578.)
An action on a contract under seal, ten years.
An action on a contract in writing, not under seal, five years.
An action on an oral contract, three years.
An action on an open store account, two years.

UNITED STATES POSTAGE LAWS.

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

First-Class Matter.

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment to printed matter under class three.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents. Nothing must be added or attached to a postal card, except that a printed address slip may be pasted on the address or message side. The addition of anything else subjects the card to letter postage. A card containing any offensive dun or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be constructively a part of the address and therefore permissable. Cards that have been spoiled in printing or otherwise will not be redeemed. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each. Cards must not exceed the size of 3¼ by 5½ inches or be smaller than 2 15-16x4 15-16 inches in dimensions. Their quality must be substantially that of the government postal cards and weigh about six pounds three ounces to the thousand. Their color may be white, cream, light gray, or light buff. The cards must bear on the address side, in print, the words, "Private Mailing Card—Authorized by Act of Congress of May 19, 1898." When prepared for sale they should also bear in the upper right-hand corner of the address side a diagram with the words, "Place a one-cent stamp here:" and in the lower left-hand corner the printed words, "This side is exclusively for the address."

The message on the cards may be in writing or print, and there may also appear on the message side advertisements, illustrations, or other matter, printed either in black or colors. And there must be attached to every card mailed a one-cent adhesive postage stamp. These cards cannot be mailed to foreign countries except at the letter rate of postage.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. An ordinary ten-cent stamp affixed to a letter will not entitle it to special delivery. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the postoffice. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

The Blackstone Guano Co. manufactures the Celebrated Bellefonte Guano.

Prepaid letters will be reforwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

Second-Class Matter.

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents, and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the bulletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and be bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Such Christmas, New Year's, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage-stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery ten-cent stamps are affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

Third-Class Matter.

Mail matter of the third-class includes printed books, pamphlets, engravings, circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

The Blackstone Guano Co. manufactures the Celebrated Bellefonte Guano.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery stamps are affixed in addition to the regular postage.

Upon matter of the third class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by writ'en or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

Fourth-Class Matter.

Fourth-class matter is all mailable matter not included in the three preceding classes, which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. It embraces merchandise and samples of every description, and coin or specie.

Rate of postage, one cent for each ounce or fraction thereof (except seeds, roots, bulbs, cuttings, scions, and plants, the rate on which is one cent for each two ounces or fraction thereof). This matter must be fully prepaid, or it will not be forwarded. The affixing of special delivery ten-cent stamps in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, sugar, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad oder will not be forwarded in any case.

Firearms may only be sent in detached parts

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spiritous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tightly-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is not exceeding four ounces, liquid measure.

Limit of weight of fourth-class matter (excepting liquids), four pounds.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering post master may also be written asking him to return the package if not delivered.

Registration.

All kinds of postal matter may be registered at the rate of eight cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed $10 for any one registered piece or the actual value of the piece if it is less than $10.00—shall be paid for the loss of first-class registered matter.

Domestic Money Orders.

Domestic money orders are issued by money-order postoffices for any amount up to $100, at the following rates:

For sums not exceeding $2 50, 3 cents: over $2 50 to $5, five cents; over $5 to $10, eight cents; over $10 to $20, ten cents; over $20 to $30, twelve cents; over $30 to $40, fifteen cents; over $40 to $50, eighteen cents; over $50 to $60, twenty cents; over $60 to $75, twenty-five cents; over $75 to $100, thirty cents.

Stamped Envelopes.

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz.:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.
2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.
3. All periodicals sent to subscribers within the county where printed.
4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.
5. The Vice-President, Members and Members-elect and Delegates and Delegates-elect to Congress may frank any mail matter, not over one ounce in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

Suggestions to the Public

Mail all letters, etc., as early as practicable, especially when sent in large numbers, as is frequently the case with newspapers and circulars.

All mail matter at large post-offices is necessarily handled in great haste and should therefore in all cases be so plainly addressed as to leave no room for doubt and no excuse for error on the part of postal employes. Names of States should be written in full (or their abbreviations very distinctly written) in order to prevent errors which arise from the similarity of such abbreviations as Cal., Col.; Pa., Va., Vt.; Me., Mo., Md.; Ioa., Ind.; N. H., N. M., N. Y., N. J., N. C., D. C.; Miss., Minn., Mass.; Nev., Neb.; Penn., Tenn., etc., when hastily or carelessly

written. This is especially necessary in addressing mail matter to places of which the names are borne by several postoffices in different States.

Avoid, as much as possible, using envelopes made of flimsy paper, especially where more than one sheet of paper, or any other article than paper, is enclosed. Being often handled, and even in the mail-bags subject to pressure, such envelopes not unfrequently split open, giving cause of complaint.

Never send money or any other article of value through the mail, except either by means of a money-order or in a registered letter. Any person who sends money or jewelry in an unregistered letter runs the risk of losing his property.

See that every letter or package bears the full name and postoffice address of the writer, in order to secure the return of the letter, if the person to whom it is directed cannot be found. A much larger portion of the undelivered letters could be returned if the names and addresses of the senders were always fully and plainly written or printed inside or on the envelopes. Persons who have large correspondence find it most convenient to use "special request envelopes;" but those who only mail an occasional letter can avoid much trouble by writing a request to "return if not delivered," etc., on the envelope.

When dropping a letter, newspaper, etc., into a street mailing box, or into the receptacle at a postoffice, always see that the packet falls into the box and does not stick in its passage; observe, also, particularly, whether the postage stamps remain securely in their places.

Postage stamps should be placed on the upper right-hand corner of the address side of all mail matter.

The street and number (or box number) should form a part of the address of all mail matter directed to cities. In most cities there are many persons, and even firms, bearing the same name. Before depositing any package or other article for mailing, the sender should assure himself that it is wrapped and packed in the manner prescribed by postal regulations; that it does not contain unmailable matter nor exceed the limit of size and weight as fixed by law; and that it is fully prepaid and properly addressed. The postage stamps on all mail matter are necessarily cancelled at once, and the value of those affixed to packages that are afterwards discovered to be short-paid or otherwise unmailable is therefore liable to be lost to the senders.

It is unlawful to send an ordinary letter by express or otherwise outside of the mails, unless it be inclosed in a government stamped envelope. It is also unlawful to inclose a letter in an express package, unless it pertains wholly to the contents of the package.

It is forbidden by the regulations of the Postoffice Department for postmasters to give to any person information concerning the mail matter of another, or to disclose the name of a box holder at a postoffice.

Letters addressed to persons temporarily sojourning in a city where the Free Delivery System is in operation should be marked "Transient," or "General Delivery," if not addressed to a street and number or some other designated place of delivery.

Foreign books, etc., infringing United States copyright are *undeliverable* if received in foreign mails or mailed here.

The foregoing rates, rules, and suggestions apply to postal matters in the United States.

Foreign Mails.

POSTAGE RATES AND CONDITIONS.

The rates of postage to all foreign countries and colonies (except Canada and Mexico) are as follows:

Letters per 15 grams (½ ounce)		5 cents.
Postal cards, each		2 cents.
Newspapers and other printed matter, per 2 ounces		1 cent.
Commercial papers, (such as legal and insurance papers, deeds, bills of lading, invoices, manuscript for publication, etc.)	Packets not in excess of 10 ounces	5 cents.
	Packets in excess of 10 ounces, for each 2 ounces or fraction thereof	1 cent.

The Blackstone Guano Co. manufactures the Celebrated Bellefonte Guano.

Samples of merchandise.	Packets not in excess of 4 ounces	2 cents.
	Packets in excess of 4 ounces, for each 2 ounces, or fraction thereof	1 cent.
Registration fee on letters or other articles		8 cents.

Ordinary letters for countries of the Postal Union (except Canada and Mexico) will be forwarded, whether any postage is prepaid on them or not. All other mailable matter must be prepaid at least partially. Mail matter for Hawaii, Cuba, Porto Rico and to the United States possessions in the Philippines if addressed to persons in the service of the United States should be prepaid at Domestic rates, and at Postal Union Rates if addressed to other persons.

Canada.

Letters, per ounce, prepayment compulsory	2 cents.
Postal cards, each	1 cent.
Newspapers, per 4 ounces	1 cent.
Merchandise, not exceeding 4 pounds, (samples 1c. per 2 oz.) per ounce.	1 cent.
Commercial papers, same as to other Postal Union countries.	
Registration fee	8 cents.

Any article of correspondence may be registered. Packages of merchandise are subject to the regulations of either country to prevent violations of the revenue laws; must not be closed against inspection, and must be so wrapped and enclosed as to be easily examined. Samples must not exceed 8¾ ounces in weight. No sealed packages, other than letters in their usual and ordinary form, may be sent by mail to Canada.

Mexico.

Letters, newspapers and printed matter are now carried between the United States and Mexico at same rates as in the United States. Samples are one cent for 2 ounces; limit of weight, 8¾ ounces. Merchandise, other than samples, may only be sent by Parcels Post. No sealed packages other than letters in their usual and ordinary form may be sent by mail to Mexico, nor any package over 4 pounds 6 ounces in weight.

Samples.

General limit of weight, 8¾ ounces; but by special agreement between the United States and France, Great Britain, Belgium, Switzerland, the Argentine Republic and Italy, Hawaiian Republic, Egypt and the British Colonies, except India, Canada and the Australian Colonies, The Netherlands, Austria and Hungary, packets of samples of merchandise are admissible in the mails between the two countries, up to 350 grams (12 ounces) in weight, and the following dimensions apply to all Postal Union countries: 30 centimeters (12 inches) in length, 20 centimeters (8 inches) in width, and 10 centimeters (4 inches) in depth, or if they are in the form of a roll, 12 inches in length and 6 inches in diameter. Merchandise of salable value and goods not in execution of orders, or as gifts, must be paid at full letter rate.

Parcels Post.

Unsealed packages of mailable merchandise may be sent by Parcels Post to Jamaica, (including Turk's Island), Barbadoes, the Bahamas, British Honduras, Mexico, the Hawaiian Republic (Sandwich Islands), the Leeward Islands, the Republic of Columbia, Costa Rica Salvador, British Guiana, Danish West Indies (St. Thomas, St. Croix, and St. John) and the Windward Islands (St. Lucia, St. Vincent, Grenada, and the Grenadines) and Newfoundland, Honduras (Republic of), at the following postage rate: For a parcel not exceeding one pound in weight, twelve cents; for each additional pound or fraction thereof, twelve cents. The maximum weight allowed is eleven pounds—the extreme dimension allowed for Mexico, Costa Rico and Columbia being two feet length by four feet girth, and for the other countries not more than three feet, six inches in length, nor more than six feet length and girth combined. Parcels must be wrapped so as to permit their contents to be easily examined by postmasters. Poisonous, explosive and inflammable substances are excluded. Parcels may be registered for eight cents each to any of the above places, except Barbadoes.

Rates and conditions to countries not in the Universal Postal Union are now the same as those to Universal Postal Union countries.

The Blackstone Guano Co. manufactures the Celebrated Bellefonte Guano.

General Regulations Respecting Foreign Mails.

Postage can be prepaid upon articles only by means of the postage stamps of the country *in* which the articles are mailed. Hence articles mailed in one country addressed to another country which bear postage stamps of the country to which they are addressed, are treated as if they had no postage stamps attached to them.

Unpaid letters received from the Postal Union are chargeable with 10 cents per 15 grams (½ ounce). Insufficiently prepaid correspondence of all kinds is chargeable with double the amount of the deficient postage.

Matter to be sent in the mails at less than letter rates of postage must be so wrapped that it can be readily examined at the office of delivery, as well as the mailing office, without destroying the wrapper.

Newspapers and periodicals sent in the mails to foreign countries other than those of the Postal Union should be wrapped singly. Those sent by publishers to regular subscribers in Canada and Mexico are transmissible as in domestic mails, except that packages addressed to Mexico must not exceed 4 pounds 6 ounces in weight.

The United States two-cent postal card should be used for card correspondence with foreign countries (except Canada and Mexico, to which countries the one-cent card is transmissible), but where these cards cannot be obtained, it is allowable to use for this purpose the United States one-cent postal card with a one cent United States adhesive postage stamp attached thereto.

Mail matter *of all kinds* received from any country of the Postal Union is required to be reforwarded, at the request of the addressee, from one postoffice to another, or to any foreign country embraced in the Postal Union, without additional charge for postage.

All articles prohibited from domestic mails are also excluded from circulation in the mails to and from foreign countries. Postal cards or letters addressed to go around the world will not be forwarded, being prohibited.

The act of March 3, 1883, imposes a duty of 25 per cent. *ad valorem* on all printed matter not therein otherwise provided for, without regard to mode of importation. Under said act all printed matter, *except newspapers and periodicals*, and except printed matter other than books imported in the mails for personal use, is subject to the regular duty of 25 per cent. *ad valorem*.

Foreign (International) Money Orders.

There are now in operation postal conventions for the exchange of money orders between the United States and the following countries—viz: Switzerland, Great Britain and Ireland, Germany, France, Italy, Canada and Newfoundland, Jamaica, New South Wales, Victoria, New Zealand, Queensland, the Cape Colony, the Windward Islands, the Leeward Islands, Belgium, Portugal, Tasmania, Hawaii, Sweden, Norway, Japan, Denmark, Netherlands, Dutch East Indies, the Bahamas, Trinidad and Tobago, British Guiana, Republic of Honduras, Austria, Hungary, Hong Kong, Salvador, Bermuda, Luxemburg, and South Australia.

Upon receiving an international money order from the issuing postmaster, the remitter must send it, at his own cost, to the payee, if the latter resides in Canada, Great Britain and Ireland, Queensland, Cape Colony, France and Algeria, New Zealand, New South Wales, Victoria, Tasmania, Hawaii, Jamaica, Leeward and Winward Islands and Constantinople, Bahamas, Trindad, Tobago, British Guiana, Hong Kong, Bermuda, and South Australia.

But the order should be retained by the remitter if the intended beneficiary live in any of the following named countries: Germany, Switzerland, Austria, Hungary, Italy, Belgium, Portugal, Sweden, Norway, Denmark, British India, Egypt, Japan, Hong Kong, in which case it is of no value except as evidence of deposit of the sum therein mentioned. Another and different form of order will be forwarded to the payee by the exchange office in the country of payment.

The rates of commission or fees charged for the issue of all international money orders are as follows: For sums not exceeding $10, ten cents; over $10 and not exceeding $20, twenty cents; over $20 and not exceeding $30, thirty cents; over $30 and not exceeding $40, forty cents; over $40 and not exceeding $50, fifty cents; over $50 and not exceeding $60, sixty cents; over $60 and not exceeding $70, seventy cents; over $70 and not exceeding $80, eighty cents; over $80 and not exceeding $90, ninety cents: over $90 and not exceeding $100, one dollar.

Four of the Vice-Presidents succeeded to the Presidency by the death of the Presidents, viz: John Tyler succeeded William Henry Harrison; Millard Fillmore succeeded Zachary Taylor; Andrew Johnson succeeded Abraham Lincoln, and Chester A. Arthur succeeded James A. Garfield.

THE PRESIDENTIAL SUCCESSION.

In case of the removal, death, resignation, or inability of both the President and Vice-President, the Secretary of State shall act as President until the disability of the President or Vice-President is removed or a President is elected. If there be no Secretary of State, then the Secretary of the Treasury will act; and the remainder of the order of succession is: The Secretary of War, Attorney-General. Postmaster-General, Secretary of the Navy, and Secretary of the Interior. The acting President must, upon taking office, convene congress, if not at the time in session, in extraordinary session, giving twenty days' notice. This applies only to such Cabinet officers as shall have been appointed by the Senate, and are eligible to the Presidency.

READ CAREFULLY, And Don't Miss a Word.

YOU MAY NEED THIS!

We have a few words to say to you. If you or any friend has a cancer *that has not been cut*, we can cure it and not use a knife. We are always glad to correspond with any one who has a cancer, and will send testimonials from those who have been cured. Write for them. It is a serious thing to be afflicted with a cancer, as over fifty thousand die each year in the United States alone with that dreaded disease. Just think! When 90 per cent. of the number could be cured by our treatment. If you have a cancer, don't try salves and ointments, for it will keep growing all the time; but come to us and have it taken out, and then use a few bottles of **Montgomery's Great Blood Purifier**, and it will never return. This is something you can't afford to put off, so come at once.

MONTGOMERY MEDICINE CO., Richmond, Va.

How to Can Asparagus —Cut the asparagus the length of a fruit jar, pack the jar closely, fill with cold water, add a little salt, and put the lid on loosely. Place these jars in hot water reaching to the brim, and boil for three hours, adding enough hot water to that in the jars to keep them full. Close lids tightly and set jars away to cool. Of course, the tough outer scale should be removed and the spears carefully washed prior to being placed in the jars; the butt ends should all be placed down, and there should be as little space as possible left at the top. Two hours may be long enough to boil the asparagus, but less than that would scarcely be a full substitute for the several steam baths to which it is put to in canneries.

*Geo. W. Smith was burned in the Richmond Theatre at its destruction by fire. Many others perished at the same time.

Only one of the entire list of governors was born in Richmond city; but ten died there.

Only three of the Governors from 1776 to 1894 were born out of the State—Joseph Johnson, H. H. Wells, and G. C. Walker, all natives of New York.

The Tides.

The Tides are governed by the Moon, and the calculations as to when the tide will be flood, at a given point, are made by adding certain hours and minutes to the Moon's Southing on the days for which the calculations are made. Thus on the 1st of January, 1900, the flood tide at Richmond is ascertained by adding *four* hours to the Southing of the Moon on that day, which will make the hour of flood tide about 7:20 o'clock A. M.

The further inland the head of tide-water, the greater amount of time it takes to run in, and consequently the amount of time added to the Moon's Southing depends upon the distance from the sea.

All know that there are two tides in twenty-four hours. It takes five hours to run in and seven to run out. That is from low-tide to flood is five hours, and from flood to low-tide seven.

COUNTY COURTS OF VIRGINIA.

The terms of the County Judges commenced January 1, 1898. Their terms are for six years. When a vacancy occurs in a county judgeship, the governor cannot fill the vacancy, as in the case of a circuit judge, but must designate some other county judge to hold court until the vacancy be filled by the General Assembly. The clerks of the County Courts were elected on the fourth Thursday in May, 1899, and entered upon their duties July 1, following. Their terms are for six years. In counties of less than 15,000 inhabitants, the County Court Clerk is *ex officio* clerk of the circuit court. The monthly terms of county courts are limited to fifteen days. Sheriffs were elected on fourth Thursday in May, 1899, and hold office for four years.

The law in reference to the times of meeting of the County and Corporation Courts is very defective. Sections 3045 and 3054 of the Code of 1887, allow the Judges of these Courts to change their terms at will. Why should this be? What possible good can result? The terms of Circuit Courts are fixed by law, and the County and Corporation Courts should be also. It is hoped that the General Assembly will remedy this defect. It cannot be expected that the tables published biennially with the Acts of Assembly or even annual publications can be correct under such a condition of things, or that parties having business with these courts can be correctly informed of their time of meeting.

The Quarterly Courts have been abolished. The County Courts are authorized to designate such months as may seem fit for jury terms, or, if they think proper, can have monthly. Many courts have juries at every term.

The Ancient Hour.—The early Egyptians divided the day and night each into twelve hours, a custom adopted by the Jews or Greeks probably from the Babylonians. The day is said to have first been divided into hours from B. C. 293, when a sun dial was erected in the temple of Quirinus, at Rome. Previous to the invention of water clocks, B. C. 158, the time was called at Rome by public criers. In early England one expedient for measuring time was by wax candles, three inches burning an hour. The first perfect mechanical clock was not made until about A. D. 1250. Day began at sunrise among most of the Northern nations, at sunset among the Athenians and Jews, and at midnight among the Romans, as with us.

CORPORATION COURTS IN VIRGINIA.

The Judges of the Corporation Courts are elected for the same term as County Judges. Their terms commenced January 1, 1898. Vacancies filled as in cases of Circuit Judges—commissions expire thirty days after meeting of ensuing Legislature. Clerks are elected for six years. In cities containing 30,000 inhabitants or more, a separate Clerk is elected for the Circuit Court. In Richmond City a Clerk of the Chancery Court is also elected at the same time as the Corporation Clerk. The term of office is the same. The Sergeants were elected in 1898. They hold office for two years. The Judges are authorized to omit holding Court in July and August if they see fit. The distances given in this table are from the Courthouse of the County in which the City is located, except Manchester. The law pays the mileage from the Courthouse.

DR. MOFFETT'S
INDIAN WEED
FEMALE MEDICINE

St. Louis, Mo., *Post-Dispatch*, says: Indian women are proverbially healthy and strong, often marching for days with their babies upon their backs. In fact, they frequently go the day before and after confinement with their tribes upon the march. These women acquire this great strength and power of endurance by using a weed that grows in their locality, out of which a medicine is now being made, and kept by the druggists, under the name INDIAN WEED (Female Medicine).

INDIAN WEED gives Tone to and Builds up the Prostrated Nervous and Muscular Systems and makes Regular and Healthy all the Natural Functions of the Female Organism.

TEETHINA
TEETHING POWDERS

Aids Digestion, Regulates the Bowels and Makes Teething Easy. TEETHINA Relieves the Bowel Troubles of Children of Any Age and Costs Only 25 Cents. Ask Your Druggist for it.

Rev. (now Bishop) Joseph S. Key, wrote: "We gave your TEETHINA (Teething Powders) to our little grandchild with the happiest results. The effects were almost magical and certainly more satisfactory than from anything we ever used."

Prof. Chas. P. Curd, A. M., Washington University, St. Louis, Mo., says: "We unhesitatingly attribute the recovery and continued good health of our little boy to TEETHINA. Upon these Powders he seems to fatten and thrive."

Do not fail to save your baby's life by giving Teethina (Teething Powders). It has saved the lives of thousands of children when all other remedies had failed to give relief. Sold by Owens & Minor, Wholesale Druggists, Richmond.

TIME OF THE ALMANACK.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude 37° 32′ 21″ N., and in Longitude 77° 25′ 35″ W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made necessary by the recent adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change, so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of Longitude makes a difference of 4 minutes, and that in this latitude a degree of Longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east, and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes; Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

Movements of Planets.

The planet Mercury (☿) reaches its greatest elongation east, February 19th, June 15th and October 12th, about which times it may be looked for just after sunset; and its greatest elongation west, April 4th, August 2nd, and November 20th, about which times it may be looked for just before sunrise close to the Sun.

Use Columbia High Grade Special Tobacco Guano.

The planet Venus (♀) will be Morning Star to its superior conjunction April 30th, then Evening Star to the end of the year.

The planet Mars (♂) is Morning Star until his opposition, February 22nd, then evening star to the end of year. He is in E. quadrature May 28th.

The planet Jupiter (♃) is Morning Star to opposition June 30th, then Evening Star to end of the year. He is in W. quadrature with the Sun April 1st, and in E. quadrature September 28th.

The planet Saturn (♄) is Morning Star to opposition July 5th, then Evening Star to the end of the year. He is in W. quadrature April 6th, and in E. quadrature October 3rd.

The Earth (⊕) is in Perihelion January 2nd, and in Aphelion July 1st.

Table for Foretelling the Weather Throughout Each Year.

This Table and the accompanying remarks are the result of many years' actual observation, the whole being constructed on a due consideration of the attraction of the Sun and Moon, in their several positions respecting the Earth, and will, by simple inspection, show the observer what kind of weather will most probably follow the entrance of the Moon into any of its quarters, and that so near the truth as to be seldom or never found to fail:

If the New Moon, First Quarter, Full Moon or Last Quarter, Happens—	In Summer.	In Winter.
Between midnight and 2 o'clock...	Fair.....	Frost unless wind S. W.
" 2 and 4 morning.....	Cold and showers...	Snow and stormy.
" 4 and 6 "	Rain.....	Rain.
" 6 and 8 "	Wind and rain	Stormy.
" 8 and 10 "	Changeable.....	Cold rain if wind W., snow if E.
" 10 and 12 "	Frequent showers...	Cold and high wind.
" 12 and 2 afternoon	Very rainy	Snow or rain.
" 2 and 4 "	Changeable.....	Fair and mild.
" 4 and 6 "	Fair	Fair.
" 6 and 8 "	Fair if wind N. E...	Fair and frosty if wind N., or N. E.
" 8 and 10 "	Rainy if S. or S. W..	Rain or snow if S., or S. W.
" 10 and midnight.....	Fair	Fair and frosty.

OBSERVATIONS.

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.

2. The space for this calculation occupies from ten at night till two next morning.

3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.

4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.

5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.

6. Though the weather, from a variety of irregular causes, is more uncertain in the latter part of Autumn, the whole of Winter, and the beginning of Spring, yet in the main the above observations will apply to those periods also.

7. To prognosticate correctly, especially in those cases where the *wind* is concerned, the observer should be within sight of a good *vane*, where the four cardinal points of the heavens are correctly placed.

The Import and the Times of the Movable Feasts.

All the "movable Feasts," except Advent, are dependent upon Easter for the time of their occurrence.

Advent embraces four weeks before Christmas; Advent Sunday, or the "first Sunday in Advent," being the Sunday nearest St. Andrew's Day, which is November 30th. Of course, as the name denotes, it has reference to the coming or birth of Christ.

New Year's Day.—On this day, which is the first of the Julian year, the church celebrates the octave of the nativity of the Lord, His circumcision, and the name of Jesus, which was given Him on that occasion.

Epiphany, or Old Christmas—*January 6th, three Sundays after.*—Commemorates the adoration paid our Saviour by the Wise Men of the East, and the miracle of the changing of water to wine at Cana of Galilee.

Ash Wednesday.—This is the beginning of Lent, and a day of public penance and humiliation, so called from the ceremony of blessing ashes wherewith to sign the people on the forehead, in token of the admonition "Remember, man, that dust thou art, and unto dust thou shalt return."

Palm Sunday.—Celebrated in commemoration of the triumphal entry of the Lord into Jerusalem, on which occasion the multitude cast branches of trees before Him.

Good Friday.—This is the day of Christ's crucifixion, the day on which He offered Himself a victim for the sins of all mankind. In all the Christian world this day is set apart as one of great solemnity and a day of special prayer and humiliation.

Easter Sunday—Is the Sunday after the first (calendar) full moon on or after March 21st. The exact day has been fixed in advance for many years by the church authorities. It commemorates the event of Christ's resurrection from the dead.

Low Sunday is the octave of Easter-day, and is so called from the catechumens' white garments, which they put on at their baptism and solemnly put off on this day. This is a feast of lower grade to Easter Sunday or Palm Sunday.

Rogation Days.—The Monday, Tuesday and Wednesday of Rogation week, the week which contains Ascension Day. The word is derived from the Latin *rogare*—to "implore." Rogation Sunday precedes these days.

Holy Thursday—Commemorates the Lord's last supper, and is sometimes called Maundy Thursday, from the first word of an anthem—"Mandatum."

Whit Sunday.—In the Christian churches the feast of Pentecost commemorates the descent of the Holy Ghost upon the infant church ten days after the Ascension, the gift of tongues and the conversion of 3,000 persons. Pentecost is known as Whit Sunday or Whitsuntide, from the white garments formerly worn by candidates for baptism.

Trinity Sunday.—The Sunday next after Whit Sunday. It was established as a church festival in honor of the Holy Trinity. It had long been celebrated in some of the Western dioceses of Europe, but not generally before the year 1400.

Michaelmas Day—Signifies solemnity or solemn mass in honor of Michael and all the nine order of angels. And it is called the dedication of St. Michael, from the dedicating a church to him in Rome in 606 (30th September).

St. Andrew—*30th November.*—An apostle who preached the Gospel in Thrace and Scythia; but being apprehended by Ageas the proconsul, was first imprisoned, then most cruelly beaten, and lastly fastened to a cross, whereon he lived two days, preaching to the people.

Christmas Day—*December 25th.*—Yearly celebrated, even from apostles' time, in memory of our Saviour's birth at Bethlehem,

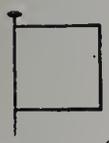

Ascension Day—Is a festival of the Christian Church, held forty days after Easter, or ten days before Whit Sunday, in memory of Christ's ascension into heaven forty days after His resurrection.

All Saints' Day—*All-Hallows, or Hallowmas.*—This feast has been celebrated since the year 834, on the 1st of November, as a general commemoration of all the saints, because as the number of saints increased it was impossible to dedicate a feast-day to each. It was first instituted about A. D. 610, and was then celebrated on the 1st of May.

WEATHER SIGNALS.

Especially corrected for this Almanack by E. A. Evans, Director United States Weather Bureau, Richmond, Va.

The flags adopted for weather signals by the bureau, are five, and of the form and color indicated below:

No. 1. White Flag.	No. 2. Blue Flag.	No. 3. White and Blue Flag.	No. 4. Black Triangular Flag.	No. 5. White Flag with black square in centre.
				
Clear or fair.	Rain or snow.	Local Rains.	Temperature.	Cold Wave.

No. 1, white flag, indicates clear or fair weather. No. 2, blue flag, indicates rain or snow. No. 3, white and blue flag (parelled bars of white and blue), indicates that local rains or showers will occur, and that the rainfall will not be general. No. 4, black triangular flag, refers to temperature; when placed above Nos. 1, 2 or 3 it indicates warmer weather; when placed below Nos. 1, 2 or 3 it indicates colder weather; when not displayed, the indications are that the temperature will remain stationary, or that the change in the temperature will not vary more than 6° from the temperature of the same hour of the preceding day, from June to September, inclusive, and not more than 10° from December to March, inclusive, and not more than 8° for the remaining months of the year. No. 5, white flag with black square in centre, indicates the approach of a *sudden* and *decided* fall in temperature, and is usually ordered at least twenty-four hours in advance of the cold wave. When No. 5 in displayed No. 4 is always omitted.

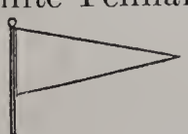

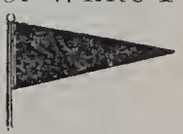

When displayed on poles, the signals should be arranged to read downward; when displayed from horizontal supports, a small streamer should be attached to indicate the point from which the signals are to be read.

Interpretation of Displays.

No. 1, alone, indicates fair weather, stationary temperature.
No. 2, alone, indicates rain or snow, stationary temperature.
No. 3, alone, indicates local rain, stationary temperature.
No. 1, with No. 4 above it, indicates fair weather, warmer.
No. 1, with No. 4 below it, indicates fair weather, colder.
No. 2, with No. 4 above it, indicates warmer weather, rain or snow.
No. 2, with No. 4 below it, indicates colder weather, rain or snow.
No. 3, with No. 4 above it, indicates warmer weather with local rains.
No. 3, with No. 4 below it, indicates colder weather with local rains.
No. 1, with No. 5 below it, indicates fair weather, cold wave.
No. 2, with No. 5 below it, indicates wet weather, cold wave.

Storm and Wind Signals.

The flags adopted by the Weather Bureau to indicate storms and the direction of the wind, are four in number, as follows:

Red, Black Centre.	White Pennant.	Red Pennant.	Red or White Pen't.
			
Storm.	Westerly Winds. When displayed in connection with storm signal.	Easterly Winds. When displayed in connection with storm signal.	Information Signal. When displayed alone.

A red flag with a black centre indicates that a storm of marked violence is expected.

The pennants displayed with the flags indicate the direction of the wind; red, easterly (from the northeast to *south*); white, westerly (from southwest to north.) The pennant *above* the flag indicates that the wind is expected to blow from the northerly quadrant; *below*, from the southerly quadrant.

A healthy milch cow in full flow of milk will drink and requires from 65 to 100 pounds per diem. It is utterly impossible to get one to take one-half or even one-quarter of ice water, nor will they drink the ice water or cold water with any regularity.

JANUARY.—This is the month for making plans for the year's operations. Very little work can be done in the garden, beyond securing a supply of seeds and manure and preparing compost heaps and hot-beds for next month, getting poles, brush, and sticks for beans, peas, and tomatoes. Clean up the garden.

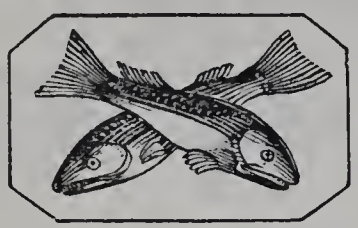

FARMERS should use fertilizers made in RICHMOND by S. W. TRAVERS & CO. (Branch.) Use "NATIONAL" for TOBACCO, "CHAMPION" Corn Grower for CORN, ORCHILLA for CLOVER and "B. B. B." for ANY CROP. They are strictly reliable. See advertisement on page 95.

Standard Time.—Primarily, for the convenience of the railroads, a standard of time was established by mutual agreement in 1883, by which trains are run and local time regulated. According to this system, the United States, extending from 65° to 125° west longitude, is divided into four time sections, each of 15° of longitude, exactly equivalent to one hour. The first (eastern) section includes all territory between the Atlantic coast and an irregular line drawn from Detroit to Charleston, S. C., the latter being its most Southern point. The second (central) section includes all the territory between the last-named line and an irregular line from Bismarck, N. D., to the mouth of the Rio Grande. The third (mountain) section includes all territory between the last-named line and nearly the western borders of Idaho, Utah, and Arizona. The fourth (Pacific) section covers the rest of the country to the Pacific coast. Standard time is uniform inside each of these sections, and the time of each section differs from the next to it by exactly one hour.

THE DOG DAYS.

The dog-days are a part of the year, about the time of the rising of the dog-star with the sun. Various dates, from July 3d to August 15th, have been assigned for the first dog-day, and various durations for the period, from thirty to fifty-four days. Pliny says the dog-days began with the rising of Procyon with the sun, which took place, he says, July 19th, N. S., and this date has been accepted. But he also says the sun was just then entering Leo, which rule, making the dog-days begin July 23d, has also been used. Hippocrates (450 B. C.) says the period was in the hottest and most unhealthy part of summer. If the season was of Babylonian origin, it would originally, probably, have been in early summer. Perhaps it is now most usually reckoned from July 3d to August 11th, inclusive. The ancients gave the name of Dog Days to that season of the year when Sirius rose with the Sun and seemed to blend its own influence with the heat of that luminary. At that remote period the Dog Days commenced on the 4th of August or four days after the Summer Solstice, and continued until the 14th day of September. At present they begin on the 3rd of July and continue until the 11th of August.

EPIPHANY or OLD CHRISTMAS.

Epiphany (or Old Christmas) falls on the 6th of January. According to the Julian Calendar introduced by Julius Caesar. The year has ordinarily 365 days, and every fourth year is a leap year of 366 days, the length of the mean year being thus assumed as 365¼ days, while in reality it is really 365 days, 5 hours, 48 minutes and 50 seconds. Thus the error in the Julian Calendar amounted to 11 minutes and 10 seconds each year. To remedy this error Pope Gregory XIII decreed that 10 days should be deducted from the year 1582, by calling what (according to the old calendar) would have been reckoned the *5th* of October the *15th* October, 1582. The Catholic nations in general at once adopted the style ordained by the Pope. The leading Protestant nation, England, did not recognize the change until 1751, by which time the error had grown to 11 days. Russia, and all the other countries which belong to the Greek confession, still adhere to the old style, which by the present time is 12 days in error. So that Old Christmas is the 6th day of January, which is 12 days later than New Christmas, December 25th. This church day also commemorates the manifestation or appearance of Christ upon the earth to the Gentiles, and with especial reference to the day on which He was seen and worshipped by the wise men who came from the East.

GROUND-HOG DAY.

Ground-Hog Day always occurs on the 2d day of February. According to ancient superstition the ground-hog comes out of his winter quarters on the above date. Should the day be fair, so that His Hogship can see his own shadow, it indicates that unfavorable weather will prevail for six weeks; but if, on coming out, he fails to spy his shadow, favorable weather is predicted for the same period.

The 21st day of June (from sunrise until sunset) is the longest day of the year. The shortest it the 21st day of December.

TWENTIETH CENTURY ODDITIES.

The twentieth century began on January 1, 1901. It opened on Tuesday and will close on Sunday. It will have the greatest number of leap-years possible—twenty-four. The year 1904 will be the first one, then every fourth year after that, to and including the year 2000. February will have five Sundays three times—in 1920, 1948 and 1976.

In 1901 Federal Memorial Day, Fourth of July and Thanksgiving Day will occur the same day in the week. Then after that the same thing will happen at the following intervals: 6, 11, 11, 6, 11, 11 years, and so on, or in 1907, 1918, 1929, 1935, and so on.

In the years 1912, 1914, 1969 and 1996 there are four holidays that will fall on the same day of the week—the three already mentioned and Washington's Birthday anniversary, as also February 29th.

Thanksgiving Day and Christmas will occur the same day in the week in 1906 and then at successive intervals of 11, 6, 11, 11, 6, 11 years, and so on; also in 1928, 1956 and 1984. March 4th will fall on Sunday in the inaugural years 1917, 1946 and 1973. The same yearly calendar that was used in 1895 can be used again in 1901.

The following are, in order beginning with 1901, the dates of Easter for the first twenty-five years of the century: April 7, March 30, April 12, 3, 23, 15. March 31, April 9, 11, March 27, April 16, 7, March 23, April 12, 4, 23, 8, March 31, April 20, 4, March 27, April 16, 1, 20 and 12. The earliest possible date on which Easter can occur is March 23. The last time it occurred on this date was in 1818, but it will not occur again until after the twentieth century. The latest Easter can occur is April 26th, and it will thus occur but once in the coming century—in 1943. The last time it occurred was April 26, 1886. Whenever Easter occurs on March 27, or April 3, 10, 17 or 24, Christmas also occurs on Sunday.

Though one of the objects aimed at by the church authorities who fixed upon the method of determining the date of Easter was to prevent its occurring on the same day as the Jewish passover, nevertheless the two events will occur together four times in the twentieth century—April 12, 1903, April 1, 1923, April 17, 1927, and April 19, 1981.

The twentieth century will contain 36,525 days, which lacks one day of being exactly 5,218 weeks. The day of the week that will not occur as often as each of the others is Monday. Fifteen of the 100 years will begin on Wednesday, and the same number on Friday. Fourteen will begin on each of the other days of the week.

The other important announcement is that it is not at all likely that the astronomical day, which now begins at noon of the civil day, will begin with the civil day at midnight. The present method of having the astronomical day begin twelve hours after the beginning of the civil day is apt to be confusing. On the other hand, to have the former begin at midnight will be to astronomers somewhat inconvenient.

As to eclipses in the coming century, there will be about 380 of them, the number of solar being to the number of lunar in about the ratio of 4 to 3.

What is a very rare occurrence in a calendar year will happen in 1935, the first time since 1823—viz., seven eclipses, the largest possible number that can happen in a year. There are eight total solar eclipses predicted to occur visible in the United States in 1918, 1923, 1945, 1979, 1984, 1994. There will also occur twelve transits of Mercury. A transit of Venus, however, which is of much more importance, will not occur within this century. The earliest date predicted is June 8, 2004.

While it is claimed that at least 1,000 comets come within visible range of the earth within a century, there is reasonable certainty of the recurrence of but one extraordinary comet in this century. That one is known as Halley's. It was last seen in 1835. It will be due again in 1940 or 1941. The exact time is not known, owing to slight modification in its orbit, due to planetary influence. Of course it is not impossible for some hitherto unobserved comet to appear in all its blazing glory at any time. No astronomer knows.

TABLES FOR GARDENERS, TRUCKERS AND FARMERS.

Estimated quantities required of the following vegetable seeds for the spaces given:

Asparagus—1 oz. produces 1,000 plants, and requires a bed 12 feet square.

Asparagus Roots—1,000 plants a bed 4 feet wide and 225 feet long.

English Dwarf Beans—1 quart plants from 100 to 150 ft. of row. French Dwarf Beans—1 qt. plants 250 to 350 ft. of row.

Beans, pole, large—1 quart plants 100 hills. Small—1 quart plants 39 hills or 250 feet of row.

Beets—10 lbs. to the acre; 1 oz. plants 150 feet of row.

Broccoli and Kale—1 oz. plants 2,500 plants, and requires 40 square feet.

Cabbage—Early sorts same as broccoli, and require 60 square feet of ground.

Canteloupe—1 oz. for 120 hills.

Cauliflower—the same as cabbage.

Carrot—1 oz. to 150 feet of row.

Celery—1 oz. gives 7,000 plants and requires 8 square feet of ground.

Cucumber—1 oz. for 150 hills.

Cress—1 oz. sows a bed 16 feet square.

Egg plant—1 oz. gives 2,000 plants.

Endive—1 oz. gives 3,000 plants, and requires 80 feet of ground.

Leek—1 oz. gives 2,000 plants, and requires 60 feet of ground.

Lettuce—1 oz. gives 7,000 plants, and requires seed bed of 120 feet.

Nasturtium—1 oz. sows 25 feet of row.

Onion—1 oz. sows 200 feet of row.

Okra—1 oz. sows 200 feet of row.

Parsley—1 oz. sows 200 feet of row.

Parsnip—1 oz. sows 250 feet of row.

Peppers—1 oz. gives 2,500 plants.

Peas—1 quart sows 120 feet of row.

Pumpkin—1 oz. to 150 hills.

Radish—1 oz. to 100 feet.

Salsify—1 oz. to 50 feet of row.

Spinach—1 oz. to 200 feet of row.

Squash—1 oz. to 75 hills.

Tomato—1 oz. gives 2,500 plants, requiring seed bed of 80 feet.

Turnip—1 oz. to 2,000 feet.

Watermelon—1 oz. to 50 hills.

The following is the estimated quantity of seed required to the acre:

Wheat	1¼ to 2	bushels.	Broom Corn	1 to 1½	bushels.
Barley	1½ to 2½	"	Potatoes	5 to 10	"
Oats	2 to 4	"	Timothy	12 to 24	quarts.

Four of the Vice-Presidents succeeded to the Presidency by the death of the Presidents, viz: John Tyler succeeded William Henry Harrison; Millard Fillmore succeeded Zachary Taylor; Andrew Johnson succeeded Abraham Lincoln, and Chester A. Arthur succeeded James A. Garfield.

THE PRESIDENTIAL SUCCESSION.

In case of the removal, death, resignation, or inability of both the President and Vice-President, the Secretary of State shall act as President until the disability of the President or Vice-President is removed or a President is elected. If there be no Secretary of State, then the Secretary of the Treasury will act; and the remainder of the order of succession is: The Secretary of War, Attorney-General, Postmaster-General, Secretary of the Navy, Secretary of the Interior, and Secretary of Agriculture. The acting President must, upon taking office, convene congress, if not at the time in session, in extraordinary session, giving twenty days' notice. This applies to Cabinet officers that have been appointed by the Senate, and are eligible to the Presidency.

How to Can Asparagus —Cut the asparagus the length of a fruit jar, pack the jar closely, fill with cold water, add a little salt, and put the lid on loosely. Place these jars in hot water reaching to the brim, and boil for three hours, adding enough hot water to that in the jars to keep them full. Close lids tightly and set jars away to cool. Of course, the tough outer scale should be removed and the spears carefully washed prior to being placed in the jars; the butt ends should all be placed down, and there should be as little space as possible left at the top. Two hours may be long enough to boil the asparagus, but less than that would scarcely be a full substitute for the several steam baths to which it is put to in canneries.

*Geo. W. Smith was burned in the Richmond Theatre at its destruction by fire. Many others perished at the same time.

Only one of the entire list of governors was born in Richmond city; but ten died there.

Only three of the Governors from 1776 to 1900 were born out of the State—Joseph Johnson, H. H. Wells, and G. C. Walker, all natives of New York.

The Tides.

The Tides are governed by the Moon, and the calculations as to when the tide will be flood, at a given point, are made by adding certain hours and minutes to the Moon's Southing on the days for which the calculations are made. Thus on the 1st of January, 1901, the flood tide at Richmond is ascertained by adding *four* hours to the Southing of the Moon on that day, which will make the hour of flood tide about 1:32 o'clock A. M.

The further inland the head of tide-water, the greater amount of time it takes to run in, and consequently the amount of time added to the Moon's Southing depends upon the distance from the sea.

All know that there are two tides in twenty-four hours. It takes five hours to run in and seven to run out. That is from low-tide to flood is five hours, and from flood to low-tide seven.

The flow or rising of the water is called flood-tide, and the reflux, ebb-tide.

CIRCUIT COURTS IN VIRGINIA.

The terms of the Judges commenced January 1, 1895, and are for eight years. They will expire January 1, 1903. Vacancies caused by resignation, death or removal are filled by the Governor—commissions expiring thirty days after meeting of the succeeding General Assembly. The Legislature then fills for unexpired term. Terms of Clerks of County Circuit Courts commenced July 1, 1893. The City Circuit Courts Clerks were elected in 1894. Term of office six years. In counties containing population less than 15,000 the County Court Clerks are *ex officio* clerks of the Circuit Courts. The terms of Commonwealth's Attorneys in counties commenced July 1, 1898, and are for four years. The computation of distances is that prescribed by law from the Courthouse by the nearest Mail Route to the seat of government at Richmond.

COUNTY COURTS OF VIRGINIA.

The terms of the County Judges commenced January 1, 1898. Their terms are for six years. When a vacancy occurs in a county judgeship, the governor cannot fill the vacancy, as in the case of a circuit judge, but must designate some other county judge to hold court until the vacancy be filled by the General Assembly. The clerks of the County Courts were elected on the fourth Thursday in May, 1899, and entered upon their duties July 1, following. Their terms are for six years. In counties of less than 15,000 inhabitants, the County Court Clerk is *ex officio* clerk of the circuit court. The monthly terms of county courts are limited to fifteen days. Sheriffs were elected on fourth Thursday in May, 1899, and hold office for four years.

The law in reference to the times of meeting of the County and Corporation Courts is very defective. Sections 3045 and 3054 of the Code of 1887, allow the Judges of these Courts to change their terms at will. Why should this be? What possible good can result? The terms of Circuit Courts are fixed by law, and the County and Corporation Courts should be also. It is hoped that the General Assembly will remedy this defect. It cannot be expected that the tables published biennially with the Acts of Assembly or even annual publications can be correct under such a condition of things, or that parties having business with these courts can be correctly informed of their time of meeting.

The Quarterly Courts have been abolished. The County Courts are authorized to designate such months as may seem fit for jury terms, or, if they think proper, can have monthly. Many courts have juries at every term.

Railway Signal Code.

Three whistles signify "back up."
Two whistles signify "off brakes."
One whistle signifies "down brakes."
Continued whistles signify "danger."
Rapid short whistles "a cattle alarm."
Beckoning motion of one hand signifies "back."
Red flag waved up the track signifies "danger."

Lantern swung in a circle signifies "back the train."
Red flag stuck up by the roadside signifies "danger ahead."
Red flag carried on a locomotive signifies "an engine following."
Lantern swung at right angles across the track is a signal to "start."
Downward motion of the hands with extended arms signifies "stop."
Lantern at night, raised and lowered vertically, is a signal to "start."
A sweeping parting of the hands on a level with eyes signifies "go ahead."

CORPORATION COURTS IN VIRGINIA.

The Judges of the Corporation Courts are elected for the same term as County Judges. Their terms commenced January 1, 1898. Vacancies filled as in cases of Circuit Judges—commissions expire thirty days after meeting of ensuing Legislature. Clerks are elected for six years. In cities containing 30,000 inhabitants or more, a separate Clerk is elected for the Circuit Court. In Richmond City a Clerk of the Chancery Court is also elected at the same time as the Corporation Clerk. The term of office is the same. The Sergeants were elected in 1900. They hold office for two years. The Judges are authorized to omit holding Court in July and August if they see fit. The distances given in this table are from the Courthouse of the County in which the City is located, except Manchester. The law pays the mileage from the Courthouse.

THE LAW IN VIRGINIA IN REGARD TO WILLS.

Who may execute a will? A valid will may be made by any person of sound mind and lawful age (twenty-one years), except that minors eighteen years of age and upwards, may, by will, dispose of personal estate. A married woman cannot make a will except for the disposition of her separate estate (either statutory or equitable) or in exercise of a power of appointment.

How is a will made? No will shall be valid unless it be in writing and signed by the testator, or by some other person in his presence and by his direction, in such manner as to make it manifest that the name is intended as a signature; and, moreover, unless it be wholly written by the testator, the signature shall be made or the will acknowledged by him in the presence of at least two competent witnesses, present at the same time, and such witnesses shall subscribe the will in the presence of the testator.

What are the widow's rights as to dower and jointure? Sec. 2267. A widow shall be endowed of one-third of all the real estate whereof her husband, or any other to his use, was, at any time during the coverture, seized of an estate of inheritance, unless her right to such dower shall have been lawfully barred or relinquished.

Sec. 2268. When a husband, or any other to his use, shall have been entitled to a right of entry or action in any land, and his widow would be entitled to dower out of the same, if the husband or such other had recovered possession thereof, she shall be entitled to such dower, although there shall have been no recovery of possession.

Sec. 2269. Where land is *bona fide* sold in the lifetime of a husband, to satisfy a lien or encumbrance thereon, created by deed in which the wife has united, or created before the marriage, or otherwise paramount to the wife, she shall have no right to be endowed in the said land. But if a surplus of the proceeds of sale remain after satisfying the said lien or encumbrance, she shall be entitled to dower in said surplus, and a court of equity having jurisdiction of the case may make such order as may seem to it proper to secure her right.

Sec. 2270. If any estate, real or personal, intended to be in lieu of dower, shall be conveyed or devised for the jointure of the wife, such conveyance or devise shall bar her dower of the real estate, or the residue thereof, and every such provision, by deed or will, shall be taken to be intended in lieu of dower, unless the contrary intention plainly appear in such deed or will, or in some other writing signed by the party making the provision.

When and how may widow waive jointure and demand dower in real estate? Sec. 2271. But if such conveyance or devise were before the marriage, without the assent in writing or during the infancy of the *feme*, or if it were after marriage, in either case, the widow may, at her election, waive such jointure and demand her dower. Such election shall be made within one year after the death of her husband, or within one year after the admission of his will to probate where the provision is by will, and shall be made in any court of record in the county or corporation in which the husband resided at the time of his death, or in the clerk's office of which the instrument creating the jointure is recorded, or by writing recorded in such court, or in the clerk's office thereof, upon such acknowledgment of proof as would authorize a writing to be admitted to record under chapter 111; and when she shall elect and receive her dower, the estate so conveyed or devised to her shall cease and determine.

What interest has the widow in the personal estate of her husband if he dies intestate? If the intestate leave a widow and issue by her, the widow shall be entitled to one-third of the surplus of the personal estate, after the payment of funeral expenses, charges of administration, and debts. Or, if the intestate leave a widow, but no issue by her, the widow shall be entitled absolutely to such of the personal property in the said surplus as shall have been acquired by the intestate in virtue of his marriage with her prior to the fourth day of April, 1877, and remains in kind at his death; she shall also be entitled to one-half of the residue of such surplus if the intestate husband leave no issue by a former marriage, but to one-third only of such residue if he leave such issue.

When and how widow may renounce benefit of will as to personalty? Sec. 2559. When any provision for a wife is made in her husband's will, he may, within one year from the time of the admission of the will to probate,

Use Columbia High Grade Special Tobacco Guano.

renounce such provision. Such renunciation shall be made either in person before the court in which the will is recorded, or by a writing recorded in such court, or the clerk's office thereof, upon such acknowledgment or proof as would authorize a writing to be admitted to record under chapter 111. If such renunciation be made, or if no provision for her be made in the will, she shall have such share of her husband's personal estate as she would have had if he had died intestate; otherwise, she shall have no more thereof than is given her by the will.

What interest has the husband in the personal estate of the wife if she dies intestate? If *she* dies intestate, her husband shall be entitled to the whole of the surplus of the personal estate.

How is a will revoked by operation of law? SEC. 2517. Every will made by a man or woman shall be revoked by his or her marriage, except a will made in exercise of a power of appointment, when the estate thereby appointed would not, in default of such appointment, pass to his or her heir, personal representative, or next of kin.

What is the law as to pretermitted children? SEC. 2527. If any person die leaving a child, or his wife with child which shall be born alive, and leaving a will made when such person had no child living, wherein any child he might have is not provided for or mentioned, such will, except so far as it provides for the payment of the debts of the testator, shall be construed as if the devises and bequests therein had been limited to take effect, in the event that the child shall die under the age of twenty-one years, unmarried, and without issue.

SEC. 2528. If a will be made when a testator has a child living, and a child be born afterwards, such after-born child, or any descendant of his, if not provided for by any settlement, and neither provided for nor expressly excluded by the will, but only pretermitted, shall succeed to such portion of the testator's estate as he would have been entitled to if the testator had died intestate; towards raising which portion the devisees and legatees shall, out of what is devised and bequeathed to them, contribute ratably, either in kind or in money, as a court of equity, in the particular case, may deem most proper. But if any such after-born child, or descendant, die under the age of 21 years, unmarried, and without issue, his portion of the estate, or so much thereof as may remain unexpended in his support and education, shall revert to the person to whom it was given by the will.

What is a Codicil? A codicil is a little will; that is, it is a testamentary disposition, generally not revoking the former will, but varying it in some way or making changes in it or additions to it. It must be executed as a will.

FORM OF WILL AND CODICIL.

I, ———, of (*place and occupation*), make this my last will. I give, devise, bequeath my estate and property, real and personal, as follows, that is to say:

Then follow all the provisions and disposition of property which the testator intends, stated fully, plainly, and as accurately as possible. Then follows, first, the appointment of an executor, and then the execution, and finally the declaration of the witnesses, thus:

I appoint ————, at ————, executor of this my will.

In witness whereof, I have signed this instrument as my will, at (*place*); on (*date*).

(*Signature.*)

The foregoing will was this day signed by the said ———, and acknowledged by him as his last will, in the presence of us, the undersigned-subscribing witnesses, both of us being present at the same time, and each of us, at the request of the said ———, and in his presence, subscribed the said will as subscribing witnesses thereto.

Witness our hands, this ——— day of ———, ——.

(*Here follow the names of two competent witnesses.*)

A codicil should be written thus:

I, ———, of (*place and occupation*), do make this my codicil, hereby confirming my last will made on the (*date of the will*), and all my former codicils (*if there be any*), so far as this codicil is consistent therewith; and do hereby—

Then follows whatever disposition the testator chooses to make, stating and describing it as he would if it were a will, and executing it, and having it attested in the same manner as if it were a will, excepting that, instead of calling it a will, wherever that word occurs, he says "codicil" instead of "will."

UNITED STATES POSTAGE LAWS.

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

First-Class Matter.

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment to printed matter under class three.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents. Nothing must be added or attached to a postal card, except that a printed address slip may be pasted on the address or message side. The addition of anything else subjects the card to letter postage. A card containing any offensive dun or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be constructively a part of the address and therefore permissable. Cards that have been spoiled in printing or otherwise will not be redeemed. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each. Cards must not exceed the size of 3¼ by 5½ inches or be smaller than 2 15-16x4 15-16 inches in dimensions. Their quality must be substantially that of the government postal cards and weigh about six pounds three ounces to the thousand. Their color may be white, cream, light gray, or light buff. The cards must bear on the address side, in print, the words, "Private Mailing Card—Authorized by Act of Congress of May 19, 1898." When prepared for sale they should also bear in the upper right-hand corner of the address side a diagram with the words, "Place a one-cent stamp here;" and in the lower left-hand corner the printed words, "This side is exclusively for the address."

The message on the cards may be in writing or print, and there may also appear on the message side advertisements, illustrations, or other matter, printed either in black or colors. And there must be attached to every card mailed a one-cent adhesive postage stamp. These cards cannot be mailed to foreign countries except at the letter rate of postage.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. An ordinary ten-cent stamp affixed to a letter will not entitle it to special delivery. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the postoffice. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

Hyco Tobacco Guano 3-8-3 has no equal.

Prepaid letters will be reforwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

Second-Class Matter.

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents. and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the bulletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and be bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Such Christmas, New Year's, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage-stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery ten-cent stamps are affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

Third-Class Matter.

Mail matter of the third-class includes printed books, pamphlets, engravings, circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

Use Bellefonte Guano for Tobacco.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery stamps are affixed in addition to the regular postage.

Upon matter of the third class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

Fourth-Class Matter.

Fourth-class matter is all mailable matter not included in the three preceding classes, which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. It embraces merchandise and samples of every description, and coin or specie.

Rate of postage, one cent for each ounce or fraction thereof (except seeds, roots, bulbs, cuttings, scions, and plants, the rate on which is one cent for each two ounces or fraction thereof). This matter must be fully prepaid, or it will not be forwarded. The affixing of special delivery ten-cent stamps in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, sugar, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad oder will not be forwarded in any case.

Firearms may only be sent in detached parts.

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spiritous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tightly-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids.. The limit of admissible liquids and oils is not exceeding four ounces, liquid measure.

Limit of weight of fourth-class matter (excepting liquids), four pounds.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering post master may also be written asking him to return the package if not delivered.

Hyco Tobacco Guano 3-8-3 has no equal.

Registration.

All kinds of postal matter may be registered at the rate of eight cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed $10 for any one registered piece or the actual value of the piece if it is less than $10.00—shall be paid for the loss of first-class registered matter.

Domestic Money Orders.,

Domestic money orders are issued by money-order postoffices for any amount up to $100, at the following rates:

For sums not exceeding $2 50, 3 cents: over $2.50 to $5, five cents; over $5 to $10, eight cents; over $10 to $20, ten cents; over $20 to $30, twelve cents; over $30 to $40, fifteen cents; over $40 to $50, eighteen cents; over $50 to $60, twenty cents; over $60 to $75, twenty-five cents; over $75 to $100, thirty cents.

Stamped Envelopes.

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz.:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.
2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.
3. All periodicals sent to subscribers within the county where printed.
4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.
5. The Vice-President, Members and Members-elect and Delegates and Delegates-elect to Congress may frank any mail matter, not over one ounce in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

Railroad Companies to Transport and Care for Farm Produce.

All railroad companies in Virginia are required, upon three days' notice, to provide transportation for all farm produce delivered at a depot of any company, or to have at the depot safe storage for the same, and the company is responsible for damages resulting from failure to provide such transportation or storage.

HAIR RESTORATIVE

The Best Hair Dressing Ever Known.

Not a dye, but by nourishing the roots, restores gray hair to its natural color; produces rapid and luxuriant growth; eradicates dandruff; prevents the hair from falling out; causes it to grow on thin and bald places; renders it glossy and pliable. **Highest Testimonials.**

(From Rev. Mr. CAMERON, Minister of the Pres. Church South, Mossy Creek, Tenn.)

"I have used the XANTHINE now for three years, and have induced others to try it, and have never known it to fail in accomplishing all you claim for it. It is an excellent tonic, a pleasant dressing, removing and preventing dandruff and unpleasant itching, promoting and preserving the natural growth and color of the hair, and rendering it glossy and pliable. I confidently, cheerfully and KNOWINGLY recommend it. WILLIAM CAMERON."

DARDANELLE, ARK., *August 9, 1901.*

Xanthine Company:—I have used the bottle of Xanthine purchased from you a few months ago, and find that it **DOES** what is claimed for it, which is more than can be truthfully said of any of the preparations I have used heretofore. I have never had anything to really prove satisfactory before. I am surprised that washing my hair with soap and water does not change the color, but rather softens and improves it. I have found it a most excellent preparation, and it gives me pleasure to express my high appreciation of its value. My wife has used it also with equal satisfaction. We have found it **ALL** that is claimed for it.

TIME OF THE ALMANACK.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude 37° 32′ 21″ N., and in Longitude 77° 25′ 35″ W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made necessary by the adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change, so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of Longitude makes a difference of 4 minutes, and that in this latitude a degree of Longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east, and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes; Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

Chronological Eras, Cycles, &c.

The Earth (⊕) is in Aphelion July 4th.

Table for Foretelling the Weather Throughout Each Year.

This Table and the accompanying remarks are the result of many years' actual observation, the whole being constructed on a due consideration of the attraction of the Sun and Moon, in their several positions respecting the Earth, and will, by simple inspection, show the observer what kind of weather will most probably follow the entrance of the Moon into any of its quarters, and that so near the truth as to be seldom or never found to fail:

If the New Moon, First Quarter, Full Moon or Last Quarter, Happens—	In Summer.	In Winter.
Between midnight and 2 o'clock...	Fair.....	Frost unless wind S. W.
" 2 and 4 morning.....	Cold and showers...	Snow and stormy.
" 4 and 6 "	Rain.....	Rain.
" 6 and 8 "	Wind and rain	Stormy.
" 8 and 10 "	Changeable.....	Cold rain if wind W., snow if E.
" 10 and 12 "	Frequent showers...	Cold and high wind.
" 12 and 2 afternoon	Very rainy	Snow or rain.
" 2 and 4 "	Changeable.....	Fair and mild.
" 4 and 6 "	Fair	Fair.
" 6 and 8 "	Fair if wind N. E...	Fair and frosty if wind N., or N. E.
" 8 and 10 "	Rainy if S. or S. W..	Rain or snow if S., or S. W.
" 10 and midnight.....	Fair	Fair and frosty.

OBSERVATIONS.

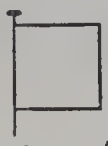

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.
2. The space for this calculation occupies from ten at night till two next morning.
3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.
4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.
5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.
6. Though the weather, from a variety of irregular causes, is more uncertain in the latter part of Autumn, the whole of Winter, and the beginning of Spring, yet in the main the above observations will apply to those periods also.
7. To prognosticate correctly, especially in those cases where the *wind* is concerned, the observer should be within sight of a good *vane*, where the four cardinal points of the heavens are correctly placed.

WEATHER SIGNALS.

Especially corrected for this Almanack by E. A. Evans, Director United States Weather Bureau, Richmond, Va.

The flags adopted for weather signals by the bureau, are five, and of the form and color indicated below:

No. 1. White Flag.	No. 2. Blue Flag.	No. 3. White and Blue Flag.	No. 4. Black Triangular Flag.	No. 5. White Flag with black square in centre.
				
Clear or fair.	Rain or snow.	Local Rains.	Temperature.	Cold Wave.

No. 1, white flag, indicates clear or fair weather. No. 2, blue flag, indicates rain or snow. No. 3, white and blue flag (parelled bars of white and blue), indicates that local rains or showers will occur, and that the rainfall will not be general. No. 4, black triangular flag, refers to temperature; when placed above Nos. 1, 2 or 3 it indicates warmer weather; when placed below Nos. 1, 2 or 3 it indicates colder weather; when not displayed, the indications are that the temperature will remain stationary, or that the change in the temperature will not vary more than 6° from the temperature of the same hour of the preceding day, from June to September, inclusive, and not more than 10° from December to March, inclusive, and not more than 8° for the remaining months of the year. No. 5, white flag with black square in centre, indicates the approach of a *sudden* and *decided* fall in temperature, and is usually ordered at least twenty-four hours in advance of the cold wave. When No. 5 in displayed No. 4 is always omitted.

When displayed on poles, the signals should be arranged to read downward; when displayed from horizontal supports, a small streamer should be attached to indicate the point from which the signals are to be read.

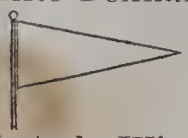

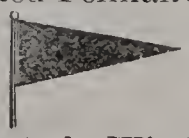

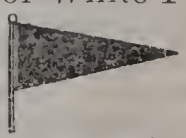

The time covered by displays is from 8 P. M. of the day hoisted to 8 P. M. of the following day.

Interpretation of Displays.

No. 1, alone, indicates fair weather, stationary temperature.
No. 2, alone, indicates rain or snow, stationary temperature.
No. 3, alone, indicates local rain, stationary temperature.
No. 1, with No. 4 above it, indicates fair weather, warmer.
No. 1, with No. 4 below it, indicates fair weather, colder.
No. 2, with No. 4 above it, indicates warmer weather, rain or snow.
No. 2, with No. 4 below it, indicates colder weather, rain or snow.
No. 3, with No. 4 above it, indicates warmer weather with local rains.
No. 3, with No. 4 below it, indicates colder weather with local rains.
No. 1, with No. 5 below it, indicates fair weather, cold wave.
No. 2, with No. 5 below it, indicates wet weather, cold wave.

Storm and Wind Signals.

The flags adopted by the Weather Bureau to indicate storms and the direction of the wind, are four in number, as follows:

Red, Black Centre.	White Pennant.	Red Pennant.	Red or White Pen't.
			
Storm.	Westerly Winds. When displayed in connection with storm signal.	Easterly Winds. When displayed in connection with storm signal.	Information Signal. When displayed alone.

A red flag with a black centre indicates that a violence storm is expected.

The pennants displayed with the flags indicate the direction of the wind; red, easterly (from the northeast to *south*); white, westerly (from southwest to north.) The pennant *above* the flag indicates that the wind is expected to blow from the northerly quadrant; *below*, from the southerly quadrant.

A healthy milch cow in full flow of milk will drink and requires from 65 to 100 lbs. per diem. It is utterly impossible to get one to take one-half or even one-quarter of ice water, nor will they drink the ice water or cold water with any regularity.

JANUARY.—This is the month for making plans for the year's operations. Very little work can be done in the garden, beyond securing a supply of seeds and manure and preparing compost heaps and hot-beds for next month, getting poles, brush, and sticks for beans, peas, and tomatoes. Clean up the garden.

FARMERS should use fertilizers made in RICHMOND by S. W. TRAVERS & CO. (Branch.) Use "NATIONAL" for TOBACCO, "CHAMPION" Corn Grower for CORN, ORCHILLA for CLOVER and "B. B. B." for ANY CROP. They are strictly reliable. See advertisement on page 95.

Total population of the State of Virginia in 1900 was 1,854,184. In 1890 it was 1,655,980. Increase in 1900 over 1890 of 198,204 in ten years. We have made every effort to get the figures showing separately how many white and how many colored persons are in the State, but cannot do so in time for this issue.

UNITED STATES POSTAGE LAWS.

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

First-Class Matter.

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment to printed matter under class three.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents. Nothing must be added or attached to a postal card, except that a printed address slip may be pasted on the address or message side. The addition of anything else subjects the card to letter postage. A card containing any offensive dun or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be constructively a part of the address and therefore permissable. Cards that have been spoiled in printing or otherwise will not be redeemed. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each. Cards must not exceed the size of 3¼ by 5½ inches or be smaller than 2 15-16x4 15-16 inches in dimensions. Their quality must be substantially that of the government postal cards and weigh about six pounds three ounces to the thousand. Their color may be white, cream, light gray, or light buff. The cards must bear on the address side, in print, the words, "Private Mailing Card—Authorized by Act of Congress of May 19, 1898." When prepared for sale they should also b ar in the upper right-hand corner of the address side a diagram with the words, "Place a one-cent stamp here;" and in the lower left-hand corner the printed words, "This side is exclusively for the address."

The message on the cards may be in writing or print, and there may also appear on the message side advertisements, illustrations, or other matter, printed either in black or colors. And there must be attached to every card mailed a one-cent adhesive postage stamp. These cards cannot be mailed to foreign countries except at the letter rate of postage.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. An ordinary ten-cent stamp affixed to a letter will not entitle it to special delivery. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the postoffice. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

The Blackstone Guano Co. manufactures the Celebrated Bellefonte Guano.

Prepaid letters will be reforwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

Second-Class Matter.

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents. and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the bulletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and be bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Such Christmas, New Year's, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage-stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery ten-cent stamps are affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

Third-Class Matter.

Mail matter of the third-class includes printed books, pamphlets, engravings, circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

The Blackstone Guano Co. manufactures the Celebrated Bellefonte Guano.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery stamps are affixed in addition to the regular postage.

Upon matter of the third class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

Fourth-Class Matter.

Fourth-class matter is all mailable matter not included in the three preceding classes, which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. It embraces merchandise and samples of every description, and coin or specie.

Rate of postage, one cent for each ounce or fraction thereof (except seeds, roots, bulbs, cuttings, scions, and plants, the rate on which is one cent for each two ounces or fraction thereof). This matter must be fully prepaid, or it will not be forwarded. The affixing of special delivery ten-cent stamps in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, sugar, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad odèr will not be forwarded in any case.

Firearms may only be sent in detached parts.

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spiritous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tightly-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is not exceeding four ounces, liquid measure.

Limit of weight of fourth-class matter (excepting liquids), four pounds.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering post master may also be written asking him to return the package if not delivered.

The Blackstone Guano Co. manufactures the Celebrated Bellefonte Guano.

Registration.

All kinds of postal matter may be registered at the rate of eight cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed $10 for any one registered piece or the actual value of the piece if it is less than $10.00—shall be paid for the loss of first-class registered matter.

Domestic Money Orders.

Domestic money orders are issued by money-order postoffices for any amount up to $100, at the following rates:

For sums not exceeding $2 50, 3 cents: over $2 50 to $5, five cents; over $5 to $10, eight cents; over $10 to $20, ten cents; over $20 to $30, twelve cents; over $30 to $40, fifteen cents; over $40 to $50, eighteen cents; over $50 to $60, twenty cents; over $60 to $75, twenty-five cents; over $75 to $100, thirty cents.

Stamped Envelopes.

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz.:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.
2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.
3. All periodicals sent to subscribers within the county where printed.
4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.
5. The Vice-President, Members and Members-elect and Delegates and Delegates-elect to Congress may frank any mail matter, not over one ounce in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

Railroad Companies to Transport and Care for Farm Produce.

All railroad companies in Virginia are required, upon three days' notice, to provide transportation for all farm produce delivered at a depot of any company, or to have at the depot safe storage for the same, and the company is responsible for damages resulting from failure to provide such transportation or storage.

*Geo. W. Smith was burned in the Richmond Theatre at its destruction by fire. Many others perished at the same time.

Only one of the entire list of governors was born in Richmond city; but ten died there.

Only three of the Governors from 1776 to 1900 were born out of the State—Joseph Johnson, H. H. Wells, and G. C. Walker, all natives of New York.

The Tides.

The Tides are governed by the Moon, and the calculations as to when the tide will be flood, at a given point, are made by adding certain hours and minutes to the Moon's Southing on the days for which the calculations are made. Thus on the 1st of January, 1902, the flood tide at Richmond is ascertained by adding *four* hours to the Southing of the Moon on that day, which will make the hour of flood tide about 9:53 o'clock A. M.

The further inland the head of tide-water, the greater amount of time it takes to run in, and consequently the amount of time added to the Moon's Southing depends upon the distance from the sea.

All know that there are two tides in twenty-four hours. It takes five hours to run in and seven to run out. That is from low-tide to flood is five hours, and from flood to low-tide seven.

The flow or rising of the water is called flood-tide, and the reflux, ebb-tide.

Five Vice-Presidents succeeded to the Presidency by death of Presidents—W. H. Harrison by Tyler; Taylor by Fillmore; Lincoln by Johnson; Garfield by Arthur, and McKinley by Roosevelt.

THE PRESIDENTIAL SUCCESSION.

In case of the removal, death, resignation, or inability of both the President and Vice-President, the Secretary of State shall act as President until the disability of the President or Vice-President is removed or a President is elected. If there be no Secretary of State, then the Secretary of the Treasury will act; and the remainder of the order of succession is: The Secretary of War, Attorney-General, Postmaster-General, Secretary of the Navy, Secretary of the Interior, and Secretary of Agriculture. The acting President must, upon taking office, convene congress, if not at the time in session, in extraordinary session, giving twenty days' notice. This applies to Cabinet officers that have been appointed by the Senate, and are eligible to the Presidency.

COUNTY COURTS OF VIRGINIA.

The terms of the County Judges commenced January 1, 1898. Their terms are for six years. When a vacancy occurs in a county judgeship, the governor cannot fill the vacancy, as in the case of a circuit judge, but must designate some other county judge to hold court until the vacancy be filled by the General Assembly. The clerks of the County Courts were elected on the fourth Thursday in May, 1899, and entered upon their duties July 1, following. Their terms are for six years. In counties of less than 15,000 inhabitants, the County Court Clerk is *ex officio* clerk of the circuit court. The monthly terms of county courts are limited to fifteen days. Sheriffs were elected on fourth Thursday in May, 1899, and hold office for four years.

The law in reference to the times of meeting of the County and Corporation Courts is very defective. Sections 3045 and 3054 of the Code of 1887, allow the Judges of these Courts to change their terms at will. Why should this be? What possible good can result? The terms of Circuit Courts are fixed by law, and the County and Corporation Courts should be also. It is hoped that the General Assembly will remedy this defect. It cannot be expected that the tables published biennially with the Acts of Assembly or even annual publications can be correct under such a condition of things, or that parties having business with these courts can be correctly informed of their time of meeting.

The Quarterly Courts have been abolished. The County Courts are authorized to designate such months as may seem fit for jury terms, or, if they think proper, can have monthly. Many courts have juries at every term.

Railway Signal Code.

Three whistles signify "back up."
Two whistles signify "off brakes,"
One whistle signifies "down brakes."
Continued whistles signify "danger,"
Rapid short whistles "a cattle alarm,"
Beckoning motion of one hand signifies "back."
Red flag waved up the track signifies "danger."
Lantern swung in a circle signifies "back the train."
Red flag stuck up by the roadside signifies "danger ahead."
Red flag carried on a locomotive signifies "an engine following."
Lantern swung at right angles across the track is a signal to "start."
Downward motion of the hands with extended arms signifies "stop."
Lantern at night, raised and lowered vertically, is a signal to "start."
A sweeping parting of the hands on a level with eyes signifies "go ahead."

CORPORATION COURTS IN VIRGINIA.

The Judges of the Corporation Courts are elected for the same term as County Judges. Their terms commenced January 1, 1898. Vacancies filled as in cases of Circuit Judges—commissions expire thirty days after meeting of ensuing Legislature. Clerks are elected for six years. In cities containing 30,000 inhabitants or more, a separate Clerk is elected for the Circuit Court. In Richmond City a Clerk of the Chancery Court is also elected at the same time as the Corporation Clerk. The term of office is the same. The Sergeants will be elected in 1902. They hold office for two years. The Judges are authorized to omit holding Court in July and August if they see fit. The distances given in this table are from the Courthouse of the County and Cities are to Richmond City. The law pays the mileage from the Courthouse.

THE LAW IN VIRGINIA IN REGARD TO WILLS.

Who may execute a will? A valid will may be made by any person of sound mind and lawful age (twenty-one years), except that minors eighteen years of age and upwards, may, by will, dispose of personal estate. A married woman cannot make a will except for the disposition of her separate estate (either statutory or equitable) or in exercise of a power of appointment.

How is a will made? No will shall be valid unless it be in writing and signed by the testator, or by some other person in his presence and by his direction, in such manner as to make it manifest that the name is intended as a signature; and, moreover, unless it be wholly written by the testator, the signature shall be made or the will acknowledged by him in the presence of at least two competent witnesses, present at the same time, and such witnesses shall subscribe the will in the presence of the testator.

What are the widow's rights as to dower and jointure? Sec. 2267. A widow shall be endowed of one-third of all the real estate whereof her husband, or any other to his use, was, at any time during the coverture, seized of an estate of inheritance, unless her right to such dower shall have been lawfully barred or relinquished.

Sec. 2268. When a husband, or any other to his use, shall have been entitled to a right of entry or action in any land, and his widow would be entitled to dower out of the same, if the husband or such other had recovered possession thereof, she shall be entitled to such dower, although there shall have been no recovery of possession.

Sec. 2269. Where land is *bona fide* sold in the lifetime of a husband, to satisfy a lien or encumbrance thereon, created by deed in which the wife has united, or created before the marriage, or otherwise paramount to the wife, she shall have no right to be endowed in the said land. But if a surplus of the proceeds of sale remain after satisfying the said lien or encumbrance, she shall be entitled to dower in said surplus, and a court of equity having jurisdiction of the case may make such order as may seem to it proper to secure her right.

Sec. 2270. If any estate, real or personal, intended to be in lieu of dower, shall be conveyed or devised for the jointure of the wife, such conveyance or devise shall bar her dower of the real estate, or the residue thereof, and every such provision, by deed or will, shall be taken to be intended in lieu of dower, unless the contrary intention plainly appear in such deed or will, or in some other writing signed by the party making the provision.

When and how may widow waive jointure and demand dower in real estate? Sec. 2271. But if such conveyance or devise were before the marriage, without the assent in writing or during the infancy of the *feme*, or if it were after marriage, in either case, the widow may, at her election, waive such jointure and demand her dower. Such election shall be made within one year after the death of her husband, or within one year after the admission of his will to probate where the provision is by will, and shall be made in any court of record in the county or corporation in which the husband resided at the time of his death, or in the clerk's office of which the instrument creating the jointure is recorded, or by writing recorded in such court, or in the clerk's office thereof, upon such acknowledgment of proof as would authorize a writing to be admitted to record under chapter 111; and when she shall elect and receive her dower, the estate so conveyed or devised to her shall cease and determine.

What interest has the widow in the personal estate of her husband if he dies intestate? If the intestate leave a widow and issue by her, the widow shall be entitled to one-third of the surplus of the personal estate, after the payment of funeral expenses, charges of administration, and debts. Or, if the intestate leave a widow, but no issue by her, the widow shall be entitled absolutely to such of the personal property in the said surplus as shall have been acquired by the intestate in virtue of his marriage with her prior to the fourth day of April, 1877, and remains in kind at his death; she shall also be entitled to one-half of the residue of such surplus if the intestate husband leave no issue by a former marriage, but to one-third only of such residue if he leave such issue.

When and how widow may renounce benefit of will as to personalty? Sec. 2559. When any provision for a wife is made in her husband's will, he may, within one year from the time of the admission of the will to probate,

renounce such provision. Such renunciation shall be made either in person before the court in which the will is recorded, or by a writing recorded in such court, or the clerk's office thereof, upon such acknowledgment or proof as would authorize a writing to be admitted to record under chapter 111. If such renunciation be made, or if no provision for her be made in the will, she shall have such share of her husband's personal estate as she would have had if he had died intestate; otherwise, she shall have no more thereof than is given her by the will.

What interest has the husband in the personal estate of the wife if she dies intestate? If *she* dies intestate, her husband shall be entitled to the whole of the surplus of the personal estate.

How is a will revoked by operation of law? SEC. 2517. Every will made by a man or woman shall be revoked by his or her marriage, except a will made in exercise of a power of appointment, when the estate thereby appointed would not, in default of such appointment, pass to his or her heir, personal representative, or next of kin.

What is the law as to pretermitted children? SEC. 2527. If any person die leaving a child, or his wife with child which shall be born alive, and leaving a will made when such person had no child living, wherein any child he might have is not provided for or mentioned, such will, except so far as it provides for the payment of the debts of the testator, shall be construed as if the devises and bequests therein had been limited to take effect, in the event that the child shall die under the age of twenty-one years, unmarried, and without issue.

SEC. 2528. If a will be made when a testator has a child living, and a child be born afterwards, such after-born child, or any descendant of his, if not provided for by any settlement, and neither provided for nor expressly excluded by the will, but only pretermitted, shall succeed to such portion of the testator's estate as he would have been entitled to if the testator had died intestate; towards raising which portion the devisees and legatees shall, out of what is devised and bequeathed to them, contribute ratably, either in kind or in money, as a court of equity, in the particular case, may deem most proper. But if any such after-born child, or descendant, die under the age of 21 years, unmarried, and without issue, his portion of the estate, or so much thereof as may remain unexpended in his support and education, shall revert to the person to whom it was given by the will.

What is a Codicil? A codicil is a little will; that is, it is a testamentary disposition, generally not revoking the former will, but varying it in some way or making changes in it or additions to it. It must be executed as a will.

FORM OF WILL AND CODICIL.

I, ———, of (*place and occupation*), make this my last will. I give, devise, bequeath my estate and property, real and personal, as follows, that is to say:

Then follow all the provisions and disposition of property which the testator intends, stated fully, plainly, and as accurately as possible. Then follows, first, the appointment of an executor, and then the execution, and finally the declaration of the witnesses, thus:

I appoint ————, at ————, executor of this my will.

In witness whereof, I have signed this instrument as my will, at (*place*); on (*date*). (*Signature.*)

The foregoing will was this day signed by the said ———, and acknowledged by him as his last will, in the presence of us, the undersigned-subscribing witnesses, both of us being present at the same time, and each of us, at the request of the said ———, and in his presence, subscribed the said will as subscribing witnesses thereto.

Witness our hands, this ——— day of ———, ——.

(*Here follow the names of two competent witnesses.*)

A codicil should be written thus:

I, ———, of (*place and occupation*), do make this my codicil, hereby confirming my last will made on the (*date of the will*), and all my former codicils (*if there be any*), so far as this codicil is consistent therewith; and do hereby—

Then follows whatever disposition the testator chooses to make, stating and describing it as he would if it were a will, and executing it, and having it attested in the same manner as if it were a will, excepting that, instead of calling it a will, wherever that word occurs, he says "codicil" instead of "will."

The Import and the Times of the Movable Feasts.

All the "movable Feasts," except Advent, are dependent upon Easter for the time of their occurrence.

Advent embraces four weeks before Christmas; Advent Sunday, or the "first Sunday in Advent," being the Sunday nearest St. Andrew's Day, which is November 30th. Of course, as the name denotes, it has reference to the coming or birth of Christ.

New Year's Day.—On this day, which is the first of the Julian year, the church celebrates the octave of the nativity of the Lord, His circumcision, and the name of Jesus, which was given Him on that occasion.

Epiphany, or Old Christmas—*January 6th, three Sundays after.*—Commemorates the adoration paid our Saviour by the Wise Men of the East, and the miracle of the changing of water to wine at Cana of Galilee.

Ash Wednesday.—This is the beginning of Lent, and a day of public penance and humiliation, so called from the ceremony of blessing ashes wherewith to sign the people on the forehead, in token of the admonition, "Remember, man, that dust thou art, and unto dust thou shalt return."

Palm Sunday.—Celebrated in commemoration of the triumphal entry of the Lord into Jerusalem, on which occasion the multitude cast branches of trees before Him.

Good Friday.—This is the day of Christ's crucifixion, the day on which He offered Himself a victim for the sins of all mankind. In all the Christian world this day is set apart as one of great solemnity and a day of special prayer and humiliation.

Easter Sunday—Is the Sunday after the first (calendar) full moon on or after March 21st. The exact day has been fixed in advance for many years by the church authorities. It commemorates the event of Christ's resurrection from the dead.

Low Sunday is the octave of Easter-day, and is so called from the catechumens' white garments, which they put on at their baptism and solemnly put off on this day. This is a feast of lower grade to Easter Sunday or Palm Sunday.

Rogation Days.—The Monday, Tuesday and Wednesday of Rogation week, the week which contains Ascension Day. The word is derived from the Latin *rogare*—to "implore." Rogation Sunday precedes these days.

Holy Thursday—Commemorates the Lord's Last Supper, and is sometimes called Maundy Thursday, from the first word of an anthem—"Mandatum."

Whit Sunday.—In the Christian churches the feast of Pentecost commemorates the descent of the Holy Ghost upon the infant church ten days after the Ascension, the gift of tongues and the conversion of 3,000 persons. Pentecost is known as Whit Sunday or Whitsuntide, from the white garments formerly worn by candidates for baptism.

Trinity Sunday.—The Sunday next after Whit-Sunday. It was established as a church festival in honor of the Holy Trinity. It had long been celebrated in some of the Western dioceses of Europe, but not generally before the year 1400.

Michaelmas Day—Signifies solemnity or solemn mass in honor of Michael and all the nine order of angels. And it is called the dedication of St. Michael, from the dedicating a church to him in Rome in 606 (30th September).

St. Andrew—*30th November.*—An apostle who preached the Gospel in Thrace and Scythia; but being apprehended by Ageas, the proconsul, was first imprisoned, then most cruelly beaten, and lastly fastened to a cross, whereon he lived two days, preaching to the people.

Christmas Day—*December 25th.*—Yearly celebrated, even from apostles' time, in memory of our Saviour's birth at Bethlehem,

Ascension Day—Is a festival of the Christian Church, held forty days after Easter, or ten days before Whit-Sunday, in memory of Christ's ascension into heaven forty days after His resurrection.

All Saints' Day—*All-Hallows, or Hallowmas.*—This feast has been celebrated since the year 834, on the 1st of November, as a general commemoration of all the saints, because as the number of saints increased it was impossible to dedicate a feast-day to each. It was first instituted about A. D. 610, and was then celebrated on the 1st of May.

The Blackstone Guano Co. manufactures the celebrated Bellefonte Guano.

Standard Time.—Primarily, for the convenience of the railroads, a standard of time was established by mutual agreement in 1883, by which trains are run and local time regulated. According to this system, the United States, extending from 65° to 125° west longitude, is divided into four time sections, each of 15° of longitude, exactly equivalent to one hour. The first (eastern) section includes all territory between the Atlantic coast and an irregular line drawn from Detroit to Charleston, S. C., the latter being its most Southern point. The second (central) section includes all the territory between the last-named line and an irregular line from Bismarck, N. D., to the mouth of the Rio Grande. The third (mountain) section includes all territory between the last-named line and nearly the western borders of Idaho, Utah, and Arizona. The fourth (Pacific) section covers the rest of the country to the Pacific coast. Standard time is uniform inside each of these sections, and the time of each section differs from the next to it by exactly one hour.

THE DOG DAYS.

The dog-days are a part of the year, about the time of the rising of the dog-star with the sun. Various dates, from July 3d to August 15th, have been assigned for the first dog-day, and various durations for the period, from thirty to fifty-four days. Pliny says the dog-days began with the rising of Procyon with the sun, which took place, he says, July 19th, N. S., and this date has been accepted. But he also says the sun was just then entering Leo, which rule, making the dog-days begin July 23d, has also been used. Hippocrates (450 B. C.) says the period was in the hottest and most unhealthy part of summer. If the season was of Babylonian origin, it would originally, probably, have been in early summer. Perhaps it is now most usually reckoned from July 3d to August 11th, inclusive. The ancients gave the name of Dog Days to that season of the year when Sirius rose with the Sun and seemed to blend its own influence with the heat of that luminary. At that remote period the Dog Days commenced on the 4th of August or four days after the Summer Solstice, and continued until the 14th day of September. At present they begin on the 3rd of July and continue until the 11th of August.

EPIPHANY OR OLD CHRISTMAS.

Epiphany (or Old Christmas) falls on the 6th of January. According to the Julian Calendar introduced by Julius Caesar. The year has ordinarily 365 days, and every fourth year is a leap year of 366 days, the length of the mean year being thus assumed as 365¼ days, while in reality it is really 365 days, 5 hours, 48 minutes and 50 seconds. Thus the error in the Julian Calendar amounted to 11 minutes and 10 seconds each year. To remedy this error Pope Gregory XIII decreed that 10 days should be deducted from the year 1582, by calling what (according to the old calendar) would have been reckoned the *5th* of October the *15th* October, 1582. The Catholic nations in general at once adopted the style ordained by the Pope. The leading Protestant nation, England, did not recognize the change until 1751, by which time the error had grown to 11 days. Russia, and all the other countries which belong to the Greek confession, still adhere to the old style, which by the present time is 12 days in error. So that Old Christmas is the 6th day of January, which is 12 days later than New Christmas, December 25th. This church day also commemorates the manifestation or appearance of Christ upon the earth to the Gentiles, and with especial reference to the day on which He was seen and worshipped by the wise men who came from the East.

GROUND-HOG DAY.

Ground-Hog Day always occurs on the 2d day of February. According to ancient superstition the ground-hog comes out of his winter quarters on the above date. Should the day be fair, so that His Hogship can see his own shadow, it indicates that unfavorable weather will prevail for six weeks; but if, on coming out, he fails to spy his shadow, favorable weather is predicted for the same period.

The 21st day of June (from sunrise until sunset) is the longest day of the year. The shortest is the 21st day of December.

TWENTIETH CENTURY ODDITIES.

The twentieth century began on January 1, 1901. It opened on Tuesday and will close on Sunday. It will have the greatest number of leap-years possible—twenty-four. The year 1904 will be the first one, then every fourth year after that, to and including the year 2000. February will have five Sundays three times—in 1920, 1948 and 1976.

In 1901 Federal Memorial Day, Fourth of July and Thanksgiving Day occurred the same day in the week. Then after that the same thing will happen at the following intervals: 6, 11, 11, 6, 11, 11 years, and so on, or in 1907, 1918, 1929, 1935, and so on.

In the years 1912, 1914, 1969 and 1996 there are four holidays that will fall on the same day of the week—the three already mentioned and Washington's Birthday anniversary, as also February 29th.

Thanksgiving Day and Christmas will occur the same day in the week in 1906, and then at successive intervals of 11, 6, 11, 11, 6, 11 years, and so on; also in 1928, 1956 and 1984. March 4th will fall on Sunday in the inaugural years 1917, 1946 and 1973.

The following are, in order beginning with 1901, the dates of Easter for the first twenty-five years of the century: April 7, March 30, April 12, 3, 23, 15, March 31, April 9, 11, March 27, April 16, 7, March 23, April 12, 4, 23, 8, March 31, April 20, 4, March 27, April 16, 1, 20 and 12. The earliest possible date on which Easter can occur is March 23. The last time it occurred on this date was in 1818, but it will not occur again until after the twentieth century. The latest Easter can occur is April 26th, and it will thus occur but once in the coming century—in 1943. The last time it occurred was April 26, 1886. Whenever Easter occurs on March 27, or April 3, 10, 17 or 24, Christmas also occurs on Sunday.

Though one of the objects aimed at by the church authorities who fixed upon the method of determining the date of Easter was to prevent its occurring on the same day as the Jewish passover, nevertheless the two events will occur together four times in the twentieth century—April 12, 1903, April 1, 1923, April 17, 1927, and April 19, 1981.

The twentieth century will contain 36,525 days, which lacks one day of being exactly 5,218 weeks. The day of the week that will not occur as often as each of the others is Monday. Fifteen of the 100 years will begin on Wednesday, and the same number on Friday. Fourteen will begin on each of the other days of the week.

The other important announcement is that it is not at all likely that the astronomical day, which now begins at noon of the civil day, will begin with the civil day at midnight. The present method of having the astronomical day begin twelve hours after the beginning of the civil day is apt to be confusing. On the other hand, to have the former begin at midnight will be to astronomers somewhat inconvenient.

As to eclipses in the coming century, there will be about 380 of them, the number of solar being to the number of lunar in about the ratio of 4 to 3.

What is a very rare occurrence in a calendar year will happen in 1935, the first time since 1823—viz., seven eclipses, the largest possible number that can happen in a year. There are eight total solar eclipses predicted to occur visible in the United States in 1918, 1923, 1945, 1979, 1984, 1994. There will also occur twelve transits of Mercury. A transit of Venus, however, which is of much more importance, will not occur within this century. The earliest date predicted is June 8, 2004.

While it is claimed that at least 1,000 comets come within visible range of the earth within a century, there is reasonable certainty of the recurrence of but one extraordinary comet in this century. That one is known as Halley's. It was last seen in 1835. It will be due again in 1940 or 1941. The exact time is not known, owing to slight modification in its orbit, due to planetary influence. Of course it is not impossible for some hitherto unobserved comet to appear in all its blazing glory at any time. No astronomer knows.

WHISKEY AT HALF PRICE.

☞ **A Direct Appeal to the Man Who is Anxious to Secure for Once in His Life—A Keg of Whiskey as Pure as Spring Water.** We refer forcibly to our brand known on the market under the pseudo name of **"Moonshine."** We will sell this whiskey in any quantity, but our prime object is to place with you just one sample 5 gallon keg, and when your friends test the **exquisite quality,** we know that many orders will follow.

We propose to furnish this whiskey encased in a rustic hand-made wooden-hooped keg.

OUR BIG OFFER.

The regular price on this high class whiskey is $3.00 per gallon, but to get you started on an honest article, we will furnish **One 5 Gallon Keg as described, securely boxed and all charges prepaid, for $10.00 and will put you in FREE one handsome lettered decanter with ground glass stopper, and also 25 small bottles of "Moonshine" to donate to your friends, as an advertisement for us.**

"Moonshine" is a whiskey without a vestige of headache—a whiskey of conscience—a whiskey of pride, and it satisfies! It is offered to you with the distinct understanding that it is a **purer** whiskey, a **riper** whiskey, a **pleasanter** whiskey to drink—richer, smoother and more delicate in flavor than **any** whiskey that can be bought from **any** concern, under **any** circumstances, at **any** time, or for **any** price! This is a bold assertion, made so purposely, with full knowledge of the facts. **We mean it.** We are prepared to stand or fall by it. We bar no man's whiskey. It is for you to put our statement to the test. Send order with remittance to

TIME OF THE ALMANACK.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude 37° 32′ 21″ N., and in Longitude 77° 25′ 35″ W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made necessary by the adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change, so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of Longitude makes a difference of 4 minutes, and that in this latitude a degree of Longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east, and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes; Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

Almanack Calculations for 1903.

The year 1903 comprises the latter part of the 127th and the beginning of the 128th year of American Independence, and corresponds to—

The year 6616 of the Julian Period.

The year 5663-64 of the Jewish Era. The year 5664 begins at sunset September 21st.

The year 2656 since the foundation of Rome according to Varro.

The year 2563 of the Japanese Era, and to the 36th year of the period entitled "Meiji."

The year 1321 of the Mohammedan Era, or the Era of the Hegira, begins March 30, 1903.

The 1st day of January, 1903, is the 2,416,116th day since the commencement of the Julian Period.

Eclipses for 1903.

In the year 1903 there will be four eclipses—two of the Sun and two of the Moon:

1. An annular eclipse of the Sun March 28th; invisible here, but visible in the Philippine Islands, Eastern Asia, a great portion of the Northern Pacific Ocean and Alaska.

2. A partial eclipse of the Moon April 11th; partially visible here; the beginning visible generally in Africa, Europe, the western portions of Asia and Eastern parts of South America; the ending visible generally in Africa, Europe, South America and the Eastern portions of North America. Time of the eclipses is as follows:

Eastern Standard Time.

Moon enters penumbra 11 d. 4 h. 26 m. P. M.; enters shadow 11 d. 5 h. 34 m. P. M.; Middle of eclipse 11 d. 7 h. 13 m. P. M.; Moon leaves shadow 11 d. 8 h. 52 m. P. M.: Moon leaves penumbra 11 d. 10 h. 0 m. P. M.

3. A total eclipse of the Sun September 20th; invisible here; visible to the extreme southern part of Australia and to the greater portion of the Indian Ocean.

4. A partial eclipse of the Moon October 6th; not visible here; but the beginning visible generally in Africa and the Pacific Ocean; the ending visible generally in Africa, the eastern portions of Europe and the Pacific Ocean.

Morning and Evening Stars for 1903.

The planet Venus (♀) begins as Evening Star and continues as such until September 17th, after which date she will be Morning Star to the end of the year.

The planet Mars (♂) is Morning Star until March 29th, and then Evening Star the balance of the year.

The planet Jupiter (♃) will be Evening Star until February 19th; then Morning Star until September 12th, and then Evening Star to the end of the year.

The planet Saturn (♄) is Evening Star until January 21st; then Morning Star until July 30th, and then Evening Star the rest of the year.

Table for Foretelling the Weather Throughout Each Year.

This Table and the accompanying remarks are the result of many years' actual observation, the whole being constructed on a due consideration of the attraction of the Sun and Moon, in their several positions respecting the Earth, and will, by simple inspection, show the observer what kind of weather will most probably follow the entrance of the Moon into any of its quarters, and that so near the truth as to be seldom or never found to fail:

If the New Moon, First Quarter, Full Moon or Last Quarter, Happens—	In Summer.	In Winter.
Between midnight and 2 o'clock..	Fair.....	Frost unless wind S. W.
" 2 and 4 morning.....	Cold and showers...	Snow and stormy.
" 4 and 6 "	Rain.....	Rain.
" 6 and 8 "	Wind and rain	Stormy.
" 8 and 10 "	Changeable.....	Cold rain if wind W., snow if E.
" 10 and 12 "	Frequent showers...	Cold and high wind.
" 12 and 2 afternoon	Very rainy	Snow or rain.
" 2 and 4 "	Changeable.....	Fair and mild.
" 4 and 6 "	Fair	Fair.
" 6 and 8 "	Fair if wind N. E...	Fair and frosty if wind N., or N. E.
" 8 and 10 "	Rainy if S. or S. W..	Rain or snow if S., or S. W.
" 10 and midnight.....	Fair	Fair and frosty.

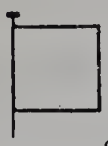

OBSERVATIONS.

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.
2. The space for this calculation occupies from ten at night till two next morning.
3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.
4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.
5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.
6. Though the weather, from a variety of irregular causes, is more uncertain in the latter part of Autumn, the whole of Winter, and the beginning of Spring, yet in the main the above observations will apply to those periods also.
7. To prognosticate correctly, especially in those cases where the *wind* is concerned, the observer should be within sight of a good *vane*, where the four cardinal points of the heavens are correctly placed.

WEATHER SIGNALS.

Especially corrected for this ALMANACK by E. A. EVANS, Director United States Weather Bureau, Richmond, Va.

The flags adopted for weather signals by the bureau, are five, and of the forms and colors indicated below:

No. 1. White Flag.	No. 2. Blue Flag.	No. 3. White and Blue Flag.	No. 4. Black Triangular Flag.	No. 5. White Flag with black square in centre.
				
Clear or fair.	Rain or snow.	Local Rains.	Temperature.	Cold Wave.

No. 1, white flag, indicates clear or fair weather. No. 2, blue flag, indicates rain or snow. No. 3, white and blue flag (parelled bars of white and blue), indicates that local rains or showers will occur, and that the rainfall will not be general. No. 4, black triangular flag, refers to temperature; when placed above Nos. 1, 2 or 3 it indicates warmer weather; when placed below Nos. 1, 2 or 3 it indicates colder weather; when not displayed, the indications are that the temperature will remain stationary, or that the change in the temperature will not vary more than 6° from the temperature of the same hour of the preceding day, from June to September, inclusive, and not more than 10° from December to March, inclusive, and not more than 8° for the remaining months of the year. No. 5, white flag with black square in centre, indicates the approach of a *sudden* and *decided* fall in temperature, and is usually ordered at least twenty-four hours in advance of the cold wave. When No. 5 in displayed No. 4 is always omitted.

When displayed on poles, the signals should be arranged to read downward; when displayed from horizontal supports, a small streamer should be attached to indicate the point from which the signals are to be read.

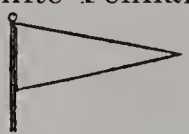

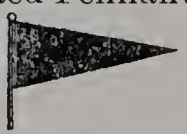

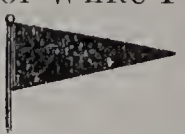

The time covered by displays is from 8 P. M. of the day hoisted to 8 P. M. of the following day.

Interpretation of Displays.

No. 1, alone, indicates fair weather, stationary temperature.
No. 2, alone, indicates rain or snow, stationary temperature.
No. 3, alone, indicates local rain, stationary temperature.
No. 1, with No. 4 above it, indicates fair weather, warmer.
No. 1, with No. 4 below it, indicates fair weather, colder.
No. 2, with No. 4 above it, indicates warmer weather, rain or snow.
No. 2, with No. 4 below it, indicates colder weather, rain or snow.
No. 3, with No. 4 above it, indicates warmer weather with local rains.
No. 3, with No. 4 below it, indicates colder weather with local rains.
No. 1, with No. 5 below it, indicates fair weather, cold wave.
No. 2, with No. 5 below it, indicates wet weather, cold wave.

Storm and Wind Signals.

The flags adopted by the Weather Bureau to indicate storms and the direction of the wind, are four in number, as follows:

Red, Black Centre.	White Pennant.	Red Pennant.	Red or White Pen't.
			
Storm.	Westerly Winds. When displayed in connection with storm signal.	Easterly Winds. When displayed in connection with storm signal.	Information Signal. When displayed alone.

A red flag with a black centre indicates that a violent storm is expected.

The pennants displayed with the flags indicate the direction of the wind; red, easterly (from the northeast to *south*); white, westerly (from southwest to north.) The pennant *above* the flag indicates that the wind is expected to blow from the northerly quadrant; *below*, from the southerly quadrant.

A healthy milch cow in full flow of milk will drink and requires from 65 to 100 lbs. per diem. It is utterly impossible to get one to take one-half or even one-quarter of ice water, nor will they drink the ice water or cold water with any regularity.

This Crop of Tobacco was grown with Bellefonte Guano, manufactured by the Blackstone Guano Company.

JANUARY.—This is the month for making plans for the year's operations. Very little work can be done in the garden, beyond securing a supply of seeds and manure and preparing compost heaps and hot-beds for next month, getting poles, brush, and sticks for beans, peas, and tomatoes. Clean up the garden.

The celebrated Bellefonte Guano grows a type of tobacco that always commands the highest price, because it is rich in appearance, silky to the touch, heavy body, and weighs well. This Guano always makes the finest wrappers, and wrappers always sell high.

Norfolk county has the largest population of any county in the State—50,780 Pittsylvania is second, with 46,894; Halifax third, with 37,197.

James City county has the smallest population, there being only 3,688; Craig second, with 4,293; and New Kent third, with 4,865.

The largest city in Virginia is Richmond, with a population of 85,050; Norfolk next, with 46,624 The smallest incorporated city in the State is Williamsburg, with a population of 2,044; Charlottesville next, with 2,388.

UNITED STATES POSTAGE LAWS.

[Especially corrected for this ALMANACK by WRAY T. KNIGHT, Postmaster, Richmond, Va.]

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

First-Class Matter.

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment to printed matter under class three.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents. Nothing must be added or attached to a postal card, except that a printed address slip may be pasted on the address or message side. The addition of anything else subjects the card to letter postage. A card containing any offensive dun or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be constructively a part of the address and therefore permissable. Cards that have been spoiled in printing or otherwise will be redeemed at 75 per cent. of face value. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each. Cards must not exceed the size of 3½ by 5½ inches or be smaller than 2 15-16x4 15-16 inches in dimensions. Their quality must be substantially that of the government postal cards and weigh about six pounds three ounces to the thousand. Their color may be white, cream, light gray, or light buff. The cards must bear on the address side, in print the words, "Post Card—Authorized by Act of Congress of May 19, 1898." When prepared for sale they should also bear in the upper right-hand corner of the address side a diagram with the words, "Place a one-cent stamp here;" and in the lower left-hand corner the printed words, "This side is exclusively for the address."

The message on the cards may be in writing or print, and there may also appear on the message side advertisements, illustrations, or other matter, printed either in black or colors. And there must be attached to every card mailed a one-cent adhesive postage stamp. These cards cannot be mailed to foreign countries except at the letter rate of postage.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. An ordinary ten-cent stamp affixed to a letter will not entitle it to special delivery. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the postoffice. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

Prepaid letters will be reforwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

Second-Class Matter.

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents. and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the bulletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and be bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Such Christmas, New Year's, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage-stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery ten-cent stamps are affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

Third-Class Matter.

Mail matter of the third-class includes printed books, pamphlets, engravings, circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery stamps are affixed in addition to the regular postage.

Upon matter of the third class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

Fourth-Class Matter.

Fourth-class matter is all mailable matter not included in the three preceding classes, which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. It embraces merchandise and samples of every description, and coin or specie.

Rate of postage, one cent for each ounce or fraction thereof (except seeds, roots, bulbs, cuttings, scions, and plants, the rate on which is one cent for each two ounces or fraction thereof). This matter must be fully prepaid, or it will not be forwarded. The affixing of special delivery ten-cent stamps in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, sugar, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad oder will not be forwarded in any case.

Firearms may only be sent in detached parts.

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spiritous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tightly-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is not exceeding four ounces, liquid measure.

Limit of weight of fourth-class matter (excepting liquids), four pounds.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering post master may also be written asking him to return the package if not delivered.

Registration.

All kinds of postal matter may be registered at the rate of eight cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed $25.00 for any one registered piece or the actual value of the piece if it is less than $25.00—shall be paid for the loss of first-class registered matter.

Domestic Money Orders.

Domestic money orders are issued by money-order postoffices for any amount up to $100, at the following rates:

For sums not exceeding $2.50, 3 cents: over $2.50 to $5, five cents; over $5 to $10, eight cents; over $10 to $20, ten cents; over $20 to $30, twelve cents; over $30 to $40, fifteen cents; over $40 to $50, eighteen cents; over $50 to $60, twenty cents; over $60 to $75, twenty-five cents; over $75 to $100, thirty cents.

Stamped Envelopes.

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz.:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.
2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.
3. All periodicals sent to subscribers within the county where printed.
4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.
5. The Vice-President, Members and Members-elect and Delegates and Delegates-elect to Congress may frank any mail matter, not over two ounces in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

Railroad Companies to Transport and Care for Farm Produce.

All railroad companies in Virginia are required, upon three days' notice, to provide transportation for all farm produce delivered at a depot of any company, or to have at the depot safe storage for the same, and the company is responsible for damages resulting from failure to provide such transportation or storage.

Legal Holidays in Virginia.

The first day of January, the nineteenth day of January (known as Lee's birthday), the twenty-second day of February, the thirtieth day of May (Confederate Memorial Day), every Saturday from 12 o'clock noon until midnight, each of which Saturdays is hereby designated a half holiday, the fourth day of July, the first Monday in September (known as labor day), the twenty-fifth day of December, and any day recommended or appointed by the governor of this State or the President of the United States, as a day of thanksgiving or of fasting and prayer, or other religious observance.

THE LAW IN VIRGINIA IN REGARD TO WILLS.

Who may execute a will? A valid will may be made by any person of sound mind and lawful age (twenty-one years), except that minors eighteen years of age and upwards, may, by will, dispose of personal estate. A married woman may, since the Act of Assembly of March 7, 1900, dispose of all her property, both real and personal, as if she were unmarried, subject, of course, to the curtesy right of the husband.

How is a will made? No will shall be valid unless it be in writing and signed by the testator, or by some other person in his presence and by his direction, in such manner as to make it manifest that the name is intended as a signature; and, moreover, unless it be wholly written by the testator, the signature shall be made or the will acknowledged by him in the presence of at least two competent witnesses, present at the same time, and such witnesses shall subscribe the will in the presence of the testator.

What are the widow's rights as to dower and jointure? Sec. 2267. A widow shall be endowed of one-third of all the real estate whereof her husband, or any other to his use, was, at any time during the coverture, seized of an estate of inheritance, unless her right to such dower shall have been lawfully barred or relinquished.

Sec. 2268. When a husband, or any other to his use, shall have been entitled to a right of entry or action in any land, and his widow would be entitled to dower out of the same, if the husband or such other had recovered possession thereof, she shall be entitled to such dower, although there shall have been no recovery of possession.

Sec. 2269. Where land is *bona fide* sold in the lifetime of a husband, to satisfy a lien or encumbrance thereon, created by deed in which the wife has united, or created before the marriage, or otherwise paramount to the wife, she shall have no right to be endowed in the said land. But if a surplus of the proceeds of sale remain after satisfying the said lien or encumbrance, she shall be entitled to dower in said surplus, and a court of equity having jurisdiction of the case may make such order as may seem to it proper to secure her right.

Sec. 2270. If any estate, real or personal, intended to be in lieu of dower, shall be conveyed or devised for the jointure of the wife, such conveyance or devise shall bar her dower of the real estate, or the residue thereof, and every such provision, by deed or will, shall be taken to be intended in lieu of dower, unless the contrary intention plainly appear in such deed or will, or in some other writing signed by the party making the provision.

When and how may widow waive jointure and demand dower in real estate? Sec. 2271. But if such conveyance or devise were before the marriage, without the assent in writing or during the infancy of the *feme*, or if it were after marriage, in either case, the widow may, at her election, waive such jointure and demand her dower. Such election shall be made within one year after the death of her husband, or within one year after the admission of his will to probate where the provision is by will, and shall be made in any court of record in the county or corporation in which the husband resided at the time of his death, or in the clerk's office of which the instrument creating the jointure is recorded, or by writing recorded in such court, or in the clerk's office thereof, upon such acknowledgment of proof as would authorize a writing to be admitted to record under chapter 111; and when she shall elect and receive her dower, the estate so conveyed or devised to her shall cease and determine.

What interest has the widow in the personal estate of her husband if he dies intestate? If the intestate leave a widow and issue by her, the widow shall be entitled to one-third of the surplus of the personal estate, after the payment of funeral expenses, charges of administration, and debts. Or, if the intestate leave a widow, but no issue by her, the widow shall be entitled absolutely to such of the personal property in the said surplus as shall have been acquired by the intestate in virtue of his marriage with her prior to the fourth day of April, 1877, and remains in kind at his death; she shall also be entitled to one-half of the residue of such surplus if the intestate husband leave no issue by a former marriage, but to one-third only of such residue if he leave such issue.

When and how widow may renounce benefit of will as to personalty? Sec. 2559. When any provision for a wife is made in her husband's will, she may, within one year from the time of the admission of the will to probate,

renounce such provision. Such renunciation shall be made either in person before the court in which the will is recorded, or by a writing recorded in such court, or the clerk's office thereof, upon such acknowledgment or proof as would authorize a writing to be admitted to record under chapter 111. If such renunciation be made, or if no provision for her be made in the will, she shall have such share of her husband's personal estate as she would have had if he had died intestate; otherwise, she shall have no more thereof than is given her by the will.

What interest has the husband in the personal estate of the wife if she dies intestate? If *she* dies intestate, her husband shall be entitled to the whole of the surplus of the personal estate.

How is a will revoked by operation of law? SEC. 2517. Every will made by a man or woman shall be revoked by his or her marriage, except a will made in exercise of a power of appointment, when the estate thereby appointed would not, in default of such appointment, pass to his or her heir, personal representative, or next of kin.

What is the law as to pretermitted children? SEC. 2527. If any person die leaving a child, or his wife with child which shall be born alive, and leaving a will made when such person had no child living, wherein any child he might have is not provided for or mentioned, such will, except so far as it provides for the payment of the debts of the testator, shall be construed as if the devises and bequests therein had been limited to take effect, in the event that the child shall die under the age of twenty-one years, unmarried, and without issue.

SEC. 2528. If a will be made when a testator has a child living, and a child be born afterwards, such after-born child, or any descendant of his, if not provided for by any settlement, and neither provided for nor expressly excluded by the will, but only pretermitted, shall succeed to such portion of the testator's estate as he would have been entitled to if the testator had died intestate; towards raising which portion the devisees and legatees shall, out of what is devised and bequeathed to them, contribute ratably, either in kind or in money, as a court of equity, in the particular case, may deem most proper. But if any such after-born child, or descendant, die under the age of 21 years, unmarried, and without issue, his portion of the estate, or so much thereof as may remain unexpended in his support and education, shall revert to the person to whom it was given by the will.

What is a Codicil? A codicil is a little will; that is, it is a testamentary disposition, generally not revoking the former will, but varying it in some way or making changes in it or additions to it. It must be executed as a will.

FORM OF WILL AND CODICIL.

I, ———, of (*place and occupation*), make this my last will. I give, devise, bequeath my estate and property, real and personal, as follows, that is to say:

Then follow all the provisions and disposition of property which the testator intends, stated fully, plainly, and as accurately as possible. Then follows, first, the appointment of an executor, and then the execution, and finally the declaration of the witnesses, thus:

I appoint ————————, at ————————, executor of this my will.

In witness whereof, I have signed this instrument as my will, at (*place*); on (*date*). (*Signature.*)

The foregoing will was this day signed by the said ———, and acknowledged by him as his last will, in the presence of us, the undersigned-subscribing witnesses, both of us being present at the same time, and each of us, at the request of the said ———, and in his presence, subscribed the said will as subscribing witnesses thereto.

Witness our hands, this ——— day of ———, ——.

(*Here follow the names of two competent witnesses.*)

A codicil should be written thus:

I, ———, of (*place and occupation*), do make this my codicil, hereby confirming my last will made on the (*date of the will*), and all my former codicils (*if there be any*), so far as this codicil is consistent therewith; and do hereby—

Then follows whatever disposition the testator chooses to make, stating and describing it as he would if it were a will, and executing it, and having it attested in the same manner as if it were a will, excepting that, instead of calling it a will, wherever that word occurs, he says "codicil" instead of "will."

Five Vice-Presidents succeeded to the Presidency by death of Presidents—W. H. Harrison by Tyler; Taylor by Fillmore; Lincoln by Johnson; Garfield by Arthur, and McKinley by Roosevelt.

THE PRESIDENTIAL SUCCESSION.

In case of the removal, death, resignation, or inability of both the President and Vice-President, the Secretary of State shall act as President until the disability of the President or Vice-President is removed or a President is elected. If there be no Secretary of State, then the Secretary of the Treasury will act; and the remainder of the order of succession is: The Secretary of War, Attorney-General, Postmaster-General, Secretary of the Navy, Secretary of the Interior, and Secretary of Agriculture. The acting President must, upon taking office, convene congress, if not at the time in session, in extraordinary session, giving twenty days' notice. This applies to Cabinet officers that have been appointed by the Senate, and are eligible to the Presidency.

TWENTIETH CENTURY ODDITIES.

The twentieth century began on January 1, 1901. It opened on Tuesday and will close on Sunday. It will have the greatest number of leap-years possible—twenty-four. The year 1904 will be the first one, then every fourth year after that, to and including the year 2000. February will have five Sundays three times—in 1920, 1948 and 1976.

In 1901 Federal Memorial Day, Fourth of July and Thanksgiving Day occurred the same day in the week. Then after that the same thing will happen at the following intervals: 6, 11, 11, 6, 11, 11 years, and so on, or in 1907, 1918, 1929, 1935, and so on.

In the years 1912, 1914, 1969 and 1996 there are four holidays that will fall on the same day of the week—the three already mentioned and Washington's Birthday anniversary, as also February 29th.

Thanksgiving Day and Christmas will occur the same day in the week in 1906, and then at successive intervals of 11, 6, 11, 11, 6, 11 years, and so on; also in 1928, 1956 and 1984. March 4th will fall on Sunday in the inaugural years 1917, 1946 and 1973.

The following are, in order beginning with 1901, the dates of Easter for the first twenty-five years of the century: April 7, March 30, April 12, 3, 23, 15, March 31, April 9, 11, March 27, April 16, 7, March 23, April 12, 4, 23, 8, March 31, April 20, 4, March 27, April 16, 1, 20 and 12. The earliest possible date on which Easter can occur is March 23. The last time it occurred on this date was in 1818, but it will not occur again until after the twentieth century. The latest Easter can occur is April 26th, and it will thus occur but once in the coming century—in 1943. The last time it occurred was April 26, 1886. Whenever Easter occurs on March 27 or April 3, 10, 17 or 24, Christmas also occurs on Sunday.

Though one of the objects aimed at by the church authorities who fixed upon the method of determining the date of Easter was to prevent its occurring on the same day as the Jewish passover, nevertheless the two events will occur together four times in the twentieth century—April 12, 1903, April 1, 1923, April 17, 1927, and April 19, 1981.

The twentieth century will contain 36,525 days, which lacks one day of being exactly 5,218 weeks. The day of the week that will not occur as often as each of the others is Monday. Fifteen of the 100 years will begin on Wednesday, and the same number on Friday. Fourteen will begin on each of the other days of the week.

The other important announcement is that it is not at all likely that the astronomical day, which now begins at noon of the civil day, will begin with the civil day at midnight. The present method of having the astronomical day begin twelve hours after the beginning of the civil day is apt to be confusing. On the other hand, to have the former begin at midnight will be to astronomers somewhat inconvenient.

As to eclipses in the coming century, there will be about 380 of them, the number of solar being to the number of lunar in about the ratio of 4 to 3.

What is a very rare occurrence in a calendar year will happen in 1935, the first time since 1823—viz., seven eclipses, the largest possible number that can happen in a year. There are eight total solar eclipses predicted to occur visible in the United States in 1918, 1923, 1945, 1979, 1984, 1994. There will also occur twelve transits of Mercury. A transit of Venus, however, which is of much more importance, will not occur within this century. The earliest date predicted is June 8, 2004.

While it is claimed that at least 1,000 comets come within visible range of the earth within a century, there is reasonable certainty of the recurrence of but one extraordinary comet in this century. That one is known as Halley's. It was last seen in 1835. It will be due again in 1940 or 1941. The exact time is not known, owing to slight modification in its orbit, due to planetary influence. Of course it is not impossible for some hitherto unobserved comet to appear in all its blazing glory at any time. No astronomer knows.

The Tides.

The Tides are governed by the Moon, and the calculations as to when the tide will be flood, at a given point, are made by adding certain hours and minutes to the Moon's Southing on the days for which the calculations are made. Thus on the 1st of January, 1903, the flood tide at Richmond is ascertained by adding *four* hours to the Southing of the Moon on that day, which will make the hour of flood tide about 6:21 o'clock P. M.

The further inland the head of tide-water, the greater amount of time it takes to run in, and consequently the amount of time added to the Moon's Southing depends upon the distance from the sea.

All know that there are two tides in twenty-four hours. It takes five hours to run in and seven to run out. That is from low-tide to flood is five hours, and from flood to low-tide seven.

The flow or rising of the water is called flood-tide, and the reflux, ebb-tide.

XANTHINE!
PROF. HERTZ GREAT GERMAN HAIR RESTORATIVE

Not a dye, but the great assister of nature, which by invigorating the roots never fails to restore gray hair to its natural color, produces rapid and luxuriant growth, eradicates dandruff prevents the hair from falling out, and renders it glossy and pliable.

DARDANELLE, ARK., *August 9, 1901.*

Xanthine Company:—I have used the bottle of Xanthine purchased from you a few months ago, and find that it **DOES** what is claimed for it, which is more than can be truthfully said of any of the preparations I have used heretofore. I have never had anything to really prove satisfactory before. I am surprised that washing my hair with soap and water does not change the color, but rather softens and improves it. I have found it a most excellent preparation, and it gives me pleasure to express my high appreciation of its value. My wife has used it also with equal satisfaction. We have found it **ALL** that is claimed for it.

CIRCUIT COURTS IN VIRGINIA.

The terms of the Judges commenced January 1, 1895, and they were elected for eight years, which will expire February 1, 1904, that date being fixed by the new Constitution, when the new judicial system will supercede the present system. Vacancies caused by resignation, death or removal are filled by the Governor—commissions expiring thirty days after meeting of the succeeding General Assembly. The Legislature then fills for unexpired term. Terms of Clerks of County and City Circuit Courts expire February 1, 1904. Term of office six years. In counties containing population less than 15,000 the County Court Clerks are *ex officio* clerks of the Circuit Courts. The terms of Commonwealth's Attorneys in counties are for four years, and expire January 1, 1904. The computation of distances is that prescribed by law from the Courthouse by the nearest mail route to the seat of government at Richmond.

COUNTY COURTS OF VIRGINIA.

The terms of the County Judges commenced January 1, 1898. Their terms are for six years. When a vacancy occurs in a county judgeship, the governor cannot fill the vacancy, as in the case of a circuit judge, but must designate some other county judge to hold court until the vacancy be filled by the General Assembly. The clerks of the County Courts were elected on the fourth Thursday in May, 1899, and entered upon their duties July 1, following. Their terms are for six years. In counties of less than 15,000 inhabitants, the County Court Clerk is *ex officio* clerk of the circuit court. The monthly terms of county courts are limited to fifteen days. Sheriffs were elected on fourth Thursday in May, 1899, and hold office for four years.

The law in reference to the times of meeting of the County and Corporation Courts is very defective. Sections 3045 and 3054 of the Code of 1887, allow the Judges of these Courts to change their terms at will. Why should this be? What possible good can result? The terms of Circuit Courts are fixed by law, and the County and Corporation Courts should be also. It is hoped that the General Assembly will remedy this defect. It cannot be expected that the tables published biennially with the Acts of Assembly or even annual publications can be correct under such a condition of things, or that parties having business with these courts can be correctly informed of their time of meeting.

CORPORATION COURTS IN VIRGINIA.

The Judges of the Corporation Courts are elected for the same term as County Judges. Their terms commenced January 1, 1898. Vacancies filled as in cases of Circuit Judges—commissions expire thirty days after meeting of ensuing Legislature. Clerks are elected for six years. In cities containing 30,000 inhabitants or more, a separate Clerk is elected for the Circuit Court. In Richmond City a Clerk of the Chancery Court is also elected at the same time as the Corporation Clerk. The term of office is the same. The Sergeants were elected in 1902. They hold office for two years. The Judges are authorized to omit holding Court in July and August if they see fit. The distances given in this table are from the Courthouse of the County and Cities are to Richmond City. The law pays the mileage from the Courthouse.

The Import and the Times of the Movable Feasts.

All the "movable Feasts," except Advent, are dependent upon Easter for the time of their occurrence.

Advent embraces four weeks before Christmas; Advent Sunday, or the "first Sunday in Advent," being the Sunday nearest St. Andrew's Day, which is November 30th. Of course, as the name denotes, it has reference to the coming or birth of Christ.

New Year's Day.—On this day, which is the first of the Julian year, the church celebrates the octave of the nativity of the Lord, His circumcision, and the name of Jesus, which was given Him on that occasion.

Epiphany, or Old Christmas—*January 6th, three Sundays after.*—Commemorates the adoration paid our Saviour by the Wise Men of the East, and the miracle of the changing of water to wine at Cana of Galilee.

Ash Wednesday.—This is the beginning of Lent, and a day of public penance and humiliation, so called from the ceremony of blessing ashes wherewith to sign the people on the forehead, in token of the admonition, "Remember, man, that dust thou art, and unto dust thou shalt return."

Palm Sunday.—Celebrated in commemoration of the triumphal entry of the Lord into Jerusalem, on which occasion the multitude cast branches of trees before Him.

Good Friday.—This is the day of Christ's crucifixion, the day on which He offered Himself a victim for the sins of all mankind. In all the Christian world this day is set apart as one of great solemnity and a day of special prayer and humiliation.

Easter Sunday—Is the Sunday after the first (calendar) full moon on or after March 21st. The exact day has been fixed in advance for many years by the church authorities. It commemorates the event of Christ's resurrection from the dead.

Low Sunday is the octave of Easter-day, and is so called from the catechumens' white garments, which they put on at their baptism and solemnly put off on this day. This is a feast of lower grade to Easter Sunday or Palm Sunday.

Rogation Days.—The Monday, Tuesday and Wednesday of Rogation week, the week which contains Ascension Day. The word is derived from the Latin *rogare*—to "implore." Rogation Sunday precedes these days.

Holy Thursday—Commemorates the Lord's Last Supper, and is sometimes called Maundy Thursday, from the first word of an anthem—"Mandatum."

Whit Sunday.—In the Christian churches the feast of Pentecost commemorates the descent of the Holy Ghost upon the infant church ten days after the Ascension, the gift of tongues and the conversion of 3,000 persons. Pentecost is known as Wnit Sunday or Whitsuntide, from the white garments formerly worn by candidates for baptism.

Trinity Sunday.—The Sunday next after Whit-Sunday. It was established as a church festival in honor of the Holy Trinity. It had long been celebrated in some of the Western dioceses of Europe, but not generally before the year 1400.

Michaelmas Day—Signifies solemnity or solemn mass in honor of Michael and all the nine order of angels. And it is called the dedication of St. Michael, from the dedicating a church to him in Rome in 606 (30th September).

St. Andrew—*30th November.*—An apostle who preached the Gospel in Thrace and Scythia; but being apprehended by Ageas, the proconsul, was first imprisoned, then most cruelly beaten, and lastly fastened to a cross, whereon he lived two days, preaching to the people.

Christmas Day—*December 25th.*—Yearly celebrated, even from apostles' time, in memory of our Saviour's birth at Bethlehem,

Ascension Day—Is a festival of the Christian Church, held forty days after Easter, or ten days before Whit-Sunday, in memory of Christ's ascension into heaven forty days after His resurrection.

All Saints' Day—*All-Hallows, or Hallowmas.*—This feast has been celebrated since the year 834, on the 1st of November, as a general commemoration of all the saints, because as the number of saints increased it was impossible to dedicate a feast-day to each. It was first instituted about A. D. 610, and was then celebrated on the 1st of May.

THE DOG DAYS.

The dog-days are a part of the year, about the time of the rising of the dog-star with the sun. Various dates, from July 3d to August 15th, have been assigned for the first dog-day, and various durations for the period, from thirty to fifty-four days. Pliny says the dog-days began with the rising of Procyon with the sun, which took place, he says, July 19th, N. S., and this date has been accepted. But he also says the sun was just then entering Leo, which rule, making the dog-days begin July 23d, has also been used. Hippocrates (450 B. C.) says the period was in the hottest and most unhealthy part of summer. If the season was of Babylonian origin, it would originally, probably, have been in early summer. Perhaps it is now most usually reckoned from July 3d to August 11th, inclusive. The ancients gave the name of Dog Days to that season of the year when Sirius rose with the Sun and seemed to blend its own influence with the heat of that luminary. At that remote period the Dog Days commenced on the 4th of August or four days after the Summer Solstice, and continued until the 14th day of September. At present they begin on the 3rd of July and continue until the 11th of August.

EPIPHANY OR OLD CHRISTMAS.

Epiphany (or Old Christmas) falls on the 6th of January. According to the Julian Calendar introduced by Julius Caesar. The year has ordinarily 365 days, and every fourth year is a leap year of 366 days, the length of the mean year being thus assumed as 365¼ days, while in reality it is really 365 days, 5 hours, 48 minutes and 50 seconds. Thus the error in the Julian Calendar amounted to 11 minutes and 10 seconds each year. To remedy this error Pope Gregory XIII decreed that 10 days should be deducted from the year 1582, by calling what (according to the old calendar) would have been reckoned the *5th* of October the *15th* October, 1582. The Catholic nations in general at once adopted the style ordained by the Pope. The leading Protestant nation, England, did not recognize the change until 1751, by which time the error had grown to 11 days. Russia, and all the other countries which belong to the Greek confession, still adhere to the old style, which by the present time is 12 days in error. So that Old Christmas is the 6th day of January, which is 12 days later than New Christmas, December 25th. This church day also commemorates the manifestation or appearance of Christ upon the earth to the Gentiles, and with especial reference to the day on which He was seen and worshipped by the wise men who came from the East.

GROUND-HOG DAY.

Ground-Hog Day always occurs on the 2d day of February. According to ancient superstition the ground-hog comes out of his winter quarters on the above date. Should the day be fair, so that His Hogship can see his own shadow, it indicates that unfavorable weather will prevail for six weeks; but if, on coming out, he fails to spy his shadow, favorable weather is predicted for the same period.

The 21st day of June (from sunrise until sunset) is the longest day of the year. The shortest is the 21st day of December.

GENERAL AGENT FOR VIRGINIA.

TIME OF THE ALMANACK.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude 37° 32′ 21″ N., and in Longtitude 77° 25′ 35″ W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made neccessary by the adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change, so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of longitude makes a difference of 4 minutes, and that in this latitude a degree of longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east, and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes; Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

Almanack Calculations for 1904.

The year 1904 comprises the latter part of the 128th and the beginning of the 129th year of American Independence, and corresponds to—

The year 6617 of the Julian Period.

The year 5664-65 of the Jewish Era. The year 5665 begins at sunset on September 9th.

The year 2657 since the foundation of Rome according to Varro.

The year 2564 of the Japanese Era, and to the 37th year of the period entitled "Meiji."

The year 1322 of the Mohammedan Era, or the Era of the Hegira, begins on the 18th day of March, 1904.

The first day of January, 1904, is the 2,416,481st day since the commencement of the Julian Period.

Eclipses for 1904.

In the year 1904 there will be two eclipses—both of the Sun:
1. An annular eclipse of the Sun March 16th, invisible here; visible to Southern Asia, Eastern Africa, and a number of Islands in the East Indies.
2. A total eclipse of the Sun September 9th, not visible here; visible to an immense portion of the Pacific Ocean on both sides of the Equator.

Morning and Evening Stars for 1904.

The Planet Venus (♀) begins as Morning Star and continues as such until July 8th, after which date she will be Evening Star to the end of the year.

The Planet Mars (♂) will be Evening Star until May 30th, and then Morning Star the rest of the year.

The Planet Jupiter (♃) is Evening Star until March 27th, then Morning Star until October 18th, and then Evening Star the balance of the year.

The Planet Saturn (♄) will be Evening Star until February 1st, then Morning Star until August 10th, and then Evening Star the balance of the year.

Table for Foretelling the Weather Throughout Each Year.

This Table and the accompanying remarks are the result of many years' actual observation, the whole being constructed on a due consideration of the attraction of the Sun and Moon, in their several positions respecting the Earth, and will, by simple inspection, show the observer what kind of weather will most probably follow the entrance of the Moon into any of its quarters, and that so near the truth as to be seldom or never found to fail:

If the New Moon, First Quarter, Full Moon or Last Quarter, Happens—	In Summer.	In Winter.
Between midnight and 2 o'clock...	Fair.....	Frost unless wind S. W.
" 2 and 4 morning.....	Cold and showers...	Snow and stormy.
" 4 and 6 "	Rain.....	Rain.
" 6 and 8 "	Wind and rain	Stormy.
" 8 and 10 "	Changeable.....	Cold rain if wind W., snow if E.
" 10 and 12 "	Frequent showers...	Cold and high wind.
" 12 and 2 afternoon	Very rainy	Snow or rain.
" 2 and 4 "	Changeable.....	Fair and mild.
" 4 and 6 "	Fair	Fair.
" 6 and 8 "	Fair if wind N. E...	Fair and frosty if wind N., or N. E.
" 8 and 10 "	Rainy if S. or S. W..	Rain or snow if S., or S. W.
" 10 and midnight.....	Fair	Fair and frosty.

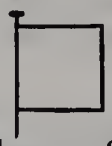

OBSERVATIONS.

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.
2. The space for this calculation occupies from ten at night till two next morning.
3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.
4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.
5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.
6. Though the weather, from a variety of irregular causes, is more uncertain in the latter part of Autumn, the whole of Winter, and the beginning of Spring, yet in the main the above observations will apply to those periods also.
7. To prognosticate correctly, especially in those cases where the *wind* is concerned, the observer should be within sight of a good *vane*, where the four cardinal points of the heavens are correctly placed.

WEATHER SIGNALS.

Especially corrected for this ALMANACK by E. A. EVANS, Director United States Weather Bureau, Richmond, Va.

The flags adopted for weather signals by the bureau, are five, and of the forms and colors indicated below:

No. 1. White Flag.	No. 2. Blue Flag.	No. 3. White and Blue Flag.	No. 4. Black Triangular Flag.	No. 5. White Flag with black square in centre.
				
Clear or fair.	Rain or snow.	Local Rains.	Temperature.	Cold Wave.

No. 1, white flag, indicates clear or fair weather. No. 2, blue flag, indicates rain or snow. No. 3, white and blue flag (parelled bars of white and blue), indicates that local rains or showers will occur, and that the rainfall will not be general. No. 4, black triangular flag, refers to temperature; when placed above Nos. 1, 2 or 3 it indicates warmer weather; when placed below Nos. 1, 2 or 3 it indicates colder weather; when not displayed, the indications are that the temperature will remain stationary, or that the change in the temperature will not vary more than 6° from the temperature of the same hour of the preceding day, from June to September, inclusive, and not more than 10° from December to March, inclusive, and not more than 8° for the remaining months of the year. No. 5, white flag with black square in centre, indicates the approach of a *sudden* and *decided* fall in temperature, and is usually ordered at least twenty-four hours in advance of the cold wave. When No. 5 in displayed No. 4 is always omitted.

When displayed on poles, the signals should be arranged to read downward; when displayed from horizontal supports, a small streamer should be attached to indicate the point from which the signals are to be read.

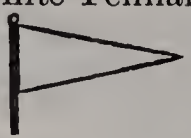

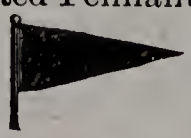

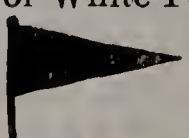

The time covered by displays is from 8 P. M. of the day hoisted to 8 P. M. of the following day.

Interpretation of Displays.

No. 1, alone, indicates fair weather, stationary temperature.
No. 2, alone, indicates rain or snow, stationary temperature.
No. 3, alone, indicates local rain, stationary temperature.
No. 1, with No. 4 above it, indicates fair weather, warmer.
No. 1, with No. 4 below it, indicates fair weather, colder.
No. 2, with No. 4 above it, indicates warmer weather, rain or snow.
No. 2, with No. 4 below it, indicates colder weather, rain or snow.
No. 3, with No. 4 above it, indicates warmer weather with local rains.
No. 3, with No. 4 below it, indicates colder weather with local rains.
No. 1, with No. 5 below it, indicates fair weather, cold wave.
No. 2, with No. 5 below it, indicates wet weather, cold wave.

Storm and Wind Signals.

The flags adopted by the Weather Bureau to indicate storms and the direction of the wind, are four in number, as follows:

Red, Black Centre.	White Pennant.	Red Pennant.	Red or White Pen't.
			
Storm.	Westerly Winds. When displayed in connection with storm signal.	Easterly Winds. When displayed in connection with storm signal.	Information Signal. When displayed alone.

A red flag with a black centre indicates that a violent storm is expected.

The pennants displayed with the flags indicate the direction of the wind; red, easterly (from the northeast to *south*); white, westerly (from southwest to north.) The pennant *above* the flag indicates that the wind is expected to blow from the northerly quadrant; *below*, from the southerly quadrant.

A healthy milch cow in full flow of milk will drink and requires from 65 to 100 lbs. per diem. It is utterly impossible to get one to take one-half or even one-quarter of ice water, nor will they drink the ice water or cold water with any regularity.

JANUARY.—This is the month for making plans for the year's operations. Very little work can be done in the garden, beyond securing a supply of seeds and manure and preparing compost heaps and hot-beds for next month, getting poles, brush, and sticks for beans, peas, and tomatoes. Clean up the garden.

The celebrated Bellefonte Guano grows a type of Tobacco that always commands the highest price, because it is rich in appearance, silky to the touch, heavy body, and weighs well. This Guano always makes the finest wrappers, and wrappers always sell high.

ANALYSES OF THE GAME LAWS OF VIRGINIA—CLOSE SEASON.

This is a careful analyses of Game Laws of Virginia in reference to hunting, and embraces all legislation, including the session of 1902-3.

Approved May 14, 1903.

Be it enacted by the General Assembly of Virginia, That chapter ninety-five of the Code of Virginia, eighteen hundred and eighty-seven, be amended and re-enacted so as to read as follows:

Section 2070 (*a*). When and how unlawful to hunt, etcetera.—1. It shall be unlawful for any person to shoot at, kill or capture any wild water fowl or wild turkey at any time during the night in this State, or at any time to capture them in traps or nets or other contrivances, or to use reflectors or other lights, or sneak boats or artificial islands in detecting or capturing or shooting of wild fowl or game of any kind, or to hunt or shoot muskrats at night with a light in the Tide-water sections of the State, or to shoot at any game on land or water in this State with a gun larger than an eight bore. All sneak boats, nets, traps or reflectors or other unlawful appliances so used or found in the possession of any person shall be seized by any game warden or other officer and held by him as evidence, but the same shall not be destroyed except by the order of the court or justice having jurisdiction, upon warrants duly issued, which said court or justice shall, upon satisfactory evidence of the guilt of the party, or of the unlawful nature of the article seized, order the same to be destroyed. The possession of any of said guns, sneak boats, nets, traps, reflectors or other unlawful appliances shall be *prima facie* evidence of the guilt of the person in whose possession they are found.

2. It shall be unlawful for any person to hunt, kill, or capture in any manner, or buy, offer for sale, or have in possession any wild turkeys, pheasants, or grouse, quail or partridges or woodcock east of the Blue Ridge Mountains between February the first and November the first, and west of the Blue Ridge Mountains between December the thirty-first and November the first, or to track any of them in snow except wild turkeys, or to trap or net them at any time, or to destroy their nests, eggs or young at any time, or kill, chase or capture, or buy, offer for sale, or have in possession any wild deer between January the first and October the first, or to track or hunt them in snow, or to kill or capture, or buy, offer for sale, or have in possession, any winter wild water fowl between April the first and October the fifteenth, or summer or wood ducks between January the first and August the first, or any rails, mud hens, gallinules, plovers, surf birds, snipe, sand pipers, willets, tatlers, or curlews, between January the first and July twentieth, or robins between April the first and February fifteenth. The possession of any of said game birds or game animals, or parts thereof, protected by the laws of this State, during the season in which it is unlawful to hunt, kill, chase or capture the same, shall be *prima facie* evidence of the guilt of the party in whose possession they are found.

3. It shall be unlawful to shoot or otherwise hunt any wild water fowl or any game birds or game animals protected by the laws of this State later lhan half an hour after sunset or earlier than an half an hour before sunrise, or to shoot or hunt any game in this State on Sunday.

4. Any person violating any of the provisions of this section shall be deemed guilty of a misdemeanor, and shall be punished by a fine of not less than five nor more than fifty dollars, or imprisoned in jail for not more than thirty days, or both fined and imprisoned, at the discretion of the justice or jury trying the case.

5. All acts or parts of acts in conflict with this section are hereby repealed, but the Board of Supervisors of any county shall have the power to shorten the open season in their said county and may permit the shipment of wild water fowl from said county or out of the State, and by regulations, not inconsistent with the provisions of this section, may further protect the game within their said county.

6. Nothing in this section shall be construed to refer to the bird known as sora.

Sec. 2070 (*b*). Game wardens, their appointment, duties, etc.—1. It shall be the duty of the city or corporation courts of the cities, or the judges thereof in vacation, on the application of five resident freeholders of any city to appoint two wardens, whose jurisdiction shall be confined to their respective cities and where the Board of Supervisors of any county shall, by resolution of record in the minutes of said board, request the judge of the Circuit Court of said county so to do; the said judge shall, upon the application of five resident freeholders of any magisterial district in said county appoint one suitable person in such magisterial district as game warden, whose jurisdiction shall be confined to said magisterial district where the said appointment is made by the judge in vacation, he shall certify the same to the clerk of his court, who shall enter the same in the order book of his court in the same manner as if made in term.

2. The said wardens shall hold office for the term of four years from the date of their appointment, unless sooner removed from office, and shall qualify according to law.

3. It shall be the duty of said wardens to enforce all statutes of this State, and of the United States, now in force or hereafter to be enacted for the protection and propogation of wild water fowl, game birds and game animals or song or insectivorous birds. The said wardens shall have power and it shall be their duty, to arrest any person detected by them in the act of violating any of the aforesaid laws, or any person against whom a warrant shall have been duly issued upon the information of any other person for such violation, and forthwith to carry such person before a justice or court having jurisdiction over the offence, who shall proceed without unreasonable delay to hear, try and determine the charge against such person. No game warden shall have any right under this act to go upon the land of another person without the consent of such other person until and unless such game warden shall have procured a search warrant in conformity with the provisions of subsection five of this section, or shall have a warrant for the arrest of some person thereon: provided, however, that such game warden may, without a warrant, arrest any person who violates any of the provisions of this chapter in the presence of such game warden, and should any person violate any of the provisions of this chapter in the presence of such game warden, such game warden may lawfully follow such person anywhere in the effort to arrest.

4. The several commanders of the oyster police boats of this Commonwealth are hereby constituted game wardens of this State, whose jurisdiction as such wardens shall extend over the lands and waters of this Commonwealt within their several jurisdictions as commanders. They shall enforce the statutes of this State and of the United States for the protection of game or other animals or birds protected by law, and render report to the Board of Fisheries of all prosecutions, and the said Board of Fisheries shall publish the same in their annual report as information. The commanders of the said oyster police boats shall receive no additional compensation for the performance of these duties. Except that in case of conviction they may receive the fee provided for in subsection eight of this section.

5. Any court judge or justice having jurisdiction over the offense, if satisfied upon affidavit that there is reasonable cause to believe that any wild water fowl, game birds, game animals or song or insectiverous birds, or parts thereof caught, taken, killed, shipped, or about to be shipped, or in transit, contrary to the laws of this State, or of the United States, are being concealed or stored in any place, shall issue a search warrant and cause search therefor to be made in any such place, and to that end may, after demand and refusal, cause any building, enclosure or car to be entered, and any apartment in which it is believed that game is concealed to be examined by any of said wardens or other officers executing the warrant; provided, that the issuance and execution of such search warrants shall be in accordance with the issuance and execution of search warrants in other cases as provided by law.

6. All game animals, wild water fowl and birds, protected by law, or parts thereof, found under such warrant, shall be seized by the warden or other officer making the search, and shall be disposed of as the court, judge or justice having jurisdiction may direct. All guns, gunning or hunting appliance found in such search shall be seized by said warden or other officer, and held subject to the payment of the fine prescribed by law for the offense charged and the cost of prosecution. If any of the articles so found be such as are not authorized by law they shall, upon the order of the court, judge or justice having jurisdiction, be destroyed, and all other of such articles shall be sold at public auction after the lapse of twenty days from the time of seizure, and after such notice as the court, judge or justice having jurisdiction, may prescribe, unless the reputed owner appears and acquits himself of the charge or pay the fine that may be imposed by the court, judge or justice.

7. Any person or persons interfering with any of said game wardens in the discharge of their duty, or resisting lawful arrest, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be fined not less than five dollars nor more than fifty dollars.

8. All fines and penalties imposed and collected under the provisions of this chapter shall be paid to the Commonwealth, and in addition to said fines and penalties, there shall be assessed against the offender in every case of conviction under the provisions of this chapter a fee of two dollars and fifty cents, which shall be collected as fines are collected under the general provisions of law and be paid to the warden who shall secure the conviction.

9. If any warden appointed under this section shall refuse or wilfully neglect to prosecute any person violating any of its provisions, or any of the laws of this State relating to wild water fowl, game birds or game animals, or song or insectiverous birds, his appointment shall be revoked by the court having jurisdiction,

and such warden shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined not exceeding twenty dollars, and the vacancy thus created shall be filled by the court or judge in vacation.

10. All money paid to or collected by clerks of courts as hunting licenses shall constitute a fund for the payment of the said regularly appointed game wardens of this State as herein provided, and the clerk shall, after deducting a fee of fifty cents for issuing such license, on first of April of each year, pay in equal amounts to the said warden or wardens of his county such sum as may be in his hands arising from the issuance of such licenses; provided, that no one warden shall receive more from this source than three hundred dollars in any one year, and shall make return to his court a detailed statement of such receipts and disbursements; provided, that in the counties of Accomac and Northampton the Circuit Court for said counties shall appoint, on the recommendation of the Eastern Shore Game Protective Association, the game wardens of the said counties, who shall make report at regular intervals to said association, as its laws shall provide, and the said clerks of the court of said counties upon the order of said association, shall distribute among the game wardens for said counties, or as may have been agreed upon by contract between the said association and said wardens, or in proportion to the services, which, in their judgment, have been rendered by them, respectively, the fund arising from the license of non-residents provided for in this chapter, or so much thereof as may be necessary. Should there be any surplus remaining after providing an efficient system of game protection in said counties from the license of non-residents above mentioned, said association may use it for restocking said county with game. The clerk shall pay to the treasurer of said association such sums as may be thus expended, paying any amounts not needed for the purpose above mentioned to the Auditor of Public Accounts, as provided in section twenty hundred and seventy *c*.

Section 2070 (*c*). Non-residents to obtain hunting licenses: when and how game may be exported, etcetera.—1. It shall be unlawful for any person, not a resident of this State, to hunt or kill wild water fowl, wild turkeys, pheasants or grouse, woodcock, partridges, quail or other game birds, or deer, within this State until he shall have first secured a hunting license as hereinafter provided; provided, however, that the non-resident children of resident owners of land in this State, shall be allowed to hunt on the lands of his parents as though he were resident of this State, and the non-resident guest of a resident land owner shall be allowed to hunt on the lands of his host as though he were a resident of this State, when accompanied by said host, or a member of his host's family; provided, said host receives no compensation directly or indirectly from said guest.

2. Upon the personal application of any non-resident to the clerk of the Circuit Court of any county in which he first begins to hunt, such clerk shall, upon the payment of ten dollars, issue to such non-resident a hunting license, using a form to be prescribed by the Auditor of Public Accounts for that purpose, entitling him to hunt and kill wild water fowl, deer, wild turkeys, pheasants or grouse, woodcock, partridges, quail, and other game birds during the open season in the six months next following, and subject to any restrictions now existing against or which may hereafter be imposed upon residents of this State. The clerk shall retain fifty cents as his fee for issuing such license, and the residue he shall account for to the Auditor of Public Accounts, unless otherwise provided for by law. Such license shall not be transferable.

3. It shall be unlawful, except as hereinafter provided, to ship or transport, or to cause to be shipped or transported, from this State, whether alive or dead, water fowl, deer, wild turkeys, pheasants or grouse, woodcock, partridges, quail, or other game birds, or any deer or vension, killed or captured within this State, nor shall the same be killed, captured or possessed with intent to ship or transport from this State.

4. Any person authorized to hunt under the laws of this State may, during the open season, take with him out of the State, either in his personal possession or as his baggage, on the same conveyance with him, not in a closed package, but exposed to view, not exceeding thirty wild water fowl, fifty quail or partridges, ten pheasants or grouse, three wild turkeys, one deer, or plovers, snipe, sand-pipers, willets, tattlers or curlew, not exceeding twenty-five of each or not exceeding one hundred in the aggregate, when lawfully killed or captured by himself; provided, the same be plainly labelled or tagged with the name and address of such person: and any citizen of this State may, during the open season, ship or have transported from this State, as a gift and not for market or sale, so stating on the shipping tag, one deer during the season, and not exceeding three wild turkeys, six pheasants, twelve wild water fowls, eighteen partridges or quail; provided, that such game shall be shipped exposed to public view and unconcealed, and each parcel or package shall be plainly labelled or tagged with the name and address of the donor and of the donee, and that number of each of such game so shipped. This section shall not apply to sora or rabbits or hares.

5. It shall be deemed a violation of this section for any person to deliver any of the game herein mentioned to any common carrier or person for shipment or transportation out of the State, or for any common carrier or person to carry or transport or receive for shipment or transportation of any such game in any other manner than is provided in this section.

(Virginia, in prohibiting the exportation of game, makes the violator of the law in this State also amenable to the United States law, under what is known as the Lacy act; also the person who receives the game in any other States, as well as the common carrier, each are liable to a fine of not exceeding $200.)

6. Nothing in this section shall be construed to prevent common carriers from carrying or transporting any of the game herein mentioned in unbroken packages from beyond the confines of this State through the same to some point in another State

7. Any person or corporation violating any provision of this section shall be guilty of a misdemeanor and be liable to a fine of fifty dollars for each offense, or imprisoned in jail for not exceeding sixty days.

8. No person charged with an offense under this section shall within the meaning thereof be deemed a resident of this State who shall not have resided within the limits of the State twelve months next preceding the time when the alleged offense was committed, unless he shall have, *bona fide* taken up his residence in this Commonwealth, and has his *bona fide* domicile therein, and in any prosecution for such offense the burden of proof as to residence shall be upon the defendant.

Section 2071. Unlawful hunting, trespassing, etcetera, on another's lands.—If any person without the consent of the owner or tenant, shoot, hunt, range, fish, trap or fowl on or in the lands, waters, mill ponds or private ponds of another, which are enclosed, or the boundaries of which are the streams adjacent to which constitute a lawful fence, or on any lands, waters, mill ponds or private ponds of another, east of the Blue Ridge Mountains, or in the waters on said land, he shall be deemed guilty of a trespass, and upon conviction thereof shall be fined not less than five dollars nor more than fifty dollars, and in addition thereto shall be liable in an action for damages; and if any person, after being warned not to do so by the owner or tenant of any premises, shall go upon the lands of the said owner or tenant, he shall, in addition to the liabilities imposed under this section, be deemed guilty of a misdemeanor, and upon conviction thereof, punished by a fine not exceeding fifty dollars or imprisoned in the county jail not exceeding sixty days, or both, in the discretion of the justice or jury trying the case.

Section 2072. In certain counties.—If any person shoot, hunt, range or fowl on the lands or in the water courses comprehended within the survey of any proprietor of lands in the counties of Alexandria, Fairfax, Prince William, Stafford and King George, and within five miles of navigable tidewater, without license in writing from the owner or tenant of said lands, he shall, besides being liable to such owner or tenant in an action for damages, forfeit to the informer three dollars for the first offense, six dollars for the second offense, and nine dollars for each succeeding offense, the forfeiture in each case to be double if the offense be committed in the night or on Sunday; and he shall likewise forfeit to the informer in each instance his boat or other means of conveyance, his guns, dogs and all his shooting and hunting apparatus used in the commission of the offense and be liable for all costs and expenses incurred in apprehending and prosecuting him for the recovery of said forfeiture.

Section 2073. Punishment of offenders.—Any person violating either of the two preceding sections may be arrested, and the property forfeited under the last section may be seized with or without warrant by any sheriff or constable or any game warden of the Commonwealth within their respective jurisdictions and held to await judgment. The offender shall be carried before a justice of the county in which the offense was committed, and a report be made to him of the property, if any, seized. The justice shall proceed to try the case and give judgment thereon. If judgment be rendered against the offender, it shall be for the forfeitures, pecuniary and otherwise, and the costs and expenses incurred and any property seized, adjudged to be forfeited, shall be delivered to the person entitled to the forfeiture in part satisfaction of the judgment. If the offender does not satisfy the judgment in full, the justice shall commit him to jail for one month, unless such satisfaction be sooner made. If the offender be acquitted, any property seized shall be released.

Section 2074. Proceeding when convicted a third time.—If a person be convicted a third time of any of the offenses mentioned in this chapter, the justice rendering judgment therefor shall require him to give a recognizance, with sufficient surety, for his good behavior for a year; and if he fail to give such surety commit him to jail for one month, unless he sooner give it. Such recognizance shall be deemed to be forfeited if such person commit any of the said offenses within the time limited in the recognizance.

Section 2078. Damages for shooting or killing tame deer.—If any person shoot or kill a tame deer having a bell or collar on its neck, he shall pay to the owner the value of such deer.

Section 2079. Concerning the protection of certain wild birds other than game birds, their nests and eggs.—It shall be unlawful at any time to kill or capture the turkey buzzard, or black buzzard, or to kill or ship alive out of the State the mocking bird, or kill or capture the thrush, gold finch, oriole, wren, rain crow, cardinal or red bird, wood robin, blue bird, martin, starling, or any wild bird other than the game birds named in this chapter, or to destroy their nests or eggs, or to purchase or offer for sale any such wild bird after it has been killed or caught, or any part thereof, and the possession or sale, or offering for sale, in this State of any bird so protected shall be *prima facie* evidence of guilt; provided, that nothing herein contained shall be construed to apply to the English sparrow, great horned owl, sharp shinned hawk, Cooper's hawk, crow, crow black bird, or rice bird.

Section 2080. Penalties for violating preceding section.—If any person violate any of the provisions of the preceding section he shall be guilty of a misdemeanor, and shall be fined not less than two dollars nor more than twenty dollars, and imprisoned in jail until the fine is paid, but not exceeding thirty days.

Sections twenty hundred and seventy-five, twenty hundred and seventy-six, twenty hundred and seventy-seven, twenty hundred and eighty-one, and twenty hundred and eighty-two of the Code of Virginia, and an act entitled an act to prevent the extermination of partridges (or quail) in the State of Virginia, approved January twenty-seventh, eighteen hundred and ninety-six, as amended by an act entitled "an act to amend and re-enact sections one and four of an act entitled an act to prevent the extermination of partridges (or quail) in the State of Virginia," approved January twenty-seventh, eighteen hundred and ninety-six, in force since December fifteenth, eighteen hundred and ninety-seven, and all other acts or parts of acts in conflict with the provisions of this chapter as hereby amended and re-enacted are hereby repealed; provided, that nothing in this act shall be construed as repealing a special act, approved March 8, 1902, restricting the shooting of wild water fowl in Back bay and its tributaries in the county of Princess Anne.

This act shall be in force from its passage.

The above act does not repeal local county laws relating to rabbits or hares. From the most accurate information obtainable, the following are the open seasons in the counties named: Accomac, Northampton, Northumberland, November 15th to January 15th; Alexandria, October 1st to January 1st; Amelia, Charlotte, Greenesville, Spotsylvania, Sussex, October 1st to February 1st; Buckingham, Cumberland, October 15th to February 15th; Caroline, Essex, Hanover, Henrico, King William, Albemarle, Mecklenburg, November 1st to February 1st; Chesterfield, September 1st to February 1st; Culpeper, Orange, November 15th to January 15th; Elizabeth City, Norfolk county, November 15th to February 1st; Fairfax, Fauquier, Loudoun, Frederick, Roanoke, November 1st to January 1st; Halifax, October 15th to February 1st; Nottoway, September 1st to January 1st; Shenandoah, November 1st to March 1st; Stafford, September 15th to February 15th; James City, York, November 15th to February 15th; Nansemond, October 15th to March 1st.

Halifax appears to be the only county having a "possum" law; the open season is fixed from October 15th to February 1st.

In the following counties, Mongolian, or imported pheasants are not allowed to be killed: Albemarle, Alleghany, Bath, Bedford, Culpeper, Highland, Louisa, Montgomery, Orange, Rockingham.

Augusta and Rockbridge not until after November 1, 1904.

Partridges are not permitted to be carried out of some of the counties. Page, Rappahannock, Sussex and Henry, have a county non-export law, and there may be others.

WHERE CITIZENS OF THE STATE MAY HUNT.

Code, Chapter 60, Section 1338.

This section says all the beds of the bays, rivers, creeks, and shores of the sea within the jurisdiction of this Commonwealth, and not conveyed by special grant, or compact, according to law, shall continue and remain the possession of the Commonwealth of Virginia, and may be used as a common by all the people of this State, for the purpose of fishing and fowling, &c., subject to the provisions of chapters 95, 96, and 97 of the Code, and any future laws that may be passed, &c.

UNLAWFUL HUNTING AND TRESPASSING ON ANOTHER'S LAND.

Chapter 227, Acts 1902-3, in regard to unlawful hunting on another's land, is as follows: "If any person, without the consent of the owner or tenant, shoot, hunt, range, fish, trap or fowl on or in the lands, waters, mill ponds, or private ponds of

another, which are enclosed, or the boundaries of which, or the streams adjacent to which constitute a lawful fence, or on any lands, waters, mill-ponds or private ponds of another, east of the Blue Ridge, or in the waters on said lands, he shall be deemed guilty of a trespass, and, upon conviction thereof, shall be fined not less than five dollars nor more than fifty dollars, and, in addition thereto, shall be liable in action for damages; and if any person, after being warned not to do so by the owner or tenant of any premises, shall go upon the lands of the said owner or tenant he shall, in addition to the liabilities imposed under this section, be deemed guilty of a misdemeanor, and upon conviction thereof, punished by a fine not exceeding fifty dollars, or imprisoned in the county jail not exceeding sixty days, or both, in the discretion of the justice or jury trying the case."

Accomack.—Rabbits, January 15th to November 15th. Unlawful to kill bird known as marsh hen before 15th of September in any season, or to take its eggs before 1st day of June in any year. Unlawful to kill or shoot in any manner a willet before 15th day of August, or to take its eggs at any time. Unlawful to shoot or in any manner kill bird known as the gull at any time, or to take its eggs at any time later than 4th day of July; or to capture or kill for sale mocking bird, brown thrush, cardinal—or red bird—red breasted robin, martin—or starling—or to destroy their nests.

Albemarle.—Rabbits, February 1st to November 1st.

Alexandria.—Partridges, wild turkeys, February 1st to October 15th. Rabbits, January 1st to October 1st.

Alleghany.—No person not a resident of the State or land owner shall kill or capture any deer, turkey, partridge or pheasant, without paying a license to the county of $11. If he has the consent of the land-owner, he shall not be obliged to pay such license.

Amelia.—Unlawful to kill wild turkeys or rabbits when snow is on the ground.

Augusta.—Unlawful to kill or capture, buy or sell any Mongolian—or English pheasant—from March 1, 1902, to March 1, 1904.

UNITED STATES POSTAGE LAWS.

[Corrected for this ALMANACK by WRAY T. KNIGHT, Postmaster, Richmond, Va.]

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

First-Class Matter.

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment to printed matter under class three.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents. Nothing must be added or attached to a postal card, except that a printed address slip may be pasted on the address or message side. The addition of anything else subjects the card to letter postage. A card containing any offensive dun or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be conclusively a part of the address and therefore permissible. Cards that have been spoiled in printing or otherwise will be redeemed at 75 per cent. of face value. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each. Cards must not exceed the size of 3½ by 5½ inches or be smaller than 2 15-16x4 15x16 inches in dimensions. Their quality must be substantially that of the government postal cards and weigh about six pounds three ounces to the thousand. Their color may be white, cream, light gray, or light buff. The cards must bear on the address side, in print, the words, "Post Card—Authorized by Act of Congress of May 19, 1898." When prepared for sale they should also bear in the upper right-hand corner of the address side a diagram with the words, "Place a one-cent stamp here;" and in the lower left-hand corner the printed words, "This side is exclusively for the address."

The message on the cards may be in writing or print, and there may also appear on the message side advertisements, illustrations, or other matter, printed either in black or colors. And there must be attached to every card mailed a one-cent adhesive postage stamp. These cards cannot be mailed to foreign countries, except at the letter rate of postage.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. An ordinary ten-cent stamp affixed to a letter will not entitle it to special delivery. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

Prepaid letters will be forwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

Second-Class Matter.

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents, and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the buletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Such Christmas, New Years, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery ten-cent stamps are affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

Third-Class Matter.

Mail matter of the third-class includes printed books, pamphlets, engravings, circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery stamps are affixed in addition to the regular postage.

Upon matter of the third-class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

Fourth-Class Matter.

Fourth-class matter is all mailable matter not included in the three preceding classes, which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. It embraces merchandise and samples of every description, and coin or specie.

Rate of postage, one cent for each ounce or fraction thereof (except seeds, roots, bulbs, cuttings, scions, and plants, the rate on which is one cent for each two ounces or fraction thereof.) This matter must be fully prepaid, or it will not be forwarded. The affixing of special delivery ten-cent stamps in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, sugar, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad order will not be forwarded in any case.

Firearms may only be sent in detached parts.

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tight-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is not exceeding four ounces, liquid measure.

Limit of weight of fourth-class matter (excepting liquids), four pounds.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering postmaster may also be written asking him to return the package if not delivered.

Registration.

All kinds of postal matter may be registered at the rate of eight cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed $25.00 for any one registered piece or the actual value of the piece if it is less than $25.00—shall be paid for the loss of first-class registered matter.

Domestic Money Orders.

Domestic money orders are issued by money-order postoffices for any amount up to $100, at the following rates:

For sums not exceeding $2.50, 3 cents; over $2.50, to $5, five cents; over $5 to $10, eight cents; over $10 to $20, ten cents; over $20 to $30, twelve cents; over $30 to $40, fifteen cents; over $40 to $50, eighteen cents; over $50 to $60, twenty cents; over $60 to $75, twenty-five cents; over $75 to $100, thirty cents.

Stamped Envelopes.

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are value-

less; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1. 1873, but the following mail matter may be sent free by legislative saving clauses, viz:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.

2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.

3. All periodicals sent to subscribers within the county where printed.

4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.

5. The Vice-President, Members and Members-elect, and Delegates and Delegates-elect to Congress may frank any mail matter, not over two ounces in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

THE LAW IN VIRGINIA IN REGARD TO WILLS.

Who may execute a will? A valid will may be made by any person of sound mind and lawful age (twenty-one years)) except that minors eighteen years of age and upwards, may, by will, dispose of personal estate. A married woman may, since the Act of Assembly of March 7, 1900, dispose of all her property, both real and personal, as if she were unmarried, subject, of course, to the curtesy right of the husband.

How is a will made? No will shall be valid unless it be in writing and signed by the testator, or by some other person in his presence and by his direction, in such manner as to make it manifest that the name is intended as a signature; and, moreover, unless it be wholly written by the testator, the signature shall be made or the will acknowledged by him in the presence of at least two competent witnesses, present at the same time, and such witnesses shall subscribe the will in the presence of the testator.

What are the widow's rights as to dower and jointure? Sec. 2267. A widow shall be endowed of one-third of all the real estate whereof her husband or any other to his use, was, at any time during the coverture, seized of an estate of inheritance, unless her right to such dower shall have been lawfully barred or relinquished.

Sec. 2268. When a husband, or any other to his use shall have been entitled to a right of entry or action in any land, and his widow would be entitled to dower out of the same, if the husband or such other had recovered possession thereof, she shall be entitled to such dower, although there shall have been no recovery of possession.

Sec. 2269. Where land is *bona fide* sold in the lifetime of a husband, to satisfy a lien or encumbrance thereon, created by deed in which the wife has united, or created before the marriage, or otherwise paramount to the wife, she shall have no right to be endowed in the said land. But if a surplus of the proceeds of sale remain after satisfying the said lien or encumbrance, she shall be entitled to dower in said surplus, and a court of equity having jurisdiction of the case may make such order as may seem to it proper to secure her right.

Sec. 2270. If any estate, real or personal, intended to be in lieu of dower, shall be conveyed or devised for the jointure, of the wife, such conveyance or devise shall bar her dower of the real estate, or the residue thereof, and every such provision, by deed or will, shall be taken to be intended in lieu of dower, unless the contrary intention plainly appear in such deed or will, or in some other writing signed by the party making the provision.

When and how may widow waive jointure and demand dower in real estate? Sec. 2271. But if such conveyance or devise were before the marriage, without the assent in writing or during the infancy of the *feme*, or if it were after marriage, in either case, the widow may, at her election, waive such jointure and demand her dower. Such election shall be made within one year after the death of her husband, or within one year after the admission of his will to probate where the provision is by will, and shall be made in any court of record in the county or corporation in which the husband resided at the time of his death, or in the clerk's office of which the instrument creating the jointure is recorded, or by writing recorded in such court, or in the clerk's office thereof, upon such acknowledgment of proofs as would authorize a writing to be admitted to record under chapter 111; and when she shall elect and receive her dower, the estate so conveyed or devised to her shall cease and determine.

What interest has the widow in the personal estate of her husband if he dies intestate? If the intestate leave a widow and issue by her; the widow shall be entitled to one-third of the surplus of the personal estate, after the payment of funeral expenses, charges of administration, and debts. Or, if the intestate leave a widow, but no issue by her, the widow shall be entitled absolutely to such of the personal property in the said surplus as shall have been acquired by the intestate in virtue of his marriage with her prior to the fourth day of April, 1877, and remains in kind at his death; she shall also be entitled to one-half of the residue of such surplus if the intestate husband leave no issue by a former marriage, but to one-third only of such residue if he leave such issue.

When and how widow may renounce benefit of will as to personalty? Sec. 2559. When any provision for a wife is made in her husband's will, she may, within one year from the time of the admission of the will to probate, renounce such provision. Such renunciation shall be made either in person before the court in which the will is recorded, or by a writing recorded in such court, or the clerk's office thereof, upon such acknowledgment or proof as would authorize a writing to be admitted to record under chapter 111. If such renunciation be made, or if no provision for her be made in the will, she shall have such share of her husband's personal estate as she would have had if he had died intestate; otherwise, she shall have no more thereof than is given her by the will.

What interest has the husband in the personal estate of the wife if she dies intestate? If *she* dies intestate, her husband shall be entitled to the whole of the surplus of the personal estate.

How is a will revoked by operation of law? Sec. 2517, Every will made by a man or woman shall be revoked by his or her marriage, except a will made in exercise of a power of appointment, when the estate thereby appointed would not, in default of such appointment, pass to his or her heir, personal representative, or next of kin.

What is the law as to pretermitted children? Sec. 2527. If any person die leaving a child, or his wife with child which shall be born alive, and leaving a will made when such person had no child living, wherein any child he might have is not provided for or mentioned, such will, except so far as it provides for the payment of the debts of the testator, shall be construed as if the devises and bequests therein had been limited to take effect, in the event that the child shall die under the age of twenty-one years, unmarried, and without issue.

Sec. 2528. If a will be made when a testator has a child living, and a child be born afterwards, such after-born child, or any descendant of his, if not provided for by any settlement, and neither provided for nor expressly excluded by the will, but only pretermitted, shall succeed to such portion of the testator's estate as he would have been entitled to if the testator had died intestate; towards raising which portion the devisees and legatees shall, out of what is devised and bequeathed to them, contribute ratably, either in kind or in money, as a court of equity, in the particular case, may deem most proper. But if any such after-born child, or descendant, die under the age of 21 years, unmarried, and without issue, his portion of the estate, or so much thereof as may remain unexpended in his support and education, shall revert to the person to whom it was given by the will.

What is a Codicil? A codicil is a little will; that is, it is a testamentary disposition, generally not revoking the former will, but varying it in some way or making changes in it or additions to it. It must be executed as a will.

FORM OF WILL AND CODICIL.

I, ..., of (*place and occupation*), make this my last will. I give, devise, bequeath my estate and property, real and personal, as follows, that is to say:

Then follow all the provisions and disposition of property which the testator intends, stated fully, plainly, and as accurately as possible. Then follows, first, the appointment of an executor, and then the execution, and finally the declaration of the witnesses, thus:

I appoint....., at....., executor of this my will.

In witness whereof, I have signed this instrument as my will, at (*place*); on (*date*). (*Signature.*)

The foregoing will was this day signed by the said....., and acknowledged by him as his last will, in the presence of us, the undersigned-subscribing witnesses, both of us being present at the same time, and each of us, at the request of the said....., and in his presence, subscribed the said will as subscribing witnesses thereto.

Witness our hands, this.....day of....., ...

(*Here follow the names of two competent witnesses.*)

A codicil should be written thus:

I, ..., of (*place and occupation*), do make this my codicil, hereby confirming my last will made on the (*date of the will*), and all my former codicils (*if there be any*), so far as this codicil is consistent therewith; and do hereby—

Then follows whatever disposition the testator chooses to make, stating and describing it as he would if it were a will, and executing it, and having it attested in the same manner as if it were a will, excepting that, instead of calling it a will, wherever that word occurs, he says "codicil" instead of "will."

Ground-Hog Day always occurs on the 2d day of February. According to ancient superstition the ground-hog comes out of his winter quarters on the above date. Should the day be fair, so that His Hogship can see his own shadow, it indicates that unfavorable weather will prevail for six weeks; but if, on coming out, he fails to spy his shadow, favorable weather is predicted for the same period.

Survival of the fittest is the law of business and trade. It is Nature's law. Poor farmers will be squeezed to death. There is no way to prevent it. The poor merchant goes down and the shiftless mechanic never gets ahead; the same rule must work with the tiller of the soil.

Cultivate a garden on the farm by making the rows long and as straight as possible, so as to permit of using the cultivator, or horse shoe, between the rows. It is the laborious work with the hoe that deters some farmers from growing garden crops, but there is nothing to prevent them from growing vegetables early and late if the ground is well harrowed and the rows laid off by a line or by stakes.

The Official Vote of Virginia for Governor in 1897, President in 1900, and Governor in 1901.

The vote given for Governor in 1897 is for the two highest candidates, and is taken from the official records. Cutler, Prohibitionist, received 2,743; Quantz, Socialist-Labor, 528; Cowden, 414.

The vote given for President in 1900 is for the three highest candidates.

The farmers who are successful are those who never lose sight of the fact that the farm is a home; that everything done toward beautifying and improving the place is enhancing its value.

A good whitewash for fences and outbuildings, that stands fairly well, and which looks like oil paint when dry, is made as follows: Pulverize air-slacked lime until it is as fine as flour and pass it through a sieve. Next boil some rice until the substance has been drawn out of the grain. Mix the lime and rice water and to every half-barrel of the mixture add one gallon of linseed oil. Apply with a long bristled whitewash brush for buildings, and for fences use a brush with shorter bristles.

CIRCUIT COURTS IN VIRGINIA.

Section 3058. Jurisdiction of Circuit Courts.—The circuit courts shall have jurisdiction of proceedings by quo warranto, or information in the nature of quo warranto, and to issue writs of *mandamus*, prohibition and *certiorari*, to all inferior tribunals created or existing under the laws of this State, and to issue writs of *mandamus* in all matters or proceedings arising from or pertaining to the action of the board of supervisors of the several counties for which said courts are respectively held, or other cases in which it may be necessary to prevent the failure of justice, and in which *mandamus* may issue according to the principles of common law. They shall have jurisdiction of all cases, both civil and criminal, which were existing or pending in the respective county courts for the counties on the thirty-first day of January, 1904, and shall have appellate jurisdiction in all cases, civil and criminal, where an appeal may, as provided by law, be taken or allowed by the said court or the judge thereof, from or to the judgment or proceedings of any inferior tribunal.

They shall have original and general jurisdiction of all cases in chancery, and civil cases at law, except cases at law to recover personal property or money, not of greater value than twenty dollars, exclusive of interest, except such cases as are assigned to some other tribunal; and also, in all cases for the recovery of fees, penalties or any cases involving the right to levy and collect tolls or taxes, or involving the validity of an ordinance or by-law of any corporation; and also, of all cases, civil or criminal, where an appeal may be had to the Supreme Court of Appeals.

They shall also have original jurisdiction of all presentments, informations and indictments for felonies, and for such misdemeanors as may be made cognizable therein by any statute, and of the proceedings therein.

They shall have appellate jurisdiction of all cases, civil and criminal, where an appeal, writ of error, or supersedeas may, as provided by law, be taken to or allowed by the said courts or the judges thereof, from or to the judgment or proceedings of any inferior tribunal. They shall also have jurisdiction of all other matters, civil and criminal, made cognizable therein by law: and where a motion to recover money is allowed in said courts the said court, other than under section 3200, other than under section 3211, they may hear and determine the same, although it be to recover less than twenty dollars: provided, however, that no circuit court shall have any original or appellate jurisdiction in criminal cases arising within the territorlal limits of any city wherein there is established by law a corporation or hustings court.

Section 3059. Commencement and Number of their Terms.—Unless otherwise herein provided, there shall be held in each of the cities of the Commonwealth two terms of the circuit court of such city in each year, and in each of the counties there shall be held bi-monthly terms of the circuit court of such county, four of which terms, in those counties in which more than four terms are provided, to be designated by the judge thereof, shall be known as quarterly terms, at which all civil cases for which juries may be required shall be tried. At any of the said terms all criminal and chancery causes shall be tried. But the judge of the court may, in any county in which more than five terms are provided, by an order to be entered on the common law order book of said court, omit one of the terms thereof during each year, unless the public business shall require that all of the said terms be held for the proper transaction of business.

Until otherwise provided by law, the times for holding the said terms in said cities and counties shall be as follows; provided, that any term of a circuit court for any of the counties or cities of any circuit may be continued by the judge thereof by adjournment until after the beginning of a term of the court for any other county or city of such circuit, but no term of the court shall be so continued beyond the day fixed by law for the beginning of the next regular term of the court for the county or city of the circuit whose term is so extended. [See following pages.]

CORPORATION COURTS--Continued.

(A Section from the new Constitution.)

Section 98. For the purposes of a judicial system, the cities of the State shall be divided into two classes. All cities shall belong to the first-class which contain, as shown by the last United States census or other census provided by law, ten thousand inhabitants or more, and all cities shall belong to the second-class which contain, as thus shown, less than ten thousand inhabitants. In each city of the first-class, there shall be, in addition to the circuit court, a corporation court. In any city containing thirty thousand inhabitants or more, the General Assembly may provide for such additional courts as the public interest may require, and in every such city the city courts, as they now exist, shall continue until otherwise provided by law. In every city of the second-class, the corporation or hustings court existing, at the time this Constitution goes into effect, shall continue hereafter under the name of the corporation court of such city; but it may be abolished by a vote of a majority of the qualified electors of such city, at an election held for the purpose, and whenever the office of judge of a corporation or hustings court of a city of the second-class, whose salary is less than eight hundred dollars, shall become and remain vacant for ninety days consecutively, such court shall thereby cease to exist. In case of the abolition of the corporation or hustings court of any city of the second-class, such city shall thereupon come in every respect within the jurisdiction of the circuit court of the county wherein it is situated, until otherwise provided by law, and the records of such corporation or hustings court shall thereupon become a part of the records of such circuit court, and be transferred thereto, and remain therein until otherwise provided by law; and during the existence of the corporation or hustings court, the circuit court of the county in which such city is situated, shall have concurrent jurisdiction with said corporation or hustings court in all actions at law and suits in equity.

Requirements Regarding Elective Franchise and Qualifications for Office, from the New Constitution of Virginia.

Section 18. Every male citizen of the United States, twenty-one years of age, who has been a resident of the State two years, of the county, city, or town one year, and of the precinct in which he offers to vote, thirty days, next preceding the election in which he offers to vote, has been registered, and has paid his State poll taxes, as hereinafter required, shall be entitled to vote for members of the General Assembly and all officers elective by the people; but removal from one precinct to another, in the same county, city or town shall not deprive any person of his right to vote in the precinct from which he has moved, until the expiration of thirty days after such removal.

Sec. 19. There shall be general registrations in the counties, cities and towns of the State during the years nineteen hundred and two and nineteen hundred and three at such times and in such manner as may be prescribed by an ordinance of this Convention. At such registrations every male citizen of the United States having the qualifications of age and residence required in section 18 shall be entitled to register, if he be:

First. A person who, prior to the adoption of this Constitution, served in time of war in the army or navy of the United States, of the Confederate States, or of any State of the United States, or of the Confederate States; or,

Second. A son of any such person; or,

Third. A person, who owns property, upon which, for the year next preceding that in which he offers to register, State taxes aggregating at least one dollar have been paid; or,

Fourth. A person able to read any section of this Constitution submitted to him by the officers of registration and to give a reasonable explanation of the same; or, if unable to read such section, able to understand and give a reasonable explanation thereof when read to him by the officers.

A roll containing the names of all persons thus registered, sworn to and certified by the officers of registration, shall be filed, for record and preservation, in the clerk's office of the circuit court of the county, or the clerk's office of the corporation court of the city, as the case may be. Persons thus enrolled shall not be required to register again, unless they shall have ceased to be residents of the State, or become disqualified by section twenty-three. Any person denied registration under this section shall have the right of appeal to the circuit court of his county, or the corporation court of his city, or to the judge thereof in vacation.

Sec. 20. After the first day of January, nineteen hundred and four, every male citizen of the United States, having the qualifications of age and residence required in section eighteen, shall be entitled to register, provided:

First. That he has personally paid to the proper officer all State poll taxes assessed or assessable against him, under this or the former Constitution, for the three years next preceding that in which he offers to register; or, if he come of age at such time that no poll tax shall have been assessable against him for the year preceding the year in which he offers to register, has paid one dollar and fifty cents, in satisfaction of the first year's poll tax assessable against him; and,

Second. That, unless physically unable, he make application to register in his own hand-writing, without aid, suggestion, or memorandum, in the presence of the registration officers, stating therein his name, age, date and place of birth, residence and occupation at the time and for the two years next preceding, and whether he has previously voted, and, if so, the State, county, and precinct in which he voted last; and,

Third. That he answer on oath any and all questions affecting his qualifications as an elector, submitted to him by the officers of registration, which questions,

and his answers thereto, shall be reduced to writing, certified by the said officers, and preserved as a part of their official records.

Sec. 21. Any person registered under either of the last two sections, shall have the right to vate for members of the General Assembly and all officers elective by the people, subject to the following conditions:

That he, unless exempted by section twenty-two, shall, as a prerequisite to the right to vote after the first day of January, nineteen hundred and four, personally pay, at least six months prior to the election, all State poll taxes assessed or assessable against him, under this Constitution, during the three years next preceding that in which he offers to vote; provided that, if he register after the first day of January, nineteen hundred and four, he shall, unless physically unable, prepare and deposit his ballot without aid, on such printed form as the law may prescribe; but any voter registered prior to that date may be aided in the preparation of his ballot by such officer of election as he himself may designate.

Sec. 22. No person who, during the late war between the States, served in the army or navy of the United States, or the Confederate States, or any State of the United States, or of the Confederate States, shall at any time be required to pay a poll tax as a prerequisite to the right to register or vote. The collection of the State poll tax assessed against any one shall not be enforced by legal process until the same has become three years past due.

Sec. 23. The following persons shall be excluded from registering and voting: Idiots, insane persons, and paupers; persons who, prior to the adoption of this Constitution, were disqualified from voting, by conviction of crime, either within or without this State, and whose disabilities shall not have been removed; persons convicted after the adoption of this Constitution, either within or without this State, of treason, or of any felony, bribery, petit larceny, obtaining money or property under false pretences, embezzlement, forgery, or perjury; persons who, while citizens of this State, after the adoption of this Constitution, have fought a duel with a deadly weapon, or sent or accepted a challenge to fight such duel, either within or without this State, or knowingly conveyed a challenge, or aided or assisted in any way in the fighting of such duel.

Sec. 24. No officer, soldier, seaman, or marine of the United States army or navy shall be deemed to have gained a residence as to the right of suffrage, in the State, or in any county, city or town thereof, by reason of being stationed therein; nor shall an inmate of any charitable institution or a student in any institution of learning, be regarded as having either gained or lost a residence, as to the right of suffrage, by reason of his location or sojourn in such institution.

Sec. 25. The General Assembly shall provide for the annual registration of voters under section twenty, for an appeal by any person denied registration, for the correction of illegal or fraudulent registration, thereunder, and also for the proper transfer of all voters registered under this Constitution.

Sec. 26. Any person who, in respect to age or residence, would be qualified to vote at the next election, shall be admitted to registration, notwithstanding that at the time thereof he is not so qualified, and shall be entitled to vote at said election if then qualified under the provisions of this Constitution,

Sec. 27. All elections by the people shall be by ballot; all elections by any representative body shall be *viva voce*, and the vote recorded in the journal thereof.

The ballot-box shall be kept in public view during all elections, and shall not be opened, nor the ballots canvassed or counted, in secret.

So far as consistent with the provisions of this Constitution, the absolute secrecy of the ballot shall be maintained.

Sec. 28. The General Assembly shall provide for ballots without any distinguishing mark or symbol, for use in all State, county, city, and other elections by the

people, and the form thereof shall be the same in all places where any such election is held. All ballots shall contain the names of the candidates, and of the offices to be filled, in clear print and in due and orderly succession; but any voter may erase any name and insert another.

Sec. 29. No voter, during the time of holding any election at which he is entitled to vote, shall be compelled to perform military service, except in time of war or public danger; to attend any court as suitor, juror, or witness; and no voter shall be subject to arrest under any civil process during his attendance at election or in going to or returning therefrom.

Sec. 30. The General Assembly may prescribe a property qualification not exceeding two hundred and fifty dollars for voters in any county or subdivision thereof, or city or town, as a prerequisite for voting in any election for officers, other than the members of the General Assembly, to be wholly elected by the voters of such county or subdivision thereof, or city, or town; such action, if taken, to be had upon the initiative of a representative in the General Assembly of the county, city, or town affected: provided, that the General Assembly in its discretion may make such exemptions from the operation of said property qualification as shall not be in conflict with the Constitution of the United States.

Sec. 31. There shall be in each county and city an electoral board, composed of three members, appointed by the circuit court of the county or the corporation court of the city, or the judge of the court in vacation. Of those first appointed, one shall be appointed for a term of one year, one for a term of two years, and one for a term of three years; and thereafter their successors shall be appointed for the full term of three years. Any vacancy occurring in any board shall be filled by the same authority for the unexpired term.

Each electoral board shall appoint the judges, clerks, and registrars of election for its county or city; and, in appointing judges of election, representation as far as possible shall be given to each of the two political parties which, at the general election next preceding their appointment, cast the highest and next highest number of votes.

No person, nor the deputy of any person, holding any office or post of profit or emolument, under the United States government, or who is in the employment of such government, or holding any elective office of profit or trust in the State, or in any county, city, or town thereof, shall be appointed a member of the electoral board, or registrar, or judge of election.

Sec. 32. Every person qualified to vote shall be eligible to any office of the State, or of any county, city, town, or other subdivision of the State, wherein he resides, except as otherwise provided in this Constitution, and except that this provision as to residence shall not apply to any office elective by the people where the law provides otherwise. Men and women eighteen years of age shall be eligible to the office of notary public, and qualified to execute the bonds required of them in that capacity.

Sec. 33. The terms of all officers elected under this Constitution shall begin on the first day of February next succeeding their election, unless otherwise provided in this Constitution. All officers, elected or appointed, shall continue to discharge the duties of their offices after their terms of service have expired until their successors have qualified.

Sec. 34. Members of the General Assembly and all officers, executive and judicial, elected or appointed after this Constitution goes into effect, shall, before they enter on the performance of their public duties, severally take and subscribe the following oath or affirmation:

"I do solemnly swear (or affirm) that I will support the Constitution of the United States, and the Constitution of the State of Virginia, ordained by the Con-

vention which assembled in the City of Richmond on the twelfth day of June, nineteen hundred and one, and that I will faithfully and impartially discharge and perform all the duties incumbent on me as ————————, according to the best of my ability; so help me God."

Sec. 35. No person shall vote at any legalized primary election for the nomination of any candidate for office unless he is at the time registered and qualified to vote at the next succeeding election.

Sec. 36. The General Assembly shall enact such laws as are necessary and proper for the purpose of securing the regularity and purity of general, local and primary elections, and preventing and punishing any corrupt practices in connection therewith; and shall have power, in addition to other penalties and punishments now or hereafter prescribed by law for such offences, to provide that persons convicted of them shall thereafter be disqualified from voting or holding office.

Sec. 37. The General Assembly may provide for the use, throughout the State, or in any one or more counties, cities, or towns in any election, of machines for receiving, recording, and counting the votes cast thereat: provided, that the secrecy of the voting be not thereby impaired.

Sec. 38. After the first day of January, nineteen hundred and four, the treasurer of each county and city shall, at least five months before each regular election, file with the clerk of the circuit court of his county, or of the corporation court of his city, a list of all persons in his county or city, whe have paid not later than six months prior to such election, the State poll taxes required by this Constitution during the three years next preceding that in which such election is held; which list shall be arranged alphabetically, by magisterial districts or wards, shall state the white and colored persons separately, and shall be verified by the oath of the treasurer. The clerk, within ten days from the receipt of the list, shall make and certify a sufficient number of copies thereof, and shall deliver one copy for each voting place in his county or city, to the sheriff of the county or sergeant of the city, whose duty it shall be to post one copy, without delay, at each of the voting places, and, within ten days from the receipt thereof, to make return on oath to the clerk, as to the places where and dates at which said copies were respectively posted; which return the clerk shall record in a book kept in his office for the purpose; and he shall keep in his office for public inspection, for at least sixty days after receiving the list, not less than ten certified copies thereof, and also cause the list to be published in such other manner as may be prescribed by law; the original list returned by the treasurer shall be filed and preserved by the clerk among the public records of his office for at least five years after receiving the same. Within thirty days after the list has been so posted, any person who shall have paid his capitation tax, but whose name is omitted from the certified list, may, after five days' written notice to the treasurer, apply to the circuit court of his county, or corporation court of his city, or to the judge thereof in vacation, to have the same corrected and his name entered thereon, which application the court or judge shall promptly hear and decide.

The clerk shall deliver, or cause to be delivered, with the poll-books, at a reasonable time before every election, to one of the judges of election of each precinct of his county or city, a like certified copy of the list, which shall be conclusive evidence of the facts therein stated for the purpose of voting. The clerk shall also, within sixty days after the filing of the list by the treasurer, forward a certified copy thereof, with such corrections as may have been made by order of the court or judge, to the Auditor of Public Accounts, who shall charge the amount of the poll taxes stated therein to such treasurer unless previously accounted for.

Further evidence of the prepayment of the capitation taxes required by this Constitution, as a prerequisite to the right to register and vote, may be prescribed by law.

AN ACT

To prescribe the manner in which a duly registered voter who has not been assessed with his State Capitation Tax, may pay the same, and to prescribe penalties for a failure on the part of clerks and treasurers to observe the provisions of this act.

Became a law without the Governor's signature, December 4, 1903.

1. Be it enacted by the General Assembly of Virginia, That if any duly registered voter in any city or county in this Commonwealth apply to the treasurer of such city or county to pay his State capitation tax, and such treasurer is prevented from receiving such tax because the same has not been assessed against such applicant, such duly registered voter may thereupon apply to the county clerk of his county, or the clerk of the corporation or hustings court of his city, as the case may be, for a certificate that he is a duly registered voter. The clerk shall deliver such certificate to the applicant forthwith and deliver a copy thereof to the commissioner of the revenue, and upon presentation of such certificate to the treasurer of the county or city the treasurer shall accept payment of such State capitation tax from such voter and give a receipt therefor. The clerk issuing any such certificate shall keep a correct record of all that are issued by him and transmit a copy thereof to the Auditor of Public Accounts prior to the first day of June of each year; and the Auditor of Public Accounts shall charge the respective treasurers with such moneys as appear from the reports of the respective clerks to have been paid to such treasurers for State capitation taxes under the provisions of this act; and the Auditor of Public Accounts shall require a settlement for such State capitation taxes of each treasurer in the manner as is required by law for a settlement of moneys received for other taxes assessed by the commissioner of the revenue. If any clerk or treasurer shall fail to perform the duties required of him by this act he shall be fined not less than one hundred dollars nor more than one thousand dollars for each failure.

2. This act shall be in force from its passage.

XANTHINE! Prof. Hertz Great German HAIR RESTORATIVE.

One Beautiful Feature is a Constant Joy to its Possessor.

Why not Have Beautiful Hair ?

Just a little Xanthine now and then stops the disagreeable itching and dandruff, and if the hair is gray, faded, or not in good condition, restores the original color and lustre, and produces rapid and luxuriant growth. NEVER FAILS. Not a dye. Absolutely reliable. Nothing else will give you satisfaction. Highest testimonials.

From Rev. Chas. H. Read, D. D., Pastor Grace Street Presbyterian Church, Richmond, Va.—"For several years I have used no other Hair Dressing than the Xanthine, which had been warmly recommended to me by a friend who had tested its value. It has, in my experience, accomplished all that is claimed for it as a wholesome preserver and restorer of the natural color of the hair, and a thorough preventative of dandruff."

It is said that Napoleon was defeated at the battle of Waterloo owing to an attack of Indigestion. John Bunyan pictured the "Slough of Despond" when in its throes. John D. Rockefeller, the richest man in the world, is a great sufferer, and if we look into it we will see most cases can be traced to worry and anxiety (often imaginary), and we are fast becoming a nation of rush and worry, giving little time to our health, though it is our best business asset, and pleasure is hard to find without it. Like machinery, we need attention, or we break down; our liver and other digestive organs become torpid and inactive; result, Nervousness, Flatulency, Heart-Burn, Sour-Stomach, Sick Headache, Depressed Spirits and Ambitions; Biliousness, Numbness, and other symptoms of that greatest of all enemies of American health to-day—Indigestion.

Remember "a stitch in time saves nine" and $5.00 worth of

I suffered with an awful bad case of Chronic Indigestion and Diarrhoea, and was in a bad plight, having tried many remedies and best city physicians in vain, when I used your medicine, and it has permanently cured me.

LOUIS BRAUNSTIEN, Cor. 12th and G Sts., S. E., Washington, D. C.

It has cured my mother of a 20 years' standing case of Indigestion, and she is a picture of health and able to do her work, though she is 70 years old.

CAPT. PETER SMITH, Suffolk, Va.

After suffering with a bad case of Indigestion (nervous) for years, and nothing I could get for it seemed to do me any good, when I used your Kellum's Sure Cure, and it cured it and permanently after 6 months.

MRS. R. D. NEWSOM, Emporia, Va.

Your medicine relieved a miserable case of Indigestion and Stomach Trouble for me, and it seems to be permanent after 4 months.

A. B. ARMSTRONG, Attorney, Farmville, Va.

I find it a Panacea for Flatulency and Sour-Stomach, and know of others who speak of its wonderful cures in highest praise.

WHISKEY AT HALF PRICE

A Direct Appeal to the Man Who is Anxious to Secure for Once in His Life—A Keg of Whiskey as Pure as Spring Water. We refer forcibly to our brand known on the market under the pseudo name of **"Moonshine."** We will sell this whiskey in any quantity, but our prime object is to place with you just one sample 5 gallon keg, and when your friends test the **exquisite quality,** we know that many orders will follow.

We propose to furnish this whiskey encased in a rustic hand-made wooden-hooped keg.

OUR BIG OFFER

The regular price on this high class whiskey is $3.00 per gallon, but to get you started on an honest article, we will furnish **One 5 Gallon Keg as described, securely boxed and all charges prepaid, for $10.00, and will put you in FREE one handsome lettered decanter with ground glass stopper, and also 25 small bottles of "Moonshine" to donate to your friends as an advertisement for us.**

"Moonshine" is a whiskey without a vestige of headache—a whiskey of conscience— a whiskey of pride, and it satisfies! It is offered to you with the distinct understanding that it is a **purer** whiskey, a **riper** whiskey, a **pleasanter** whiskey to drink—richer, smoother and more delicate in flavor than **any** whiskey that can be bought from **any** concern, under **any** circumstances, at **any** time, or for **any** price! This is a bold assertion, made so purposely, with full knowledge of the facts. **We mean it.** We are prepared to stand or fall by it. We bar no man's whiskey. It is for you to put our statement to the test. **Send order with remittance to**

TIME OF THE ALMANACK.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude 37° 32′ 21″ N., and in Longtitude 77° 25′ 35″ W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made neccessary by the adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change, so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of longitude makes a difference of 4 minutes, and that in this latitude a degree of longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east, and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes; Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

Morning and Evening Stars for 1905.

The Planet Venus (♀) will be Evening Star until April 27th and then Morning Star the balance of the year.

The Planet Mars (♂) is Morning Star until May 8th after which date he is Evening Star to end of year.

The Planet Jupiter (♃) begins as Evening Star and continues as such until May 4th, after which date he is Morning Star until November 24th, and then Evening Star the rest of the year.

The Planet Saturn (♄) is Evening Star until February 12th, then Morning Star until August 23rd, after which date it is Evening Star to end of year.

Table for Foretelling the Weather Throughout Each Year.

If the New Moon, First Quarter, Full Moon or Last Quarter, Happens—	In Summer.	In Winter.
Between midnight and 2 o'clock...	Fair.....	Frost unless wind S. W.
" 2 and 4 morning.....	Cold and showers...	Snow and stormy.
" 4 and 6 "	Rain.....	Rain.
" 6 and 8 "	Wind and rain	Stormy.
" 8 and 10 "	Changeable.....	Cold rain if wind W., snow if E.
" 10 and 12 "	Frequent showers...	Cold and high wind.
" 12 and 2 afternoon	Very rainy	Snow or rain.
" 2 and 4 "	Changeable.....	Fair and mild.
" 4 and 6 "	Fair	Fair.
" 6 and 8 "	Fair if wind N. E...	Fair and frosty if wind N., or N. E.
" 8 and 10 "	Rainy if S. or S. W..	Rain or snow if S., or S. W.
" 10 and midnight.....	Fair	Fair and frosty.

OBSERVATIONS.

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.
2. The space for this calculation occupies from ten at night till two next morning.
3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.
4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.
5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.

WEATHER SIGNALS.

No. 1. White Flag. Clear or fair.

No. 2. Blue Flag. Rain or snow.

No. 3. White and Blue Flag. Local Rains.

No. 4. Black Triangular Flag. Temperature.

No. 5. White Flag with black square in centre. Cold Wave.

No. 1, white flag, indicates clear or fair weather. No. 2, blue flag, indicates rain or snow. No. 3, white and blue flag (parelled bars of white and blue), indicates that local rains or showers will occur, and that the rainfall will not be general. No. 4, black triangular flag, refers to temperature; when placed above Nos. 1, 2 or 3 it indicates warmer weather; when placed below Nos. 1, 2 or 3 it indicates colder weather; when not displayed, the indications are that the temperature will remain stationary, or that the change in the temperature will not vary more than 6° from the temperature of the same hour of the preceding day, from June to September, inclusive, and not more than 10° from December to March, inclusive, and not more than 8° for the remaining months of the year. No. 5, white flag with black square in centre, indicates the approach of a *sudden* and *decided* fall in temperature, and is usually ordered at least twenty-four hours in advance of the cold wave. When No. 5 in displayed No. 4 is always omitted.

When displayed on poles, the signals should be arranged to read downward; when displayed from horizontal supports, a small streamer should be attached to indicate the point from which the signals are to be read.

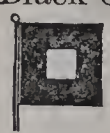

The time covered by displays is from 8 P. M. of the day hoisted to 8 P. M. of the following day.

Interpretation of Displays.

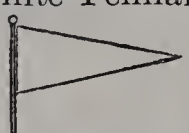

No. 1, alone, indicates fair weather, stationary temperature.
No. 2, alone, indicates rain or snow, stationary temperature.
No. 3, alone, indicates local rain, stationary temperature.
No. 1, with No. 4 above it, indicates fair weather, warmer.
No. 1, with No. 4 below it, indicates fair weather, colder.
No. 2, with No. 4 above it, indicates warmer weather, rain or snow.
No. 2, with No. 4 below it, indicates colder weather, rain or snow.
No. 3, with No. 4 above it, indicates warmer weather with local rains.
No. 3, with No. 4 below it, indicates colder weather with local rains.
No. 1, with No. 5 below it, indicates fair weather, cold wave.
No. 2, with No. 5 below it, indicates wet weather, cold wave.

Storm and Wind Signals.

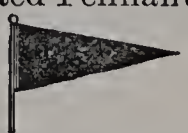

Red, Black Centre. Storm.

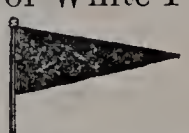

White Pennant. Westerly Winds. When displayed in connection with storm signal.

Red Pennant. Easterly Winds. When displayed in connection with storm signal.

Red or White Pen't. Information Signal. When displayed alone.

A red flag with a black centre indicates that a violent storm is expected.

The pennants displayed with the flags indicate the direction of the wind; red, easterly (from the northeast to *south*); white, westerly (from southwest to north.) The pennant *above* the flag indicates that the wind is expected to blow from the northerly quadrant; *below*, from the southerly quadrant.

A healthy milch cow in full flow of milk will drink and requires from 65 to 100 lbs. per diem. It is utterly impossible to get one to take one-half or even one-quarter of ice water, nor will they drink the ice water or cold water with any regularity.

Editor of the
Warrock-Richardson Almanack,
Dear Sir:-

Believing that your valuable Almanack is read by many thousands of our best and most thrifty citizens of various occupations, I desire to state to them through its columns that if any one of them is considering the important question of insuring his life, and will write to me on the subject, stating his date of birth, address, and mentioning this Almanack, I will gladly give him all the information he desires.

I feel assured from a long experience in the insurance business that your readers will do best for themselves and their families by taking a policy in this company. (If the man or woman now reading this letter wants insurance for protection, for investment, or for both combined, he should write the undersigned at once; do not delay.)

Yours very truly,

ANALYSES OF THE GAME LAWS OF VIRGINIA—CLOSE SEASON.

This is a careful analyses of Game Laws of Virginia in reference to hunting, and embraces all legislation, including the session of 1902-3.

Approved May 14, 1903.

Be it enacted by the General Assembly of Virginia, That chapter ninety-five of the Code of Virginia, eighteen hundred and eighty-seven, be amended and re-enacted so as to read as follows:

Section 2070 (*a*). When and how unlawful to hunt, etcetera.—1. It shall be unlawful for any person to shoot at, kill or capture any wild water fowl or wild turkey at any time during the night in this State, or at any time to capture them in traps or nets or other contrivances, or to use reflectors or other lights, or sneak boats or artificial islands in detecting or capturing or shooting of wild fowl or game of any kind, or to hunt or shoot muskrats at night with a light in the Tide-water sections of the State, or to shoot at any game on land or water in this State with a gun larger than an eight bore. All sneak boats, nets, traps or reflectors or other unlawful appliances so used or found in the possession of any person shall be seized by any game warden or other officer and held by him as evidence, but the same shall not be destroyed except by the order of the court or justice having jurisdiction, upon warrants duly issued, which said court or justice shall, upon satisfactory evidence of the guilt of the party, or of the unlawful nature of the article seized, order the same to be destroyed. The possession of any of said guns, sneak boats, nets, traps, reflectors or other unlawful appliances shall be *prima facie* evidence of the guilt of the person in whose possession they are found.

2. It shall be unlawful for any person to hunt, kill, or capture in any manner, or buy, offer for sale, or have in possession any wild turkeys, pheasants, or grouse, quail or partridges or woodcock east of the Blue Ridge Mountains between February the first and November the first, and west of the Blue Ridge Mountains between December the thirty-first and November the first, or to track or hunt any of them in snow except wild turkeys, or to trap or net them at any time, or to destroy their nests, eggs or young at any time, or kill, chase or capture, or buy, offer for sale, or have in possession any wild deer between January the first and October the first, or to track or hunt them in snow, or to kill or capture, or buy, offer for sale, or have in possession, any winter wild water fowl between April the first and October the fifteenth, or summer or wood ducks between January the first and August the first, or any rails, mud hens, gallinules, plovers, surf birds, snipe, except Wilson or English snipe, sand pipers, willets, tattlers, or curlews, between January the first and July twentieth, or robins between April the first and February fifteenth. The possession of any of said game birds or game animals, or parts thereof, protected by the laws of this State, during the season in which it is unlawful to hunt, kill, chase or capture the same, shall be *prima facie* evidence of the guilt of the party in whose possession they are found.

3. It shall be unlawful to shoot or otherwise hunt any wild water fowl or any game birds or game animals protected by the laws of this State later lhan half an hour after sunset or earlier than an half an hour before sunrise, or to shoot or hunt any game in this State on Sunday.

4. Any person violating any of the provisions of this section shall be deemed guilty of a misdemeanor, and shall be punished by a fine of not less than five nor more than fifty dollars, or imprisoned in jail for not more than thirty days, or both fined and imprisoned, at the discretion of the justice or jury trying the case.

5. All acts or parts of acts in conflict with this section are hereby repealed, but the Board of Supervisors of any county shall have the power to shorten the open season in their said county and may permit the shipment of wild water fowl from said county or out of the State, and by regulations, not inconsistent with the provisions of this section, may further protect the game within their said county.

6. Nothing in this section shall be construed to refer to the bird known as sora.

Sec. 2070 (*b*). Game wardens, their appointment, duties, etc.—1. It shall be the duty of the city or corporation courts of the cities, or the judges thereof in vacation, on the application of five resident freeholders of any city to appoint two wardens, whose jurisdiction shall be confined to their respective cities and where the Board of Supervisors of any county shall, by resolution of record in the minutes of said board, request the judge of the Circuit Court cf said county so to do; the said judge shall, upon the application of five resident freeholders of any magisterial district in said county appoint one suitable person in such magisterial district as game warden, whose jurisdiction shall be confined to said magisterial district where the said appointment is made by the judge in vacation, he shall certify the same to the clerk of his court, who shall enter the same in the order book of his court in the same manner as if made in term.

2. The said wardens shall hold office for the term of four years from the date of their appointment, unless sooner removed from office, and shall qualify according to law.

3. It shall be the duty of said wardens to enforce all statutes of this State, and of the United States, now in force or hereafter to be enacted for the protection and propogation of wild water fowl, game birds and game animals or song or insectivorous birds. The said wardens shall have power and it shall be their duty, to arrest any person detected by them in the act of violating any of the aforesaid laws, or any person against whom a warrant shall have been duly issued upon the information of any other person for such violation, and forthwith to carry such person before a justice or court having jurisdiction over the offence, who shall proceed without unreasonable delay to hear, try and determine the charge against such person. No game warden shall have any right under this act to go upon the land of another person without the consent of such other person until and unless such game warden shall have procured a search warrant in conformity with the provisions of subsection five of this section, or shall have a warrant for the arrest of some person thereon: provided, however, that such game warden may, without a warrant, arrest any person who violates any of the provisions of this chapter in the presence of such game warden, and should any person violate any of the provisions of this chapter in the presence of such game warden,

such game warden may lawfully follow such person anywhere in the effort to arrest.

4. The several commanders of the oyster police boats of this Commonwealth are hereby constituted game wardens of this State, whose jurisdiction as such wardens shall extend over the lands and waters of this Commonwealth within their several jurisdictions as commanders. They shall enforce the statutes of this State and of the United States for the protection of game or other animals or birds protected by law, and render report to the Board of Fisheries of all prosecutions, and the said Board of Fisheries shall publish the same in their annual report as information. The commanders of the said oyster police boats shall receive no additional compensation for the performance of these duties. Except that in case of conviction they may receive the fee provided for in subsection eight of this section.

5. Any court judge or justice having jurisdiction over the offense, if satisfied upon affidavit that there is reasonable cause to believe that any wild water fowl, game birds, game animals or song or insectiverous birds, or parts thereof caught, taken, killed, shipped, or about to be shipped, or in transit, contrary to the laws of this State, or of the United States, are being concealed or stored in any place, shall issue a search warrant and cause search therefor to be made in any such place, and to that end may, after demand and refusal, cause any building, enclosure or car to be entered, and any apartment in which it is believed that game is concealed to be examined by any of said wardens or other officers executing the warrant; provided, that the issuance and execution of such search warrants shall be in accordance with the issuance and execution of search warrants in other cases as provided by law.

6. All game animals, wild water fowl and birds, protected by law, or parts thereof, found under such warrant, shall be seized by the warden or other officer making the search, and shall be disposed of as the court, judge or justice having jurisdiction may direct. All guns, gunning or hunting appliance found in such search shall be seized by said warden or other officer, and held subject to the payment of the fine prescribed by law for the offense charged and the cost of prosecution. If any of the articles so found be such as are not authorized by law they shall, upon the order of the court, judge or justice having jurisdiction, be destroyed, and all other of such articles shall be sold at public auction after the lapse of twenty days from the time of seizure, and after such notice as the court, judge or justice having jurisdiction, may prescribe, unless the reputed owner appears and acquits himself of the charge or pay the fine that may be imposed by the court, judge or justice.

7. Any person or persons interfering with any of said game wardens in the discharge of their duty, or resisting lawful arrest, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be fined not less than five dollars nor more than fifty dollars.

8. All fines and penalties imposed and collected under the provisions of this chapter shall be paid to the Commonwealth, and in addition to said fines and penalties, there shall be assessed against the offender in every case of conviction under the provisions of this chapter a fee of two dollars and fifty cents, which shall be collected as fines are collected under the general provisions of law and be paid to the warden who shall secure the conviction.

9. If any warden appointed under this section shall refuse or wilfully neglect to prosecute any person violating any of its provisions, or any of the laws of this State relating to wild water fowl, game birds or game animals, or song or insectiverous birds, his appointment shall be revoked by the court having jurisdiction, and such warden shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined not exceeding twenty dollars, and the vacancy thus created shall be filled by the court or judge in vacation.

10. All money paid to or collected by clerks of courts as hunting licenses shall constitute a fund for the payment of the said regularly appointed game wardens of this State as herein provided, and the clerk shall, after deducting a fee of fifty cents for issuing such license, on first of April of each year, pay in equal amounts to the said warden or wardens of his county such sum as may be in his hands arising from the issuance of such licenses; provided, that no one warden shall receive more from this source than three hundred dollars in any one year, and shall make return to his court a detailed statement of such receipts and disbursements; provided, that in the counties of Accomac and Northampton the Circuit Court for

said counties shall appoint, on the recommendation of the Eastern Shore Game Protective Association, the game wardens of the said counties, who shall make report at regular intervals to said association, as its laws shall provide, and the said clerks of the court of said counties upon the order of said association, shall distribute among the game wardens for said counties, or as may have been agreed upon by contract between the said association and said wardens, or in proportion to the services, which, in their judgment, have been rendered by them, respectively, the fund arising from the license of non-residents provided for in this chapter, or so much thereof as may be necessary. Should there be any surplus remaining after providing an efficient system of game protection in said counties from the license of non-residents above mentioned, said association may use it for restocking said county with game. The clerk shall pay to the treasurer of said association such sums as may be thus expended, paying any amounts not needed for the purpose above mentioned to the Auditor of Public Accounts, as provided in section twenty hundred and seventy *c*

Section 2070 (*c*). Non-residents to obtain nunting licenses: when and how game may be exported, etcetera.—1. It shall be unlawful for any person, not a resident of this State, to hunt or kill wild water fowl, wild turkeys, pheasants or grouse, woodcock, partridges, quail or other game birds, or deer, within this State until he shall have first secured a hunting license as hereinafter provided; provided, however, that the non-resident children of resident owners of land in this State, shall be allowed to hunt on the lands of his parents as though he were resident of this State, and the non-resident guest of a resident land owner shall be allowed to hunt on the lands of his host as though he were a resident of this State, when accompanied by said host, or a member of his host's family; provided, said host receives no compensation directly or indirectly from said guest.

2. Upon the personal application of any non-resident to the clerk of the Circuit Court of any county in which he first begins to hunt, such clerk shall, upon the payment of ten dollars, issue to such non-resident a hunting license, using a form to be prescribed by the Auditor of Public Accounts for that purpose, entitling him to hunt and kill wild water fowl, deer, wild turkeys, pheasants or grouse, woodcock, partridges, quail, and other game birds during the open season in the six months next following, and subject to any restrictions now existing against or which may hereafter be imposed upon residents of this State. The clerk shall retain fifty cents as his fee for issuing such license, and the residue he shall account for to the Auditor of Public Accounts, unless otherwise provided for by law. Such license shall not be transferable.

3. It shall be unlawful, except as hereinafter provided, to ship or transport, or to cause to be shipped or transported, from this State, whether alive or dead, water fowl, deer, wild turkeys, pheasants or grouse, woodcock, partridges, quail, or other game birds, or any deer or vension, killed or captured within this State, nor shall the same be killed, captured or possessed with intent to ship or transport from this State.

4. Any person authorized to hunt under the laws of this State may, during the open season, take with him out of the State, either in his personal possession or as his baggage, on the same conveyance with him, not in a closed package, but exposed to view, not exceeding thirty wild water fowl, fifty quail or partridges, ten pheasants or grouse, three wild turkeys, one deer, or plovers, snipe, sand-pipers, willets, tattlers or curlew, not exceeding twenty-five of each or not exceeding one hundred in the aggregate, when lawfully killed or captured by himself; provided, the same be plainly labelled or tagged with the name and address of such person: and any citizen of this State may, during the open season, ship or have transported from this State, as a gift and not for market or sale, so stating on the shipping tag, one deer during the season, and not exceeding three wild turkeys, six pheasants, twelve wild water fowls, eighteen partridges or quail; provided, that such game shall be shipped exposed to public view and unconcealed, and each parcel or package shall be plainly labelled or tagged with the name and address of the donor and of the donee, and that number of each of such game so shipped. This section shall not apply to sora or rabbits or hares.

5. It shall be deemed a violation of this section for any person to deliver any of the game herein mentioned to any common carrier or person for shipment or transportation out of the State, or for any common carrier or person to carry or transport or receive for shipment or transportation of any such game in any other manner than is provided in this section.

(Virginia, in prohibiting the exportation of game, makes the violator of the law in this State also amenable to the United States law, under what is known as the Lacy act; also the person who receives the game in any other States, as well as the common carrier, each are liable to a fine of not exceeding $200.)

6. Nothing in this section shall be construed to prevent common carriers from carrying or transporting any of the game herein mentioned in unbroken packages from beyond the confines of this State through the same to some point in another State

7. Any person or corporation violating any provision of this section shall be guilty of a misdemeanor and be liable to a fine of fifty dollars for each offense, or imprisoned in jail for not exceeding sixty days.

8. No person charged with an offense under this section shall within the meaning thereof be deemed a resident of this State who shall not have resided within the limits of the State twelve months next preceding the time when the alleged offense was committed, unless he shall have, *bona fide* taken up his residence in this Commonwealth, and has his *bona fide* domicile therein, and in any prosecution for such offense the burden of proof as to residence shall be upon the defendant.

Section 2071. Unlawful hunting, trespassing, etcetera, on another's lands.—If any person without the consent of the owner or tenant, shoot, hunt, range, fish, trap or fowl on or in the lands, waters, mill ponds or private ponds of another, which are enclosed, or the boundaries of which are the streams adjacent to which constitute a lawful fence, or on any lands, waters, mill ponds or private ponds of another, east of the Blue Ridge Mountains, or in the waters on said land, he shall be deemed guilty of a trespass, and upon conviction thereof shall be fined not less than five dollars nor more than fifty dollars, and in addition thereto shall be liable in an action for damages; and if any person, after being warned not to do so by the owner or tenant of any premises, shall go upon the lands of the said owner or tenant, he shall, in addition to the liabilities imposed under this section, be deemed guilty of a misdemeanor, and upon conviction thereof, punished by a fine not exceeding fifty dollars or imprisoned in the county jail not exceeding sixty days, or both, in the discretion of the justice or jury trying the case.

Section 2072. In certain counties.—If any person shoot, hunt, range or fowl on the lands or in the water courses comprehended within the survey of any proprietor of lands in the counties of Alexandria, Fairfax, Prince William, Stafford and King George, and within five miles of navigable tidewater, without license in writing from the owner or tenant of said lands, he shall, besides being liable to such owner or tenant in an action for damages, forfeit to the informer three dollars for the first offense, six dollars for the second offense, and nine dollars for each succeeding offense, the forfeiture in each case to be double if the offense be committed in the night or on Sunday; and he shall likewise forfeit to the informer in each instance his boat or other means of conveyance, his guns, dogs and all his shooting and hunting apparatus used in the commission of the offense and be liable for all costs and expenses incurred in apprehending and prosecuting him for the recovery of said forfeiture.

Section 2073. Punishment of offenders.—Any person violating either of the two preceding sections may be arrested, and the property forfeited under the last section may be seized with or without warrant by any sheriff or constable or any game warden of the Commonwealth within their respective jurisdictions and held to await judgment. The offender shall be carried before a justice of the county in which the offense was committed, and a report be made to him of the property, if any, seized. The justice shall proceed to try the case and give judgment thereon. If judgment be rendered against the offender, it shall be for the forfeitures, pecuniary and otherwise, and the costs and expenses incurred and any property seized, adjudged to be forfeited, shall be delivered to the person entitled to the forfeiture in part satisfaction of the judgment. If the offender does not satisfy the judgment in full, the justice shall commit him to jail for one month, unless such satisfaction be sooner made. If the offender be acquitted, any property seized shall be released.

Section 2074. Proceeding when convicted a third time.—If a person be convicted a third time of any of the offenses mentioned in this chapter, the justice rendering judgment therefor shall require him to give a recognizance, with sufficient surety, for his good behavior for a year; and if he fail to give such surety commit him to jail for one month, unless he sooner give it. Such recognizance shall be

Section 2078. Damages for shooting or killing tame deer.—If any person shoot or kill a tame deer having a bell or collar on its neck, he shall pay to the owner the value of such deer.

Section 2079. Concerning the protection of certain wild birds other than game birds, their nests and eggs.—It shall be unlawful at any time to kill or capture the turkey buzzard, or black buzzard, or to kill or ship alive out of the State the mocking bird, or kill or capture the thrush, gold finch, oriole, wren, rain crow, cardinal or red bird, wood robin, blue bird, martin, starling, or any wild bird other than the game birds herein named, or to destroy their nests or eggs, or to purchase or offer for sale any such wild bird after it has been killed or caught, or any part thereof, and the possession or sale, or offering for sale, in this State of any bird so protected shall be *prima facie* evidence of guilt; provided, that nothing herein contained shall be construed to apply to the English sparrow, owl, hawk, eagle, crow, crow black bird, rice bird, Wilson or English snipe, robin-snipe.

Section 2080. Penalties for violating preceding section.—If any person violate any of the provisions of the preceding section he shall be guilty of a misdemeanor, and shall be fined not less than two dollars nor more than twenty dollars, and imprisoned in jail until the fine is paid, but not exceeding thirty days.

Sections twenty hundred and seventy-five, twenty hundred and seventy-six, twenty hundred and seventy-seven, twenty hundred and eighty-one, and twenty hundred and eighty-two of the Code of Virginia, and an act entitled an act to prevent the extermination of partridges (or quail) in the State of Virginia, approved January twenty-seventh, eighteen hundred and ninety-six, as amended by an act entitled "an act to amend and re-enact sections one and four of an act entitled an act to prevent the extermination of partridges (or quail) in the State of Virginia," approved January twenty-seventh, eighteen hundred and ninety-six, in force since December fifteenth, eighteen hundred and ninety-seven, and all other acts or parts of acts in conflict with the provisions of this chapter as hereby amended and re-enacted are hereby repealed; provided, that nothing in this act shall be construed as repealing a special act, approved March 8, 1902, restricting the shooting of wild water fowl in Back bay and its tributaries in the county of Princess Anne.

This act shall be in force from its passage.

The above act does not repeal local county laws relating to rabbits or hares. From the most accurate information obtainable, the following are the open seasons in the counties named: Accomac, Northampton, Northumberland, November 15th to January 15th; Alexandria, October 1st to January 1st; Amelia, Charlotte, Greenesville, Spotsylvania, Sussex, October 1st to February 1st; Buckingham, Cumberland, October 15th to February 15th; Caroline, Essex, Hanover, Henrico, King William, Albemarle, Mecklenburg, November 1st to February 1st; Chesterfield, September 1st to February 1st; Culpeper, Orange, November 15th to January 15th; Elizabeth City, Norfolk county, November 15th to February 1st; Fairfax, Fauquier, Loudoun, Frederick, Roanoke, November 1st to January 1st; Halifax, October 15th to February 1st; Nottoway, September 1st to January 1st; Shenandoah, November 1st to March 1st; Stafford, September 15th to February 15th; James City, York, November 15th to February 15th; Nansemond, October 15th to March 1st.

Halifax appears to be the only county having a "possum" law; the open season is fixed from October 15th to February 1st.

In the following counties, Mongolian, or imported pheasants are not allowed to be killed: Albemarle, Alleghany, Bath, Bedford, Culpeper, Highland, Louisa, Montgomery, Orange, Rockingham.

Augusta and Rockbridge not until after November 1, 1904.

Partridges are not permitted to be carried out of some of the counties. Page, Rappahannock, Sussex and Henry, have a county non-export law, and there may be others.

UNITED STATES POSTAGE LAWS.

[Corrected for this ALMANACK by WRAY T. KNIGHT, Postmaster, Richmond, Va.]

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

First-Class Matter.

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment to printed matter under class three.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents. Nothing must be added or attached to a postal card, except that a printed address slip may be pasted on the address or message side. The addition of anything else subjects the card to letter postage. A card containing any offensive dun or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be conclusively a part of the address and therefore permissible. Cards that have been spoiled in printing or otherwise will be redeemed at 75 per cent. of face value. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each. Cards must not exceed the size of 3½ by 5½ inches or be smaller than 2 15-16x4 15x16 inches in dimensions. Their quality must be substantially that of the government postal cards and weigh about six pounds three ounces to the thousand. Their color may be white, cream, light gray, or light buff. The cards must bear on the address side, in print, the words, "Post Card—Authorized by Act of Congress of May 19, 1898." When prepared for sale they should also bear in the upper right-hand corner of the address side a diagram with the words, "Place a one-cent stamp here;" and in the lower left-hand corner the printed words, "This side is exclusively for the address."

The message on the cards may be in writing or print, and there may also appear on the message side advertisements, illustrations, or other matter, printed either in black or colors. And there must be attached to every card mailed a one-cent adhesive postage stamp. These cards cannot be mailed to foreign countries, except at the letter rate of postage.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. An ordinary ten-cent stamp affixed to a letter will not entitle it to special delivery. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

Prepaid letters will be forwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

Second-Class Matter.

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents, and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the buletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Such Christmas, New Years, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery ten-cent stamps are affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

Third-Class Matter.

Mail matter of the third-class includes printed books, pamphlets, engravings, circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery stamps are affixed in addition to the regular postage.

Upon matter of the third-class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

Fourth-Class Matter.

Fourth-class matter is all mailable matter not included in the three preceding classes, which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. It embraces merchandise and samples of every description, and coin or specie.

Rate of postage, one cent for each ounce or fraction thereof (except seeds, roots, bulbs, cuttings, scions, and plants, the rate on which is one cent for each two ounces or fraction thereof.) This matter must be fully prepaid, or it will not be forwarded. The affixing of special delivery ten-cent stamps in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, sugar, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad order will not be forwarded in any case.

Firearms may only be sent in detached parts.

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tight-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is not exceeding four ounces, liquid measure.

Limit of weight of fourth-class matter (excepting liquids), four pounds.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to

Registration.

All kinds of postal matter may be registered at the rate of eight cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed $25.00 for any one registered piece or the actual value of the piece if it is less than $25.00—shall be paid for the loss of first-class registered matter.

Domestic Money Orders.

Domestic money orders are issued by money-order postoffices for any amount up to $100, at the following rates:

For sums not exceeding $2.50, 3 cents; over $2.50, to $5, five cents; over $5 to $10, eight cents; over $10 to $20, ten cents; over $20 to $30, twelve cents; over $30 to $40, fifteen cents; over $40 to $50, eighteen cents; over $50 to $60, twenty cents; over $60 to $75, twenty-five cents; over $75 to $100, thirty cents.

Stamped Envelopes.

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.
2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.
3. All periodicals sent to subscribers within the county where printed.
4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.
5. The Vice-President, Members and Members-elect, and Delegates and Delegates-elect to Congress may frank any mail matter, not over two ounces in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

THE LAW IN VIRGINIA IN REGARD TO WILLS.

Who may execute a will? A valid will may be made by any person of sound mind and lawful age (twenty-one years)) except that minors eighteen years of age and upwards, may, by will, dispose of personal estate. A married woman may, since the Act of Assembly of March 7, 1900, dispose of all her property, both real and personal, as if she were unmarried, subject, of course, to the curtesy right of the husband.

How is a will made? No will shall be valid unless it be in writing and signed by the testator, or by some other person in his presence and by his direction, in such manner as to make it manifest that the name is intended as a signature; and, moreover, unless it be wholly written by the testator, the signature shall be made or the will acknowledged by him in the presence of at least two competent witnesses, present at the same time, and such witnesses shall subscribe the will in the presence of the testator.

What are the widow's rights as to dower and jointure? Sec. 2267. A widow shall be endowed of one-third of all the real estate whereof her husband or any other to his use, was, at any time during the coverture, seized of an estate of inheritance, unless her right to such dower shall have been lawfully barred or relinquished.

Sec. 2268. When a husband, or any other to his use shall have been entitled to a right of entry or action in any land, and his widow would be entitled to dower out of the same, if the husband or such other had recovered possession thereof, she shall be entitled to such dower, although there shall have been no recovery of possession.

Sec. 2269. Where land is *bona fide* sold in the lifetime of a husband, to satisfy a lien or encumbrance thereon, created by deed in which the wife has united, or created before the marriage, or otherwise paramount to the wife, she shall have no right to be endowed in the said land. But if a surplus of the proceeds of sale remain after satisfying the said lien or encumbrance, she shall be entitled to dower in said surplus, and a court of equity having jurisdiction of the case may make such order as may seem to it proper to secure her right.

Sec. 2270. If any estate, real or personal, intended to be in lieu of dower, shall be conveyed or devised for the jointure, of the wife, such conveyance or devise shall bar her dower of the real estate, or the residue thereof, and every such provision, by deed or will, shall be taken to be intended in lieu of dower, unless the contrary intention plainly appear in such deed or will, or in some other writing signed by the party making the provision.

When and how may widow waive jointure and demand dower in real estate? Sec. 2271. But if such conveyance or devise were before the marriage, without the assent in writing or during the infancy of the *feme*, or if it were after marriage, in either case, the widow may, at her election, waive such jointure and demand her dower. Such election shall be made within one year after the death of her husband, or within one year after the admission of his will to probate where the provision is by will, and shall be made in any court of record in the county or corporation in which the husband resided at the time of his death, or in the clerk's office of which the instrument creating the jointure is recorded, or by writing recorded in such court, or in the clerk's office thereof, upon such acknowledgment of proofs as would authorize a writing to be admitted to record under chapter 111; and when she shall elect and receive her dower, the estate so conveyed or devised to her shall cease and determine.

What interest has the widow in the personal estate of her husband if he dies intestate? If the intestate leave a widow and issue by her, the widow shall be entitled to one-third of the surplus of the personal estate, after the payment of funeral expenses, charges of administration, and debts. Or, if the intestate leave a widow, but no issue by her, the widow shall be entitled absolutely to such of the personal property in the said surplus as shall have been acquired by the intestate in virtue of his marriage with her prior to the fourth day of April, 1877, and remains in kind at his death; she shall also be entitled to one-half of the residue of such surplus if the intestate husband leave no issue by a former marriage, but to one-third only of such residue if he leave such issue.

When and how widow may renounce benefit of will as to personalty? Sec. 2559. When any provision for a wife is made in her husband's will, she may, within one year from the time of the admission of the will to probate, renounce such provi-

sion. Such renunciation shall be made either in person before the court in which the will is recorded, or by a writing recorded in such court, or the clerk's office thereof, upon such acknowledgment or proof as would authorize a writing to be admitted to record under chapter 111. If such renunciation be made, or if no provision for her be made in the will, she shall have such share of her husband's personal estate as she would have had if he had died intestate; otherwise, she shall have no more thereof than is given her by the will.

What interest has the husband in the personal estate of the wife if she dies intestate? If *she* dies intestate, her husband shall be entitled to the whole of the surplus of the personal estate.

How is a will revoked by operation of law? Sec. 2517, Every will made by a man or woman shall be revoked by his or her marriage, except a will made in exercise of a power of appointment, when the estate thereby appointed would not, in default of such appointment, pass to his or her heir, personal representative, or next of kin.

What is the law as to pretermitted children? Sec. 2527. If any person die leaving a child, or his wife with child which shall be born alive, and leaving a will made when such person had no child living, wherein any child he might have is not provided for or mentioned, such will, except so far as it provides for the payment of the debts of the testator, shall be construed as if the devises and bequests therein had been limited to take effect, in the event that the child shall die under the age of twenty-one years, unmarried, and without issue.

Sec. 2528. If a will be made when a testator has a child living, and a child be born afterwards, such after-born child, or any descendant of his, if not provided for by any settlement, and neither provided for nor expressly excluded by the will, but only pretermitted, shall succeed to such portion of the testator's estate as he would have been entitled to if the testator had died intestate; towards raising which portion the devisees and legatees shall, out of what is devised and bequeathed to them, contribute ratably, either in kind or in money, as a court of equity, in the particular case, may deem most proper. But if any such after-born child, or descendant, die under the age of 21 years, unmarried, and without issue, his portion of the estate, or so much thereof as may remain unexpended in his support and education, shall revert to the person to whom it was given by the will.

What is a Codicil? A codicil is a little will; that is, it is a testamentary disposition, generally not revoking the former will, but varying it in some way or making changes in it or additions to it. It must be executed as a will.

FORM OF WILL AND CODICIL.

I, ..., of (*place and occupation*), make this my last will. I give, devise, bequeath my estate and property, real and personal, as follows, that is to say:

Then follow all the provisions and disposition of property which the testator intends, stated fully, plainly, and as accurately as possible. Then follows, first, the appointment of an executor, and then the execution, and finally the declaration of the witnesses, thus:

I appoint....., at....., executor of this my will.

In witness whereof, I have signed this instrument as my will, at (*place*); on (*date*). (*Signature.*)

The foregoing will was this day signed by the said....., and acknowledged by him as his last will, in the presence of us, the undersigned-subscribing witnesses, both of us being present at the same time, and each of us, at the request of the said....., and in his presence, subscribed the said will as subscribing witnesses thereto.

Witness our hands, this.....day of....., ...

(*Here follow the names of two competent witnesses.*)

A codicil should be written thus:

I, ..., of (*place and occupation*), do make this my codicil, hereby confirming my last will made on the (*date of the will*), and all my former codicils (*if there be any*), so far as this codicil is consistent therewith; and do hereby—

Then follows whatever disposition the testator chooses to make, stating and describing it as he would if it were a will, and executing it, and having it attested in the same manner as if it were a will, excepting that, instead of calling it a will, wherever that word occurs, he says "codicil" instead of "will."

Monthly Work for Farmers.

JANUARY.—This is the month for making plans for the year's operations. Very little work can be done in the garden, beyond securing a supply of seeds and manure and preparing compost heaps and hot-beds for next month, getting oples, brush, and sticks for beans, peas, and tomatoes. Clean up the garden.

FEBRUARY.—Make hot-beds and sow cabbage, cauliflower, lettuce, tomato, and onions to transplant. Peas for first crop, sow in sheltered part of garden; at same time sow second early for succession. Plant Irish potatoes. Radishes may be sown on a warm border; asparagus beds may be top-dressed preparatory to being forked over.

MARCH.—Transplant lettuce, cabbage, and cauliflower; sow beets and spring kale; sow cabbage in open border; also carrot, celery, leek, lettuce, onion, parsley, parsnip, radish, spinach, and herb seed. Plant peas and potatoes; sow pepper and egg plant; more tomatoes in hot bed for succession; sow lawn grass seed. Bear in mind that all seeds sown should be of high grade quality.

APRIL.—Sow beets, cabbage, carrot, celery, corn, endive, leek, lettuce, mustard onion, parsley, radish, rhubarb, salsify, kale, spinach, turnip, kohlrabi, and herb seed. Divide and transplant perennial herbs. Transplant from hot-bed cabbage, cauliflower, lettuce, and onions. Plant peas and potatoes. Upon the quality of the seed sown will depend the crop.

MAY.—Plant and sow such seeds as were omitted last month. Transplant cabbage, lettuce, tomato, pepper, egg-plant, &c. Plant snaps and lima beans; sow Brussels sprouts, cape brocoli, cauliflower, cabbage, carrot. Plant cucumber, melons, okra, pepper, sweet potatoes, pumpkins, cymblings, tomato, corn, and blackeye peas.

JUNE.—Planting season pretty well over. Replant such seed as have failed from any cause. Plant snaps, lima beans, cucumbers, and cymblings. Transplant cabbage, cauliflower, leek, &c. Plant late potatoes and corn. Fight insects and weeds.

JULY.—Transplant cabbage, cauliflower, celery, endive, and leek. Plant cucumbers for pickles. Sow rutabaga and late turnips. Cut and dry herbs. Sow snaps for late crop. Work well and look out for insects. High grade seeds bring high class vegetables.

AUGUST.—Sow turnip—onion for sets. Earth up celery; blanch endive. Cut and dry herbs. Worm tomato vines. Pull and store ripe onions. Sow snaps for late crops and for picking. Sow lettuce and radish for late crop.

SEPTEMBER.—Earth up celery; blanch endive; sow kale, cabbage and cauliflower, mustard, onion, lettuce, radish, spinach. Set out potato onions. Early in month, turnip. Divide and transplant perennial herbs. Dig potatoes as soon as tops die. Sow lawn grass seed.

OCTOBER.—Earth up celery. Dig and secure sweet and Irish potatoes. Gather and put away pumpkins and winter squash. Transplant lettuce. Sow a nice lawn, which is a great ornament to any house.

NOVEMBER.—Dig and secure potatoes if not already done. Beets and turnips had better be secured by last of month. Finish earthing up celery. Transplant cabbage and lettuce to stand winter. Take up and secure cabbage.

DECEMBER.—Finish securing beets, turnips and cabbage. Cover celery with straw. Store away pea sticks and bean poles. Look around for manure for next year. Clear off and manure asparagus beds, and clear up garden generally.

solicits patronage on the basis of merit. For 37 years (beginning with the Old Dominion Business College), this school has been successfully training young people for business life right here in Richmond. It is now financially anchored in its own building—one of the finest in Richmond. Its steady purpose to stick to honorable methods in securing students, and to true principles of instructions by capable and experienced teachers have won for it a most enviable reputation at home and abroad. Last winter its president received a flattering and remunerative request to deliver an address before the Business Section of the Minnesota Educational Association at St. Paul. From an answer for fuller information, the following is taken from President Buell's letter:

"Knowing that you have conducted, for many years, the leading business college of the South, we decided to write to you in order to secure your services."

The Philadelphia Stenographer says: "It is the leading Business College south of the Potomac river."

Extract from a Private Letter from J. H. M. Sykes, M. D., dated Capron. Va., Nov. 3, 1903.

"I was delighted to note the orderly, systematic working so apparent at a glimpse. The quiet reserve, and respectful reverence each student was wont to pay the head master, and it was evident that he had won their esteem and confidence by utmost patience and courteous bearing and demeanor, extending to their little needs and wants.

KINSTON, N. C., June 12, 1902.

I left my home with the full intention of attending another school in your city. My father accompanied me and suggested that we make some inquiries as to the best school before I entered. Accordingly we asked a city official in the City Hall for advice on the subject. He said: "I advise you to go to Smithdeal College, as you will find as much difference between the school you mentioned and the Smithdeal College as there is between chalk and cheese." I took his advice and found it to be true, not only while I was attending your school but during my two years' stay in Richmond afterwards. W. M. HERBERT, JR.

Extract from a Private Letter from H. C. L——, from N. C.

"I thank you very much for your letter concerning my son. By this honest disposition on your part you have created in me a confidence of highest esteem for you and your institution. If all teachers were as honest as you are, we would have better education, better children, and a better country."

FREE

Will You Accept This With my Compliments?

A FULL PINT of rare "Old Virginia Apple Jack?"—the kind our grandfathers used to make 40 years ago. The finest medicinal brandy produced—makes you feel "like a king." I'll send you this gratis "as an advertisement" with your order for a case of Westover 10-year-old Rye—free only with your *first* order. It will be sent you in an unique old-fashioned flint flask which will interest you, particularly if you are a souvenir collector.

WESTOVER

"Best the world over."

I want you to try my now famous Westover Rye Whiskey. You'll surely agree it's the richest, finest flavored whiskey you've ever tasted. Made from the choicest grain, distilled by the most hygienic methods; is full ten years old. Without question the lowest priced whiskey for its age and quality ever put on the market. Not to be had through dealers. Sold **direct to you at distillery price**—4 quarts, **$3.10**; shipped **express prepaid** in plain package. I **guarantee** you will like it. After you've tasted it, if it doesn't suit your taste and you're not entirely satisfied that it's the best rye whiskey for the money you've ever had, simply cork up the opened bottle, ship it all back to me, express collect, and **I will immediately refund your money.** I am entirely reliable. I refer to the Bank of Richmond and the Planters National Bank of this city as to my financial responsibility. You are absolutely sure of securing a whiskey you'll like or it's not costing you anything.

Send $3.10 at once and get four full quarts or send $5.05 and get eight full quarts of Westover Rye and a flask of Apple Jack FREE. Your order filled the day it reaches me.

TIME OF THE ALMANACK.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude 37° 32′ 21″ N., and in Longtitude 77° 25′ 35″ W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made neccessary by the adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change, so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of longitude makes a difference of 4 minutes, and that in this latitude a degree of longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east, and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes; Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

Almanack Calculations for 1906.

The year 1906 comprises the latter part of the 130th and the beginning of the 131st year of American Independence, and corresponds to—

The year 6619 of the Julian Period.

Table for Foretelling the Weather Throughout Each Year.

If the New Moon, First Quarter, Full Moon or Last Quarter, Happens—	In Summer.	In Winter.
Between midnight and 2 o'clock...	Fair.....	Frost unless wind S. W.
" 2 and 4 morning.....	Cold and showers...	Snow and stormy.
" 4 and 6 "	Rain.....	Rain.
" 6 and 8 "	Wind and rain	Stormy.
" 8 and 10 "	Changeable.....	Cold rain if wind W., snow if E.
" 10 and 12 "	Frequent showers...	Cold and high wind.
" 12 and 2 afternoon	Very rainy	Snow or rain.
" 2 and 4 "	Changeable.....	Fair and mild.
" 4 and 6 "	Fair	Fair.
" 6 and 8 "	Fair if wind N. E...	Fair and frosty if wind N., or N. E.
" 8 and 10 "	Rainy if S. or S. W..	Rain or snow if S., or S. W.
" 10 and midnight.....	Fair	Fair and frosty.

OBSERVATIONS.

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.
2. The space for this calculation occupies from ten at night till two next morning.
3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.
4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.
5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.

ANALYSES OF THE GAME LAWS OF VIRGINIA—CLOSE SEASON.

This is a careful analyses of Game Laws of Virginia in reference to hunting, and embraces all legislation, including the session of 1902-3.

Approved May 14, 1903.

Be it enacted by the General Assembly of Virginia, That chapter ninety-five of the Code of Virginia, eighteen hundred and eighty-seven, be amended and re-enacted so as to read as follows:

Section 2070 (*a*). When and how unlawful to hunt, etcetera.—1. It shall be unlawful for any person to shoot at, kill or capture any wild water fowl or wild turkey at any time during the night in this State, or at any time to capture them in traps or nets or other contrivances, or to use reflectors or other lights, or sneak boats or artificial islands in detecting or capturing or shooting of wild fowl or game of any kind, or to hunt or shoot muskrats at night with a light in the Tide-water sections of the State, or to shoot at any game on land or water in this State with a gun larger than an eight bore. All sneak boats, nets, traps or reflectors or other unlawful appliances so used or found in the possession of any person shall be seized by any game warden or other officer and held by him as evidence, but the same shall not be destroyed except by the order of the court or justice having jurisdiction, upon warrants duly issued, which said court or justice shall, upon satisfactory evidence of the guilt of the party, or of the unlawful nature of the article seized, order the same to be destroyed. The possession of any of said guns, sneak boats, nets, traps, reflectors or other unlawful appliances shall be *prima facie* evidence of the guilt of the person in whose possession they are found.

2. It shall be unlawful for any person to hunt, kill, or capture in any manner, or buy, offer for sale, or have in possession any wild turkeys, pheasants, or grouse, quail or partridges or woodcock east of the Blue Ridge Mountains between February the first and November the first, and west of the Blue Ridge Mountains between December the thirty-first and November the first, or to track or hunt any of them in snow except wild turkeys, or to trap or net them at any time, or to destroy their nests, eggs or young at any time, or kill, chase or capture, or buy, offer for sale, or have in possession any wild deer between January the first and October the first, or to track or hunt them in snow, or to kill or capture, or buy, offer for sale, or have in possession, any winter wild water fowl between April the first and October the fifteenth, or summer or wood ducks between January the first and August the first, or any rails, mud hens, gallinules, plovers, surf birds, snipe, except Wilson or English snipe, sand pipers, willets, tattlers, or curlews, between January the first and July twentieth, or robins between April the first and February fifteenth. The possession of any of said game birds or game animals, or parts thereof, protected by the laws of this State, during the season in which it is unlawful to hunt, kill, chase or capture the same, shall be *prima facie* evidence of the guilt of the party in whose possession they are found.

3. It shall be unlawful to shoot or otherwise hunt any wild water fowl or any game birds or game animals protected by the laws of this State later than half an hour after sunset or earlier than an half an hour before sunrise, or to shoot or hunt any game in this State on Sunday.

4. Any person violating any of the provisions of this section shall be deemed guilty of a misdemeanor, and shall be punished by a fine of not less than five nor more than fifty dollars, or imprisoned in jail for not more than thirty days, or both fined and imprisoned, at the discretion of the justice or jury trying the case.

5. All acts or parts of acts in conflict with this section are hereby repealed, but the Board of Supervisors of any county shall have the power to shorten the open season in their said county and may permit the shipment of wild water fowl from said county or out of the State, and by regulations, not inconsistent with the provisions of this section, may further protect the game within their said county.

6. Nothing in this section shall be construed to refer to the bird known as sora.

Sec. 2070 (*b*). Game wardens, their appointment, duties, etc.—1. It shall be the duty of the city or corporation courts of the cities, or the judges thereof in vacation, on the application of five resident freeholders of any city to appoint two wardens, whose jurisdiction shall be confined to their respective cities and where the Board of Supervisors of any county shall, by resolution of record in the minutes of said board, request the judge of the Circuit Court of said county so to do; the said judge shall, upon the application of five resident freeholders of any magisterial district in said county appoint one suitable person in such magisterial district as game warden, whose jurisdiction shall be confined to said magisterial district where the said appointment is made by the judge in vacation, he shall certify the same to the clerk of his court, who shall enter the same in the order book of his court in the same manner as if made in term.

2. The said wardens shall hold office for the term of four years from the date of their appointment, unless sooner removed from office, and shall qualify according to law.

3. It shall be the duty of said wardens to enforce all statutes of this State, and of the United States, now in force or hereafter to be enacted for the protection and propogation of wild water fowl, game birds and game animals or song or insectivorous birds. The said wardens shall have power and it shall be their duty, to arrest any person detected by them in the act of violating any of the aforesaid laws, or any person against whom a warrant shall have been duly issued upon the information of any other person for such violation, and forthwith to carry such person before a justice or court having jurisdiction over the offence, who shall proceed without unreasonable delay to hear, try and determine the charge against such person. No game warden shall have any right under this act to go upon the land of another person without the consent of such other person until and unless such game warden shall have procured a search warrant in conformity with the provisions of subsection five of this section, or shall have a warrant for the arrest of some person thereon: provided, however, that such game warden may, without a warrant, arrest any person who violates any of the provisions of this chapter in the presence of such game warden, and should any person violate any of the provisions of this chapter in the presence of such game warden,

such game warden may lawfully follow such person anywhere in the effort to arrest.

4. The several commanders of the oyster police boats of this Commonwealth are hereby constituted game wardens of this State, whose jurisdiction as such wardens shall extend over the lands and waters of this Commonwealth within their several jurisdictions as commanders. They shall enforce the statutes of this State and of the United States for the protection of game or other animals or birds protected by law, and render report to the Board of Fisheries of all prosecutions, and the said Board of Fisheries shall publish the same in their annual report as information. The commanders of the said oyster police boats shall receive no additional compensation for the performance of these duties. Except that in case of conviction they may receive the fee provided for in subsection eight of this section.

5. Any court judge or justice having jurisdiction over the offense, if satisfied upon affidavit that there is reasonable cause to believe that any wild water fowl, game birds, game animals or song or insectiverous birds, or parts thereof caught, taken, killed, shipped, or about to be shipped, or in transit, contrary to the laws of this State, or of the United States, are being concealed or stored in any place, shall issue a search warrant and cause search therefor to be made in any such place, and to that end may, after demand and refusal, cause any building, enclosure or car to be entered, and any apartment in which it is believed that game is concealed to be examined by any of said wardens or other officers executing the warrant; provided, that the issuance and execution of such search warrants shall be in accordance with the issuance and execution of search warrants in other cases as provided by law.

6. All game animals, wild water fowl and birds, protected by law, or parts thereof, found under such warrant, shall be seized by the warden or other officer making the search, and shall be disposed of as the court, judge or justice having jurisdiction may direct. All guns, gunning or hunting appliance found in such search shall be seized by said warden or other officer, and held subject to the payment of the fine prescribed by law for the offense charged and the cost of prosecution. If any of the articles so found be such as are not authorized by law they shall, upon the order of the court, judge or justice having jurisdiction, be destroyed, and all other of such articles shall be sold at public auction after the lapse of twenty days from the time of seizure, and after such notice as the court, judge or justice having jurisdiction, may prescribe, unless the reputed owner appears and acquits himself of the charge or pay the fine that may be imposed by the court, judge or justice.

7. Any person or persons interfering with any of said game wardens in the discharge of their duty, or resisting lawful arrest, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be fined not less than five dollars nor more than fifty dollars.

8. All fines and penalties imposed and collected under the provisions of this chapter shall be paid to the Commonwealth, and in addition to said fines and penalties, there shall be assessed against the offender in every case of conviction under the provisions of this chapter a fee of two dollars and fifty cents, which shall be collected as fines are collected under the general provisions of law and be paid to the warden who shall secure the conviction.

9. If any warden appointed under this section shall refuse or wilfully neglect to prosecute any person violating any of its provisions, or any of the laws of this State relating to wild water fowl, game birds or game animals, or song or insectiverous birds, his appointment shall be revoked by the court having jurisdiction, and such warden shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined not exceeding twenty dollars, and the vacancy thus created shall be filled by the court or judge in vacation.

10. All money paid to or collected by clerks of courts as hunting licenses shall constitute a fund for the payment of the said regularly appointed game wardens of this State as herein provided, and the clerk shall, after deducting a fee of fifty cents for issuing such license, on first of April of each year, pay in equal amounts to the said warden or wardens of his county such sum as may be in his hands arising from the issuance of such licenses; provided, that no one warden shall receive more from this source than three hundred dollars in any one year, and shall make return to his court a detailed statement of such receipts and disbursements; provided, that in the counties of Accomac and Northampton the Circuit Court for

said counties shall appoint, on the recommendation of the Eastern Shore Game Protective Association, the game wardens of the said counties, who shall make report at regular intervals to said association, as its laws shall provide, and the said clerks of the court of said counties upon the order of said association, shall distribute among the game wardens for said counties, or as may have been agreed upon by contract between the said association and said wardens, or in proportion to the services, which, in their judgment, have been rendered by them, respectively, the fund arising from the license of non-residents provided for in this chapter, or so much thereof as may be necessary. Should there be any surplus remaining after providing an efficient system of game protection in said counties from the license of non-residents above mentioned, said association may use it for restocking said county with game. The clerk shall pay to the treasurer of said association such sums as may be thus expended, paying any amounts not needed for the purpose above mentioned to the Auditor of Public Accounts, as provided in section twenty hundred and seventy *c*.

Section 2070 (*c*). Non-residents to obtain hunting licenses: when and how game may be exported, etcetera.—1. It shall be unlawful for any person, not a resident of this State, to hunt or kill wild water fowl, wild turkeys, pheasants or grouse, woodcock, partridges, quail or other game birds, or deer, within this State until he shall have first secured a hunting license as hereinafter provided; provided, however, that the non-resident children of resident owners of land in this State, shall be allowed to hunt on the lands of his parents as though he were resident of this State, and the non-resident guest of a resident land owner shall be allowed to hunt on the lands of his host as though he were a resident of this State, when accompanied by said host, or a member of his host's family; provided, said host receives no compensation directly or indirectly from said guest.

2. Upon the personal application of any non-resident to the clerk of the Circuit Court of any county in which he first begins to hunt, such clerk shall, upon the payment of ten dollars, issue to such non-resident a hunting license, using a form to be prescribed by the Auditor of Public Accounts for that purpose, entitling him to hunt and kill wild water fowl, deer, wild turkeys, pheasants or grouse, woodcock, partridges, quail, and other game birds during the open season in the six months next following, and subject to any restrictions now existing against or which may hereafter be imposed upon residents of this State. The clerk shall retain fifty cents as his fee for issuing such license, and the residue he shall account for to the Auditor of Public Accounts, unless otherwise provided for by law. Such license shall not be transferable.

3. It shall be unlawful, except as hereinafter provided, to ship or transport, or to cause to be shipped or transported, from this State, whether alive or dead, water fowl, deer, wild turkeys, pheasants or grouse, woodcock, partridges, quail, or other game birds, or any deer or vension, killed or captured within this State, nor shall the same be killed, captured or possessed with intent to ship or transport from this State.

4. Any person authorized to hunt under the laws of this State may, during the open season, take with him out of the State, either in his personal possession or as his baggage, on the same conveyance with him, not in a closed package, but exposed to view, not exceeding thirty wild water fowl, fifty quail or partridges, ten pheasants or grouse, three wild turkeys, one deer, or plovers, snipe, sand-pipers, willets, tattlers or curlew, not exceeding twenty-five of each or not exceeding one hundred in the aggregate, when lawfully killed or captured by himself; provided, the same be plainly labelled or tagged with the name and address of such person: and any citizen of this State may, during the open season, ship or have transported from this State, as a gift and not for market or sale, so stating on the shipping tag, one deer during the season, and not exceeding three wild turkeys, six pheasants, twelve wild water fowls, eighteen partridges or quail; provided, that such game shall be shipped exposed to public view and unconcealed, and each parcel or package shall be plainly labelled or tagged with the name and address of the donor and of the donee, and that number of each of such game so shipped. This section shall not apply to sora or rabbits or hares.

5. It shall be deemed a violation of this section for any person to deliver any of the game herein mentioned to any common carrier or person for shipment or transportation out of the State, or for any common carrier or person to carry or transport or receive for shipment or transportation of any such game in any other manner than is provided in this section.

(Virginia, in prohibiting the exportation of game, makes the violator of the law in this State also amenable to the United States law, under what is known as the Lacy act; also the person who receives the game in any other States, as well as the common carrier, each are liable to a fine of not exceeding $200.)

6. Nothing in this section shall be construed to prevent common carriers from carrying or transporting any of the game herein mentioned in unbroken packages from beyond the confines of this State through the same to some point in another State

7. Any person or corporation violating any provision of this section shall be guilty of a misdemeanor and be liable to a fine of fifty dollars for each offense, or imprisoned in jail for not exceeding sixty days.

8. No person charged with an offense under this section shall within the meaning thereof be deemed a resident of this State who shall not have resided within the limits of the State twelve months next preceding the time when the alleged offense was committed, unless he shall have, *bona fide* taken up his residence in this Commonwealth, and has his *bona fide* domicile therein, and in any prosecution for such offense the burden of proof as to residence shall be upon the defendant.

Section 2071. Unlawful hunting, trespassing, etcetera, on another's lands.—If any person without the consent of the owner or tenant, shoot, hunt, range, fish, trap or fowl on or in the lands, waters, mill ponds or private ponds of another, which are enclosed, or the boundaries of which are the streams adjacent to which constitute a lawful fence, or on any lands, waters, mill ponds or private ponds of another, east of the Blue Ridge Mountains, or in the waters on said land, he shall be deemed guilty of a trespass, and upon conviction thereof shall be fined not less than five dollars nor more than fifty dollars, and in addition thereto shall be liable in an action for damages; and if any person, after being warned not to do so by the owner or tenant of any premises, shall go upon the lands of the said owner or tenant, he shall, in addition to the liabilities imposed under this section, be deemed guilty of a misdemeanor, and upon conviction thereof, punished by a fine not exceeding fifty dollars or imprisoned in the county jail not exceeding sixty days, or both, in the discretion of the justice or jury trying the case.

Section 2072. In certain counties.—If any person shoot, hunt, range or fowl on the lands or in the water courses comprehended within the survey of any proprietor of lands in the counties of Alexandria, Fairfax, Prince William, Stafford and King George, and within five miles of navigable tidewater, without license in writing from the owner or tenant of said lands, he shall, besides being liable to such owner or tenant in an action for damages, forfeit to the informer three dollars for the first offense, six dollars for the second offense, and nine dollars for each succeeding offense, the forfeiture in each case to be double if the offense be committed in the night or on Sunday; and he shall likewise forfeit to the informer in each instance his boat or other means of conveyance, his guns, dogs and all his shooting and hunting apparatus used in the commission of the offense and be liable for all costs and expenses incurred in apprehending and prosecuting him for the recovery of said forfeiture.

Section 2073. Punishment of offenders.—Any person violating either of the two preceding sections may be arrested, and the property forfeited under the last section may be seized with or without warrant by any sheriff or constable or any game warden of the Commonwealth within their respective jurisdictions and held to await judgment. The offender shall be carried before a justice of the county in which the offense was committed, and a report be made to him of the property, if any, seized. The justice shall proceed to try the case and give judgment thereon. If judgment be rendered against the offender, it shall be for the forfeitures, pecuniary and otherwise, and the costs and expenses incurred and any property seized, adjudged to be forfeited, shall be delivered to the person entitled to the forfeiture in part satisfaction of the judgment. If the offender does not satisfy the judgment in full, the justice shall commit him to jail for one month, unless such satisfaction be sooner made. If the offender be acquitted, any property seized shall be released.

Section 2074. Proceeding when convicted a third time.—If a person be convicted a third time of any of the offenses mentioned in this chapter, the justice rendering judgment therefor shall require him to give a recognizance, with sufficient surety, for his good behavior for a year; and if he fail to give such surety commit him to jail for one month, unless he sooner give it. Such recognizance shall be

deemed to be forfeited if such person commit any of the said offenses within the time limited in the recognizance.

Section 2078. Damages for shooting or killing tame deer.—If any person shoot or kill a tame deer having a bell or collar on its neck, he shall pay to the owner the value of such deer.

Section 2079. Concerning the protection of certain wild birds other than game birds, their nests and eggs.—It shall be unlawful at any time to kill or capture the turkey buzzard, or black buzzard, or to kill or ship alive out of the State the mocking bird, or kill or capture the thrush, gold finch, oriole, wren, rain crow, cardinal or red bird, wood robin, blue bird, martin, starling, or any wild bird other than the game birds herein named, or to destroy their nests or eggs, or to purchase or offer for sale any such wild bird after it has been killed or caught, or any part thereof, and the possession or sale, or offering for sale, in this State of any bird so protected shall be *prima facie* evidence of guilt; provided, that nothing herein contained shall be construed to apply to the English sparrow, owl, hawk, eagle, crow, crow black bird, rice bird, Wilson or English snipe, robin-snipe.

Section 2080. Penalties for violating preceding section.—If any person violate any of the provisions of the preceding section he shall be guilty of a misdemeanor, and shall be fined not less than two dollars nor more than twenty dollars, and imprisoned in jail until the fine is paid, but not exceeding thirty days.

Sections twenty hundred and seventy-five, twenty hundred and seventy-six, twenty hundred and seventy-seven, twenty hundred and eighty-one, and twenty hundred and eighty-two of the Code of Virginia, and an act entitled an act to prevent the extermination of partridges (or quail) in the State of Virginia, approved January twenty-seventh, eighteen hundred and ninety-six, as amended by an act entitled "an act to amend and re-enact sections one and four of an act entitled an act to prevent the extermination of partridges (or quail) in the State of Virginia," approved January twenty-seventh, eighteen hundred and ninety-six, in force since December fifteenth, eighteen hundred and ninety-seven, and all other acts or parts of acts in conflict with the provisions of this chapter as hereby amended and re-enacted are hereby repealed; provided, that nothing in this act shall be construed as repealing a special act, approved March 8, 1902, restricting the shooting of wild water fowl in Back bay and its tributaries in the county of Princess Anne.

This act shall be in force from its passage.

The above act does not repeal local county laws relating to rabbits or hares. From the most accurate information obtainable, the following are the open seasons in the counties named: Accomac, Northampton, Northumberland, November 15th to January 15th; Alexandria, October 1st to January 1st; Amelia, Charlotte, Greenesville, Spotsylvania, Sussex, October 1st to February 1st; Buckingham, Cumberland, October 15th to February 15th; Caroline, Essex, Hanover, Henrico, King William, Albemarle, Mecklenburg, November 1st to February 1st; Chesterfield, September 1st to February 1st; Culpeper, Orange, November 15th to January 15th; Elizabeth City, Norfolk county, November 15th to February 1st; Fairfax, Fauquier, Loudoun, Frederick, Roanoke, November 1st to January 1st; Halifax, October 15th to February 1st; Nottoway, September 1st to January 1st; Shenandoah, November 1st to March 1st; Stafford, September 15th to February 15th; James City, York, November 15th to February 15th; Nansemond, October 15th to March 1st.

Halifax appears to be the only county having a "possum" law; the open season is fixed from October 15th to February 1st.

In the following counties, Mongolian, or imported pheasants are not allowed to be killed: Albemarle, Alleghany, Bath, Bedford, Culpeper, Highland, Louisa, Montgomery, Orange, Rockingham.

Augusta and Rockbridge not until after November 1, 1904.

Partridges are not permitted to be carried out of some of the counties. Page, Rappahannock, Sussex and Henry, have a county non-export law, and there may be others.

UNITED STATES POSTAGE LAWS.

[Corrected for this ALMANACK by WRAY T. KNIGHT, Postmaster, Richmond, Va.]

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

First-Class Matter.

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment to printed matter under class three.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents. Nothing must be added or attached to a postal card, except that a printed address slip may be pasted on the address or message side. The addition of anything else subjects the card to letter postage. A card containing any offensive dun or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be conclusively a part of the address and therefore permissible. Cards that have been spoiled in printing or otherwise will be redeemed at 75 per cent. of face value. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each. Cards must not exceed the size of 3½ by 5½ inches or be smaller than 2 15-16x4 15x16 inches in dimensions. Their quality must be substantially that of the government postal cards and weigh about six pounds three ounces to the thousand. Their color may be white, cream, light gray, or light buff. The cards must bear on the address side, in print, the words, "Post Card—Authorized by Act of Congress of May 19, 1898." When prepared for sale they should also bear in the upper right-hand corner of the address side a diagram with the words, "Place a one-cent stamp here;" and in the lower left-hand corner the printed words, "This side is exclusively for the address."

The message on the cards may be in writing or print, and there may also appear on the message side advertisements, illustrations, or other matter, printed either in black or colors. And there must be attached to every card mailed a one-cent adhesive postage stamp. These cards cannot be mailed to foreign countries, except at the letter rate of postage.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. An ordinary ten-cent stamp affixed to a letter will not entitle it to special delivery. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

Prepaid letters will be forwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

Second-Class Matter.

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents, and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the buletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Such Christmas, New Years, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery ten-cent stamps are affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

Third-Class Matter.

Mail matter of the third-class includes printed books, pamphlets, engravings, circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

Largest Capital of any Bank in the South Atlantic States

AINSLIE CARRIAGE CO.
(New Location),
8-10-12 South Eighth Street,
RICHMOND, VA.

We make the best Dayton Wagon on the market. :

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery stamps are affixed in addition to the regular postage.

Upon matter of the third-class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

Fourth-Class Matter.

Fourth-class matter is all mailable matter not included in the three preceding classes, which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. It embraces merchandise and samples of every description, and coin or specie.

Rate of postage, one cent for each ounce or fraction thereof (except seeds, roots, bulbs, cuttings, scions, and plants, the rate on which is one cent for each two ounces or fraction thereof.) This matter must be fully prepaid, or it will not be forwarded. The affixing of special delivery ten-cent stamps in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, sugar, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad order will not be forwarded in any case.

Firearms may only be sent in detached parts.

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tight-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is not exceeding four ounces, liquid measure.

Limit of weight of fourth-class matter (excepting liquids), four pounds.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to

the delivering postmaster may also be written asking him to return the package if not delivered.

Registration.

All kinds of postal matter may be registered at the rate of eight cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed $25.00 for any one registered piece or the actual value of the piece if it is less than $25.00—shall be paid for the loss of first-class registered matter.

Domestic Money Orders.

Domestic money orders are issued by money-order postoffices for any amount up to $100, at the following rates:

For sums not exceeding $2.50, 3 cents; over $2.50, to $5, five cents; over $5 to $10, eight cents; over $10 to $20, ten cents; over $20 to $30, twelve cents, over $30 to $40, fifteen cents; over $40 to $50, eighteen cents; over $50 to $60, twenty cents; over $60 to $75, twenty-five cents; over $75 to $100, thirty cents.

Stamped Envelopes.

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.
2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.
3. All periodicals sent to subscribers within the county where printed.
4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.
5. The Vice-President, Members and Members-elect, and Delegates and Delegates-elect to Congress may frank any mail matter, not over two ounces in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

Monthly Work for Farmers.

JANUARY.—This is the month for making plans for the year's operations. Very little work can be done in the garden, beyond securing a supply of seeds and manure and preparing compost heaps and hot-beds for next month, getting oples, brush, and sticks for beans, peas, and tomatoes. Clean up the garden.

FEBRUARY.—Make hot-beds and sow cabbage, cauliflower, lettuce, tomato, and onions to transplant. Peas for first crop, sow in sheltered part of garden; at same time sow second early for succession. Plant Irish potatoes. Radishes may be sown on a warm border; asparagus beds may be top-dressed preparatory to being forked over.

MARCH.—Transplant lettuce, cabbage, and cauliflower; sow beets and spring kale; sow cabbage in open border; also carrot, celery, leek, lettuce, onion, parsley, parsnip, radish, spinach, and herb seed. Plant peas and potatoes; sow pepper and egg plant; more tomatoes in hot bed for succession; sow lawn grass seed. Bear in mind that all seeds sown should be of high grade quality.

APRIL.—Sow beets, cabbage, carrot, celery, corn, endive, leek, lettuce, mustard onion, parsley, radish, rhubarb, salsify, kale, spinach, turnip, kohlrabi, and herb seed. Divide and transplant perennial herbs. Transplant from hot-bed cabbage, cauliflower, lettuce, and onions. Plant peas and potatoes. Upon the quality of the seed sown will depend the crop.

MAY.—Plant and sow such seeds as were omitted last month. Transplant cabbage, lettuce, tomato, pepper, egg-plant, &c. Plant snaps and lima beans; sow Brussels sprouts, cape brocoli, cauliflower, cabbage, carrot. Plant cucumber, melons, okra, pepper, sweet potatoes, pumpkins, cymblings, tomato, corn, and blackeye peas.

JUNE.—Planting season pretty well over. Replant such seed as have failed from any cause. Plant snaps, lima beans, cucumbers, and cymblings. Transplant cabbage, cauliflower, leek, &c. Plant late potatoes and corn. Fight insects and weeds.

JULY.—Transplant cabbage, cauliflower, celery, endive, and leek. Plant cucumbers for pickles. Sow rutabaga and late turnips. Cut and dry herbs. Sow snaps for late crop. Work well and look out for insects. High grade seeds bring high class vegetables.

AUGUST.—Sow turnip—onion for sets. Earth up celery; blanch endive. Cut and dry herbs. Worm tomato vines. Pull and store ripe onions. Sow snaps for late crops and for picking. Sow lettuce and radish for late crop.

SEPTEMBER.—Earth up celery; blanch endive; sow kale, cabbage and cauliflower, mustard, onion, lettuce, radish, spinach. Set out potato onions. Early in month, turnip. Divide and transplant perennial herbs. Dig potatoes as soon as tops die. Sow lawn grass seed.

OCTOBER.—Earth up celery. Dig and secure sweet and Irish potatoes. Gather and put away pumpkins and winter squash. Transplant lettuce. Sow a nice lawn, which is a great ornament to any house.

NOVEMBER.—Dig and secure potatoes if not already done. Beets and turnips had better be secured by last of month. Finish earthing up celery. Transplant cabbage and lettuce to stand winter. Take up and secure cabbage.

DECEMBER.—Finish securing beets, turnips and cabbage. Cover celery with straw. Store away pea sticks and bean poles. Look around for manure for next year. Clear off and manure asparagus beds, and clear up garden generally.

THE LAW IN VIRGINIA IN REGARD TO WILLS.

Who may execute a will? A valid will may be made by any person of sound mind and lawful age (twenty-one years)) except that minors eighteen years of age and upwards, may, by will, dispose of personal estate. A married woman may, since the Act of Assembly of March 7, 1900, dispose of all her property, both real and personal, as if she were unmarried, subject, of course, to the curtesy right of the husband.

How is a will made? No will shall be valid unless it be in writing and signed by the testator, or by some other person in his presence and by his direction, in such manner as to make it manifest that the name is intended as a signature; and, moreover, unless it be wholly written by the testator, the signature shall be made or the will acknowledged by him in the presence of at least two competent witnesses, present at the same time, and such witnesses shall subscribe the will in the presence of the testator.

What are the widow's rights as to dower and jointure? Sec. 2267. A widow shall be endowed of one-third of all the real estate whereof her husband or any other to his use, was, at any time during the coverture, seized of an estate of inheritance, unless her right to such dower shall have been lawfully barred or relinquished.

Sec. 2268. When a husband, or any other to his use shall have been entitled to a right of entry or action in any land, and his widow would be entitled to dower out of the same, if the husband or such other had recovered possession thereof, she shall be entitled to such dower, although there shall have been no recovery of possession.

Sec. 2269. Where land is *bona fide* sold in the lifetime of a husband, to satisfy a lien or encumbrance thereon, created by deed in which the wife has united, or created before the marriage, or otherwise paramount to the wife, she shall have no right to be endowed in the said land. But if a surplus of the proceeds of sale remain after satisfying the said lien or encumbrance, she shall be entitled to dower in said surplus, and a court of equity having jurisdiction of the case may make such order as may seem to it proper to secure her right.

Sec. 2270. If any estate, real or personal, intended to be in lieu of dower, shall be conveyed or devised for the jointure, of the wife, such conveyance or devise shall bar her dower of the real estate, or the residue thereof, and every such provision, by deed or will, shall be taken to be intended in lieu of dower, unless the contrary intention plainly appear in such deed or will, or in some other writing signed by the party making the provision.

When and how may widow waive jointure and demand dower in real estate? Sec. 2271. But if such conveyance or devise were before the marriage, without the assent in writing or during the infancy of the *feme*, or if it were after marriage, in either case, the widow may, at her election, waive such jointure and demand her dower. Such election shall be made within one year after the death of her husband, or within one year after the admission of his will to probate where the provision is by will, and shall be made in any court of record in the county or corporation in which the husband resided at the time of his death, or in the clerk's office of which the instrument creating the jointure is recorded, or by writing recorded in such court, or in the clerk's office thereof, upon such acknowledgment of proofs as would authorize a writing to be admitted to record under chapter 111; and when she shall elect and receive her dower, the estate so conveyed or devised to her shall cease and determine.

What interest has the widow in the personal estate of her husband if he dies intestate? If the intestate leave a widow and issue by her, the widow shall be entitled to one-third of the surplus of the personal estate, after the payment of funeral expenses, charges of administration, and debts. Or, if the intestate leave a widow, but no issue by her, the widow shall be entitled absolutely to such of the personal property in the said surplus as shall have been acquired by the intestate in virtue of his marriage with her prior to the fourth day of April, 1877, and remains in kind at his death; she shall also be entitled to one-half of the residue of such surplus if the intestate husband leave no issue by a former marriage, but to one-third only of such residue if he leave such issue.

When and how widow may renounce benefit of will as to personalty? Sec. 2559. When any provision for a wife is made in her husband's will, she may, within one year from the time of the admission of the will to probate, renounce such provi-

sion. Such renunciation shall be made either in person before the court in which the will is recorded, or by a writing recorded in such court, or the clerk's office thereof, upon such acknowledgment or proof as would authorize a writing to be admitted to record under chapter 111. If such renunciation be made, or if no provision for her be made in the will, she shall have such share of her husband's personal estate as she would have had if he had died intestate; otherwise, she shall have no more thereof than is given her by the will.

What interest has the husband in the personal estate of the wife if she dies intestate? If *she* dies intestate, her husband shall be entitled to the whole of the surplus of the personal estate.

How is a will revoked by operation of law? Sec. 2517, Every will made by a man or woman shall be revoked by his or her marriage, except a will made in exercise of a power of appointment, when the estate thereby appointed would not, in default of such appointment, pass to his or her heir, personal representative, or next of kin.

What is the law as to pretermitted children? Sec. 2527. If any person die leaving a child, or his wife with child which shall be born alive, and leaving a will made when such person had no child living, wherein any child he might have is not provided for or mentioned, such will, except so far as it provides for the payment of the debts of the testator, shall be construed as if the devises and bequests therein had been limited to take effect, in the event that the child shall die under the age of twenty-one years, unmarried, and without issue.

Sec. 2528. If a will be made when a testator has a child living, and a child be born afterwards, such after-born child, or any descendant of his, if not provided for by any settlement, and neither provided for nor expressly excluded by the will, but only pretermitted, shall succeed to such portion of the testator's estate as he would have been entitled to if the testator had died intestate; towards raising which portion the devisees and legatees shall, out of what is devised and bequeathed to them, contribute ratably, either in kind or in money, as a court of equity, in the particular case, may deem most proper. But if any such after-born child, or descendant, die under the age of 21 years, unmarried, and without issue, his portion of the estate, or so much thereof as may remain unexpended in his support and education, shall revert to the person to whom it was given by the will.

What is a Codicil? A codicil is a little will; that is, it is a testamentary disposition, generally not revoking the former will, but varying it in some way or making changes in it or additions to it. It must be executed as a will.

FORM OF WILL AND CODICIL.

I, ..., of (*place and occupation*), make this my last will. I give, devise, bequeath my estate and property, real and personal, as follows, that is to say:

Then follow all the provisions and disposition of property which the testator intends, stated fully, plainly, and as accurately as possible. Then follows, first, the appointment of an executor, and then the execution, and finally the declaration of the witnesses, thus:

I appoint....., at....., executor of this my will.

In witness whereof, I have signed this instrument as my will, at (*place*); on (*date*). (*Signature.*)

The foregoing will was this day signed by the said....., and acknowledged by him as his last will, in the presence of us, the undersigned-subscribing witnesses, both of us being present at the same time, and each of us, at the request of the said....., and in his presence, subscribed the said will as subscribing witnesses thereto.

Witness our hands, this.....day of....., ...

(*Here follow the names of two competent witnesses.*)

A codicil should be written thus:

I, ..., of (*place and occupation*), do make this my codicil, hereby confirming my last will made on the (*date of the will*), and all my former codicils (*if there be any*), so far as this codicil is consistent therewith; and do hereby—

Then follows whatever disposition the testator chooses to make, stating and describing it as he would if it were a will, and executing it, and having it attested in the same manner as if it were a will, excepting that, instead of calling it a will, wherever that word occurs, he says "codicil" instead of "will."

OPEN A NEIGHBORHOOD STORE IN YOUR HOME.

WE WILL FURNISH THE CAPITAL.

We start only one store in a neighborhood. Our whole idea is new, and those who join us have an opportunity to reap a harvest of dollars quickly, and at same time lay the foundation for a permanent and good paying business. We furnish everything complete, and you can fit up a store right in your room—the goods being kept in a cabinet which we will furnish to you.

We are now organizing a system of Neighborhood Stores, and will furnish the capital to trustworthy people who can open the stores in their own homes. A money-making opportunity. Write quickly for particulars. Address,

Blood Poison, Rheumatism and Catarrh

CURED BY THE USE OF

BOTANIC BLOOD BALM.—B. B. B.

MEDICINE SENT FREE.

SEND NO MONEY—simply write and try Botanic Blood Balm at our expense. Botanic Blood Balm (B. B. B.) kills or destroys the poison in the blood which causes the awful aches in back and shoulder blades, shifting pains, difficulty in moving fingers, toes or legs, bone pains, swollen muscles and joints of rheumatism, or the foul breath, hawking, spitting, droppings in throat, bad hearing, specks flying before the eyes, all played out feelings of catarrh. Botanic Blood Balm has cured hundreds of cases of thirty or forty years standing after doctors, hot springs and patent medicines had all failed. Most of these cured patients had taken Blood Balm as a last resort. It is especially advised for chronic, deep-seated cases. Impossible for anyone to suffer the agonies or symptoms of rheumatism or catarrh while or after taking Blood Balm. It makes the blood pure and rich, thereby giving a healthy blood supply. Cures are permanent and not a patching up. Sold at drug stores, $1 per bottle. **Three for $2 50; six for $5 00.** Sample of Blood Balm sent free and prepaid, also special medical service, by describing your trouble and writing

WHISKEY AT HALF PRICE

A Direct Appeal to the Man Who is Anxious to Secure for Once in His Life a Keg of Whiskey as Pure as Spring Water. We refer forcibly to our brand known on the market under the pseudo name of **"Moonshine."** We will sell this whiskey in any quantity, but our prime object is to place with you just one sample 5-gallon keg, and when your friends test the **exquisite quality,** we know that many orders will follow.

We propose to furnish this whiskey encased in a rustic, hand-made, wooden-hooped keg.

OUR BIG OFFER.

The regular price on this high-class whiskey is $3.00 per gallon, but to get you started on an honest article, we will furnish **one 5-gallon Keg as described, securely boxed, and all charges prepaid, for $10.00, and will put you in FREE one handsome lettered decanter with ground glass stopper, and also 25 small bottles of "Moonshine" to donate to your friends as an advertisement for us.**

"Moonshine" is a whiskey without a vestige of headache—a whiskey of conscience—a whiskey of pride, and it satisfies! It is offered to you with the distinct understanding that it is a **purer** whiskey, a **riper** whiskey, a **pleasanter** whiskey to drink—richer, smoother and more delicate in flavor than **any** whiskey that can be bought from **any** concern, under **any** circumstances, at **any** time, or for **any** price! This is a bold assertion, made so purposely, with full knowledge of the facts. **We mean it.** We are prepared to stand or fall by it. We bar no man's whiskey. It is for you to put our statement to the test.

Is the same good, old-fashioned medicine that has saved the lives of little children for the past 60 years. It is a medicine made to cure. It has never been known to fail. If your child is sick, get a bottle of

Frey's Vermifuge — a Fine Tonic for Children.

Do not take a substitute. If your druggist does not keep it, send twenty-five cents in stamps to **E. & S. FREY, Baltimore, Md.**, and a bottle will be mailed you.

By Way Of Comparison

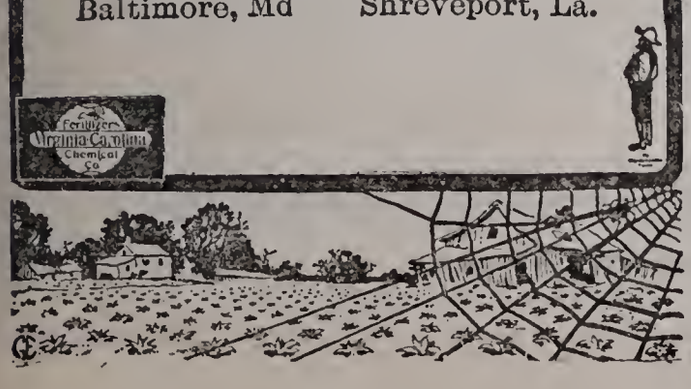

At the bottom is a picture of a farm on which our fertilizers were not used. Notice the very poor growth? At the top, there is a photograph of the field of a planter who believes in the liberal use of only

Virginia-Carolina Fertilizers.

See the good, even stand, and tall, luxuriant plants? You can see many other interesting pictures of farms like these on which the crops of poor and good yields are compared, in our large, pretty almanac. Ask your dealer for it, or send us 6c. in stamps to pay the cost of wrapping and postage. "Increase your yields per acre" by using Virginia-Carolina Fertilizers. Buy no other.

TIME OF THE ALMANACK.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude 37° 32′ 21″ N., and in Longtitude 77° 25′ 35″ W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made neccessary by the adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change, so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of longitude makes a difference of 4 minutes, and that in this latitude a degree of longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east, and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes; Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

Almanack Calculations for 1907.

The year 1907 comprises the latter part of the 131st and the beginning of the 132nd year of American Independence, and corresponds to—

The year 6620 of the Julian Period.

The year 5667-68 of the Jewish Era. The year 5668 begins at sunset on Sept. 8th.

The year 2660 since the foundation of Rome according to Varro.

The year 2567 of the Japanese Era, and the 40th year of the period entitled "Meiji."

The year 1325 of the Mohammedan Era, or the Era of the Hegira, begins on the 14th day of February, 1907.

The first day of January, 1907, is the 2,417,577th day since the commencement of the Julian Period.

" 8 and 10 "	Rainy if S. or S. W..	Rain or snow if S., or S. W.
" 10 and midnight.....	Fair	Fair and frosty.

OBSERVATIONS.

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.
2. The space for this calculation occupies from ten at night till two next morning.
3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.
4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.
5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.

JANUARY.—This is the month for making plans for the year's operations. Very little work can be done in the garden, beyond securing a supply of seeds and manure and preparing compost heaps and hot-beds for next month, getting oples, brush, and sticks for beans, peas, and tomatoes. Clean up the garden.

ANALYSES OF THE GAME LAWS OF VIRGINIA—CLOSE SEASON.

This is a careful analyses of Game Laws of Virginia in reference to hunting and embraces all legislation, including the session of 1906.

Approved March 15, 1906.

Be it enacted by the General Assembly of Virginia, That section two thousand and seventy a, of the Code of Virginia, as amended by an act approved March fourteenth, nineteen hundred and three, providing when and how unlawful to hunt, etcetera, as amended and re-enacted as to subsection two thereof, by an act approved March fourteentn, nineteen hundred and four, be amended and re-enacted so as to read as follows:

Section 2070 (*a*). When and how unlawful to hunt, etcetera, and power of boards of supervisors.—1. It shall be unlawful for any person to shoot at, kill, or capture any wild water fowl or wild turkey at any time during the night in this State, or at any time to capture them in traps or nets or other contrivances, or to use reflectors or other lights, or sneak boats or artificial islands in detecting or capturing or shooting of wild fowl or game of any kind, or to hunt or shoot muskrats at night with a light in the Tidewater sections of the State, or to shoot at any game on land or water in this State with a gun larger than an eight bore. All sneak boats, nets, traps or reflectors or other unlawful appliances so used or found in the possession of any person shall be seized by any game warden or other officer and held by him as evidence, but the same shall not be destroyed except by the order of the court or justice having jurisdiction, upon warrants duly issued, which said court or justice shall, upon satisfactory evidence of the guilt of the party, or of the unlawful nature of the article seized, order the same to be destroyed. The possession of any of said guns, sneak boats, nets, traps, reflectors or other unlawful appliances shall be *prima facie* evidence of the guilt of the person in whose possession they are found.

2. It shall be unlawful for any person to hunt, kill, or capture in any manner, or buy, offer for sale, or have in possession any wild turkeys, pheasants, or grouse, quail or partridges or woodcock east of the Blue Ridge Mountains between February the first and November the first, and west of the Blue Ridge Mountains between December the thirty-first and November the first, or to track or hunt any of them in snow except wild turkeys, or to trap or net them at any time, or to destroy their nests, eggs or young at any time, or kill, chase or capture, or buy, offer for sale, or have in possession any wild deer between January the first and October the first, or to track or hunt them in snow, or to kill or capture, or buy, offer for sale, or have in possession, any winter wild water fowl between April the first and October the fifteenth, or summer or wood ducks between January the first and August the first, or any rails, mud hens, gallinules, plovers, except black breast plover, green head plover, and white plover, snipe, except Wilson or English snipe or Robin snipe, sand pipers, willets, or tattlers, between January the first and July the twentieth, or robins between March the first and December fifteenth. The possession of any of said game birds or game animals, or parts thereof, protected by the laws of this State, during the season in which it is unlawful to hunt, kill, chase or capture the same, shall be *prima facie* evidence of the guilt of the party in whose possession they are found.

3. It shall be unlawful to shoot or otherwise hunt any wild fowl or any game birds or game animals protected by the laws of this State later than an half an hour after sunset or earlier than an half an hour before sunrise, or to shoot or hunt any game in this State on Sunday.

4. Any person violating any of the provisions of this section shall be deemed guilty of a misdemeanor, and shall be punished by a fine of not less than five or more than fifty dollars, or imprisoned in jail for not more than thirty days, or both fined and imprisoned, at the discretion of the justice or jury trying the case.

5. All acts or parts of acts in conflict with this section are hereby repealed, but the board of supervisors of any county shall have the power to shorten the open season in their said county and may permit the shipment of wild water fowl from said county or out of the State, and by regulations, not inconsistent with the provisions of this section, may further protect the game within their said county, and may include in such protection other game not specifically mentioned in this section.

6. Nothing in this section shall be construed to refer to the bird known as sora.

Sec. 2070 (*b*). Game wardens, their appointment, duties, etc.—1. It shall be the duty of the city or corporation courts of the cities, or the judges thereof in vacation, on the application of five resident freeholders of any city to appoint two wardens, whose jurisdiction shall be confined to their respective cities and where the Board of Supervisors of any county shall, by resolution of record in the minutes of said board, request the judge of the Circuit Court of said county so to do; the said judge shall, upon the application of five resident freeholders of any magisterial district in said county appoint one suitable person in such magisterial district as game warden, whose jurisdiction shall be confined to said magisterial district where the said appointment is made by the judge in vacation, he shall certify the same to the clerk of his court, who shall enter the same in the order book of his court in the same manner as if made in term.

2. The said wardens shall hold office for the term of four years from the date of their appointment, unless sooner removed from office, and shall qualify according to law.

3. It shall be the duty of said wardens to enforce all statutes of this State, and of the United States, now in force or hereafter to be enacted for the protection and propogation of wild water fowl, game birds and game animals or song or insectivorous birds. The said wardens shall have power and it shall be their duty, to arrest any person detected by them in the act of violating any of the aforesaid laws, or any person against whom a warrant shall have been duly issued upon the information of any other person for such violation, and forthwith to carry such person before a justice or court having jurisdiction over the offence, who shall proceed without unreasonable delay to hear, try and determine the charge against such person. No game warden shall have any right under this act to go upon the land of another person without the consent of such other person until and unless such game warden shall have procured a search warrant in conformity with the provisions of subsection five of this section, or shall have a warrant for the arrest of some person thereon: provided, however, that such game warden may, without a warrant, arrest any person who violates any of the provisions of this chapter in the presence of such game warden, and should any person violate any of the provisions of this chapter in the presence of such game warden,

such game warden may lawfully follow such person anywhere in the effort to arrest.

4. The several commanders of the oyster police boats of this Commonwealth are hereby constituted game wardens of this State, whose jurisdiction as such wardens shall extend over the lands and waters of this Commonwealth within their several jurisdictions as commanders. They shall enforce the statutes of this State and of the United States for the protection of game or other animals or birds protected by law, and render report to the Board of Fisheries of all prosecutions, and the said Board of Fisheries shall publish the same in their annual report as information. The commanders of the said oyster police boats shall receive no additional compensation for the performance of these duties. Except that in case of conviction they may receive the fee provided for in subsection eight of this section.

5. Any court judge or justice having jurisdiction over the offense, if satisfied upon affidavit that there is reasonable cause to believe that any wild water fowl, game birds, game animals or song or insectiverous birds, or parts thereof caught, taken, killed, shipped, or about to be shipped, or in transit, contrary to the laws of this State, or of the United States, are being concealed or stored in any place, shall issue a search warrant and cause search therefor to be made in any such place, and to that end may, after demand and refusal, cause any building, enclosure or car to be entered, and any apartment in which it is believed that game is concealed to be examined by any of said wardens or other officers executing the warrant; provided, that the issuance and execution of such search warrants shall be in accordance with the issuance and execution of search warrants in other cases as provided by law.

6. All game animals, wild water fowl and birds, protected by law, or parts thereof, found under such warrant, shall be seized by the warden or other officer making the search, and shall be disposed of as the court, judge or justice having jurisdiction may direct. All guns, gunning or hunting appliance found in such search shall be seized by said warden or other officer, and held subject to the payment of the fine prescribed by law for the offense charged and the cost of prosecution. If any of the articles so found be such as are not authorized by law they shall, upon the order of the court, judge or justice having jurisdiction, be destroyed, and all other of such articles shall be sold at public auction after the lapse of twenty days from the time of seizure, and after such notice as the court, judge or justice having jurisdiction, may prescribe, unless the reputed owner appears and acquits himself of the charge or pay the fine that may be imposed by the court, judge or justice.

7. Any person or persons interfering with any of said game wardens in the discharge of their duty, or resisting lawful arrest, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be fined not less than five dollars nor more than fifty dollars.

8. All fines and penalties imposed and collected under the provisions of this chapter shall be paid to the Commonwealth, and in addition to said fines and penalties, there shall be assessed against the offender in every case of conviction under the provisions of this chapter a fee of two dollars and fifty cents, which shall be collected as fines are collected under the general provisions of law and be paid to the warden who shall secure the conviction.

9. If any warden appointed under this section shall refuse or wilfully neglect to prosecute any person violating any of its provisions, or any of the laws of this State relating to wild water fowl, game birds or game animals, or song or insectiverous birds, his appointment shall be revoked by the court having jurisdiction, and such warden shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined not exceeding twenty dollars, and the vacancy thus created shall be filled by the court or judge in vacation.

10. All money paid to or collected by clerks of courts as hunting licenses shall constitute a fund for the payment of the said regularly appointed game wardens of this State as herein provided, and the clerk shall, after deducting a fee of fifty cents for issuing such license, on first of April of each year, pay in equal amounts to the said warden or wardens of his county such sum as may be in his hands arising from the issuance of such licenses; provided, that no one warden shall receive more from this source than three hundred dollars in any one year, and shall make return to his court a detailed statement of such receipts and disbursements; provided, that in the counties of Accomac and Northampton the Circuit Court for

said counties shall appoint, on the recommendation of the Eastern Shore Game Protective Association, the game wardens of the said counties, who shall make report at regular intervals to said association, as its laws shall provide, and the said clerks of the court of said counties upon the order of said association, shall distribute among the game wardens for said counties, or as may have been agreed upon by contract between the said association and said wardens, or in proportion to the services, which, in their judgment, have been rendered by them, respectively, the fund arising from the license of non-residents provided for in this chapter, or so much thereof as may be necessary. Should there be any surplus remaining after providing an efficient system of game protection in said counties from the license of non-residents above mentioned, said association may use it for restocking said county with game. The clerk shall pay to the treasurer of said association such sums as may be thus expended, paying any amounts not needed for the purpose above mentioned to the Auditor of Public Accounts, as provided in section twenty hundred and seventy *c*.

Section 2070 (*c*). Non-residents to obtain hunting licenses: when and how game may be exported, etcetera.—1. It shall be unlawful for any person, not a resident of this State, to hunt or kill wild water fowl, wild turkeys, pheasants or grouse, woodcock, partridges, quail or other game birds, or deer, within this State until he shall have first secured a hunting license as hereinafter provided; provided, however, that the non-resident children of resident owners of land in this State, shall be allowed to hunt on the lands of his parents as though he were resident of this State, and the non-resident guest of a resident land owner shall be allowed to hunt on the lands of his host as though he were a resident of this State, when accompanied by said host, or a member of his host's family; provided, said host receives no compensation directly or indirectly from said guest.

2. Upon the personal application of any non-resident to the clerk of the Circuit Court of any county in which he first begins to hunt, such clerk shall, upon the payment of ten dollars, issue to such non-resident a hunting license, using a form to be prescribed by the Auditor of Public Accounts for that purpose, entitling him to hunt and kill wild water fowl, deer, wild turkeys, pheasants or grouse, woodcock, partridges, quail, and other game birds during the open season in the six months next following, and subject to any restrictions now existing against or which may hereafter be imposed upon residents of this State. The clerk shall retain fifty cents as his fee for issuing such license, and the residue he shall account for to the Auditor of Public Accounts, unless otherwise provided for by law. Such license shall not be transferable.

3. It shall be unlawful, except as hereinafter provided, to ship or transport, or to cause to be shipped or transported, from this State, whether alive or dead, water fowl, deer, wild turkeys, pheasants or grouse, woodcock, partridges, quail, or other game birds, or any deer or vension, killed or captured within this State, nor shall the same be killed, captured or possessed with intent to ship or transport from this State.

4. Any person authorized to hunt under the laws of this State may, during the open season, take with him out of the State, either in his personal possession or as his baggage, on the same conveyance with him, not in a closed package, but exposed to view, not exceeding thirty wild water fowl, fifty quail or partridges, ten pheasants or grouse, three wild turkeys, one deer, or plovers, snipe, sand-pipers, willets, tattlers or curlew, not exceeding twenty-five of each or not exceeding one hundred in the aggregate, when lawfully killed or captured by himself; provided, the same be plainly labelled or tagged with the name and address of such person: and any citizen of this State may, during the open season, ship or have transported from this State, as a gift and not for market or sale, so stating on the shipping tag, one deer during the season, and not exceeding three wild turkeys, six pheasants, twelve wild water fowls, eighteen partridges or quail; provided, that such game shall be shipped exposed to public view and unconcealed, and each parcel or package shall be plainly labelled or tagged with the name and address of the donor and of the donee, and that number of each of such game so shipped. This section shall not apply to sora or rabbits or hares.

5. It shall be deemed a violation of this section for any person to deliver any of the game herein mentioned to any common carrier or person for shipment or transportation out of the State, or for any common carrier or person to carry or transport or receive for shipment or transportation of any such game in any other manner than is provided in this section.

(Virginia, in prohibiting the exportation of game, makes the violator of the law in this State also amenable to the United States law, under what is known as the Lacy act; also the person who receives the game in any other States, as well as the common carrier, each are liable to a fine of not exceeding $200.)

6. Nothing in this section shall be construed to prevent common carriers from carrying or transporting any of the game herein mentioned in unbroken packages from beyond the confines of this State through the same to some point in another State

7. Any person or corporation violating any provision of this section shall be guilty of a misdemeanor and be liable to a fine of fifty dollars for each offense, or imprisoned in jail for not exceeding sixty days.

8. No person charged with an offense under this section shall within the meaning thereof be deemed a resident of this State who shall not have resided within the limits of the State twelve months next preceding the time when the alleged offense was committed, unless he shall have, *bona fide* taken up his residence in this Commonwealth, and has his *bona fide* domicile therein, and in any prosecution for such offense the burden of proof as to residence shall be upon the defendant.

Section 2071. Unlawful hunting, trespassing, etcetera, on another's lands.—If any person without the consent of the owner or tenant, shoot, hunt, range, fish, trap or fowl on or in the lands, waters, mill ponds or private ponds of another, which are enclosed, or the boundaries of which are the streams adjacent to which constitute a lawful fence, or on any lands, waters, mill ponds or private ponds of another, east of the Blue Ridge Mountains, or in the waters on said land, he shall be deemed guilty of a trespass, and upon conviction thereof shall be fined not less than five dollars nor more than fifty dollars, and in addition thereto shall be liable in an action for damages; and if any person, after being warned not to do so by the owner or tenant of any premises, shall go upon the lands of the said owner or tenant, he shall, in addition to the liabilities imposed under this section, be deemed guilty of a misdemeanor, and upon conviction thereof, punished by a fine not exceeding fifty dollars or imprisoned in the county jail not exceeding sixty days, or both, in the discretion of the justice or jury trying the case.

Section 2072. In certain counties.—If any person shoot, hunt, range or fowl on the lands or in the water courses comprehended within the survey of any proprietor of lands in the counties of Alexandria, Fairfax, Prince William, Stafford and King George, and within five miles of navigable tidewater, without license in writing from the owner or tenant of said lands, he shall, besides being liable to such owner or tenant in an action for damages, forfeit to the informer three dollars for the first offense, six dollars for the second offense, and nine dollars for each succeeding offense, the forfeiture in each case to be double if the offense be committed in the night or on Sunday; and he shall likewise forfeit to the informer in each instance his boat or other means of conveyance, his guns, dogs and all his shooting and hunting apparatus used in the commission of the offense and be liable for all costs and expenses incurred in apprehending and prosecuting him for the recovery of said forfeiture.

Section 2073. Punishment of offenders.—Any person violating either of the two preceding sections may be arrested, and the property forfeited under the last section may be seized with or without warrant by any sheriff or constable or any game warden of the Commonwealth within their respective jurisdictions and held to await judgment. The offender shall be carried before a justice of the county in which the offense was committed, and a report be made to him of the property, if any, seized. The justice shall proceed to try the case and give judgment thereon. If judgment be rendered against the offender, it shall be for the forfeitures, pecuniary and otherwise, and the costs and expenses incurred and any property seized, adjudged to be forfeited, shall be delivered to the person entitled to the forfeiture in part satisfaction of the judgment. If the offender does not satisfy the judgment in full, the justice shall commit him to jail for one month, unless such satisfaction be sooner made. If the offender be acquitted, any property seized shall be released.

Section 2074. Proceeding when convicted a third time.—If a person be convicted a third time of any of the offenses mentioned in this chapter, the justice rendering judgment therefor shall require him to give a recognizance, with sufficient surety, for his good behavior for a year; and if he fail to give such surety commit him to jail for one month, unless he sooner give it. Such recognizance shall be

deemed to be forfeited if such person commit any of the said offenses within the time limited in the recognizance.

Section 2078. Damages for shooting or killing tame deer.—If any person shoot or kill a tame deer having a bell or collar on its neck, he shall pay to the owner the value of such deer.

Section 2079. Concerning the protection of certain wild birds other than game birds, their nests and eggs.—It shall be unlawful at any time to kill or capture the turkey buzzard, or black buzzard, or to kill or ship alive out of the State the mocking bird, or kill or capture the thrush, gold finch, oriole, wren, rain crow, cardinal or red bird, wood robin, blue bird, martin, starling, or any wild bird other than the game birds herein named, or to destroy their nests or eggs, or to purchase or offer for sale any such wild bird after it has been killed or caught, or any part thereof, and the possession or sale, or offering for sale, in this State of any bird so protected shall be *prima facie* evidence of guilt; provided, that nothing herein contained shall be construed to apply to the English sparrow, owl, hawk, eagle, crow, crow black bird, rice bird, Wilson or English snipe, robin-snipe.

Section 2080. Penalties for violating preceding section.—If any person violate any of the provisions of the preceding section he shall be guilty of a misdemeanor, and shall be fined not less than two dollars nor more than twenty dollars, and imprisoned in jail until the fine is paid, but not exceeding thirty days.

Sections twenty hundred and seventy-five, twenty hundred and seventy-six, twenty hundred and seventy-seven, twenty hundred and eighty-one, and twenty hundred and eighty-two of the Code of Virginia, and an act entitled an act to prevent the extermination of partridges (or quail) in the State of Virginia, approved January twenty-seventh, eighteen hundred and ninety-six, as amended by an act entitled "an act to amend and re-enact sections one and four of an act entitled an act to prevent the extermination of partridges (or quail) in the State of Virginia," approved January twenty-seventh, eighteen hundred and ninety-six, in force since December fifteenth, eighteen hundred and ninety-seven, and all other acts or parts of acts in conflict with the provisions of this chapter as hereby amended and re-enacted are hereby repealed; provided, that nothing in this act shall be construed as repealing a special act, approved March 8, 1902, restricting the shooting of wild water fowl in Back bay and its tributaries in the county of Princess Anne.

This act shall be in force from its passage.

The above act does not repeal local county laws relating to rabbits or hares. From the most accurate information obtainable, the following are the open seasons in the counties named: Accomac, Northampton, Northumberland, November 15th to January 15th; Alexandria, October 1st to January 1st; Amelia, Charlotte, Greenesville, Spotsylvania, Sussex, October 1st to February 1st; Buckingham, Cumberland, October 15th to February 15th; Caroline, Essex, Hanover, Henrico, King William, Albemarle, Mecklenburg, November 1st to February 1st; Chesterfield, September 1st to February 1st; Culpeper, Orange, November 15th to January 15th; Elizabeth City, Norfolk county, November 15th to February 1st; Fairfax, Fauquier, Loudoun, Frederick, Roanoke, November 1st to January 1st; Halifax, October 15th to February 1st; Nottoway, September 1st to January 1st; Shenandoah, November 1st to March 1st; Stafford, September 15th to February 15th; James City, York, November 15th to February 15th; Nansemond, October 15th to March 1st.

Halifax appears to be the only county having a "possum" law; the open season is fixed from October 15th to February 1st.

In the following counties, Mongolian, or imported pheasants are not allowed to be killed: Albemarle, Alleghany, Bath, Bedford, Culpeper, Highland, Louisa, Montgomery, Orange, Rockingham.

Augusta and Rockbridge not until after November 1, 1904.

Partridges are not permitted to be carried out of some of the counties. Page, Rappahannock, Sussex and Henry, have a county non-export law, and there may be others.

This does not apply to the English Sparrow, Great Horned Owl, Sharpshinned Hawk, Cooper's Hawk, Crow, Crow Black Bird, or Rice Bird.

CLOSED SEASON.

By the Act of May 14, 1903, a general game law is established making the closed season as follows:

Deer.—January 1st to October 1st.

Wild Turkeys, Pheasant or Grouse, Partridges or Quail, Woodcock.—East of the Blue Ridge Mountains, February 1st to November 1st. West of the Blue Ridge Mountains, December 31st to November 1st.

It is unlawful to hunt or track any of the above in the snow, except Wild Turkeys, or to trap or net them at any time, or to destroy their nests, eggs or young at any time.

Robins.—April 1st to February 15th.

Winter Wild Water Fowl.—April 1st to October 15th

Summer or Wood Duck.—January 1st to August 1st.

Rails, Mud Hens, Gallinules, Plovers, Surf Birds, Snipe, Sandpipers, Willets, Tattlers, Curlews.—January 1st to July 20th.

It is further prohibited to shoot or hunt any of the game birds or animals protected by the laws of Virginia, between half an hour after sunset and half an hour before sunrise, or on Sunday.

In addition to the above, there are a number of local acts which, not being in conflict with the above, are not repealed. The Boards of Supervisors of the several counties are empowered to shorten the open season, and permit the shipment of wild water-fowl out of the State or county.

UNITED STATES POSTAGE LAWS.

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

First-Class Matter.

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment to printed matter under class three.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents. Nothing must be added or attached to a postal card, except that a printed address slip may be pasted on the address or message side. The addition of anything else subjects the card to letter postage. A card containing any offensive dun or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be conclusively a part of the address and therefore permissible. Cards that have been spoiled in printing or otherwise will be redeemed at 75 per cent. of face value. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each. Cards must not exceed the size of 3½ by 5½ inches or be smaller than 2 15-16x4 15x16 inches in dimensions. Their quality must be substantially that of the government postal cards and weigh about six pounds three ounces to the thousand. Their color may be white, cream, light gray, or light buff. The cards must bear on the address side, in print, the words, "Post Card—Authorized by Act of Congress of May 19, 1898." When prepared for sale they should also bear in the upper right-hand corner of the address side a diagram with the words, "Place a one-cent stamp here;" and in the lower left-hand corner the printed words, "This side is exclusively for the address."

The message on the cards may be in writing or print, and there may also appear on the message side advertisements, illustrations, or other matter, printed either in black or colors. And there must be attached to every card mailed a one-cent adhesive postage stamp. These cards cannot be mailed to foreign countries, except at the letter rate of postage.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. An ordinary ten-cent stamp affixed to a letter will not entitle it to special delivery. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process. and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

Prepaid letters will be forwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

Second-Class Matter.

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents, and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the buletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Such Christmas, New Years, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery ten-cent stamps are affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

Third-Class Matter.

Mail matter of the third-class includes printed books, pamphlets, engravings circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

C. LUMSDEN & SON, 731 Main St., Richmond, Va. 6 Solid Silver Tea Spoons, $4.00

Puts the finishing touch to Fancy Food **SAUER'S** Famous Flavoring Extracts.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery stamps are affixed in addition to the regular postage.

Upon matter of the third-class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

Fourth-Class Matter.

Fourth-class matter is all mailable matter not included in the three preceding classes, which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. It embraces merchandise and samples of every description, and coin or specie.

Rate of postage, one cent for each ounce or fraction thereof (except seeds, roots, bulbs, cuttings, scions, and plants, the rate on which is one cent for each two ounces or fraction thereof.) This matter must be fully prepaid, or it will not be forwarded. The affixing of special delivery ten-cent stamps in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, sugar, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad order will not be forwarded in any case.

Firearms may only be sent in detached parts.

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tight-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is not exceeding four ounces, liquid measure.

Limit of weight of fourth-class matter (excepting liquids), four pounds.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to

the delivering postmaster may also be written asking him to return the package if not delivered.

Registration.

All kinds of postal matter may be registered at the rate of eight cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed $25.00 for any one registered piece or the actual value of the piece if it is less than $25.00—shall be paid for the loss of first-class registered matter.

Domestic Money Orders.

Domestic money orders are issued by money-order postoffices for any amount up to $100, at the following rates:

For sums not exceeding $2.50, 3 cents; over $2.50, to $5, five cents; over $5 to $10, eight cents; over $10 to $20, ten cents; over $20 to $30, twelve cents, over $30 to $40, fifteen cents; over $40 to $50, eighteen cents; over $50 to $60, twenty cents; over $60 to $75, twenty-five cents; over $75 to $100, thirty cents.

Stamped Envelopes.

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.
2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.
3. All periodicals sent to subscribers within the county where printed.
4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.
5. The Vice-President, Members and Members-elect, and Delegates and Delegates-elect to Congress may frank any mail matter, not over two ounces in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

Norfolk Carriage, Harness and Wagon Company.

The Norfolk Carriage, Harness and Wagon Company is offering a fine assortment of **Buggy and Carriage Robes** for Christmas presents. Your friend, lady or gentleman, would like such a present. We have them in all styles and prices. While you are at it, look at our stock of Buggies, Wagons and Carriages. We have in stock every kind of Vehicle made, and sell them at prices lower than the same can be bought elsewhere. This is the time to buy if you want to save money.

The Norfolk Carriage, Harness and Wagon Company is located at Nos. 102 and 104 Union Street, where it carries a large stock of all kinds of goods usually carried by a **first-class Carriage House.** In conducting its business, this company makes it a point to sell at the lowest possible margin **over manufacturers' prices,** and the result is that its sales have steadily increased from the first day of its opening in this city.

All of our Vehicles are of the latest styles and finish, and the **prices always appeal** to those in search of a fine Carriage, Buggy, Wagon, or, in fact, any kind of Vehicle.

When you wish anything in our line call to see us, as you can save money by doing so

The Equitable Life Assurance Society of the United States

wants new agents—both men and women—but will permit none but energetic, able and truthful persons to represent it—a decided advantage in being known as an Equitable Agent. The opportunity now is splendid. If you can qualify as an Agent, we would like to hear from you, as several excellent territories are about to be assigned.

We want a live agent in every important town.

The new insurance laws of the State of New York mark a new era in life insurance and establish a standard by which all companies will be gauged. It is the purpose of the present management—already evidenced by what it has done—to lead in every reform inaugurated by these laws. Equitable policies will be easy to sell, because the insurance buying public will recognize their merit.

Beckwith's Anti-Dyspeptic Pills.

LAWRENCEVILLE, VA., March 20, 1897.

I have tried nearly everything that has been recommended for Dyspepsia and Indigestion, but as yet have found nothing that is at all comparable with Beckwith's Pills. I am fully aware that this is a progressive age, and that in no department of science have greater strides been made than in medicine and in the treatment of the ills that flesh is heir to; but with all of the progress that has been made along that line, so far as my knowledge, derived from practical experience is concerned and extends, nothing has yet been discovered or compounded that meets the requirements of an Anti-Dyspeptic remedy so fully and completely as the Beckwith's Pills. I am, very truly yours, F. E. BUFORD.

THREE HUNDREDTH ANNIVERSARY OF AMERICA'S NATAL DAY A WORLD EVENT

Jamestown Ter-Centennial on the Shores and Waters of Hampton Roads, Virginia, will Commemorate the Most Historical, Educational and Important Epoch—International Naval Rendezvous and Military Encampment Greatest Displays Ever Witnessed—Exposition by the Sea to Embrace Every Branch of Industrial and Commercial Development, with Many New Features

PICTURESQUE SITE AND COLONIAL BUILDINGS A SCENE OF UNEXAMPLED BEAUTY

Jamestown Exposition at a Glance.

Purpose: To commemorate the first permanent settlement of English-speaking people in America, at Jamestown, Va., April 26, 1607.

Exposition company's headquarters, Norfolk, Va.

Military, naval, historic, educational, industrial and commercial in character.

Located on the shores of Hampton Roads, near Norfolk, Portsmouth and Newport News, Va.

To be opened April 26, 1907, 12 M., by the President of the United States; closes November 30th.

Twenty-five exhibit palaces, including special buildings and pavilions, in addition to government and state buildings.

Grounds comprise more than 400 acres and two miles of water front, with a fine beach.

Site is within twenty minutes' ride of principal cities of tidewater Virginia, with a combined population of more than 250,000, and reached either by trolley or steamer.

Six great trunk lines of railroads and twenty-six lines of steamships will land visitors within easy access of the grounds.

The greatest naval display ever witnessed in the world, comprising warships from nearly every foreign power.

International military encampment in which troops of foreign countries will participate with those of the United States in a series of drills, maneuvers, etc.

Industrial exhibit will show the progress of the world during three centuries.

Will be a historical and educational study of America from its first settlement.

Greatest collection of historic papers, relics, etc., ever assembled.

More members of royalty of different countries will attend than ever assembled in peace or war.

The adjacent country contains more points of historical interest than any section of the United States.

These great nations of the world will participate either with warships, detachments of troops or civil delegations: Great Britain, Germany, Russia, France, Japan, Italy, Switzerland, Denmark, Venezuela, Mexico, Costa Rico, Belgium, Guatamala, Argentine Republic, Haiti, while others will make extensive industrial and technical displays.

Naval and military displays and exposition buildings will represent a money value of more than $300,000,000.

The prevailing style of architecture for all buildings will be of the colonial period.

Attractions will include: Unique and gorgeous night harbor illuminations; international yacht races, in which the countries of the world will participate; races of dirigible airships and military balloons of different nations; exhibitions of life-saving service work; two grand piers extending into Hampton Roads with light towers and wireless telegraphy equipment.

Site faces Hampton Roads, the most desirable harbor in the world.

Largest military parade grounds in the world; a great living picture of war with all its enticing splendors. International races of submarine warships, and the largest motor boat Regatta ever held.

Great museum of war relics from all nations and all ages.

Canoe trail two miles long and twelve feet wide runs through romantic section of grounds.

"The Warpath," covering more than a mile, will be devoted to original and novel amusement features.

Norfolk, Portsmouth, Newport News and other adjacent cities, afford ample and excellent hotel accommodations, together with innumerable boarding and lodging houses, cafes, floating hotels, "inside inn," etc.

CUTS and WOUNDS

ARE QUICKLY HEALED

There is no remedy so useful or necessary in the home as A. I. M. It is always ready in case the unexpected happens. For Cuts, Wounds, Old Sores, Burns and all external inflammation it is indispensable.

Applied to the inflamed parts, it immediately soothes and quickly cures. Disorders of this nature are dangerous, painful and often hard to heal.

NATURE'S MATCHLESS REMEDY

ACID IRON MINERAL

Should be used in time, and a lasting cure is certain to follow

A. I. M. is also a great relief for Indigestion and all Stomach and Bowel troubles caused by any form of inflammation. It is obtained from a Natural Mineral, found deep in the earth. It is more powerful than many of the celebrated Mineral Springs.

Test its merits in your case. Get a bottle from your druggist or general store. If your dealer fails to have it, send us your name and one dollar ($1.00) for two fifty-cent (50c.) bottles. Express prepaid to you.

TIME OF THE ALMANACK.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude 37° 32′ 21″ N., and in Longtitude 77° 25′ 35″ W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made neccessary by the adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change, so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of longitude makes a difference of 4 minutes, and that in this latitude a degree of longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east, and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes; Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

Almanack Calculations for 1908.

The year 1908 comprises the latter part of the 132nd and the beginning of the 133rd year of American Independence, and corresponds to—

The year 6621 of the Julian Period.

The year 5668-69 of the Jewish Era. The year 5669 commencing at sunset Sept. 25th.

The year 2661 since the foundation of Rome according to Varro.

The year 2568 of the Japanese Era, and the 41st year of the period entitled "Meiji."

The year 1326 of the Mohammedan Era, or the Era of the Hegira, begins on the 4th day of February, 1908.

The first day of January, 1908, is the 2,417,942nd day since the commencement of the Julian Period.

Table for Foretelling the Weather Throughout Each Year.

If the New Moon, First Quarter, Full Moon or Last Quarter, Happens—	In Summer.	In Winter.
Between midnight and 2 o'clock...	Fair.....	Frost unless wind S. W.
" 2 and 4 morning.....	Cold and showers...	Snow and stormy.
" 4 and 6 "	Rain.....	Rain.
" 6 and 8 "	Wind and rain	Stormy.
" 8 and 10 "	Changeable.....	Cold rain if wind W., snow if E.
" 10 and 12 "	Frequent showers...	Cold and high wind.
" 12 and 2 afternoon	Very rainy	Snow or rain.
" 2 and 4 "	Changeable.....	Fair and mild.
" 4 and 6 "	Fair	Fair.
" 6 and 8 "	Fair if wind N. E...	Fair and frosty if wind N., or N. E.
" 8 and 10 "	Rainy if S. or S. W..	Rain or snow if S., or S. W.
" 10 and midnight.....	Fair	Fair and frosty.

OBSERVATIONS.

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.
2. The space for this calculation occupies from ten at night till two next morning.
3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.
4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.
5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.

JANUARY.—This is the month for making plans for the year's operations Very little work can be done in the garden, beyond securing a supply of seeds and manure and preparing compost heaps and hot-beds for next month, getting oples, brush, and sticks for beans, peas, and tomatoes. Clean up the garden.

ANALYSES OF THE GAME LAWS OF VIRGINIA—CLOSE SEASON.

This is a careful analyses of Game Laws of Virginia in reference to hunting and embraces all legislation, including the session of 1906.

Approved March 15, 1906.

Be it enacted by the General Assembly of Virginia, That section two thousand and seventy a, of the Code of Virginia, as amended by an act approved March fourteenth, nineteen hundred and three, providing when and how unlawful to hunt, etcetera, as amended and re-enacted as to subsection two thereof, by an act approved March fourteenth, nineteen hundred and four, be amended and re-enacted so as to read as follows:

Section 2070 (*a*). When and how unlawful to hunt, etcetera, and power of boards of supervisors.—1. It shall be unlawful for any person to shoot at, kill, or capture any wild water fowl or wild turkey at any time during the night in this State, or at any time to capture them in traps or nets or other contrivances, or to use reflectors or other lights, or sneak boats or artificial islands in detecting or capturing or shooting of wild fowl or game of any kind, or to hunt or shoot muskrats at night with a light in the Tidewater sections of the State, or to shoot at any game on land or water in this State with a gun larger than an eight bore. All sneak boats, nets, traps or reflectors or other unlawful appliances so used or found in the possession of any person shall be seized by any game warden or other officer and held by him as evidence, but the same shall not be destroyed except by the order of the court or justice having jurisdiction, upon warrants duly issued, which said court or justice shall, upon satisfactory evidence of the guilt of the party, or of the unlawful nature of the article seized, order the same to be destroyed. The possession of any of said guns, sneak boats, nets, traps, reflectors or other unlawful appliances shall be *prima facie* evidence of the guilt of the person in whose possession they are found.

2. It shall be unlawful for any person to hunt, kill, or capture in any manner, or buy, offer for sale, or have in possession any wild turkeys, pheasants, or grouse, quail or partridges or woodcock east of the Blue Ridge Mountains between February the first and November the first, and west of the Blue Ridge Mountains between December the thirty-first and November the first, or to track or hunt any of them in snow except wild turkeys, or to trap or net them at any time, or to destroy their nests, eggs or young at any time, or kill, chase or capture, or buy, offer for sale, or have in possession any wild deer between January the first and October the first, or to track or hunt them in snow, or to kill or capture, or buy, offer for sale, or have in possession, any winter wild water fowl between April the first and October the fifteenth, or summer or wood ducks between January the first and August the first, or any rails, mud hens, gallinules, plovers, except black breast plover, green head plover, and white plover, snipe, except Wils n or English snipe or Robin snipe, sand pipers, willets, or tattlers, between January the first and July the twentieth, or robins between March the first and December fifteenth. The possession of any of said game birds or game animals, or parts thereof, protected by the laws of this State, during the season in which it is unlawful to hunt, kill, chase or capture the same, shall be *prima facie* evidence of the guilt of the party in whose possession they are found.

3. It shall be unlawful to shoot or otherwise hunt any wild fowl or any game birds or game animals protected by the laws of this State later than an half an hour after sunset or earlier than an half an hour before sunrise, or to shoot or hunt any game in this State on Sunday.

4. Any person violating any of the provisions of this section shall be deemed guilty of a misdemeanor, and shall be punished by a fine of not less than five or more than fifty dollars, or imprisoned in jail for not more than thirty days, or both fined and imprisoned, at the discretion of the justice or jury trying the case.

5. All acts or parts of acts in conflict with this section are hereby repealed, but the board of supervisors of any county shall have the power to shorten the open season in their said county and may permit the shipment of wild water fowl from said county or out of the State, and by regulations, not inconsistent with the provisions of this section, may further protect the game within their said county, and may include in such protection other game not specifically mentioned in this section.

6. Nothing in this section shall be construed to refer to the bird known as sora.

Sec. 2070 (*b*). Game wardens, their appointment, duties, etc.—1. It shall be the duty of the city or corporation courts of the cities, or the judges thereof in vacation, on the application of five resident freeholders of any city to appoint two wardens, whose jurisdiction shall be confined to their respective cities and where the Board of Supervisors of any county shall, by resolution of record in the minutes of said board, request the judge of the Circuit Court of said county so to do; the said judge shall, upon the application of five resident freeholders of any magisterial district in said county appoint one suitable person in such magisterial district as game warden, whose jurisdiction shall be confined to said magisterial district where the said appointment is made by the judge in vacation, he shall certify the same to the clerk of his court, who shall enter the same in the order book of his court in the same manner as if made in term.

2. The said wardens shall hold office for the term of four years from the date of their appointment, unless sooner removed from office, and shall qualify according to law.

3. It shall be the duty of said wardens to enforce all statutes of this State, and of the United States, now in force or hereafter to be enacted for the protection and propogation of wild water fowl, game birds and game animals or song or insectivorous birds. The said wardens shall have power and it shall be their duty, to arrest any person detected by them in the act of violating any of the aforesaid laws, or any person against whom a warrant shall have been duly issued upon the information of any other person for such violation, and forthwith to carry such person before a justice or court having jurisdiction over the offence, who shall proceed without unreasonable delay to hear, try and determine the charge against such person. No game warden shall have any right under this act to go upon the land of another person without the consent of such other person until and unless such game warden shall have procured a search warrant in conformity with the provisions of subsection five of this section, or shall have a warrant for the arrest of some person thereon: provided, however, that such game warden may, without a warrant, arrest any person who violates any of the provisions of this chapter in the presence of such game warden, and should any person violate any of the provisions of this chapter in the presence of such game warden

such game warden may lawfully follow such person anywhere in the effort to arrest.

4. The several commanders of the oyster police boats of this Commonwealth are hereby constituted game wardens of this State, whose jurisdiction as such wardens shall extend over the lands and waters of this Commonwealth within their several jurisdictions as commanders. They shall enforce the statutes of this State and of the United States for the protection of game or other animals or birds protected by law, and render report to the Board of Fisheries of all prosecutions, and the said Board of Fisheries shall publish the same in their annual report as information. The commanders of the said oyster police boats shall receive no additional compensation for the performance of these duties. Except that in case of conviction they may receive the fee provided for in subsection eight of this section.

5. Any court judge or justice having jurisdiction over the offense, if satisfied upon affidavit that there is reasonable cause to believe that any wild water fowl, game birds, game animals or song or insectiverous birds, or parts thereof caught, taken, killed, shipped, or about to be shipped, or in transit, contrary to the laws of this State, or of the United States, are being concealed or stored in any place, shall issue a search warrant and cause search therefor to be made in any such place, and to that end may, after demand and refusal, cause any building, enclosure or car to be entered, and any apartment in which it is believed that game is concealed to be examined by any of said wardens or other officers executing the warrant; provided, that the issuance and execution of such search warrants shall be in accordance with the issuance and execution of search warrants in other cases as provided by law.

6. All game animals, wild water fowl and birds, protected by law, or parts thereof, found under such warrant, shall be seized by the warden or other officer making the search, and shall be disposed of as the court, judge or justice having jurisdiction may direct. All guns, gunning or hunting appliance found in such search shall be seized by said warden or other officer, and held subject to the payment of the fine prescribed by law for the offense charged and the cost of prosecution. If any of the articles so found be such as are not authorized by law they shall, upon the order of the court, judge or justice having jurisdiction, be destroyed, and all other of such articles shall be sold at public auction after the lapse of twenty days from the time of seizure, and after such notice as the court, judge or justice having jurisdiction, may prescribe, unless the reputed owner appears and acquits himself of the charge or pay the fine that may be imposed by the court, judge or justice.

7. Any person or persons interfering with any of said game wardens in the discharge of their duty, or resisting lawful arrest, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be fined not less than five dollars nor more than fifty dollars.

8. All fines and penalties imposed and collected under the provisions of this chapter shall be paid to the Commonwealth, and in addition to said fines and penalties, there shall be assessed against the offender in every case of conviction under the provisions of this chapter a fee of two dollars and fifty cents, which shall be collected as fines are collected under the general provisions of law and be paid to the warden who shall secure the conviction.

9. If any warden appointed under this section shall refuse or wilfully neglect to prosecute any person violating any of its provisions, or any of the laws of this State relating to wild water fowl, game birds or game animals, or song or insectiverous birds, his appointment shall be revoked by the court having jurisdiction, and such warden shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined not exceeding twenty dollars, and the vacancy thus created shall be filled by the court or judge in vacation.

10. All money paid to or collected by clerks of courts as hunting licenses shall constitute a fund for the payment of the said regularly appointed game wardens of this State as herein provided, and the clerk shall, after deducting a fee of fifty cents for issuing such license, on first of April of each year, pay in equal amounts to the said warden or wardens of his county such sum as may be in his hands arising from the issuance of such licenses; provided, that no one warden shall receive more from this source than three hundred dollars in any one year, and shall make return to his court a detailed statement of such receipts and disbursements; provided, that in the counties of Accomac and Northampton the Circuit Court for

said counties shall appoint, on the recommendation of the Eastern Shore Game Protective Association, the game wardens of the said counties, who shall make report at regular intervals to said association, as its laws shall provide, and the said clerks of the court of said counties upon the order of said association, shall distribute among the game wardens for said counties, or as may have been agreed upon by contract between the said association and said wardens, or in proportion to the services, which, in their judgment, have been rendered by them, respectively, the fund arising from the license of non-residents provided for in this chapter, or so much thereof as may be necessary. Should there be any surplus remaining after providing an efficient system of game protection in said counties from the license of non-residents above mentioned, said association may use it for restocking said county with game. The clerk shall pay to the treasurer of said association such sums as may be thus expended, paying any amounts not needed for the purpose above mentioned to the Auditor of Public Accounts, as provided in section twenty hundred and seventy *c*.

Section 2070 (*c*). Non-residents to obtain hunting licenses: when and how game may be exported, etcetera.—1. It shall be unlawful for any person, not a resident of this State, to hunt or kill wild water fowl, wild turkeys, pheasants or grouse, woodcock, partridges, quail or other game birds, or deer, within this State until he shall have first secured a hunting license as hereinafter provided; provided, however, that the non-resident children of resident owners of land in this State, shall be allowed to hunt on the lands of his parents as though he were resident of this State, and the non-resident guest of a resident land owner shall be allowed to hunt on the lands of his host as though he were a resident of this State, when accompanied by said host, or a member of his host's family; provided, said host receives no compensation directly or indirectly from said guest.

2. Upon the personal application of any non-resident to the clerk of the Circuit Court of any county in which he first begins to hunt, such clerk shall, upon the payment of ten dollars, issue to such non-resident a hunting license, using a form to be prescribed by the Auditor of Public Accounts for that purpose, entitling him to hunt and kill wild water fowl, deer, wild turkeys, pheasants or grouse, woodcock, partridges, quail, and other game birds during the open season in the six months next following, and subject to any restrictions now existing against or which may hereafter be imposed upon residents of this State. The clerk shall retain fifty cents as his fee for issuing such license, and the residue he shall account for to the Auditor of Public Accounts, unless otherwise provided for by law. Such license shall not be transferable.

3. It shall be unlawful, except as hereinafter provided, to ship or transport, or to cause to be shipped or transported, from this State, whether alive or dead, water fowl, deer, wild turkeys, pheasants or grouse, woodcock, partridges, quail, or other game birds, or any deer or vension, killed or captured within this State, nor shall the same be killed, captured or possessed with intent to ship or transport from this State.

4. Any person authorized to hunt under the laws of this State may, during the open season, take with him out of the State, either in his personal possession or as his baggage, on the same conveyance with him, not in a closed package, but exposed to view, not exceeding thirty wild water fowl, fifty quail or partridges, ten pheasants or grouse, three wild turkeys, one deer, or plovers, snipe, sand-pipers, willets, tattlers or curlew, not exceeding twenty-five of each or not exceeding one hundred in the aggregate, when lawfully killed or captured by himself; provided, the same be plainly labelled or tagged with the name and address of such person: and any citizen of this State may, during the open season, ship or have transported from this State, as a gift and not for market or sale, so stating on the shipping tag, one deer during the season, and not exceeding three wild turkeys, six pheasants, twelve wild water fowls, eighteen partridges or quail; provided, that such game shall be shipped exposed to public view and unconcealed, and each parcel or package shall be plainly labelled or tagged with the name and address of the donor and of the donee, and that number of each of such game so shipped. This section shall not apply to sora or rabbits or hares.

5. It shall be deemed a violation of this section for any person to deliver any of the game herein mentioned to any common carrier or person for shipment or transportation out of the State, or for any common carrier or person to carry or transport or receive for shipment or transportation of any such game in any other manner than is provided in this section.

(Virginia, in prohibiting the exportation of game, makes the violator of the law in this State also amenable to the United States law, under what is known as the Lacy act; also the person who receives the game in any other States, as well as the common carrier, each are liable to a fine of not exceeding $200.)

6. Nothing in this section shall be construed to prevent common carriers from carrying or transporting any of the game herein mentioned in unbroken packages from beyond the confines of this State through the same to some point in another State

7. Any person or corporation violating any provision of this section shall be guilty of a misdemeanor and be liable to a fine of fifty dollars for each offense, or imprisoned in jail for not exceeding sixty days.

8. No person charged with an offense under this section shall within the meaning thereof be deemed a resident of this State who shall not have resided within the limits of the State twelve months next preceding the time when the alleged offense was committed, unless he shall have, *bona fide* taken up his residence in this Commonwealth, and has his *bona fide* domicile therein, and in any prosecution for such offense the burden of proof as to residence shall be upon the defendant.

Section 2071. Unlawful hunting, trespassing, etcetera, on another's lands.—If any person without the consent of the owner or tenant, shoot, hunt, range, fish, trap or fowl on or in the lands, waters, mill ponds or private ponds of another, which are enclosed, or the boundaries of which are the streams adjacent to which constitute a lawful fence, or on any lands, waters, mill ponds or private ponds of another, east of the Blue Ridge Mountains, or in the waters on said land, he shall be deemed guilty of a trespass, and upon conviction thereof shall be fined not less than five dollars nor more than fifty dollars, and in addition thereto shall be liable in an action for damages; and if any person, after being warned not to do so by the owner or tenant of any premises, shall go upon the lands of the said owner or tenant, he shall, in addition to the liabilities imposed under this section, be deemed guilty of a misdemeanor, and upon conviction thereof, punished by a fine not exceeding fifty dollars or imprisoned in the county jail not exceeding sixty days, or both, in the discretion of the justice or jury trying the case.

Section 2072. In certain counties.—If any person shoot, hunt, range or fowl on the lands or in the water courses comprehended within the survey of any proprietor of lands in the counties of Alexandria, Fairfax, Prince William, Stafford and King George, and within five miles of navigable tidewater, without license in writing from the owner or tenant of said lands, he shall, besides being liable to such owner or tenant in an action for damages, forfeit to the informer three dollars for the first offense, six dollars for the second offense, and nine dollars for each succeeding offense, the forfeiture in each case to be double if the offense be committed in the night or on Sunday; and he shall likewise forfeit to the informer in each instance his boat or other means of conveyance, his guns, dogs and all his shooting and hunting apparatus used in the commission of the offense and be liable for all costs and expenses incurred in apprehending and prosecuting him for the recovery of said forfeiture.

Section 2073. Punishment of offenders.—Any person violating either of the two preceding sections may be arrested, and the property forfeited under the last section may be seized with or without warrant by any sheriff or constable or any game warden of the Commonwealth within their respective jurisdictions and held to await judgment. The offender shall be carried before a justice of the county in which the offense was committed, and a report be made to him of the property, if any, seized. The justice shall proceed to try the case and give judgment thereon. If judgment be rendered against the offender, it shall be for the forfeitures, pecuniary and otherwise, and the costs and expenses incurred and any property seized, adjudged to be forfeited, shall be delivered to the person entitled to the forfeiture in part satisfaction of the judgment. If the offender does not satisfy the judgment in full, the justice shall commit him to jail for one month, unless such satisfaction be sooner made. If the offender be acquitted, any property seized shall be released.

Section 2074. Proceeding when convicted a third time.—If a person be convicted a third time of any of the offenses mentioned in this chapter, the justice rendering judgment therefor shall require him to give a recognizance, with sufficient surety, for his good behavior for a year; and if he fail to give such surety commit him to jail for one month, unless he sooner give it. Such recognizance shall be

deemed to be forfeited if such person commit any of the said offenses within the time limited in the recognizance.

Section 2078. Damages for shooting or killing tame deer.—If any person shoot or kill a tame deer having a bell or collar on its neck, he shall pay to the owner the value of such deer.

Section 2079. Concerning the protection of certain wild birds other than game birds, their nests and eggs.—It shall be unlawful at any time to kill or capture the turkey buzzard, or black buzzard, or to kill or ship alive out of the State the mocking bird, or kill or capture the thrush, gold finch, oriole, wren, rain crow, cardinal or red bird, wood robin, blue bird, martin, starling, or any wild bird other than the game birds herein named, or to destroy their nests or eggs, or to purchase or offer for sale any such wild bird after it has been killed or caught, or any part thereof, and the possession or sale, or offering for sale, in this State of any bird so protected shall be *prima facie* evidence of guilt; provided, that nothing herein contained shall be construed to apply to the English sparrow, owl, hawk, eagle, crow, crow black bird, rice bird, Wilson or English snipe, robin-snipe.

Section 2080. Penalties for violating preceding section.—If any person violate any of the provisions of the preceding section he shall be guilty of a misdemeanor, and shall be fined not less than two dollars nor more than twenty dollars, and imprisoned in jail until the fine is paid, but not exceeding thirty days.

Sections twenty hundred and seventy-five, twenty hundred and seventy-six, twenty hundred and seventy-seven, twenty hundred and eighty-one, and twenty hundred and eighty-two of the Code of Virginia, and an act entitled an act to prevent the extermination of partridges (or quail) in the State of Virginia, approved January twenty-seventh, eighteen hundred and ninety-six, as amended by an act entitled "an act to amend and re-enact sections one and four of an act entitled an act to prevent the extermination of partridges (or quail) in the State of Virginia," approved January twenty-seventh, eighteen hundred and ninety-six, in force since December fifteenth, eighteen hundred and ninety-seven, and all other acts or parts of acts in conflict with the provisions of this chapter as hereby amended and re-enacted are hereby repealed; provided, that nothing in this act shall be construed as repealing a special act, approved March 8, 1902, restricting the shooting of wild water fowl in Back bay and its tributaries in the county of Princess Anne.

This act shall be in force from its passage.

The above act does not repeal local county laws relating to rabbits or hares. From the most accurate information obtainable, the following are the open seasons in the counties named: Accomac, Northampton, Northumberland, November 15th to January 15th; Alexandria, October 1st to January 1st; Amelia, Charlotte, Greenesville, Spotsylvania, Sussex, October 1st to February 1st; Buckingham, Cumberland, October 15th to February 15th; Caroline, Essex, Hanover, Henrico, King William, Albemarle, Mecklenburg, November 1st to February 1st; Chesterfield, September 1st to February 1st; Culpeper, Orange, November 15th to January 15th; Elizabeth City, Norfolk county, November 15th to February 1st; Fairfax, Fauquier, Loudoun, Frederick, Roanoke, November 1st to January 1st; Halifax, October 15th to February 1st; Nottoway, September 1st to January 1st; Shenandoah, November 1st to March 1st; Stafford, September 15th to February 15th; James City, York, November 15th to February 15th; Nansemond, October 15th to March 1st.

Halifax appears to be the only county having a "possum" law; the open season is fixed from October 15th to February 1st.

In the following counties, Mongolian, or imported pheasants are not allowed to be killed: Albemarle, Alleghany, Bath, Bedford, Culpeper, Highland, Louisa, Montgomery, Orange, Rockingham.

Augusta and Rockbridge not until after November 1, 1904.

Partridges are not permitted to be carried out of some of the counties. Page, Rappahannock, Sussex and Henry, have a county non-export law, and there may be others.

UNITED STATES POSTAGE LAWS.

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

First-Class Matter.

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment to printed matter under class three.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents. Nothing must be added or attached to a postal card, except that a printed address slip may be pasted on the address or message side. The addition of anything else subjects the card to letter postage. A card containing any offensive dun or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be conclusively a part of the address and therefore permissible. Cards that have been spoiled in printing or otherwise will be redeemed at 75 per cent. of face value. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each. Cards must not exceed the size of 3½ by 5½ inches or be smaller than 2 15-16x4 15x16 inches in dimensions. Their quality must be substantially that of the government postal cards and weigh about six pounds three ounces to the thousand. Their color may be white, cream, light gray, or light buff. The cards must bear on the address side, in print, the words, "Post Card—Authorized by Act of Congress of May 19, 1898." When prepared for sale they should also bear in the upper right-hand corner of the address side a diagram with the words, "Place a one-cent stamp here;" and in the lower left-hand corner the printed words, "This side is exclusively for the address."

The message on the cards may be in writing or print, and there may also appear on the message side advertisements, illustrations, or other matter, printed either in black or colors. And there must be attached to every card mailed a one-cent adhesive postage stamp. These cards cannot be mailed to foreign countries, except at the letter rate of postage.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. An ordinary ten-cent stamp affixed to a letter will not entitle it to special delivery. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

A Home Company, investing its money at home, offers safe and liberal policies. South-Atlantic Life, Richmond, Va.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

Prepaid letters will be forwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

Second-Class Matter.

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents, and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the buletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Such Christmas, New Years, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery ten-cent stamps are affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

Third-Class Matter.

Mail matter of the third-class includes printed books, pamphlets, engravings circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

We have handled Straight Whiskies—"The Pure Food kind"—exclusively for the past fifteen years. We think they are better than the other kind. Cost no more—"Why don't you try?"

Phil. G. Kelly Co.

Long Distance 'Phone 1358. **RICHMOND, VA.**

Puts the finishing touch to Fancy Food **SAUER'S** Famous Flavoring Extracts.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery stamps are affixed in addition to the regular postage.

Upon matter of the third-class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

Fourth-Class Matter.

Fourth-class matter is all mailable matter not included in the three preceding classes, which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. It embraces merchandise and samples of every description, and coin or specie.

Rate of postage, one cent for each ounce or fraction thereof (except seeds, roots, bulbs, cuttings, scions, and plants, the rate on which is one cent for each two ounces or fraction thereof.) This matter must be fully prepaid, or it will not be forwarded. The affixing of special delivery ten-cent stamps in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, sugar, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad order will not be forwarded in any case.

Firearms may only be sent in detached parts.

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tight-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is not exceeding four ounces, liquid measure.

Limit of weight of fourth-class matter (excepting liquids), four pounds.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to

Registration.

All kinds of postal matter may be registered at the rate of eight cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed $25.00 for any one registered piece or the actual value of the piece if it is less than $25.00—shall be paid for the loss of first-class registered matter.

Domestic Money Orders.

Domestic money orders are issued by money-order postoffices for any amount up to $100, at the following rates:

For sums not exceeding $2.50, 3 cents; over $2.50, to $5, five cents; over $5 to $10, eight cents; over $10 to $20, ten cents; over $20 to $30, twelve cents, over $30 to $40, fifteen cents; over $40 to $50, eighteen cents; over $50 to $60, twenty cents; over $60 to $75, twenty-five cents; over $75 to $100, thirty cents.

Stamped Envelopes.

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1. 1873, but the following mail matter may be sent free by legislative saving clauses, viz:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.
2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.
3. All periodicals sent to subscribers within the county where printed.
4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.
5. The Vice-President, Members and Members-elect, and Delegates and Delegates-elect to Congress may frank any mail matter, not over two ounces in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

THE LAW IN VIRGINIA IN REGARD TO WILLS.

Who may execute a will? A valid will may be made by any person of sound mind and lawful age (twenty-one years)) except that minors eighteen years of age and upwards, may, by will, dispose of personal estate. A married woman may, since the Act of Assembly of March 7, 1900, dispose of all her property, both real and personal, as if she were unmarried, subject, of course, to the curtesy right of the husband.

How is a will made? No will shall be valid unless it be in writing and signed by the testator, or by some other person in his presence and by his direction, in such manner as to make it manifest that the name is intended as a signature; and, moreover, unless it be wholly written by the testator, the signature shall be made or the will acknowledged by him in the presence of at least two competent witnesses, present at the same time, and such witnesses shall subscribe the will in the presence of the testator.

What are the widow's rights as to dower and jointure? Sec. 2267. A widow shall be endowed of one-third of all the real estate whereof her husband or any other to his use, was, at any time during the coverture, seized of an estate of inheritance, unless her right to such dower shall have been lawfully barred or relinquished.

Sec. 2268. When a husband, or any other to his use shall have been entitled to a right of entry or action in any land, and his widow would be entitled to dower out of the same, if the husband or such other had recovered possession thereof, she shall be entitled to such dower, although there shall have been no recovery of possession.

Sec. 2269. Where land is *bona fide* sold in the lifetime of a husband, to satisfy a lien or encumbrance thereon, created by deed in which the wife has united, or created before the marriage, or otherwise paramount to the wife, she shall have no right to be endowed in the said land. But if a surplus of the proceeds of sale remain after satisfying the said lien or encumbrance, she shall be entitled to dower in said surplus, and a court of equity having jurisdiction of the case may make such order as may seem to it proper to secure her right.

Sec. 2270. If any estate, real or personal, intended to be in lieu of dower, shal be conveyed or devised for the jointure, of the wife, such conveyance or devise shall bar her dower of the real estate, or the residue thereof, and every such provision, by deed or will, shall be taken to be intended in lieu of dower, unless the contrary intention plainly appear in such deed or will, or in some other writing signed by the party making the provision.

When and how may widow waive jointure and demand dower in real estate? Sec 2271. But if such conveyance or devise were before the marriage, without the assent in writing or during the infancy of the *feme*, or if it were after marriage, in either case, the widow may, at her election, waive such jointure and demand her dower. Such election shall be made within one year after the death of her husband, or within one year after the admission of his will to probate where the provision is by will, and shall be made in any court of record in the county or corporation in which the husband resided at the time of his death, or in the clerk's office of which the instrument creating the jointure is recorded, or by writing recorded in such court, or in the clerk's office thereof, upon such acknowledgment of proofs as would authorize a writing to be admitted to record under chapter 111; and when she shall elect and receive her dower, the estate so conveyed or devised to her shall cease and determine.

What interest has the widow in the personal estate of her husband if he dies intestate? If the intestate leave a widow and issue by her, the widow shall be entitled to one-third of the surplus of the personal estate, after the payment of funeral expenses, charges of administration, and debts. Or, if the intestate leave a widow, but no issue by her, the widow shall be entitled absolutely to such of the personal property in the said surplus as shall have been acquired by the intestate in virtue of his marriage with her prior to the fourth day of April, 1877, and remains in kind at his death; she shall also be entitled to one-half of the residue of such surplus if the intestate husband leave no issue by a former marriage, but to one-third only of such residue if he leave such issue.

When and how widow may renounce benefit of will as to personalty? Sec. 2559. When any provision for a wife is made in her husband's will, she may, within one year from the time of the admission of the will to probate, renounce such provi-

sion. Such renunciation shall be made either in person before the court in which the will is recorded, or by a writing recorded in such court, or the clerk's office thereof, upon such acknowledgment or proof as would authorize a writing to be admitted to record under chapter 111. If such renunciation be made, or if no provision for her be made in the will, she shall have such share of her husband's personal estate as she would have had if he had died intestate; otherwise, she shall have no more thereof than is given her by the will.

What interest has the husband in the personal estate of the wife if she dies intestate? If *she* dies intestate, her husband shall be entitled to the whole of the surplus of the personal estate.

How is a will revoked by operation of law? Sec. 2517, Every will made by a man or woman shall be revoked by his or her marriage, except a will made in exercise of a power of appointment, when the estate thereby appointed would not, in default of such appointment, pass to his or her heir, personal representative, or next of kin.

What is the law as to pretermitted children? Sec. 2527. If any person die leaving a child, or his wife with child which shall be born alive, and leaving a will made when such person had no child living, wherein any child he might have is not provided for or mentioned, such will, except so far as it provides for the payment of the debts of the testator, shall be construed as if the devises and bequests therein had been limited to take effect, in the event that the child shall die under the age of twenty-one years, unmarried, and without issue.

Sec. 2528. If a will be made when a testator has a child living, and a child be born afterwards, such after-born child, or any descendant of his, if not provided for by any settlement, and neither provided for nor expressly excluded by the will, but only pretermitted, shall succeed to such portion of the testator's estate as he would have been entitled to if the testator had died intestate; towards raising which portion the devisees and legatees shall, out of what is devised and bequeathed to them, contribute ratably, either in kind or in money, as a court of equity, in the particular case, may deem most proper. But if any such after-born child, or descendant, die under the age of 21 years, unmarried, and without issue, his portion of the estate, or so much thereof as may remain unexpended in his support and education, shall revert to the person to whom it was given by the will.

What is a Codicil? A codicil is a little will; that is, it is a testamentary disposition, generally not revoking the former will, but varying it in some way or making changes in it or additions to it. It must be executed as a will.

FORM OF WILL AND CODICIL.

I, ..., of (*place and occupation*), make this my last will. I give, devise, bequeath my estate and property, real and personal, as follows, that is to say:

Then follow all the provisions and disposition of property which the testator intends, stated fully, plainly, and as accurately as possible. Then follows, first, the appointment of an executor, and then the execution, and finally the declaration of the witnesses, thus:

I appoint....., at....., executor of this my will.

In witness whereof, I have signed this instrument as my will, at (*place*); on (*date*).

(*Signature.*)

The foregoing will was this day signed by the said....., and acknowledged by him as his last will, in the presence of us, the undersigned-subscribing witnesses, both of us being present at the same time, and each of us, at the request of the said....., and in his presence, subscribed the said will as subscribing witnesses thereto.

Witness our hands, this .....day of....., ...

(*Here follow the names of two competent witnesses.*)

A codicil should be written thus:

I,....., of (*place and occupation*), do make this my codicil, hereby confirming my last will made on the (*date of the will*), and all my former codicils (*if there be any*), so far as this codicil is consistent therewith; and do hereby—

Then follows whatever disposition the testator chooses to make, stating and describing it as he would if it were a will, and executing it, and having it attested in the same manner as if it were a will, excepting that, instead of calling it a will wherever that word occurs he says "codicil" instead of "will."

To the Retail Merchants of
Virginia and North Carolina.

Gentlemen:

Is there anything more important to you than to have a reliable house from which to order by mail when the quantity of goods wanted will not justify a trip to market?

We have been in business nearly seventy years. We know what the Southern trade requires. Our reputation is well established. It will pay you to send us a trial order.

can easily be raised with regular, even stands, and of the very best grade, for which the highest prices can be gotten at your warehouse, or from tobacco buyers if you will, a few weeks before planting, liberally use

Virginia-Carolina Fertilizers.

Use them again as a top dressing, or second application. These fertilizers are mixed by capable men, who have been making fertilizers all their lives, and contain phosphoric acid, potash and nitrogen, or ammonia, in their proper proportions to return to your soil the elements of plant-life that have been taken from it by continual cultivation. Accept no substitute.

TIME OF THE ALMANACK.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude 37° 32′ 21″ N., and in Longtitude 77° 25′ 35″ W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made neccessary by the adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change, so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of longitude makes a difference of 4 minutes, and that in this latitude a degree of longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east, and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes; Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

Almanack Calculations for 1909.

The year 1909 comprises the latter part of the 133rd and the beginning of the 134th year of American Independence, and corresponds to—

The year 6622 of the Julian Period.

The year 5669–70 of the Jewish Era. The year 5670 commencing at sunset Sept. 15th.

The year 2662 since the foundation of Rome according to Varro.

The year 2569 of the Japanese Era, and the 42d year of the period entitled "Meiji."

The year 1327 of the Mohammedan Era, or the Era of the Hegira, begins on the 23rd day of January, 1909.

The first day of January, 1909, is the 2,418,308th day since the commencement of the Julian Period.

Morning and Evening Stars for 1909.

The Planet Venus (♀) will be Morning Star till April 28th, and then continues as Evening Star during the remainder of the year.

The Planet Mars (♂) will be Morning Star till September 24th, after which he continues as Evening Star till the end of the year.

The Planet Jupiter (♃) is Morning Star till February 28th, thence Evening Star till September 18th, after which he becomes Morning Star again till the close of the year.

The Planet Saturn (♄)is Morning Star till April 3rd, thence Evening Star till October 13th, and is then Morning Star again till the close of the year.

Table for Foretelling the Weather Throughout Each Year.

If the New Moon, First Quarter, Full Moon or Last Quarter, Happens—	In Summer.	In Winter.
Between midnight and 2 o'clock...	Fair.....	Frost unless wind S. W.
" 2 and 4 morning.....	Cold and showers...	Snow and stormy.
" 4 and 6 "	Rain.....	Rain.
" 6 and 8 "	Wind and rain	Stormy.
" 8 and 10 "	Changeable.....	Cold rain if wind W., snow if E.
" 10 and 12 "	Frequent showers...	Cold and high wind.
" 12 and 2 afternoon	Very rainy	Snow or rain.
" 2 and 4 "	Changeable.....	Fair and mild.
" 4 and 6 "	Fair	Fair.
" 6 and 8 "	Fair if wind N. E...	Fair and frosty if wind N., or N. E.
" 8 and 10 "	Rainy if S. or S. W..	Rain or snow if S., or S. W.
" 10 and midnight.....	Fair	Fair and frosty.

OBSERVATIONS.

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.
2. The space for this calculation occupies from ten at night till two next morning.
3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.
4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.
5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.

Of Interest to Every Almanac Reader ! Key to the Almanac and the Sidereal Heavens. By L. J. Heatwole

KEY TO THE ALMANAC AND THE SIDEREAL HEAVENS

L·J·HEATWOLE

Other than the Bible, there is no publication that is found in so many homes as the Almanac, and yet it is a question if there is any other book that contains so many things about which the people generally know so little. Key to the Almanac and the Sidereal Heavens meets a great need along this line. About 400 subjects are treated by a man who for more than 20 years has made a specialty of Almanac making, having furnished calculations for almanacs aggregating a sale of many million copies.

About 3,000 years ago King David wrote "The heavens declare the glory of God; and the firmament showeth His handiwork. Day unto day uttereth speech, and night unto night sheweth knowledge. There is no speech nor language, where their voice is not heard." While the seasons have come and gone, and the stars and firmament have continued to send forth their message, how much have we failed to understand because we lacked information concerning these things? In this book you will find a vast amount of knowledge which should give a new meaning to these many voices of the great Creator.

The book is illustrated with more than 80 cuts, and contains over 225 pages. It is handsomely bound in cloth. Price, **$1.** Address all orders to **Mennonite Publishing House, 5208, Scottdale, Pa.** N. B.—In every district agents wanted to canvass this book.

JANUARY.—This is the month for making plans for the year's operations. Very little work can be done in the garden, beyond securing a supply of seeds and manure and preparing compost heaps and hot-beds for next month, getting ples, brush, and sticks for beans, peas, and tomatoes. Clean up the garden.

ANALYSES OF THE GAME LAWS OF VIRGINIA—CLOSE SEASON.

(Revised and corrected by W. J. Lyneham, Game Warden.)

This is a careful analyses of Game Laws of Virginia in reference to hunting and embraces all legislation, including the session of 1908.

Approved March 11, 1908.

Be it enacted by the General Assembly of Virginia, That section two thousand and seventy a, of the Code of Virginia, as amended by an act approved March fourteenth, nineteen hundred and three, providing when and how unlawful to hunt, etcetera, as amended and re-enacted as to subsection two thereof, by an act approved March fourteenth, nineteen hundred and four, be amended and re-enacted so as to read as follows:

Section 2070 (*a*). When and how unlawful to hunt, etcetera, and power of boards of supervisors.—1. It shall be unlawful for any person to shoot at, kill, or capture any wild water fowl or wild turkey at any time during the night in this State, or at any time to capture them in traps or nets or other contrivances, or to use reflectors or other lights, or sneak boats or artificial islands in detecting or capturing or shooting of wild fowl or game of any kind, or to hunt or shoot muskrats at night with a light in the Tidewater sections of the State, or to shoot at any game on land or water in this State with a gun larger than an eight bore. All sneak boats, nets, traps or reflectors or other unlawful appliances so used or found in the possession of any person shall be seized by any game warden or other officer and held by him as evidence, but the same shall not be destroyed except by the order of the court or justice having jurisdiction, upon warrants duly issued, which said court or justice shall, upon satisfactory evidence of the guilt of the party, or of the unlawful nature of the article seized, order the same to be destroyed. The possession of any of said guns,

sneak boats, nets, traps, reflectors or other unlawful appliances shall be *prima facie* evidence of the guilt of the person in whose possession they are found.

2. It shall be unlawful for any person to hunt, kill, or capture in any manner or have in possession any wild turkeys, pheasants, grouse, quail partridges or woodcock east of the Blue Ridge Mountains between February the first and November the first, and west of the Blue Ridge Mountains between December the thirty-first and November the first, or to track or hunt any of them in the snow or to trap or net them at any time, or buy, offer for sale or sell at any time, any robins, grouse, pheasants, quail or partridges or woodcock, or to destroy their nests, eggs or young at any time, or kill, chase or capture, or buy, offer for sale, or have in possession any wild deer between December the first and September the first, or to track or hunt them in snow, or to kill or capture, or buy, offer for sale, or have in possession, any winter wild water fowl between May the first and October the fifteenth, or summer or wood ducks between January the first and August the first, or any rails, mud hens, gallinules, plover, surf birds, snipe, except Wilson or English snipe, sandpipers, willets, tattlers or curlews, between January first and July twentieth, or robins between April first and February fifteenth, or hares (or rabbits) between February first and November first, provided this shall not restrict the killing of hares by residents of this State upon their own land at any time, nor shall this interfere as to laws now governing the boards of supervisors in the several counties of this State.

3. It shall be unlawful to shoot or otherwise hunt any wild fowl or any game birds or game animals protected by the laws of this State later than an half an hour after sunset or earlier than an half an hour before sunrise, or to shoot or hunt any game in this State on Sunday.

4. Any person violating any of the provisions of this section shall be deemed guilty of a misdemeanor, and shall be punished by a fine of not less than five or more than fifty dollars, or imprisoned in jail for not more than thirty days, or both fined and imprisoned, at the discretion of the justice or jury trying the case.

5. All acts or parts of acts in conflict with this section are hereby repealed, but the board of supervisors of any county shall have the power to shorten the open season in their said county and may permit the shipment of wild water fowl from said county or out of the State, and by regulations, not inconsistent with the provisions of this section, may further protect the game within their said county, and may include in such protection other game not specifically mentioned in this section.

6. Nothing in this section shall be construed to refer to the bird known as sora.

Sec. 2070 (*b*). Game wardens, their appointment, duties, etc.—1. It shall be the duty of the city or corporation courts of the cities, or the judges thereof in vacation, on the application of five resident freeholders of any city to appoint two suitable persons in such city as game wardens, whose jurisdiction shall be confined to their respective cities and where the board of supervisors of any county shall, by resolution of record in the minutes of said board, request the judge of the circuit court of said county so to do; the said judge shall, upon the application of five resident freeholders of any magisterial district in said county appoint one suitable person in such magisterial district as game warden, whose jurisdiction shall be confined to said magisterial district; when the said appointment is made by the judge in vacation, he shall certify the same to the clerk of his court, who shall enter the same in the order book of his court in the same manner as if made in term.

2. The said wardens shall hold office for the term of four years from the date of their appointment, unless sooner removed from office, and shall qualify according to law.

3. It shall be the duty of said wardens to enforce all statutes of this State, and of the United States, now in force or hereafter to be enacted for the protection and propogation of wild water fowl, game birds and game animals or song or insectivorous birds. The said wardens shall have power and it shall be their duty, to arrest any person detected by them in the act of violating any of the aforesaid laws, or any person against whom a warrant shall have been duly issued upon the information of any other person for such violation, and forthwith to carry such person before a justice or court having jurisdiction over the offence, who shall proceed without unreasonable delay to hear, try and determine the charge against such person. No game warden shall have any right under this act to go upon the land of another person without the consent of such other person until and unless such game warden shall have procured a search warrant in conformity with the provisions of subsection five of this section, or shall have a warrant

for the arrest of some person thereon: provided, however, that such game warden may, without a warrant, arrest any person who violates any of the provisions of this chapter in the presence of such game warden, and should any person violate any of the provisions of this chapter in the presence of such game warden, such game warden may lawfully follow such person anywhere in the effort to arrest.

4. The several commanders of the oyster police boats of this Commonwealth are hereby constituted game wardens of this State, whose jurisdiction as such wardens shall extend over the lands and waters of this Commonwealth within their several jurisdictions as commanders. They shall enforce the statutes of this State and of the United States for the protection of game or other animals or birds protected by law, and render report to the Board of Fisheries of all prosecutions, and the said Board of Fisheries shall publish the same in their annual report as information. The commanders of the said oyster police boats shall receive no additional compensation for the performance of these duties, except that in cases of conviction they may receive the fee provided for in subsection eight of this section.

5. Any court, judge or justice having jurisdiction over the offense, if satisfied upon affidavit that there is reasonable cause to believe that any wild water fowl, game birds, game animals or song or insectivorous birds, or parts thereof caught, taken, killed, shipped, or about to be shipped, or in transit, contrary to the laws of this State, or of the United States, are being concealed or stored in any place, shall issue a search warrant and cause search therefor to be made in any such place, and to that end may, after demand and refusal, cause any building, enclosure or car to be entered, and any apartment in which it is believed that game is concealed to be examined by any of said wardens or other officers executing the warrant; provided, that the issuance and execution of such search warrants shall be in accordance with the issuance and execution of search warrants in other cases as provided by law.

6. All game animals, wild water fowl and birds, protected by law, or parts thereof, found under such warrant, shall be seized by the warden or other officer making the search, and shall be disposed of as the court, judge or justice having jurisdiction may direct. All guns, gunning or hunting appliances found in such search shall be seized by said warden or other officer, and held subject to the payment of the fine prescribed by law for the offense charged and the cost of prosecution. If any of the articles so found be such as are not authorized by law they shall, upon the order of the court, judge or justice having jurisdiction, be destroyed, and all other of such articles shall be sold at public auction after the lapse of twenty days from the time of seizure, and after such notice as the court, judge or justice having jurisdiction, may prescribe, unless the reputed owner appears and acquits himself of the charge or pay the fine that may be imposed by the court, judge or justice.

7. Any person or persons interfering with any of said game wardens in the discharge of their duty, or resisting lawful arrest, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be fined not less than five dollars nor more than fifty dollars.

8. All fines and penalties imposed and collected under the provisions of this chapter shall be paid to the Commonwealth, and in addition to said fines and penalties, there shall be assessed against the offender in every case of conviction under the provisions of this chapter a fee of two dollars and fifty cents, which shall be collected as fines are collected under the general provisions of law and be paid to the warden who shall secure the conviction.

9. If any warden appointed under this section shall refuse or wilfully neglect to prosecute any person violating any of its provisions, or any of the laws of this State relating to wild water fowl, game birds or game animals, or song or insectivorous birds, his appointment shall be revoked by the court having jurisdiction, and such warden shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined not exceeding twenty dollars, and the vacancy thus created shall be filled by the court or judge in vacation.

10. All money paid to or collected by clerks of courts as hunting licenses shall constitute a fund for the payment of the said regularly appointed game wardens of this State as herein provided, and the clerk shall, after deducting a fee of fifty cents for issuing such license, on first of April of each year, pay in equal amounts to the said warden or wardens of his county such sum as may be in his hands arising from the issuance of such licenses; provided, that no one warden shall receive more from this source than three hundred dollars in any one year, and shall make return to his court a detailed statement of such receipts and disbursements; provided, that in the counties of Accomac and Northampton the circuit court for

said counties shall appoint, on the recommendation of the Eastern Shore Game Protective Association, the game wardens of the said counties, who shall make report at regular intervals to said association, as its laws shall provide, and the said clerks of the courts of said counties upon the order of said association, shall distribute among the game wardens for said counties, or as may have been agreed upon by contract between the said association and said wardens, or in proportion to the services, which, in their judgment, have been rendered by them, respectively, the fund arising from the license of non-residents provided for in this chapter, or so much thereof as may be necessary. Should there be any surplus remaining after providing an efficient system of game protection in said counties from the license of non-residents above mentioned, said association may use it for restocking said counties with game. The clerk shall pay to the treasurer of said association such sums as may be thus expended, paying any amounts not needed for the purpose above mentioned to the Auditor of Public Accounts, as provided in section twenty hundred and seventy *c*.

Section 2070 (*c*). Non-residents to obtain hunting licenses: when and how game may be exported, etcetera.—1. It shall be unlawful for any person, not a resident of this State, to hunt or kill wild water fowl, wild turkeys, pheasants or grouse, woodcock, partridges, quail or other game birds, or deer, within this State until he shall have first secured a hunting license as hereinafter provided; provided, however, that the non-resident child of resident owners of land in this State, shall be allowed to hunt on the lands of his parents as though he were a resident of this State, and the non-resident guest of a resident land owner shall be allowed to hunt on the lands of his host as though he were a resident of this State, when accompanied by said host, or a member of his host's family; provided, said host receives no compensation directly or indirectly from said guest.

2. Upon the personal application of any non-resident to the clerk of the circuit court of any county in which he first begins to hunt, such clerk shall, upon the payment of ten dollars, issue to such non-resident a hunting license, using a form to be prescribed by the Auditor of Public Accounts for that purpose, entitling him to hunt and kill wild water fowl, deer, wild turkeys, pheasants or grouse, woodcock, partridges, quail, and other game birds during the open season in the six months next following, and subject to any restrictions now existing or which may hereafter be imposed upon residents of this State. The clerk shall retain fifty cents as his fee for issuing such license, and the residue he shall account for to the Auditor of Public Accounts, unless otherwise provided for by law. Such license shall not be transferable.

3. It shall be unlawful, except as hereinafter provided, to ship or transport, or to cause to be shipped or transported, from this State, whether alive or dead, wild water fowl, wild turkeys, pheasants or grouse, woodcock, partridges, quail, or other game birds, or any deer or vension, killed or captured within this State, nor shall the same be killed, captured or possessed with intent to ship or transport from this State.

4. Any person authorized to hunt under the laws of this State may, during the open season, take with him out of the State, either in his personal possession or as his baggage, on the same conveyance with him, not in a closed package, but exposed to view, not exceeding thirty wild water fowl, fifty quail or partridges, ten pheasants or grouse, three wild turkeys, one deer, or plovers, snipe, sand-pipers, willets, tattlers or curlew, not exceeding twenty-five of each or not exceeding one hundred in the aggregate, when killed or captured by himself; provided, the same shall be plainly labelled or tagged with the name and address of such person: and any citizen of this State may, during the open season, ship or have transported from this State, as a gift and not for market or sale, so stating on the shipping tag, one deer during the season, and not exceeding three wild turkeys, six pheasants, twelve wild water fowl, eighteen partridges or quail; provided, that such game shall be shipped exposed to public view and unconcealed, and each parcel or package shall be plainly labelled or tagged with the name and address of the donor and of the donee, and the number of each of such game so shipped. This section shall not apply to sora or rabbits or hares.

5. It shall be deemed a violation of this section for any person to deliver any of the game herein mentioned to any common carrier or person for shipment or transportation out of the State, or for any common carrier or person to carry or transport or receive for shipment or transportation any such game in any other manner than is provided in this section.

6. Nothing in this section shall be construed to prevent common carriers from carrying or transporting any of the game herein mentioned in unbroken packages from beyond the confines of this State through the same to some point in another State.

7. Any person or corporation violating any provision of this section shall be guilty of a misdemeanor and be liable to a fine of fifty dollars for each offense, or imprisoned in jail for not exceeding sixty days.

8. No person charged with an offense under this section shall within the meaning thereof be deemed a resident of this State who shall not have resided within the limits of the State twelve months next preceding the time when the alleged offense was committed, unless he shall have, *bona fide* taken up his residence in this Commonwealth, and has his *bona fide* domicile therein, and in any prosecution for such offense the burden of proof as to residence shall be upon the defendant.

Section 2071. Unlawful hunting, trespassing, etcetera, on another's lands.—If any person without the consent of the owner or tenant, shoot, hunt, range, fish, trap or fowl on or in the lands, waters, mill ponds or private ponds of another, which are enclosed, or the boundaries of which are the streams adjacent to which constitute a lawful fence, or on any lands, waters, mill ponds or private ponds of another, east of the Blue Ridge, or in the waters on said land, he shall be deemed guilty of a trespass, and upon conviction thereof shall be fined not less than five dollars nor more than fifty dollars, and in addition thereto shall be liable in an action for damages; and if any person, after being warned not to do so by the owner or tenant of any premises, shall go upon the lands of the said owner or tenant, he shall, in addition to the liabilities imposed under this section, be deemed guilty of a misdemeanor, and upon conviction thereof, punished by a fine not exceeding fifty dollars or imprisoned in the county jail not exceeding sixty days, or both, in the discretion of the justice or jury trying the case.

Section 2072. In certain counties.—If any person shoot, hunt, range or fowl on the lands or in the water courses comprehended within the survey of any proprietor of lands in the counties of Alexandria, Fairfax, Prince William, Stafford and King George, and within five miles of navigable tidewater, without license in writing from the owner or tenant of said lands, he shall, besides being liable to such owner or tenant in an action for damages, forfeit to the informer three dollars for the first offense, six dollars for the second offense, and nine dollars for each succeeding offense, the forfeiture in each case to be double if the offense be committed in the night or on Sunday; and he shall likewise forfeit to the informer in each instance his boat or other means of conveyance, his guns, dogs and all his shooting and hunting apparatus used in the commission of the offense and be liable for all costs and expenses incurred in apprehending and prosecuting him for the recovery of said forfeiture.

Section 2073. Punishment of offenders.—Any person violating either of the two preceding sections may be arrested, and the property forfeited under the last section may be seized with or without warrant by any sheriff or constable or any game warden of the Commonwealth within their respective jurisdictions and held to await judgment. The offender shall be carried before a justice of the county in which the offense was committed, and a report be made to him of the property, if any, seized. The justice shall proceed to try the case and give judgment thereon. If judgment be rendered against the offender, it shall be for the forfeitures, pecuniary and otherwise, and the costs and expenses incurred and any property seized, adjudged to be forfeited, shall be delivered to the person entitled to the forfeiture in part satisfaction of the judgment. If the offender does not satisfy the judgment in full, the justice shall commit him to jail for one month, unless such satisfaction be sooner made. If the offender be acquitted, any property seized shall be released.

Section 2074. Proceeding when convicted a third time.—If a person be convicted a third time of any offenses mentioned in this chapter, the justice rendering judgment therefor shall require him to give a recognizance, with sufficient surety, for his good behavior for a year; and if he fail to give such surety commit him to jail for one month, unless he sooner give it. Such recognizance shall be deemed to be forfeited if such person commit any of the said offenses within the time limited in the recognizance.

Section 2078. Damages for shooting or killing tame deer.—If any person shoot or kill a tame deer having a bell or collar on its neck, he shall pay to the owner the value of such deer.

Chapter 255, Acts 1904, approved March 15, 1904.

Be it enacted, that prior to January, 1909, it shall be unlawful for any person or persons in this State to kill, or to capture, have in possession, buy, sell, or offer for sale except for purpose of propagation, any Mongolian or English Pheasants, or take or destroy the eggs of any of said birds.

The possession of any birds protected by sec. one, except for propagation shall be *prima facie* evidence of violation of this act.

Shall be guilty of a misdemeanor.—Any person found guilty shall be fined not less than 5 nor more than $50 or imprisoned not more than 30 days or may be both fined and imprisoned at the discretion of the justice or jury.

Sections twenty hundred and seventy-five, twenty hundred and seventy-six, twenty hundred and seventy-seven, twenty hundred and eighty-one, and twenty hundred and eighty-two of the Code of Virginia, and an act entitled an act to prevent the extermination of partridges (or quail) in the State of Virginia, approved January twenty-seventh, eighteen hundred and ninety-six, as amended by an act entitled "an act to amend and re-enact sections one and four of an act entitled an act to prevent the extermination of partridges (or quail) in the State of Virginia," approved January twenty-seventh, eighteen hundred and ninety-six, in force since December fifteenth, eighteen hundred and ninety-seven, and all other acts or parts of acts in conflict with the provisions of this chapter as hereby amended and re-enacted are hereby repealed; provided, that nothing in this act shall be construed as repealing a special act, approved March 8, 1902, restricting the shooting of wild water fowl in Back bay and its tributaries in the county of Princess Anne.

This act shall be in force from its passage.

The above act does not repeal local county laws relating to rabbits or hares. From the most accurate information obtainable, the following are the open seasons in the counties named: Accomac, Northampton, Northumberland, November 15th to January 15th; Alexandria, October 1st to January 1st; Amelia, Charlotte, Greenesville, Spotsylvania, Sussex, October 1st to February 1st; Buckingham, Cumberland, October 15th to February 15th; Caroline, Essex, Hanover, Henrico, King William, Albemarle, Mecklenburg, November 1st to February 1st; Chesterfield, September 1st to February 1st; Culpeper, Orange, November 15th to January 15th; Elizabeth City, Norfolk county, November 15th to February 1st; Fairfax, Fauquier, Loudoun, Frederick, Roanoke, November 1st to January 1st; Halifax, October 15th to February 1st; Nottoway, September 1st to January 1st; Shenandoah, November 1st to March 1st; Stafford, September 15th to February 15th; James City, York, November 15th to February 15th; Nansemond, October 15th to March 1st.

Halifax appears to be the only county having a "possum" law; the open season is fixed from October 15th to February 1st.

In the following counties, Mongolian, or imported pheasants are not allowed to be killed: Albemarle, Alleghany, Bath, Bedford, Culpeper, Highland, Louisa, Montgomery, Orange, Rockingham.

Augusta and Rockbridge not until after November 1, 1904.

Partridges are not permitted to be carried out of some of the counties. Page, Rappahannock, Sussex and Henry, have a county non-export law, and there may be others.

UNITED STATES POSTAGE LAWS.

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

First-Class Matter.

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment to printed matter under class three.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents. Nothing must be added or attached to a postal card, except that a printed address slip may be pasted on the address or message side. The addition of anything else subjects the card to letter postage. A card containing any offensive dun or any scurrilous or indecent communication will not be forwarded.. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be conclusively a part of the address and therefore permissible. Cards that have been spoiled in printing or otherwise will be redeemed at 75 per cent. of face value. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each. Cards must not exceed the size of 3½ by 5½ inches or be smaller than 2 15-16x4 15x16 inches in dimensions. Their quality must be substantially that of the government postal cards and weigh about six pounds three ounces to the thousand. Their color may be white, cream, light gray, or light buff. The cards must bear on the address side, in print, the words, "Post Card—Authorized by Act of Congress of May 19, 1898." When prepared for sale they should also bear in the upper right-hand corner of the address side a diagram with the words, "Place a one-cent stamp here;" and in the lower left-hand corner the printed words, "This side is exclusively for the address."

The message on the cards may be in writing or print, and there may also appear on the message side advertisements, illustrations, or other matter, printed either in black or colors. And there must be attached to every card mailed a one-cent adhesive postage stamp. These cards cannot be mailed to foreign countries, except at the letter rate of postage.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. An ordinary ten-cent stamp affixed to a letter will not entitle it to special delivery. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

Produce Country Merchants and Farmers will do well to correspond with **Wallerstein Produce Co.**, Richmond. Va., when they have Produce to sell.

Prepaid letters will be forwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

Second-Class Matter.

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents, and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the buletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Such Christmas, New Years, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery ten-cent stamps are affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

Third-Class Matter.

Mail matter of the third-class includes printed books, pamphlets, engravings circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

RICHMOND WOOD VIRGINIA

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery stamps are affixed in addition to the regular postage.

Upon matter of the third-class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

Fourth-Class Matter.

Fourth-class matter is all mailable matter not included in the three preceding classes, which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. It embraces merchandise and samples of every description, and coin or specie.

Rate of postage, one cent for each ounce or fraction thereof (except seeds, roots, bulbs, cuttings, scions, and plants, the rate on which is one cent for each two ounces or fraction thereof.) This matter must be fully prepaid, or it will not be forwarded. The affixing of special delivery ten-cent stamps in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, sugar, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad order will not be forwarded in any case.

Firearms may only be sent in detached parts.

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tight-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is not exceeding four ounces, liquid measure.

Limit of weight of fourth-class matter (excepting liquids), four pounds.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering postmaster may also be written asking him to return the package if not delivered.

Registration.

All kinds of postal matter may be registered at the rate of eight cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed $25.00 for any one registered piece or the actual value of the piece if it is less than $25.00—shall be paid for the loss of first-class registered matter.

Domestic Money Orders.

Domestic money orders are issued by money-order postoffices for any amount up to $100, at the following rates:

For sums not exceeding $2.50, 3 cents; over $2.50, to $5, five cents; over $5 to $10, eight cents; over $10 to $20, ten cents; over $20 to $30, twelve cents, over $30 to $40, fifteen cents; over $40 to $50, eighteen cents; over $50 to $60, twenty cents; over $60 to $75, twenty-five cents; over $75 to $100, thirty cents.

Stamped Envelopes.

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.
2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.
3. All periodicals sent to subscribers within the county where printed.
4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.
5. The Vice-President, Members and Members-elect, and Delegates and Delegates-elect to Congress may frank any mail matter, not over two ounces in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

Total population of the State of Virginia in 1900 was 1,854,184. In 1890 it was 1,655,980. Increase in 1900 over 1890 of 198,204 in ten years.

According to the Official Census of 1900 there were 354 full-blooded Indians in Virginia, distributed as follows: Bristol, 1; Elizabeth City, 108; Hanover, 24; King William, 152; New Kent, 1; Norfolk county, 52; Prince George, 8; Prince William, 1; Richmond city, 1; Washington, 6.

Dickenson county is the only county in the State in which there is not a negro; Buchanan county has only five negroes.

Norfolk county has the largest population of any county in the State—50,780; Pittsylvania is second, with 46,894; Halifax third, with 37,197.

James City county has the smallest population, there being only 3,688; Craig second, with 4,293; and New Kent third, with 4,865.

The largest city in Virginia is Richmond, with a population of 85,050; Norfolk next, with 46,624. The smallest incorporated city in the State is Williamsburg, with a population of 2,044; Charlottesville next, with 2,388.

If you write one policy a week for the SOUTH-ATLANTIC LIFE, of Richmond, Va., you will be making good money.

THE LAW IN VIRGINIA IN REGARD TO WILLS.

Who may execute a will? A valid will may be made by any person of sound mind and lawful age (twenty-one years)) except that minors eighteen years of age and upwards, may, by will, dispose of personal estate. A married woman may, since the Act of Assembly of March 7, 1900, dispose of all her property, both real and personal, as if she were unmarried, subject, of course, to the curtesy right of the husband.

How is a will made? No will shall be valid unless it be in writing and signed by the testator, or by some other person in his presence and by his direction, in such manner as to make it manifest that the name is intended as a signature; and, moreover, unless it be wholly written by the testator, the signature shall be made or the will acknowledged by him in the presence of at least two competent witnesses, present at the same time, and such witnesses shall subscribe the will in the presence of the testator.

What are the widow's rights as to dower and jointure? Sec. 2267. A widow shall be endowed of one-third of all the real estate whereof her husband or any other to his use, was, at any time during the coverture, seized of an estate of inheritance, unless her right to such dower shall have been lawfully barred or relinquished.

Sec. 2268. When a husband, or any other to his use shall have been entitled to a right of entry or action in any land, and his widow would be entitled to dower out of the same, if the husband or such other had recovered possession thereof, she shall be entitled to such dower, although there shall have been no recovery of possession.

Sec. 2269. Where land is *bona fide* sold in the lifetime of a husband, to satisfy a lien or encumbrance thereon, created by deed in which the wife has united, or created before the marriage, or otherwise paramount to the wife, she shall have no right to be endowed in the said land. But if a surplus of the proceeds of sale remain after satisfying the said lien or encumbrance, she shall be entitled to dower in said surplus, and a court of equity having jurisdiction of the case may make such order as may seem to it proper to secure her right.

Sec. 2270. If any estate, real or personal, intended to be in lieu of dower, shal be conveyed or devised for the jointure, of the wife, such conveyance or devise shall bar her dower of the real estate, or the residue thereof, and every such provision, by deed or will, shall be taken to be intended in lieu of dower, unless the contrary intention plainly appear in such deed or will, or in some other writing signed by the party making the provision.

When and how may widow waive jointure and demand dower in real estate? Sec 2271. But if such conveyance or devise were before the marriage, without the assent in writing or during the infancy of the *feme*, or if it were after marriage, in either case, the widow may, at her election, waive such jointure and demand her dower. Such election shall be made within one year after the death of her husband, or within one year after the admission of his will to probate where the provision is by will, and shall be made in any court of record in the county or corporation in which the husband resided at the time of his death, or in the clerk's office of which the instrument creating the jointure is recorded, or by writing recorded in such court, or in the clerk's office thereof, upon such acknowledgment of proofs as would authorize a writing to be admitted to record under chapter 111; and when she shall elect and receive her dower, the estate so conveyed or devised to her shall cease and determine.

What interest has the widow in the personal estate of her husband if he dies intestate? If the intestate leave a widow and issue by her, the widow shall be entitled to one-third of the surplus of the personal estate, after the payment of funeral expenses, charges of administration, and debts. Or, if the intestate leave a widow, but no issue by her, the widow shall be entitled absolutely to such of the personal property in the said surplus as shall have been acquired by the intestate in virtue of his marriage with her prior to the fourth day of April, 1877, and remains in kind at his death; she shall also be entitled to one-half of the residue of such surplus if the intestate husband leave no issue by a former marriage, but to one-third only of such residue if he leave such issue.

When and how widow may renounce benefit of will as to personalty? Sec. 2559. When any provision for a wife is made in her husband's will, she may, within one year from the time of the admission of the will to probate, renounce such provi-

sion. Such renunciation shall be made either in person before the court in which the will is recorded, or by a writing recorded in such court, or the clerk's office thereof, upon such acknowledgment or proof as would authorize a writing to be admitted to record under chapter 111. If such renunciation be made, or if no provision for her be made in the will, she shall have such share of her husband's personal estate as she would have had if he had died intestate; otherwise, she shall have no more thereof than is given her by the will.

What interest has the husband in the personal estate of the wife if she dies intestate? If *she* dies intestate, her husband shall be entitled to the whole of the surplus of the personal estate.

How is a will revoked by operation of law? Sec. 2517, Every will made by a man or woman shall be revoked by his or her marriage, except a will made in exercise of a power of appointment, when the estate thereby appointed would not, in default of such appointment, pass to his or her heir, personal representative, or next of kin.

What is the law as to pretermitted children? Sec. 2527. If any person die leaving a child, or his wife with child which shall be born alive, and leaving a will made when such person had no child living, wherein any child he might have is not provided for or mentioned, such will, except so far as it provides for the payment of the debts of the testator, shall be construed as if the devises and bequests therein had been limited to take effect, in the event that the child shall die under the age of twenty-one years, unmarried, and without issue.

Sec. 2528. If a will be made when a testator has a child living, and a child be born afterwards, such after-born child, or any descendant of his, if not provided for by any settlement, and neither provided for nor expressly excluded by the will, but only pretermitted, shall succeed to such portion of the testator's estate as he would have been entitled to if the testator had died intestate; towards raising which portion the devisees and legatees shall, out of what is devised and bequeathed to them, contribute ratably, either in kind or in money, as a court of equity, in the particular case, may deem most proper. But if any such after-born child, or descendant, die under the age of 21 years, unmarried, and without issue, his portion of the estate, or so much thereof as may remain unexpended in his support and education, shall revert to the person to whom it was given by the will.

What is a Codicil? A codicil is a little will; that is, it is a testamentary disposition, generally not revoking the former will, but varying it in some way or making changes in it or additions to it. It must be executed as a will.

FORM OF WILL AND CODICIL.

I, ..., of (*place and occupation*), make this my last will. I give, devise, bequeath my estate and property, real and personal, as follows, that is to say:

Then follow all the provisions and disposition of property which the testator intends, stated fully, plainly, and as accurately as possible. Then follows, first, the appointment of an executor, and then the execution, and finally the declaration of the witnesses, thus:

I appoint....., at....., executor of this my will.

In witness whereof, I have signed this instrument as my will, at (*place*); on (*date*).

(*Signature.*)

The foregoing will was this day signed by the said....., and acknowledged by him as his last will, in the presence of us, the undersigned-subscribing witnesses, both of us being present at the same time, and each of us, at the request of the said....., and in his presence, subscribed the said will as subscribing witnesses thereto.

Witness our hands, this.....day of....., ...

(*Here follow the names of two competent witnesses.*)

A codicil should be written thus:

I,....., of (*place and occupation*), do make this my codicil, hereby confirming my last will made on the (*date of the will*), and all my former codicils (*if there be any*), so far as this codicil is consistent therewith; and do hereby—

Then follows whatever disposition the testator chooses to make, stating and describing it as he would if it were a will, and executing it, and having it attested in the same manner as if it were a will, excepting that, instead of calling it a will wherever that word occurs he says "codicil" instead of "will."

New Cure For Rupture

New Scientific Appliance, Always a Perfect Fit—Adjustable to Any Size Person—Easy, Comfortable, Never Slips—Costs Less Than Many Common Trusses—Made for Men, Women and Children.

I Send It On Approval—You Wear It—If You Are Not Satisfied, I Refund Your Money.

I have invented a rupture appliance that I can safely say, by thirty years' experience in the rupture business, is the only one that will absolutely hold the rupture and never slip and yet is cool, comfortable, conforms to every movement of the body without chafing or hurting and costs less than many ordinary trusses. I have put the price so low that any person,

C. E. Brooks, the Inventor.

rich or poor, can buy, and I absolutely guarantee it. I make it to your order—send it to you—you wear it, and if it doesn't satisfy you send it back to me and I will refund your money. That is the fairest proposition ever made by a rupture specialist. The banks or any responsible citizen in Marshall will tell you that is the way I do business—always absolutely on the square.

If you have tried most everything else, come to me. Where others fail is where I have my greatest success.

Write me to-day and I will send you my book on Rupture and its Cure, showing my appliance and giving you prices and names of people who have tried it and been cured. It is instant relief when all others fail. Remember I use no salves, no harness, no lies. Just a straight business deal at a reasonable price.

Kellogg's Remarkable Fat Reducer, which Quickly Reduces Surplus Flesh, Leaving the Person in Normal Weight and Good Health. Gives You Comfort and a New Lease on Life. You Can Have a $1.00 Package Free and Prove it for Yourself.

PROOF IN PICTURES

Two Photographs Taken from Life, Showing the Remarkable Reduction of Flesh by Means of Kellogg's Safe Fat Reducer.

Don't suffer any longer from excess fat. This is a diseased and dangerous condition of the body. Every vital organ is affected by it. Serious complications often result.

If you want to rid yourself of your excess fat, do it in the safe and certain way. Don't try the starvation plan. It weakens the whole physical system without reducing the weight. Use Kellogg's Obesity Food. It has brought health and happiness to thousands of others. Why not to you?

It will improve your general physical condition from the very beginning of the treatment, turn your fat into muscle and reduce your weight to a mark normally proportionate to your height.

Weight, 235 Lbs.	**152 Lbs.**	**83 Lbs.**

Her Doctor Endorsed It.

My Dear Mr. Kellogg: I wish to tell you how thankful I am over the result of taking your Safe Fat Reducer. My doctor tells me that the remedy seems to strengthen the system before stripping it of its surplus fat. He was very much interested in the "experiment," as he called it.

Then I weighed over 230 lbs. Now I weigh 152. I feel good all day long and sleep restfully at night. A number of my friends noticed the gradual change in my weight and would say, "Well, Mrs. Smith, I would be real worried about you if you didn't look so very well. You seem to eb getting thinner right along, and yet your cheeks are rosy."

But I did not tell them what I was doing, because I was afraid they would make fun of me. Now I tell anyone that asks me how it happened: "I took Kellogg's Safe Fat Reducer Tablets and reduced fat and made new muscle."

I shall always thank you for what you have done for me, and I will answer any letters sent me enclosing a 2-cent stamp for reply. Sincerely yours, Mrs. Mary Smith, 89 Cass Avenue, Grand Rapids, Mich.

—ABOUT THE—

PENN MUTUAL LIFE INSURANCE CO.

Of Philadelphia.

Sixty-three years old February 24, 1910.

$105,000,000 of assets, and over 22,000,000 income in 1909.

It has $475,000,000 insurance in force, represented by more than 180,000 policies.

The PENN has paid to families of deceased members $57,000,000, and to members themselves over $60,000,000.

You don't "have to die to win" in the PENN; if you die, the PENN pays your beneficiary; if you live, the PENN pays YOU.

The PENN has faith in Virginia, her people, and her great resources, and has investments in Virginia to the amount of five times the reserves on Virginia policies.

The PENN policies are issued to cover every need, whether fot a short time or for whole life; for protection, for investment, and for both combined.

Annuities, Endowments, Life, Term and Instalment Policies to suit YOU.

The PENN has a clean, honorable record of sixty-three years, and there is no spot or blemish on it.

Life Insurance is not for a week, or a year only, but is a contract to provide an income for your own old age, or for the support of your wife and children after your death; therefore, GET THE BEST.

TIME OF THE ALMANACK.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude 37° 32′ 21″ N., and in Longtitude 77° 25′ 35″ W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made neccessary by the adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change, so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of longitude makes a difference of 4 minutes, and that in this latitude a degree of longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east, and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes; Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

Almanack Calculations for 1910.

The year 1910 comprises the latter part of the 134th and the beginning of the 135th year of American Independence, and corresponds to—

The year 6623 of the Julian Period.

The year 5670–71 of the Jewish Era. The year 5671 begins at sunset October 3rd, 1910.

The year 2663 since the foundation of Rome according to Varro.

The year 2570 of the Japanese Era, and the 43d year of the period entitled "Meiji."

The year 1328 of the Mohammedan Era, or the Era of the Hegira, begins on the 13th day of January, 1910.

The first day of January, 1910, is the 2,418,673rd day since the commencement of the Julian Period.

Morning and Evening Stars for 1910.

The Planet Venus (♀) will be Evening Star till February 12th; then becomes Morning Star till November 26th, after which it continues as Evening Star to the end of the year.

The Planet Mars (♂) will be Evening Star till September 27th, and then continues as Morning Star till the end of the year.

The Planet Jupiter (♃) will be Morning Star till March 31st, after which it continues as Evening Star till October 19th; thence Morning Star till the close of the year.

The Planet Saturn (♄) will be Morning Star till April 16th, after which it continues as Evening Star till October 27th, from which date it again continues as Morning Star till the close of the year.

Table for Foretelling the Weather Throughout Each Year.

If the New Moon, First Quarter, Full Moon or Last Quarter, Happens—	In Summer.	In Winter.
Between midnight and 2 o'clock...	Fair.....	Frost unless wind S. W.
" 2 and 4 morning.....	Cold and showers...	Snow and stormy.
" 4 and 6 "	Rain.....	Rain.
" 6 and 8 "	Wind and rain	Stormy.
" 8 and 10 "	Changeable.....	Cold rain if wind W., snow if E.
" 10 and 12 "	Frequent showers...	Cold and high wind.
" 12 and 2 afternoon	Very rainy	Snow or rain.
" 2 and 4 "	Changeable.....	Fair and mild.
" 4 and 6 "	Fair	Fair.
" 6 and 8 "	Fair if wind N. E...	Fair and frosty if wind N., or N. E.
" 8 and 10 "	Rainy if S. or S. W..	Rain or snow if S., or S. W.
" 10 and midnight.....	Fair	Fair and frosty.

OBSERVATIONS.

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.
2. The space for this calculation occupies from ten at night till two next morning.
3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.
4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.
5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.

Experience teaches that the Best is the Cheapest. In Medicine this is doubly true. Therefore buy and use

JANUARY.—This is the month for making plans for the year's operations Very little work can be done in the garden, beyond securing a supply of seeds and manure and preparing compost heaps and hot-beds for next month, getting poles, brush, and sticks for beans, peas, and tomatoes. Clean up the garden.

ANALYSES OF THE GAME LAWS OF VIRGINIA—CLOSE SEASON.

(Revised and corrected by W. J. Lyneham, Game Warden.)

This is a careful analyses of Game Laws of Virginia in reference to hunting and embraces all legislation, including the session of 1908.

Approved March 11, 1908.

Be it enacted by the General Assembly of Virginia, That section two thousand and seventy a, of the Code of Virginia, as amended by an act approved March fourteenth, nineteen hundred and three, providing when and how unlawful to hunt, etcetera, as amended and re-enacted as to subsection two thereof, by an act approved March fourteenth, nineteen hundred and four, be amended and re-enacted so as to read as follows:

Section 2070 (*a*). When and how unlawful to hunt, etcetera, and power of boards of supervisors.—1. It shall be unlawful for any person to shoot at, kill, or capture any wild water fowl or wild turkey at any time during the night in this State, or at any time to capture them in traps or nets or other contrivances, or to use reflectors or other lights, or sneak boats or artificial islands in detecting or capturing or shooting of wild fowl or game of any kind, or to hunt or shoot muskrats at night with a light in the Tidewater sections of the State, or to shoot at any game on land or water in this State with a gun larger than an eight bore. All sneak boats, nets, traps or reflectors or other unlawful appliances so used or found in the possession of any person shall be seized by any game warden or other officer and held by him as evidence, but the same shall not be destroyed except by the order of the court or justice having jurisdiction, upon warrants duly issued, which said court or justice shall, upon satisfactory evidence of the guilt of the party, or of the unlawful nature of the article seized, order the same to be destroyed. The possession of any of said guns,

sneak boats, nets, traps, reflectors or other unlawful appliances shall be *prima facie* evidence of the guilt of the person in whose possession they are found.

2. It shall be unlawful for any person to hunt, kill, or capture in any manner or have in possession any wild turkeys, pheasants, grouse, quail partridges or woodcock east of the Blue Ridge Mountains between February the first and November the first, and west of the Blue Ridge Mountains between December the thirty-first and November the first, or to track or hunt any of them in the snow or to trap or net them at any time, or buy, offer for sale or sell at any time, any robins, grouse, pheasants, quail or partridges or woodcock, or to destroy their nests, eggs or young at any time, or kill, chase or capture, or buy, offer for sale, or have in possession any wild deer between December the first and September the first, or to track or hunt them in snow, or to kill or capture, or buy, offer for sale, or have in possession, any winter wild water fowl between May the first and October the fifteenth, or summer or wood ducks between January the first and August the first, or any rails, mud hens, gallinules, plover, surf birds, snipe, except Wilson or English snipe, sandpipers, willets, tattlers or curlews, between January first and July twentieth, or robins between April first and February fifteenth, or hares (or rabbits) between February first and November first, provided this shall not restrict the killing of hares by residents of this State upon their own land at any time, nor shall this interfere as to laws now governing the boards of supervisors in the several counties of this State.

3. It shall be unlawful to shoot or otherwise hunt any wild fowl or any game birds or game animals protected by the laws of this State later than an half an hour after sunset or earlier than an half an hour before sunrise, or to shoot or hunt any game in this State on Sunday.

4. Any person violating any of the provisions of this section shall be deemed guilty of a misdemeanor, and shall be punished by a fine of not less than five or more than fifty dollars, or imprisoned in jail for not more than thirty days, or both fined and imprisoned, at the discretion of the justice or jury trying the case.

5. All acts or parts of acts in conflict with this section are hereby repealed, but the board of supervisors of any county shall have the power to shorten the open season in their said county and may permit the shipment of wild water fowl from said county or out of the State, and by regulations, not inconsistent with the provisions of this section, may further protect the game within their said county, and may include in such protection other game not specifically mentioned in this section.

6. Nothing in this section shall be construed to refer to the bird known as sora.

Sec. 2070 (*b*). Game wardens, their appointment, duties, etc.—1. It shall be the duty of the city or corporation courts of the cities, or the judges thereof in vacation, on the application of five resident freeholders of any city to appoint two suitable persons in such city as game wardens, whose jurisdiction shall be confined to their respective cities and where the board of supervisors of any county shall, by resolution of record in the minutes of said board, request the judge of the circuit court of said county so to do; the said judge shall, upon the application of five resident freeholders of any magisterial district in said county appoint one suitable person in such magisterial district as game warden, whose jurisdiction shall be confined to said magisterial district; when the said appointment is made by the judge in vacation, he shall certify the same to the clerk of his court, who shall enter the same in the order book of his court in the same manner as if made in term.

2. The said wardens shall hold office for the term of four years from the date of their appointment, unless sooner removed from office, and shall qualify according to law.

3. It shall be the duty of said wardens to enforce all statutes of this State, and of the United States, now in force or hereafter to be enacted for the protection and propogation of wild water fowl, game birds and game animals or song or insectivorous birds. The said wardens shall have power and it shall be their duty, to arrest any person detected by them in the act of violating any of the aforesaid laws, or any person against whom a warrant shall have been duly issued upon the information of any other person for such violation, and forthwith to carry such person before a justice or court having jurisdiction over the offence, who shall proceed without unreasonable delay to hear, try and determine the charge against such person. No game warden shall have any right under this act to go upon the land of another person without the consent of such other person until and unless such game warden shall have procured a search warrant in conformity with the provisions of subsection five of this section, or shall have a warrant

for the arrest of some person thereon: provided, however, that such game warden may, without a warrant, arrest any person who violates any of the provisions of this chapter in the presence of such game warden, and should any person violate any of the provisions of this chapter in the presence of such game warden, such game warden may lawfully follow such person anywhere in the effort to arrest.

4. The several commanders of the oyster police boats of this Commonwealth are hereby constituted game wardens of this State, whose jurisdiction as such wardens shall extend over the lands and waters of this Commonwealth within their several jurisdictions as commanders. They shall enforce the statutes of this State and of the United States for the protection of game or other animals or birds protected by law, and render report to the Board of Fisheries of all prosecutions, and the said Board of Fisheries shall publish the same in their annual report as information. The commanders of the said oyster police boats shall receive no additional compensation for the performance of these duties, except that in cases of conviction they may receive the fee provided for in subsection eight of this section.

5. Any court, judge or justice having jurisdiction over the offense, if satisfied upon affidavit that there is reasonable cause to believe that any wild water fowl, game birds, game animals or song or insectivorous birds, or parts thereof caught, taken, killed, shipped, or about to be shipped, or in transit, contrary to the laws of this State, or of the United States, are being concealed or stored in any place, shall issue a search warrant and cause search therefor to be made in any such place, and to that end may, after demand and refusal, cause any building, enclosure or car to be entered, and any apartment in which it is believed that game is concealed to be examined by any of said wardens or other officers executing the warrant; provided, that the issuance and execution of such search warrants shall be in accordance with the issuance and execution of search warrants in other cases as provided by law.

6. All game animals, wild water fowl and birds, protected by law, or parts thereof, found under such warrant, shall be seized by the warden or other officer making the search, and shall be disposed of as the court, judge or justice having jurisdiction may direct. All guns, gunning or hunting appliances found in such search shall be seized by said warden or other officer, and held subject to the payment of the fine prescribed by law for the offense charged and the cost of prosecution. If any of the articles so found be such as are not authorized by law they shall, upon the order of the court, judge or justice having jurisdiction, be destroyed, and all other of such articles shall be sold at public auction after the lapse of twenty days from the time of seizure, and after such notice as the court, judge or justice having jurisdiction, may prescribe, unless the reputed owner appears and acquits himself of the charge or pay the fine that may be imposed by the court, judge or justice.

7. Any person or persons interfering with any of said game wardens in the discharge of their duty, or resisting lawful arrest, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be fined not less than five dollars nor more than fifty dollars.

8. All fines and penalties imposed and collected under the provisions of this chapter shall be paid to the Commonwealth, and in addition to said fines and penalties, there shall be assessed against the offender in every case of conviction under the provisions of this chapter a fee of two dollars and fifty cents, which shall be collected as fines are collected under the general provisions of law and be paid to the warden who shall secure the conviction.

9. If any warden appointed under this section shall refuse or wilfully neglect to prosecute any person violating any of its provisions, or any of the laws of this State relating to wild water fowl, game birds or game animals, or song or insectivorous birds, his appointment shall be revoked by the court having jurisdiction, and such warden shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined not exceeding twenty dollars, and the vacancy thus created shall be filled by the court or judge in vacation.

10. All money paid to or collected by clerks of courts as hunting licenses shall constitute a fund for the payment of the said regularly appointed game wardens of this State as herein provided, and the clerk shall, after deducting a fee of fifty cents for issuing such license, on first of April of each year, pay in equal amounts to the said warden or wardens of his county such sum as may be in his hands arising from the issuance of such licenses; provided, that no one warden shall receive more from this source than three hundred dollars in any one year, and shall make return to his court a detailed statement of such receipts and disbursements; provided, that in the counties of Accomac and Northampton the circuit court for

said counties shall appoint, on the recommendation of the Eastern Shore Game Protective Association, the game wardens of the said counties, who shall make report at regular intervals to said association, as its laws shall provide; and the said clerks of the courts of said counties upon the order of said association, shall distribute among the game wardens for said counties, or as may have been agreed upon by contract between the said association and said wardens, or in proportion to the services, which, in their judgment, have been rendered by them, respectively, the fund arising from the license of non-residents provided for in this chapter, or so much thereof as may be necessary. Should there be any surplus remaining after providing an efficient system of game protection in said counties from the license of non-residents above mentioned, said association may use it for restocking said counties with game. The clerk shall pay to the treasurer of said association such sums as may be thus expended, paying any amounts not needed for the purpose above mentioned to the Auditor of Public Accounts, as provided in section twenty hundred and seventy *c*.

Section 2070 (*c*). Non-residents to obtain hunting licenses: when and how game may be exported, etcetera.—1. It shall be unlawful for any person, not a resident of this State, to hunt or kill wild water fowl, wild turkeys, pheasants or grouse, woodcock, partridges, quail or other game birds, or deer, within this State until he shall have first secured a hunting license as hereinafter provided; provided, however, that the non-resident child of resident owners of land in this State, shall be allowed to hunt on the lands of his parents as though he were a resident of this State, and the non-resident guest of a resident land owner shall be allowed to hunt on the lands of his host as though he were a resident of this State, when accompanied by said host, or a member of his host's family; provided, said host receives no compensation directly or indirectly from said guest.

2. Upon the personal application of any non-resident to the clerk of the circuit court of any county in which he first begins to hunt, such clerk shall, upon the payment of ten dollars, issue to such non-resident a hunting license, using a form to be prescribed by the Auditor of Public Accounts for that purpose, entitling him to hunt and kill wild water fowl, deer, wild turkeys, pheasants or grouse, woodcock, partridges, quail, and other game birds during the open season in the six months next following, and subject to any restrictions now existing or which may hereafter be imposed upon residents of this State. The clerk shall retain fifty cents as his fee for issuing such license, and the residue he shall account for to the Auditor of Public Accounts, unless otherwise provided for by law. Such license shall not be transferable.

3. It shall be unlawful, except as hereinafter provided, to ship or transport, or to cause to be shipped or transported, from this State, whether alive or dead, wild water fowl, wild turkeys, pheasants or grouse, woodcock, partridges, quail, or other game birds, or any deer or vension, killed or captured within this State, nor shall the same be killed, captured or possessed with intent to ship or transport from this State.

4. Any person authorized to hunt under the laws of this State may, during the open season, take with him out of the State, either in his personal possession or as his baggage, on the same conveyance with him, not in a closed package, but exposed to view, not exceeding thirty wild water fowl, fifty quail or partridges, ten pheasants or grouse, three wild turkeys, one deer, or plovers, snipe, sand-pipers, willets, tattlers or curlew, not exceeding twenty-five of each or not exceeding one hundred in the aggregate, when illed or captured by himself; provided, the same shall be plainly labelled or tagged with the name and address of such person: and any citizen of this State may, during the open season, ship or have transported from this State, as a gift and not for market or sale, so stating on the shipping tag, one deer during the season, and not exceeding three wild turkeys, six pheasants, twelve wild water fowl, eighteen partridges or quail; provided, that such game shall be shipped exposed to public view and unconcealed, and each parcel or package shall be plainly labelled or tagged with the name and address of the donor and of the donee, and the number of each of such game so shipped. This section shall not apply to sora or rabbits or hares.

5. It shall be deemed a violation of this section for any person to deliver any of the game herein mentioned to any common carrier or person for shipment or transportation out of the State, or for any common carrier or person to carry or transport or receive for shipment or transportation any such game in any other manner than is provided in this section.

6. Nothing in this section shall be construed to prevent common carriers from carrying or transporting any of the game herein mentioned in unbroken packages from beyond the confines of this State through the same to some point in another State.

7. Any person or corporation violating any provision of this section shall be guilty of a misdemeanor and be liable to a fine of fifty dollars for each offense, or imprisoned in jail for not exceeding sixty days.

8. No person charged with an offense under this section shall within the meaning thereof be deemed a resident of this State who shall not have resided within the limits of the State twelve months next preceding the time when the alleged offense was committed, unless he shall have, *bona fide* taken up his residence in this Commonwealth, and has his *bona fide* domicile therein, and in any prosecution for such offense the burden of proof as to residence shall be upon the defendant.

Section 2071. Unlawful hunting, trespassing, etcetera, on another's lands.—If any person without the consent of the owner or tenant, shoot, hunt, range, fish, trap or fowl on or in the lands, waters, mill ponds or private ponds of another, which are enclosed, or the boundaries of which are the streams adjacent to which constitute a lawful fence, or on any lands, waters, mill ponds or private ponds of another, east of the Blue Ridge, or in the waters on said land, he shall be deemed guilty of a trespass, and upon conviction thereof shall be fined not less than five dollars nor more than fifty dollars, and in addition thereto shall be liable in an action for damages; and if any person, after being warned not to do so by the owner or tenant of any premises, shall go upon the lands of the said owner or tenant, he shall, in addition to the liabilities imposed under this section, be deemed guilty of a misdemeanor, and upon conviction thereof, punished by a fine not exceeding fifty dollars or imprisoned in the county jail not exceeding sixty days, or both, in the discretion of the justice or jury trying the case.

Section 2072. In certain counties.—If any person shoot, hunt, range or fowl on the lands or in the water courses comprehended within the survey of any proprietor of lands in the counties of Alexandria, Fairfax, Prince William, Stafford and King George, and within five miles of navigable tidewater, without license in writing from the owner or tenant of said lands, he shall, besides being liable to such owner or tenant in an action for damages, forfeit to the informer three dollars for the first offense, six dollars for the second offense, and nine dollars for each succeeding offense, the forfeiture in each case to be double if the offense be committed in the night or on Sunday; and he shall likewise forfeit to the informer in each instance his boat or other means of conveyance, his guns, dogs and all his shooting and hunting apparatus used in the commission of the offense and be liable for all costs and expenses incurred in apprehending and prosecuting him for the recovery of said forfeiture.

Section 2073. Punishment of offenders.—Any person violating either of the two preceding sections may be arrested, and the property forfeited under the last section may be seized with or without warrant by any sheriff or constable or any game warden of the Commonwealth within their respective jurisdictions and held to await judgment. The offender shall be carried before a justice of the county in which the offense was committed, and a report be made to him of the property, if any, seized. The justice shall proceed to try the case and give judgment thereon. If judgment be rendered against the offender, it shall be for the forfeitures, pecuniary and otherwise, and the costs and expenses incurred and any property seized, adjudged to be forfeited, shall be delivered to the person entitled to the forfeiture in part satisfaction of the judgment. If the offender does not satisfy the judgment in full, the justice shall commit him to jail for one month, unless such satisfaction be sooner made. If the offender be acquitted, any property seized shall be released.

Section 2074. Proceeding when convicted a third time.—If a person be convicted a third time of any offenses mentioned in this chapter, the justice rendering judgment therefor shall require him to give a recognizance, with sufficient surety, for his good behavior for a year; and if he fail to give such surety commit him to jail for one month, unless he sooner give it. Such recognizance shall be deemed to be forfeited if such person commit any of the said offenses within the time limited in the recognizance.

Section 2078. Damages for shooting or killing tame deer.—If any person shoot or kill a tame deer having a bell or collar on its neck, he shall pay to the owner the value of such deer.

Section 2079. (As amended by an act approved March 11, 1908.) Concerning the protection of certain wild birds other than game birds, their nests and eggs.—It shall be unlawful at any time to kill or capture the turkey buzzard, or black buzzard, or to kill or ship alive out of the State the mocking bird, or kill or capture the thrush, gold finch, oriole, wren, rain crow, cardinal or red bird, wood robin, blue bird, martin, or any wild bird other than the game birds herein named, or to destroy their nests or eggs, or to purchase or offer for sale any such wild bird after it has been killed or caught, or any part thereof, and the po ssession or sale, or offering for sale, in this State of any bird so protected shall be *prima facie* evidence of guilt; provided, that nothing herein contained shall be construed to apply to the English sparrow, owl, hawk, eagle, crow, black bird, rice bird, Wilson or English snipe, or robin snipe or doves.

Section 2080. Penalties for violating preceding section.—If any person violate any of the provisions of the preceding section he shall be guilty of a misdemeanor, and shall be fined not less than two dollars nor more than twenty dollars, and imprisoned in jail until the fine is paid, but not exceeding thirty days.

Chapter 122.—An act to regulate and restrict shooting and to prevent the destuction of wild fowl in the waters of Back bay and its tributaries, in the county of Princess Anne, approved March 8, 1902.

1. Be it enacted by the General Assembly of Virginia, That it shall not be lawful for any person to shoot at or kill wild fowl in the waters of Back bay or its tributaries, in the county of Princess Anne, either on or from the land, marshes, and shore, or on or from the waters thereof by the aid of floats, batteries, sink boxes, blinds, points, or in any other way, or by any other means, from sunset to sunrise of the succeeding day, nor to leave any landing or mooring for the purpose of shooting or hunting until sunrise; and all decoys, floats, batteries, blinds, sink boxes, or other devices, floating or stationary, shall be taken up and carried ashore at sunset of each day. Nor shall any person shoot at or kill wild fowl except from the land, or from batteries, sink boxes, points, or blinds, in the said waters thereof: provided, however, that any person who may have crippled ducks, geese, or swan over his own decoys may reshoot and capture such game from boat immediately after same shall have been shot down. Nor shall any person shoot at or kill wild fowl on Wednesday and Saturday of each and every week, either on or from the land, or on or from the said waters of Back bay and its tributaries.

2. It shall not be lawful for any person to use deck or cabin boats, float houses, rafts or platforms built over the water for the purpose of gunning, shooting, or hunting in the waters of Back bay or its tributaries.

3. It shall be unlawful to shoot over decoys in the waters of Back bay or its tributaries between the first day of April and the twentieth day of October.

4. It shall not be lawful for non-residents to shoot at or kill wild fowl at any time or in any manner for profit or sale, either directly or indirectly, unless they own or rent shores on the said waters of Back bay; in which event they shall conform and be subject to all the provisions of this act.

5. All persons offending against any of the provisions of this act shall, upon conviction thereof, be deemed guilty of a misdemeanor, and fined not less than fifty dollars nor more than one hundred and fifty dollars, or shall be imprisoned in the county jail of Princess Anne county for a period not less than thirty days and not exceeding ninety days, or be subject to both fine and imprisonment, as herein provided. One half of the fine so imposed shall go to the informer; and, moreover, all guns, skiffs, floats, batteries, sink boxes, blinds, or other device used in the commission of the offense shall be sold by order of the county court of Princess Anne county, and the proceeds thereof forfeited to the Commonwealth.

6. Provided, that nothing in this act shall be so construed as to prohibit shooting a duck known as a "peler," or "blue peter," in any way after the first day of February of each year.

7. All acts and parts of acts inconsistent or in conflict with this act are hereby repealed.

8. This act shall be in force on and after its passage.

Chapter 254, approved March 15, 1906.

Be it enacted by the General Assembly of Virginia, That whoever keeps or uses a live pigeon, fowl or other bird for the purpose of a target, or to shoot at either for amusement or a test of skill in marksmanship, or shoot at a bird kept or used as aforesaid, or is a party to such shooting, or let any building, room, field

Chapter 255, Acts 1904, approved March 15, 1904.

Be it enacted, that prior to January, 1909, it shall be unlawful for any person or persons in this State to kill, or to capture, have in possession, buy, sell, or offer for sale except for purpose of propagation, any Mongolian or English Pheasants, or take or destroy the eggs of any of said birds.

The possession of any birds protected by sec. one, except for propagation shall be *prima facie* evidence of violation of this act.

Shall be guilty of a misdemeanor.—Any person found guilty shall be fined not less than 5 nor more than $50 or imprisoned not more than 30 days or may be both fined and imprisoned at the discretion of the justice or jury.

Sections twenty hundred and seventy-five, twenty hundred and seventy-six, twenty hundred and seventy-seven, twenty hundred and eighty-one, and twenty hundred and eighty-two of the Code of Virginia, and an act entitled an act to prevent the extermination of partridges (or quail) in the State of Virginia, approved January twenty-seventh, eighteen hundred and ninety-six, as amended by an act entitled "an act to amend and re-enact sections one and four of an act entitled an act to prevent the extermination of partridges (or quail) in the State of Virginia," approved January twenty-seventh, eighteen hundred and ninety-six, in force since December fifteenth, eighteen hundred and ninety-seven, and all other acts or parts of acts in conflict with the provisions of this chapter as hereby amended and re-enacted are hereby repealed; provided, that nothing in this act shall be construed as repealing a special act, approved March 8, 1902, restricting the shooting of wild water fowl in Back bay and its tributaries in the county of Princess Anne.

This act shall be in force from its passage.

The above act does not repeal local county laws relating to rabbits or hares. From the most accurate information obtainable, the following are the open seasons in the counties named: Accomac, Northampton, Northumberland, November 15th to January 15th; Alexandria, October 1st to January 1st; Amelia, Charlotte, Greenesville, Spotsylvania, Sussex, October 1st to February 1st; Buckingham, Cumberland, October 15th to February 15th; Caroline, Essex, Hanover, Henrico, King William, Albemarle, Mecklenburg, November 1st to February 1st; Chesterfield, September 1st to February 1st; Culpeper, Orange, November 15th to January 15th; Elizabeth City, Norfolk county, November 15th to February 1st; Fairfax, Fauquier, Loudoun, Frederick, Roanoke, November 1st to January 1st; Halifax, October 15th to February 1st; Nottoway, September 1st to January 1st; Shenandoah, November 1st to March 1st; Stafford, September 15th to February 15th; James City, York, November 15th to February 15th; Nansemond, October 15th to March 1st.

Halifax appears to be the only county having a "possum" law; the open season is fixed from October 15th to February 1st.

In the following counties, Mongolian, or imported pheasants are not allowed to be killed: Albemarle, Alleghany, Bath, Bedford, Culpeper, Highland, Louisa, Montgomery, Orange, Rockingham.

Augusta and Rockbridge not until after November 1, 1904.

Partridges are not permitted to be carried out of some of the counties. Page, Rappahannock, Sussex and Henry, have a county non-export law, and there may be others.

UNITED STATES POSTAGE LAWS.

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

First-Class Matter.

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment to printed matter under class three.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents. Nothing must be added or attached to a postal card, except that a printed address slip may be pasted on the address or message side. The addition of anything else subjects the card to letter postage. A card containing any offensive dun or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be conclusively a part of the address and therefore permissible. Cards that have been spoiled in printing or otherwise will be redeemed at 75 per cent. of face value. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each. Cards must not exceed the size of 3½ by 5½ inches or be smaller than 2 15-16x4 15x16 inches in dimensions. Their quality must be substantially that of the government postal cards and weigh about six pounds three ounces to the thousand. Their color may be white, cream, light gray, or light buff. The cards must bear on the address side, in print, the words, "Post Card—Authorized by Act of Congress of May 19, 1898." When prepared for sale they should also bear in the upper right-hand corner of the address side a diagram with the words, "Place a one-cent stamp here;" and in the lower left-hand corner the printed words, "This side is exclusively for the address."

The message on the cards may be in writing or print, and there may also appear on the message side advertisements, illustrations, or other matter, printed either in black or colors. And there must be attached to every card mailed a one-cent adhesive postage stamp. These cards cannot be mailed to foreign countries, except at the letter rate of postage.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. An ordinary ten-cent stamp affixed to a letter will not entitle it to special delivery. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

Prepaid letters will be forwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

Second-Class Matter.

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the buletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Such Christmas, New Years, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery ten-cent stamps are affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

Third-Class Matter.

Mail matter of the third-class includes printed books, pamphlets, engravings circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery stamps are affixed in addition to the regular postage.

Upon matter of the third-class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

Fourth-Class Matter.

Fourth-class matter is all mailable matter not included in the three preceding classes, which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. It embraces merchandise and samples of every description, and coin or specie.

Rate of postage, one cent for each ounce or fraction thereof (except seeds, roots, bulbs, cuttings, scions, and plants, the rate on which is one cent for each two ounces or fraction thereof.) This matter must be fully prepaid, or it will not be forwarded. The affixing of special delivery ten-cent stamps in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, sugar, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad order will not be forwarded in any case.

Firearms may only be sent in detached parts.

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tight-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is not exceeding four ounces, liquid measure.

Limit of weight of fourth-class matter (excepting liquids), four pounds.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering postmaster may also be written asking him to return the package if not delivered.

We Pay Top Prices. Give all Weighing Personal Attention. Prompt Returns.

Registration.

All kinds of postal matter may be registered at the rate of eight cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed $25.00 for any one registered piece or the actual value of the piece if it is less than $25.00—shall be paid for the loss of first-class registered matter.

Domestic Money Orders.

Domestic money orders are issued by money-order postoffices for any amount up to $100, at the following rates:

For sums not exceeding $2.50, 3 cents; over $2.50, to $5, five cents; over $5 to $10, eight cents; over $10 to $20, ten cents; over $20 to $30, twelve cents, over $30 to $40, fifteen cents; over $40 to $50, eighteen cents; over $50 to $60, twenty cents; over $60 to $75, twenty-five cents; over $75 to $100, thirty cents.

Stamped Envelopes.

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1. 1873, but the following mail matter may be sent free by legislative saving clauses, viz:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.
2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.
3. All periodicals sent to subscribers within the county where printed.
4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.
5. The Vice-President, Members and Members-elect, and Delegates and Delegates-elect to Congress may frank any mail matter, not over two ounces in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

For over Fifty Years an Old and Well-Tried Remedy

Picot's Virginia Worm Killer

The Best, Safest and most pleasant remedy for Worms ever discovered CHILDREN CRY FOR IT

Most of the diseases from which children suffer are occasioned by the presence of worms in the body, and if they are neglected they produce great derangement of the system, and give rise to many alarming affections. This valuable and well known preparation is recommended with the greatest confidence—past experience and the test of years having proved it to be one of the best and most reliable vermifuges in use. It has great advantage over most articles of the kind, as it is readily taken by children, being mild and pleasant to the taste; safe, prompt and certain in its effect. Get the genuine, and accept no other. Prepared only by **THE BODEKER DRUG CO., Richmond, Va. Price, 25c.** For sale everywhere. If unable to procure from your local dealer, same will be mailed on receipt of price.

THE LAW IN VIRGINIA IN REGARD TO WILLS.

Who may execute a will? A valid will may be made by any person of sound mind and lawful age (twenty-one years)) except that minors eighteen years of age and upwards, may, by will, dispose of personal estate. A married woman may, since the Act of Assembly of March 7, 1900, dispose of all her property, both real and personal, as if she were unmarried, subject, of course, to the curtesy right of the husband.

How is a will made? No will shall be valid unless it be in writing and signed by the testator, or by some other person in his presence and by his direction, in such manner as to make it manifest that the name is intended as a signature; and, moreover, unless it be wholly written by the testator, the signature shall be made or the will acknowledged by him in the presence of at least two competent witnesses, present at the same time, and such witnesses shall subscribe the will in the presence of the testator.

What are the widow's rights as to dower and jointure? Sec. 2267. A widow shall be endowed of one-third of all the real estate whereof her husband or any other to his use, was, at any time during the coverture, seized of an estate of inheritance, unless her right to such dower shall have been lawfully barred or relinquished.

Sec. 2268. When a husband, or any other to his use shall have been entitled to a right of entry or action in any land, and his widow would be entitled to dower out of the same, if the husband or such other had recovered possession thereof, she shall be entitled to such dower, although there shall have been no recovery of possession.

Sec. 2269. Where land is *bona fide* sold in the lifetime of a husband, to satisfy a lien or encumbrance thereon, created by deed in which the wife has united, or created before the marriage, or otherwise paramount to the wife, she shall have no right to be endowed in the said land. But if a surplus of the proceeds of sale remain after satisfying the said lien or encumbrance, she shall be entitled to dower in said surplus, and a court of equity having jurisdiction of the case may make such order as may seem to it proper to secure her right.

Sec. 2270. If any estate, real or personal, intended to be in lieu of dower, shal be conveyed or devised for the jointure, of the wife, such conveyance or devise shall bar her dower of the real estate, or the residue thereof, and every such provision, by deed or will, shall be taken to be intended in lieu of dower, unless the contrary intention plainly appear in such deed or will, or in some other writing signed by the party making the provision.

When and how may widow waive jointure and demand dower in real estate? Sec 2271. But if such conveyance or devise were before the marriage, without the assent in writing or during the infancy of the *feme*, or if it were after marriage, in either case, the widow may, at her election, waive such jointure and demand her dower. Such election shall be made within one year after the death of her husband, or within one year after the admission of his will to probate where the provision is by will, and shall be made in any court of record in the county or corporation in which the husband resided at the time of his death, or in the clerk's office of which the instrument creating the jointure is recorded, or by writing recorded in such court, or in the clerk's office thereof, upon such acknowledgment of proofs as would authorize a writing to be admitted to record under chapter 111; and when she shall elect and receive her dower, the estate so conveyed or devised to her shall cease and determine.

What interest has the widow in the personal estate of her husband if he dies intestate? If the intestate leave a widow and issue by her, the widow shall be entitled to one-third of the surplus of the personal estate, after the payment of funeral expenses, charges of administration, and debts. Or, if the intestate leave a widow, but no issue by her, the widow shall be entitled absolutely to such of the personal property in the said surplus as shall have been acquired by the intestate in virtue of his marriage with her prior to the fourth day of April, 1877, and remains in kind at his death; she shall also be entitled to one-half of the residue of such surplus if the intestate husband leave no issue by a former marriage, but to one-third only of such residue if he leave such issue.

When and how widow may renounce benefit of will as to personalty? Sec. 2559. When any provision for a wife is made in her husband's will, she may, within one year from the time of the admission of the will to probate, renounce such provi-

sion. Such renunciation shall be made either in person before the court in which the will is recorded, or by a writing recorded in such court, or the clerk's office thereof, upon such acknowledgment or proof as would authorize a writing to be admitted to record under chapter 111. If such renunciation be made, or if no provision for her be made in the will, she shall have such share of her husband's personal estate as she would have had if he had died intestate; otherwise, she shall have no more thereof than is given her by the will.

What interest has the husband in the personal estate of the wife if she dies intestate? If *she* dies intestate, her husband shall be entitled to the whole of the surplus of the personal estate.

How is a will revoked by operation of law? Sec. 2517, Every will made by a man or woman shall be revoked by his or her marriage, except a will made in exercise of a power of appointment, when the estate thereby appointed would not, in default of such appointment, pass to his or her heir, personal representative, or next of kin.

What is the law as to pretermitted children? Sec. 2527. If any person die leaving a child, or his wife with child which shall be born alive, and leaving a will made when such person had no child living, wherein any child he might have is not provided for or mentioned, such will, except so far as it provides for the payment of the debts of the testator, shall be construed as if the devises and bequests therein had been limited to take effect, in the event that the child shall die under the age of twenty-one years, unmarried. and without issue.

Sec. 2528. If a will be made when a testator has a child living, and a child be born afterwards, such after-born child, or any descendant of his, if not provided for by any settlement, and neither provided for nor expressly excluded by the will, but only pretermitted, shall succeed to such portion of the testator's estate as he would have been entitled to if the testator had died intestate; towards raising which portion the devisees and legatees shall, out of what is devised and bequeathed to them, contribute ratably, either in kind or in money, as a court of equity, in the particular case, may deem most proper. But if any such after-born child, or descendant, die under the age of 21 years, unmarried, and without issue, his portion of the estate, or so much thereof as may remain unexpended in his support and education, shall revert to the person to whom it was given by the will.

What is a Codicil? A codicil is a little will; that is, it is a testamentary disposition, generally not revoking the former will, but varying it in some way or making changes in it or additions to it. It must be executed as a will.

FORM OF WILL AND CODICIL.

I, ..., of (*place and occupation*), make this my last will. I give, devise, bequeath my estate and property, real and personal, as follows. that is to say:

Then follow all the provisions and disposition of property which the testator intends, stated fully, plainly, and as accurately as possible. Then follows, first, the appointment of an executor, and then the execution, and finally the declaration of the witnesses, thus:

I appoint....., at....., executor of this my will.

In witness whereof, I have signed this instrument as my will, at (*place*), on (*date*). (*Signature.*)

The foregoing will was this day signed by the said....., and acknowledged by him as his last will, in the presence of us, the undersigned-subscribing witnesses, both of us being present at the same time, and each of us, at the request of the said....., and in his presence, subscribed the said will as subscribing witnesses thereto.

Witness our hands, this.....day of....., ...

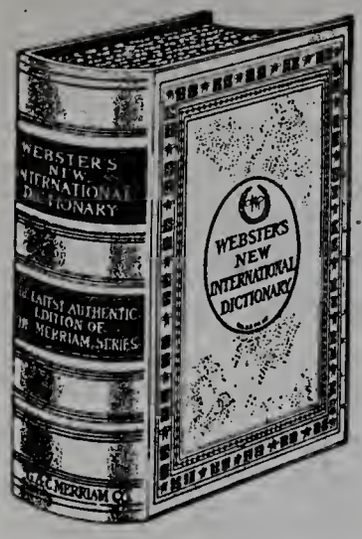

(*Here follow the names of two competent witnesses.*)

A codicil should be written thus:

I,....., of (*place and occupation*), do make this my codicil, hereby confirming my last will made on the (*date of the will*), and all my former codicils (*if there be any*), so far as this codicil is consistent therewith; and do hereby—

Then follows whatever disposition the testator chooses to make, stating and describing it as he would if it were a will, and executing it, and having it attested in the same manner as if it were a will, excepting that, instead of calling it a will wherever that word occurs he says "codicil" instead of "will."

To the Retail Merchants of
Virginia and North Carolina.

Gentlemen:

Is there anything more important to you than to have a reliable house from which to order by mail when the quantity of goods wanted will not justify a trip to market?

We have been in business nearly seventy years. We know what the Southern trade requires. Our reputation is well established. It will pay you to send us a trial order.

can easily be raised with regular, even stands, and of the very best grade, for which the highest prices can be gotten at your warehouse, or from tobacco buyers if you will, a few weeks before planting, liberally use

Virginia-Carolina Fertilizers.

Use them again as a top dressing, or second application. These fertilizers are mixed by capable men, who have been making fertilizers all their lives, and contain phosphoric acid, potash and nitrogen, or ammonia, in their proper proportions to return to your soil the elements of plant-life that have been taken from it by continual cultivation. Accept no substitute.

New Cure For Rupture

New Scientific Appliance, Always a Perfect Fit—Adjustable to Any Size Person—Easy, Comfortable, Never Slips—Costs Less Than Many Common Trusses—Made for Men, Women and Children.

I Send It On Approval—You Wear It—If You Are Not Satisfied, I Refund Your Money.

I have invented a rupture appliance that I can safely say, by thirty years' experience in the rupture business, is the only one that will absolutely hold the rupture and never slip and yet is cool, comfortable, conforms to every movement of the body without chafing or hurting and costs less than many ordinary trusses. I have put the price so low that any person,

C. E. Brooks, the Inventor.

rich or poor, can buy, and I absolutely guarantee it. I make it to your order—send it to you—you wear it, and if it doesn't satisfy you send it back to me and I will refund your money. That is the fairest proposition ever made by a rupture specialist. The banks or any responsible citizen in Marshall will tell you that is the way I do business—always absolutely on the square.

If you have tried most everything else, come to me. Where others fail is where I have my greatest success.

Write me to-day and I will send you my book on Rupture and its Cure showing my appliance and giving you prices and names of people who have tried it and been cured. It is instant relief when all others fail. Remember I use no salves, no harness, no lies. Just a straight business deal at a reasonable price.

C. E. Brooks, 1111 Brooks Bldg., Marshall, Mich.
